President Ashley of the Wabash Railway, in his annual report says: "The so-called 'railway problem' in the United States is no nearer solution than at the close of our last fiscal year. The rates for transportation of freight are not only unreasonably low, but the competition for business even at these very cheap rates is quite as active as ever. The only encouraging feature as to rates is that they have not been much reduced during the year, except so far as a large increase in the volume of lower class freight, which embraces grain, packing house products and coal, has lowered the average. It may be fairly claimed also that rates have been generally very well maintained during the year. This is equivalent to an assertion that competition has been regulated sufficiently to prevent the spread of insanity in business method, but while this is to some extent attributable to the wholesome influence of the Western Traffic Association, it is also due largely to the important increase in the volume of business incidental to abnormally abundant crops."

***

The influence of public schools on real estate values, which has been before commented on by THE JOURNAL, is brought out strongly by the Record and Guide of New York in speaking of the vicinity of Eighth avenue and 116th street in that city, which district is now suffering severely for lack of school facilities. It appears that for a long distance in a thickly settled part of the city there are no school accommodations whatever, so that very many children have been crowded out of the schools, and owners of flat property complain that prospective tenants turn away from their tenements and houses because there is no school in the vicinity to which they can send their children with any assurance that they will be given opportunity for an education. It is only a little while ago that the Board of Education of Chicago was blocked, in the effort to establish a new school house, by the prohibitory price placed on the land by owners from whom it was desired to purchase. The New York experience ought to be a lesson to landlords to encourage in every possible way the establishment of schools in their neighborhood.

***

The Reading Coal Combine has a hard road to travel in nearly every State in the Union. It was recently defeated in New Jersey, and the contest in that State is not at an end yet. The State Board of Assessors are now after the combine with a sharp stick. They are producing evidence before a master in chancery to show what property of the Reading company is subject to assessment in the State. The attempt on the part of the assessors evidently is to roundly assess the combine if possible, and on the part of the combine to get out of paying any taxes at all. In Illinois the chances are that the contest will be a warm one. Suits against the company have already been instituted, and more are to follow, if reports are to be credited.

REAL ESTATE LAW.

The Supreme Judicial Court of Maine, in the case of Hubbard v. Greeley has decided that a deed can not be delivered directly to the grantee himself, or to his agent or attorney, to be held in escrow.

The plaintiff claimed that the deed was delivered as an escrow, and although acknowledged and recorded, never became operative. Upon the proofs in the case, said the court, we do not think such an attack upon the defendants' title is permissible. The proof is that the deed was made and accepted in part payment of a debt owing from the grantors to the grantees, and that it was in fact delivered to one G. C. Bartlette, an attorney at law who had been employed by the grantees to collect the debt; that Bartlette afterward sent the deed by mail to the grantees, and that they caused it to be recorded; and that at the time of the defendant's purchase the deed had been on record for more than eight years, its validity apparently uncontested and unchallenged. And it is admitted that the defendants are innocent purchasers for value, and at the time of their purchase, had no notice of the condition of the title other than that disclosed by the record. Under these circumstances, and for the reasons already given, we think the plaintiff is estopped to deny that the deed was legally delivered. We rest our decision upon the ground that the deed was, in fact, delivered to the grantees' attorney as such, and that such a delivery is equivalent to a delivery to the grantee himself; and that when such a delivery is made it is not competent for the grantor, or those claiming under him by a subsequent conveyance, to show by oral evidence that a condition was annexed to the delivery, for the non-performance of which the deed never became operative. It seems to us that to hold otherwise would render all deeds of little value as evidence of title.

ELECTRIC LIGHT COMPANY NOT EXEMPT FROM MECHANIC'S LIEN.

The Supreme Court of Kansas, in Badger Lumber Co. v. Marion Water Supply Co., has decided that a mechanic's lien will hold against an electric light company, notwithstanding the fact that the company is a quasi public corporation by reason of having a franchise to occupy the streets.

The Badger Lumber company brought this action to recover $227.50, the value of seventy cedar poles sold by the lumber company to the Marion Water Supply, Electric Light and Power company, which were used to support electric light wires and lamps, and were connected with the plant and property of defendant, and the plaintiff asked to have the defendant's property and its appurtenances charged with a lien for the same.

The cause was submitted to the court without a jury, upon the following agreed facts:

"It is agreed that the defendant has erected a system of water works and electric light plant and machinery necessary to operate the same on the real estate described in plaintiff's petition, and has put in the proper machinery for furnishing electric light for the city of Marion and has a franchise from the city to use the streets of the city for the erection of poles and stretching electric light wires thereon through the city, and that the defendant erected its poles and stretched its electric wires on the same over different portions of the city: that the plaintiff furnished poles for stretching the wires for the electric light, and that the defendant used the same in the streets of Marion, and stretched its electric wires upon the same, and hung its lamps thereon, and operated and used the same for the purpose of furnishing electric light for different portions of the city; that none of the material furnished by the plaintiff was actually placed upon the grounds mentioned in plaintiff's petition, but that the poles so furnished were all used in the streets of the city of Marion, and were connected with the electric light machinery and water works on defendant's premises by electric light wires used by the defendant for the transmission of electricity from its premises through the city; that the machinery of the electric light and water works is all located on the same premises, in the same building, and run by the same engine, but the dynamo for generating electricity, and its machinery, is so constructed and arranged that it can be used separate and apart from the water works machinery, and that either the water works or the electric light plant can be operated separately and independently from each other, and have a franchise from the city to lay mains and pipes in the streets of the city, and are operating said system of water works, and furnishing the inhabitants of said city with water by means of said system of water works." The court awarded plaintiff a personal judgment against the defendant for the amount claimed, but refused to enforce a lien upon the real estate and appurtenances of the defendant, for the reason "that no part of the material for which plaintiff claims a lien was on the real estate of the defendant, or attached thereto in any manner except by the wires stretched from the poles of the defendant's electric light machinery situated on the said estate."

On this statement of facts all the justices of the Supreme Court concurred in reversing and remanding the judgment of the District Court, with instructions to enter judgment for the plaintiff.

CHARACTER OF A DEVISE OF LANDS LOCATED IN ANOTHER STATE.

In the Supreme Court of New York, on appeal to general term, an important question of the construction of wills was considered. The court, Barrett J., there held, that the proceeds of lands in another state, sold under a power of the will and brought into the state, and not reinvested, retained the character of realty and as to testamentary disposition were governed by the law of the state in which the land had been situated. It was further held, in the same case, that a devise or bequest in trust for such charitable uses as the majority of the trustee and executors may select and appoint is void because of indefiniteness of the beneficiaries, and that a provision in a will that the executors and trustees shall apply a share of the income of a trust fund for the use of any and all of the testator's heirs whom they may deem worthy of and entitled to receive the same, is also void for indefiniteness. Butler v. Green.

A DECISION OF IMPORTANCE TO BUILDING AND LOAN SOCIETIES.

Supreme Court of Arkansas; Reeve v. Ladies' Building Association. The rate of interest to be paid on a building association loan in the usual form is necessarily uncertain and contingent on future events and for that reason the principles of usury are not applicable to loans of this character, and where a loan is made by a building and loan association on a pledge of its own shares, the statutory rule for computing interest on partial payments has no application to the monthly dues paid on the shares so pledged, and such payments do not bear interest or in any way reduce the amount on which interest is to be paid. Hughes, J, says:

This was a bill filed in Pulaski Chancery Court by appellant against appellee to cancel two mortgages given by appellant, on one block 152, city of Little Rock, to secure payment of dues, etc, on $1,200 of stock, and the other on lots 10, 11 and 12, block 65, city of Little Rock, given by appellant, to secure payment of dues, etc., on $7,000 of stock in appellee's association, on the alleged ground that the transactions were usurious loans, and asking judgment over against said association for all sums paid in on said transactions.

Are these contracts usurious? We do not deem it necessary to the determination of this question to decide whether these transactions were sales or redemptions of the shares of the appellant, or transactions in partnership funds, as they are held to be in many of the decisions of the court of last resort. The evidence shows that in each of these transactions there were two separate contracts:

First. The taking of shares in the association by the appellant, and the contract to pay for the shares monthly, as stipulated.

Second. The sale or transfer of the shares to the association, in consideration of the advance to the appellant of the value of his shares, in anticipation of their par value, at the time when all the shares of all the members should be at par, by reason of the accumulations of the association. When this may be is uncertain, as it must depend upon the prosperity of the association. Whenever these shares are at par, the borrowing member ceases to make his monthly payment of dues and interest on the advance made to him. What rate of interest he must pay is uncertain, and can not be known until the final calculation can be made. The amount he may pay the association may be far less, or it may be more than the sum he receives, with interest thereon at the rate of 10 per cent per annum. There is, then, in the transaction, an element of uncertainty and hazard that seems to exclude the idea of a loan of money at a usurious rate of interest.

The testimony in this case shows that if the appellant had kept his contract the interest he would have paid on the moneys he received from the association would have been in one of the transactions 7 3-16 per cent per annum and in the other 4 1-8 per cent. It is contended by the counsel for appellant that the statutory rule for computing interest, where partial payments are made, is applicable to these transactions and that the payments of monthly dues should bear interest, or cause interest to cease upon the principal from the time they are made, to the extent that they reduce the principal. But the member nowhere reserves the right to charge the association interest on his stock payments. He has no claim as a member to such interest, and it can not be assumed that by incurring the additional obligations toward the association involved in the grant of an advancement his previous rights in respect to it have become enlarged. He continues liable on his original undertaking.

A borrower's claim to have these items taken into account, and to be given credit therefor at any intermediate stage, "has no foundation in law or equity." "It must be remembered in the first place, a member, and only in the second place a borrower. In the former capacity he has no right to an account of profits except upon the termination of the scheme" "As for interest upon his several stock payments, his contract with the building association, upon acceding to it never contemplated such a thing. No such stipulation, expressed or implied, ever entered into the bargain. All he was entitled to, all he reserved to himself the right to claim, was a share of the profits of the building association's dealings with the whole fund of subscriptions;" End. Bldg. Ass'n, 456. Where the contract, however, is for a mere loan of money upon which a rate of interest greater than that allowed by law is exacted, no device, shift, or cloak, whatever its form, or how specious soever it may be, can protect it from the taint of usury.

Granary capacity 5000 bu, good well, 1¾ miles from village and R R station. A very desirable farm in excellent location. Price $7,500. Terms $1,500, cash bal real estate. M 1.

170 acres good wheat farm on James River, 100 acres in cultivation, good pasture, house and stable, well, land of superior quality ¾ miles from Post-office, 1¾ miles from school house, six miles from county seat. Price $3,500. Terms $1,000, cash bal real estate. M 1.

160 acres good wheat land, 100 cultivated, all capable of cultivation, small house, four miles from R R station by section lines, one mile to Post-office, two miles to school house. Price $1,600. Terms $600, cash bal real estate. M 1.

For Sale: Hinsdale finely improved homes with one to ten acres of ground. Best of conveniences. Visit before deciding upon location. Ground high and quite rolling. Beautiful country for driving. H. 1.

For sale or exchange 160 acres of choice Kansas land and city lots for flat or residence not heavily incumbered. $4,000 to $6,000. H. 1.

PLANS BY ARCHITECTS.

Architect Charles S. Frost has let contracts for a residence and barn to be built by Henry A. Blair at 2735 Prairie avenue. The exterior will be of Roman shaped mottled brick, with Bedford stone trimmings, and will have superior interior finish. It will cost $45,000. He has also planned a modern residence and barn to be built on Michigan avenue, near Twenty-second street, for J. Bennett Walker. It will have stone front, hardwood finish and will cost $35,000. Also for a residence at Lexington avenue and Fifty-eighth street for J. Lawrence Laughlin, to be of pressed brick and stone front and to cost $20,000, and a new passenger depot at Rookford, Ill., to be built for the Northwestern road at a cost of $25,000.

Architect John H. Wagner has designed for Gilbert E. Porter a four-story store and flat building to be built on the northeast corner of Fifty-fifth street and Lexington avenue. It will have a frontage of 115 feet on the street and sixty-seven feet on the avenue and will cost $50,000. The front will be of pressed brick with stone and terra cotta trimmings and the interior finish will be in oak, with steam heat and electric light. The building will contain six stores and eighteen flats. For T. B. Jeffrey he has planned a two-story attic and basement residence to be built at Ravenswood. It will be of frame and stone, the interior being finished in hardwood and heated by hot water; cost, $14,000 Mr. Wagner has planned for the Calumet Gas Company a boiler house, 50x60, and also foundations for the new equipment; cost $15,000.

Architects Wilson & Marble have designed a four-story apartment house for H. H. Fuller, to be built on the east side of Michigan boulevard, near Thirty-second street. Its ground dimensions will be 25 by 100 feet, and it will have all conveniences, including hot water heating. The building will contain four flats and will cost $25,000. For Mrs. C. S. Field they have designed a three-story flat building, 22x60, to be erected on Woodlawn avenue, near Sixty-third street. Pressed brick and stone construction; cost, $10,000.

Architects Holabird & Roche have completed plans for a four-story apartment house, 100x115, to be erected at the northwest corner of Cottage Grove avenue and Fortieth street by Charles H. Lawrence and O. R. Glover. It will be constructed of rain-washed New Jersey brick, stone and terra-cotta, and will be heated by steam and lighted by electricity; cost, $100,000.

Architect J. M. Van Osdel has designed for Francis W. Parker a four-story apartment house, 130x100, to be erected at the southeast corner of Calumet avenue and Forty-seventh street. It will be constructed of pressed brick of a light color and will be trimmed with cut stone trimmings. The interior will be beautifully finished in hardwood and heated by hot water; cost, $100,000.

Architects Morrison & Foster have designed for O. F. D. Patterson a four-story apartment house, 100x126, to be erected at the southeast corner of Calumet avenue and Forty-third street. It will be constructed of Bedford stone in the first story, with pressed brick and terra cotta above. The interior will be finished in hardwood, heated by steam and lighted by electricity; cost, $75,000.

Architects Pond & Pond have designed for Franklin C. Orton, a four-story apartment house, 112½x164½, to be erected at the corner of Fifty fifth street and Lexington avenue. Pressed brick, stone and terra cotta construction, with interior in hardwood and heated by steam; cost, $90,000. They have also planned for the Post-Graduate Medical school a five-story building, 53x99, to be erected on Harrison street, near Honore, and just oppsite the Cook County Hospital. It will be of pressed brick and terra cotta, heated by steam and supplied with two passenger elevators; cost, $34,000.

Architect J. H. Moore has designed a two-story addition and a rear extension to the Chicago Polytechnic on East Chicago avenue, near Wells street. The building will also be equipped with the mostapproved appliances for hospital work; cost, $20,000. Mr. Moore has also designed for the North Congregational Church at Englewood a new edifice, 55x90, to be erected at the northwest corner of Fifty-ninth and La Salle streets. It will be constructed of pressed brick and sandstone; cost, $14,000.

Architect S. S. Beman has prepared drawings for a five-story ware house to be erected on the southwest corner of Twentieth and Blackwell streets for N. K. Fairbank & Co. It will have ground dimensions of 73 by 100 feet and will have a pressed brick exterior with stone trimmings. The building will be of mill construction and will cost about $100,000. It will be heated by steam, will have electric light and freight elevators. The same architect has also designed an attractive club house to be erected on the corner of Grand boulevard and Forty-second street by the Lakeside club. The exterior will be of pressed brick with stone trimmings. The interior finish will be in selected hardwoods and the building will be supplied with all the latest modern improvements. It will be five stories high and will cost $100,000.

Architect Charles F. Whittlesey has designed an attractive residence to be built by F. B. Earl, of Earl Bros., at the southwest corner of St. Louis avenue and Monroe street. The house will be built of Bedford stone and will be two stories high. Its extreme width will be about sixty feet and its depth eighty feet. The front will be very attractive and the house will be surmounted with a steep slate roof. The interior finish will be in selected hardwoods and the building will be supplied with every modern convenience, including electric light, hot and cold water, steam heat, etc. A covered carriage way is also provided for. The residence will cost about $25,000.

Architect Robert Rae, Jr., has drawings on the boards for a four-story apartment house to be built for W. A. Cooper, at the corner of Woodlawn avenue and Fifty-fifth street. It will have a street frontage of 125 feet and will be 100 feet deep. The Fifty-fifth street frontage will be divided into six stores and the upper floors will have about twenty apartments. The vestibule will have marble paneling and tile floors. The building will cost $80,000. The same architect is also letting plans for a four-story flat building, 50x76 feet, to be built at Sheridan avenue and Sixtieth street for F. J. Trumbull. It will have stone front and will cost $36,000. Also for an apartment house in Woodlawn for A. J. Mason to cost $30,000; an apartment house at Fifty-third street and Lake avenue for F. Berry to cost $30,000; and three residences at Winnetka to be built for W. H. Cairnduff at a cost of $6,000 each.

Architect DeWitt T. Kennard has planned for C. E. Dorn & Co. a four-story stone front apartment house to be erected on Sixty-second street, near Stony Island avenue. It will be fire-proof, and will be used during the World's Fair for a hotel; cost, $20,000.

Architects J. F. and J. P. Doerr have planned for George C. Moges six two story and basement houses, 100x75, to be erected on Champlain avenue, between Forty-ninth and Fiftieth streets. They will be constructed of stone, with hardwood interiors and will be heated by furnaces; cost, $30,000. They have also designed a two story flat building, 25x65, to be erected on Indiana avenue near Fifty-first street; cost, $7,000.

Architect H. B. Wheelock has designed for a syndicate a four-story store and office building, 84x80, to be erected at Decatur, Ill. It will be constructed of brick, stone and terra cotta, and will cost $25,000.

Architect F. B. Townsend has planned an additional story to be put on the five-story building at the southeast corner of Market and Jackson streets by McNeill Bros. It will be 100x175, and will be constructed of pressed brick; cost, $15,000.

Architect Julius Wegman has designed for J. Bodenmann a four-story flat building to be erected at the southeast corner of Ohio and Osborn streets. It will be constructed of pressed brick and stone; cost, $20,000.

Architects Ostling Bros. have completed plans for a four-story flat building, 25x58, to be erected on Reta street, between Cornelia and Addison streets, by W. Anderson. It will be of pressed brick and stone, and will cost $8,000. For E. P. Alfred they have designed a two-story frame flat building, 21x44, to be built on Hemdon street, near Roscoe; cost, $2,500.

Architect C. M. Palmer has designed for Alonzo Clark two three-story and basement houses, 50x60, to be erected on Fifty-third street, near Cornell avenue. They will be of Bedford stone, and will be finished in hardwood and heated by hot water. For Herman Rosenthal he has designed a three-story and basement residence, 25x70, to be erected at 332 Ashland avenue. It will be of Bedford stone with hardwood interior and will be heated by hot water; cost, $12,000.

Architects Lamson & Newman have completed plans for a two-story, basement and attic residence for T. B. Shields to be built on Adams street, west of Homan avenue; cost, $8,000. For J. B. Robinson a $20,000 residence on Grand boulevard, near Forty-third street. For P. Detamble a four-story apartment house at 4830 Washington avenue; cost, $38,000.

EPITOME OF NEW INDUSTRIES.

ALABAMA.

Greenville—Mr. Perdue has been awarded contract for the $14,000 school building.—Guntersville—The Guntersville Cotton Warehouse Co. is erecting a storage warehouse 66x105 feet.—New Decatur—The plans of W. Chamberlin & Co., of Knoxville, Tenn., have been adopted for the new courthouse. It is to be a two story brick and stone building 115x72 feet, have a tower with clock and bell and cost $37,500.—Sycamore—J H Clardy & Son have contract for a cotton warehouse 225x72 feet for D. L. and J. A. Lewis.—Tecumseh—Dade Sams, of Atlanta, Ga., is reported as to build a three-story brick hotel on Signal mountain to cost $50,000.

ARKANSAS.

Hot Springs—Clark & Johnson, of Little Rock, have contract for building the $30,000 bathhouse for Rix & Barnes. Thomas Harding, of Little Rock, prepared the plans.—Jonesboro—J. W. McBreed and John Kew have contract for erecting the building lately mentioned for the Jonesboro Normal School Co.—Little Rock—Herman Kahn will, it is stated, erect a business block.

DISTRICT OF COLUMBIA.

Washington—William H. Miller, of Ithaca, N. Y., has prepared plans for a three-story brick and stone residence 46x53 feet for Justice H. D. Brown. It is to have steam heat, electric lights, etc, and cost about $15,000.

FLORIDA.

Fernandina—Architect Naeff has prepared plans for a three-story hotel 200 feet long with two wings to be built on Amelia Beach. The estimated cost is $35,000.

GEORGIA.

Atlanta—A spire about 200 feet high, to cost about $5,000 and to contain a set of chimes, will be built at St. Philip's Church.—Atlanta—G. L. Normann is architect of the four-story brick and stone building for the Southern Bell Telephone Co.—Augusta—Lewis Goodrich will prepare plans for a four-story business building for Mr. Craig. Leroy Miller will also erect a four story building.—Catoosa Springs—The building of a large sanitarium is contemplated. Burton, Penfield & Co., of Chattanooga, Tenn., can give particulars.—Macon—The Macon Hardware Co. will erect a two-story brick building 50x210 feet.—Milledgeville—The jail lately mentioned will be built by Baldwin county at a cost af $3,000 or $9,000. D. B. Sanford will receive bids until October 25.—Rome—A school building will probably be erected at Forestville. F. W. Quarles can give particulars.—Way Cross—V. W. Sharpe will receive bids for the erection of the city hall building.

KENTUCKY.

Blue Lick Springs—E. T. Calvert, of Louisville, has purchased the Springs property and intends building a hotel. —Hopkinsville—The Baptists have adopted plans for the $20,000 church recently mentioned. It is to be white limestone structure, with red sandstone trimmings, and be 80x130 feet. The spire will have an altitude of 128 feet.—Hopkinsville—The colored Baptists will build an $8,000 brick and stone church.—Louisville—The stockholders of the Louisville & Nashville Railroad Co. will likely provide funds for the erection of an office building for the company at their meeting to be held on October 15.—North Middletown—A company has been formed to build a college. W. S. Jones can give particulars.

LOUISIANA.

New Orleans—The Olympic Club contemplates building a hotel. Frank Williams can give particulars.—Shreveport —E. M. Smith, agent, has awarded contract to H. Boetz for the erection of three brick business buildings for the Buckner heirs.

(Continued on page 1270.)

Continued from page 1267.

MARYLAND.

Baltimore—Benjamin B. Owens has prepared plans for an edifice 56x95 feet for the Harlem Park Methodist Episcopal Church.—Baltimore—The congregation of the North Baltimore Reformed Church will build an edifice.—Brownsville—The Baptists will build a church.—Catonsville—The erection of a two-story club building 56x47 feet for the Catonsville Casino Club is contemplated. G. W. Lurman can give particulars.—Ocean City—The Tinepuxent Beach Co. intends building a wing to the Atlantic Hotel next season.—Salisbury—H. S. Brewington, of Baltimore, will erect a block to contain bank office, opera-house and three stores.

NORTH CAROLINA.

Charlotte—The Catholics may build a $50,000 edifice.

SOUTH CAROLINA.

Clover—The Baptists have awarded contract to a Mr. Fisher for the erection of a church. The Associate Reformed Presbyterians contemplate building an edifice.—Harris Springs—Another hotel may be built. J. T. Harris can give information.

TENNESSEE.

Bristol—Crosswell & Thomas have contract for the three-story brick and stone building to be erected for the Bristol Title, Bank & Trust Co. It will cost about $15,000.—Meade—The Christians will build a church.

TEXAS.

Marshall—The Baptists have awarded contracts for building a brick church. It will cost about $8,000.

VIRGINIA.

Fincastle—The Baptists have awarded contract for building their church to J. J. Lankford, of Salem. Wills n & Huggins, of Roanoke, are the architects.—Portsmouth—W. J. Brent is to secure contract at $19,900 for building the market house lately noted. Carpenter & Peebles prepared the plans.—Staunton—The erection of a market house is contemplated.—Suffolk—It is contemplated to erect an $8,000 school building. Lee Britt can be addressed.—Suffolk—The Episcopalians will build a church.

WEST VIRGINIA.

Ennis—The Turkey Gap Coal & Coke Co is erecting a hotel —Huntington—Thomas U. Walter has prepared plans for the four-story brick and stone building 48x140 feet for the Y. M. C. A. It will have hydraulic passenger elevator, electric lights, steam heating, etc. The estimated cost is $5,000.

STREET IMPROVEMENTS.

ORDERED AND APPROVED BY THE COUNCIL.

NOTE—Abbreviations signify: c, curbing; g, grading; m. macadamizing; p, paving; f, filling; w. s., water service; swk, sidewalk; lp, lamp-posts.

THE NICARAGUA CANAL PROJECT.

AN ADDRESS TO THE PEOPLE OF THE UNITED STATES BY THE COMMITTEE OF THE NATIONAL NICARAGUA CANAL CONVENTION — REASONS WHY THE ENTERPRISE SHOULD BE CONCENTRATED IN THE UNITED STATES.

The committee appointed by the National Nicaragua Canal Convention at its meeting in St. Louis, June 2 and 3, to prepare an address to the American people giving information as to the feasibility of the Nicaragua canal and its commercial and other advantages to the United States, has just finished the preparation of such address. The committee is composed of John S. Jones, of Arkansas; ex-Congressman Converse, of Ohio; R. W. Millsap, the prominent banker of Mississippi; Capt. J. F. Merry, of Manchester, Iowa; S. H. Hawkins, the railroad president, of Georgia; Capt. Ambrose Snow, president of the New York Board of Trade and Transportation, and ex-Gov. John S. Pillsbury, of Minnesota.

The address says that a canal, joining the Atlantic and Pacific oceans, should be constructed for the most important commercial, strategic and patriotic reasons, and say that the subject of such a canal is the most vital connected with the welfare, growth and prosperity of the United States. It declares that the only feasible route for such a canal is by way of Nicaragua, and points out that the conventions of the two great political parties have endorsed the project.

It appears that all the engineers have agreed in expressing a decided preference for the Nicaragua route, because, among other reasons, only 26¾ miles of the entire distance of 169½ miles from the Atlantic to the Pacific ocean through Nicaragua will have to be excavated. The other 142¾ miles consist of Lake Nicaragua, the San Juan river and depressions in the surface of the earth. Lake Nicaragua will constitute a harbor sufficient to accommodate the navies and commerce of the world. It is 110 miles long, 60 miles wide and is 250 feet at its deepest points. Vessels entering the canal from the Atlantic ocean will sail on a level with the ocean for 12¾ miles, at the end of which they will be raised by three locks to the level of the lake. They will sail along the San Juan river and the lake on the lake level to a point within three and one half miles of the Pacific ocean. Here they will be lowered by the locks to the level of the Pacific ocean.

The committee says the cost, including the payment of interest during the progress of the work, will be less than $100,000,000, and the time required for the completion of the work is within five years. The climate of Nicaragua is healthy, and out of 1,600 northern men employed in constructing a railroad through a swamp only two died during a period of four months. Of 200 northern engineers and skilled mechanics who have worked for the canal company for three years not one has died from a disease incident to the country.

The wheat crop of the Pacific coast in 1891 was over 1,800,000 tons and eighty percent of the wheat exported by sailing vessels and a large proportion of it passed around the Horn. The Nicaragua Canal by shortening the route to Atlantic ports would not only save the producer cost of freight but the revenue of the canal at $2 per ton toll would be nearly $3,000,000 on wheat alone. It is shown that there are 500,000,000 thousand feet of merchantable timber in Washington and Oregon to the value of which over $2 per thousand feet would be added by cheap water transportation via the Nicaragua Canal. The gross addition to the value would amount to the enormous sum of $1,000,000,000, even at this low estimate of $2 additional. The fruit industry of California would quadruple in two years from the opening of the canal for business and the fast refrigerator steamers would deliver fruit from California to New York in ten days, to Liverpool in fourteen days, and to New Orleans in eight days. The mountains of the Pacific coast are rich in lead, copper, silver and gold, while the plateaux and valleys afford a cereal belt with a soil more durable, and more favorable seasons for seeding and harvesting than any part of the world, and the committee thinks the completion of the Nicaragua Canal is only needed to develop that country to production of gigantic proportions and double the population of the Pacific Coast in a few years. The cotton growing sections of the gulf states have undergone a depression, and the committee believes that nothing could be of greater immediate advantage than the canal in relieving that depression, and making a market for American cotton in Japan, China and Corea, where already the people are beginning to manufacture cotton goods by machinery. Japan imported over 7,000,000 pounds of American cotton in 1891, most of which was shipped from New Orleans to New York and then by rail to Vancouver and steamship to Japan.

At present the coal trade of South America and the Pacific coast is monopolized by the English. The committee thinks that if the Nicaragua Canal were opened the Alabama and West Virginia coal would have a decided advantage over English competitors, not to mention the enormous amounts of of coal the canal company itself would use. At the entrance of the Suez canal last year 1,500,000 tons of coal were sold. In competition with England for Pacific Ocean trade the Nicaragua Canal would give American commerce an advantage of 2,700 miles, while besides the specific benefits the committee thinks great general benefits will accrue to the entire Mississippi Valley, the lake ports, and the Atlantic coast. Ship building and the shipping interests in New England will receive a new impetus. A new coasting trade will spring up and American tonnage on the high seas will largely increase.

The committee says that great trans-Atlantic powers are looking with covetous eyes toward the Nicaragua project and that foreign governments would very cheerfully and eagerly embrace an opportunity to take advantage of the enterprise with unlimited capital and prompt energy, but it conceives it to be the patriotic and political privilege of the United States to complete the canal. The commercial and naval supremacy of the nation which might secure control of the canal demands imperatively that its control should not pass away from the people of the United States. It is made plain that two fleets would be required to block an American fleet in Nicaragua where one would be necessary elsewhere. As a foothold from which to attack or defend, to threaten or protect all the coasts, islands and adjacent seas, it is a more commanding power than Gibralter.

Among the beneficial results foreseen are a more practical drawing together of the remote parts of the vast domain of the world and a firmer cohesion of the widely-separated sections of the United States added to a stronger feeling of neighborhood and community between the Atlantic and Pacific seaboards. The consummation of the work, whose feasibility has already been demonstrated, is asserted to be of far greater importance to the Western hemisphere than the Suez Canal is to the Eastern. It is said that no precedent can be cited upon which to predict the future of American commerce when the gateway of the Inter-Oceanic Canal across Nicaragua shall be open to it.

All surveys and examination of strata requiring removal have been completed. The jetty has been constructed and the harbor of Greytown has been restored so that vessels of 14-feet draft have an easy entrance. Extensive wharves, landing places and permanent buildings have been constructed, temporary camps erected, a telegraph line made, the canal cleared of timber for twenty miles, and a railroad twelve miles in length constructed and equipped. The biggest dredging plant in America, that formerly used at Panama, has been purchased, and over a mile of the canal has been dredged. The exclusive franchise for the steam navigation of the San Juan river and Lake Nicaragua and an extensive plant for the Navigation Company have been acquired. The Government of Nicaragua has acknowledged that the company has complied with the canal grant, which provided that $2,000,000 must be expended the first year. It is shown that the amount of money spent to date on the enterprise is over $6,000,000. The enterprise is endorsed by the leading business men of the country, and that it will be judiciously and economically managed is assured by the character

of the board of directors, who, by the charter of the company, are accountable to the Government of the United States. The Secretary of the Interior has the power to make public all the details of the corporate management, thus protecting the investor against misuse of his money.

THE

CHICAGO,
MILWAUKEE
AND ST. PAUL

RAILWAY CO.

Owns and operates 5,650 miles of thoroughly equipped road in Illinois, Wisconsin, Iowa, Missouri, Minnesota and Dakota.

It is the Best Direct Route between all principal points in the Northwest, Southwest and Far West.

The Marvel of the Musical World.

$30 worth of CHOICE MUSIC for $1.50.

The New York Musical Echo is quite a novelty in modern journalism, and affords a grand opportunity to musicians and music-loving people. It is a large quarto musical publication, published monthly, each number containing 24 full size pages of sheet music, the brightest, liviest and most popular selections of the day, both vocal and instrumental, together with a pretty cover, on which is a full page portrait of some beautiful actress for singer. The music and portrait changed with each issue.

A Year's Subscription to the New York Musical Echo is $1.50 (sample copies 15c.) and means 288 full size pages of sheet music and twelve fine portraits, making when bound one of the handsomest portfolios of the newest and nicest music ever published. We want our friends to be careful of each number as duplicate copies may soon be a thing of the past. Don't lose any of the pretty music we are publishing, so start from the December number. The American News Co., or any of the News Agencies will supply you, or order direct of us

GENERAL OFFICES:

160-172 Adams Street, CHICAGO.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same.

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,

Industrial Commissioner,

C, M. & St. Paul R'y, 160 Adams St., Chicago, Ill.

FRANKLIN PARK 90 feet above Lake Michigan. "EXCELSIOR" Is Its Motto.

What a Word of Significance in these simple Figures for the safe Guidance of the prudent Man who, in locating a Home for his Family, would put high above all minor Considerations,

The Priceless Boon of Health.

FRANKLIN PARK is the Growth of less than two Years. It is the suburban Terminus of the Chicago & Northern Pacific R. R., and is situated at the Intersection of the Wisconsin Central R. R. with the Chicago, Milwaukee & St. Paul R. R. It is 90 feet above Lake Michigan, 11 miles from the City's centre, 2 1-2 miles west of the City limits and is accommodated by 54 passenger trains daily. It has the two finest suburban depots west of the City, costing over $5,000 each, a spacious hotel, a fine block of stores, scores of attractive residences, miles of side-walk, sewers and shade trees and an abundance of wholesome water.

On its western border is MANHEIM, the nucleus of extensive manufacturing concerns and destined to be a busy centre of diversified industries.

You are Welcome any Sunday or any Weekday, to a free Ticket for the Inspection of this,

The Highest Suburb of Chicago.

CHICAGO HEIGHTS!

THE GREAT MANUFACTURING AND BUSINESS CENTER.

Business and Residence Property For Sale at Extremely Low Prices and on Easy Terms.

DOLESE & SHEPARD, 162 Washington Street, Chicago,

HAVE BEEN AWARDED A CONTRACT AMOUNTING TO

ONE HUNDRED AND SEVENTY THOUSAND DOLLARS

($170,000) for the purpose of macadamizing 17 miles of streets and building stone sidewalks.

NO ASSESSMENT will be made for the improvements, the Association assuming the entire expense. The wise and prudent people who invest a small amount of money in CHICAGO HEIGHTS property will in a comparatively short time reap large benefits. No sane person can question the wisdom of making an investment in Chicago property.

Four large factories are in full operation and contracts closed with several others. A large number of residences and business houses in course of construction, also an extensive factory building for Roth & Englehardt, Piano Manufacturers of New York.

STABILITY OF THE ENTERPRISE

The following well-known gentlemen are among the promoters of Chicago Heights:

BUSINESS OF THE WEEK.

GENERAL CONDITIONS FAVORABLE TO A STRONG FINANCIAL SITUATION—THE EXPECTED STRINGENCY IN THE MONEY MARKET IS AVERTED —MERCHANDISE MOVING BRISKLY —CROPS NOW SECURE.

All the indications of the week point to a continual strengthening of the financial situation. No serious drawbacks have been encountered, and the existing conditions have been favorable to substantial prosperity in every department of trade and finance. The uncertainty of the crop prospects and the other disturbing influences which bore heavily on the markets a few weeks ago have almost entirely disappeared. The political campaign, which was expected to exert an adverse influence on business in general, has now assumed such a character as to be rather reassuring than otherwise. Both candidates for the presidency are men who have held the office before and have merited the confidence of the people. Neither of the two great political parties has assumed a radical policy of change in any important particular. For a time it was thought that the Democratic party was unequivocally committed to free trade, and that the success of that party meant an entire change in the protective policy of the Government. Mr. Cleveland's letter of acceptance, however, has made it clear that this is an erroneous impression and that the party he represents are merely tariff reformers, and not absolute free traders. With this understanding of the situation there is no ground for serious apprehension among the industries which are dependent on the present tariff. The same conditions hold in reference to the leading lines of policy of both parties. No revolutionary measures are proposed by either of them—which fact accounts for the general feeling of financial security which is noticeable to an unusual degree on the eve of a great national contest at the polls.

The same tranquilizing influence is felt from the decline of the silver agitation which threatened such mischievous results a few months ago, and also from the gradual subsidence of the recent cholera scare. The agricultural situation, too, is now almost a known factor. The season has been so favorable and is so far advanced that bad weather cannot now materially change the crop estimates. That this is one of the most important features of the present situation is evident.

An unexpected strengthening of the money market early in the week gave rise to the erroneous impression that a stringency was inevitable, but later developments proved that there are ample funds for all purposes. The drain of our gold to Europe has ceased at least temporarily. The Treasury reserves have been strengthened and the general confidence has been increased thereby. Incidentally, the silver agitation has been given a backset by this improvement in the gold situation. The real strength of the gold reserve of the country is further indicated by the statement that there is plenty of gold in Chicago and other sub treasury centres which the bankers would gladly exchange for small bills if the Treasury officials would furnish them. The fact is that the gold reserve of the Treasury has increased since August by $10,557,515.

The stock market is the barometer of the money situation, and this has been clearly indicated this week on Wall street. Increased confidence in the general financial condition of the country always results in renewed firmness in stocks, and this week is no exception to the rule. While stocks have not been especially active they have been normal and firm, which is perhaps better than an unnatural activity.

The brisk movement of merchandise at western trade centres still continues. Clearing-house returns indicate a much greater volume of trade at the leading centres this week than last week, which was then considered the flood tide of the fall trade. Whether the movement will increase is uncertain, but it is thought that the present figures are about at the highest point. Retail merchants have taken fresh courage from the fact that the crop prospects are now practically settled and that favorable weather conditions have ensured prosperity to farmers in every direction. The corn crop, which for weeks has been the object of much solicitude, is now reported to be in secure condition. Estimates of its quantity and quality are approaching something like accuracy.

ANALYSIS OF BANK CLEARINGS.

The following are the bank clearings of 70 leading cities for the week ending Sept. 29, 1892, as compared with those of the corresponding week last year, with percentages of increase and decrease.

CITY.	WEEK ENDING SEPT. 29, 1892.	WEEK ENDING OCT. 3, 1891.	PER-CENTAGES.
New York	$ 594,555,530	$ 821,947,035	Dec 27.6

Chicago and St. Louis are the most prominent cities of the table showing increases this week. At Chicago trade in all lines is exceptionally active. This is true of staple articles in particular, and in many lines, as building materials, for instance, prices are advancing. Iron for architectural purposes is in demand, and pig iron is active. At St. Louis a similar activity is noticed though greatly less than that at Chicago and some other western cities. Omaha shows a remarkable increase this week over the week last year (50 1 percent) and the trade reports confirm this record of the week as one of exceptional activity. Other western cities, as Cincinnati, Louisville, Kansas City, St. Joseph, Topeka, Peoria, Sioux City, Des Moines, Lincoln, Denver and Salt Lake City, show handsome increases. Actual trade reports from these centres are favorable, thus bearing witness to the accuracy of the table. In the northwest there is a fair volume of trade and good prospects. The warm weather has been unfavorable to a large jobbing trade, yet wholesalers report the inquiry fairly active. In the south there is a better feeling than has prevailed for a long time. Crop prospects there are good, and retail merchants are sanguine of a large fall trade. The sugar harvest is now about beginning. On the Pacific coast no great change is discernible. Business there on the whole is no better than it has been of late. The only eastern cities returning increases are Baltimore Pittsburgh, Washington, Springfield and Syracuse. The general report from the east is of decreased business and falling prices. This is seen especially in the returns from New York, which show a decrease of 27 6 percent as compared with the same week last year. The total clearings from New York City average about three-fifths of the total of all the cities of the table. An investigation during a period of over a year shows that this proportion will not vary materially except in weeks of unusual financial disturbances. New York, therefore, returns more than one-half of the published clearings each week. A decrease of 27.6 percent in her clearings as shown this week means a decrease of three-fifths that amount, or 16.5 percent, in the grand total of clearings. As a matter of fact the decrease in the grand total is 16.9 percent, so that it is readily seen that outside of New York the decrease this week as compared with the week last year has been merely nominal.

The analysis by groups of States for the same weeks is as follows:

	WEEK ENDING SEPT. 29, 1892.	WEEK ENDING OCT. 3, 1891.	PERCENTAGE.
New Engl'd States.	$96,630,049	$113,204,690	Dec 15.0
Middle "	687,049,491	912,812,358	" 24.6
Southern "	36,049,143	37,875 083	" 4.7
Western "	40,750,855	38,261,797	Inc 6.5
Northwestern "	130,425,121	120.831.784	" 8.3
Southwestern "	37,475,267	34.880.015	" 8.8
Far Western "	29,589,317	28.731,014	" 3.5
Totals	$1.057,969,243	$1,286,596,741	

The four Western groups show increases which are in marked contrast to the decreases of the New England, Middle and Southern groups. If a decrease in the volume of clearings for any city or section can be regarded as indicating a retrograde movement in the business of that city, then the table of states becomes valuable as affording an index to the relative movements of trade from month to month and year to year. Certainly if a group of cities shows constant increases in bank clearings as compared with last year, and another group shows equally constant decreases, we may properly infer that the one group is gaining ground while the other is losing. And if the total result of all the groups does not materially vary from that of last year, while some of the groups are advancing and others receding, it is natural to suppose that the advancing groups are gaining at the expense of those that are losing. From this point of view we should say that the four western groups are gaining at the expense of the New England, Middle and Southern groups. And, indeed, from past observation as well as from an inspection of the table in this week's issue, it would appear that the general movement of trade is westward.

LOCAL STOCK MARKET.

It has been a dull week in the local stock market if the number of shares traded in be taken as a gauge. There was a decided lull in the activity of the street railways, but the decreased trading in that direction has been largely counterbalanced by a decided broadening of the market. There has been moderate trading in almost every stock that lays any claim to speculative interest. A tightening money market has been a dominating influence in the situation. Call loans were raised on many brokers and in not a few cases borrowers were asked to repay loans. This has rather dampened speculative ardor for the moment, but the market seems likely to soon recover from its effect. As a matter of fact firm interest rates at this season are more likely to lead to speculative activity than would abnormally low rates, for firm rates indicate active general business, and it is only with an active industrial and commercial situation that healthy speculative activity can be looked for. The street railway stocks have declined slightly, but on the decline there has been a steady picking up of everything offered, and there has been surprisingly scant offers. The indications are that the Philadelphia people have taken on considerably more stock, and they appear to be quite as bullish on the situation as they ever have been. The anticipated increase in the North Side dividend came, the rate being advanced to 10 percent. There appears to be a certainty that the dividend rate of West Side stock will be advanced to eight percent next month.

The greatest speculative interest has centered in Street's Stable Car stock. A determined onslaught was made on this stock by the bears with more or less favorable results. The price was driven below thirty, but quickly re-acted and seems pretty firmly established at that point. The Chicago Great Western railroad announced that it would reduce the mileage rate paid to independent cattle car companies from ¾ to ½ cent a mile, and this was used as a basis for a sharp drive at Street's stocks, and as a foundation upon which to build a lot of rumors which encompassed the drawing off of these cars from about every western railroad line. The whole affair seems to have been a pretty piece of stock jobbing and it probably netted the bears some profit. Most of them appear to have been satisfied with a small gain and to have covered, although they are disappointed in finding that they could produce so little effect.

The brewery securities have remained firm, and the Chicago Brewing and Malting has advanced some. The regular dividend on the Brewing & Malting preferred stock has been declared. It is said that there are excellent grounds for believing that the Milwaukee and Chicago common will also receive the regular dividend, and the stock is being quietly picked up on that theory. If the theory proves correct there is room for a substantial advance. Former advances have received sudden checks on account of free foreign selling, but there appears to have been a change in sentiment recently on the part of foreign holders, and for the last week they have been buying instead of selling, although the extent of the operations were insignificant.

A piece of news that proved astonishing to the holders of Alley Elevated Railroad securities has come to light in the shape of a proposition to issue $3,000,000 more first mortgage bonds. A meeting of the stockholders has been called to consider the proposition, and as the stock is controlled by the construction company, it is a foregone conclusion that the bonds will be issued. What surprises the holders of the present issue of $7,500,000 bonds, is the fact, which they now learn for the first time, that their bonds are a lien only on the line from Congress street to Sixty-third street, and that the Sixty-third street portion of the line running to the World's Fair grounds may be brought wholly under the lien of this new issue of $3,000,000 bonds. This issue will be first mortgage bonds and on the exact par, so far as priority of claim against net earning is concerned, with the first issue.

A bill asking for a receiver for the Chicago Gas Company was one of the features of the week. It appears to have been a purely stock jobbing operation, and it is said that the originators got badly burt in their attempt to snatch some profit from the market. The gas stock did decline, but it re-acted again so quickly that they did not have an opportunity to get out with profit.

THE REAL ESTATE MARKET.

If one makes comparisons between the present situation in real estate affairs, and the condition at this time a year or two ago, the inevitable conclusion is that the market is now profoundly dull. It was called dull a year ago compared with the wonderful activity of 1890, but 1891 made a better comparison with the preceding year than we can now make with 1891. The characteristic feature of the situation is still the total absence of any speculative trading. The only conditions upon which a real estate man can make a commission is to find some one who needs property for actual use. If that person is looking for a bargain the chance of the agent earning his commission will continue small, for in spite of all the dullness there is anything but depression. It is really astonishing that after such intense speculative activity as the market passed through in the two preceding years, there could come a period as dull as the present, without causing demoralization and bringing out weak holders who had taken on a greater load than they could carry and were forced into making sacrifices. There is as complete an absence of such features as is ever found in a market as broad as ours.

The demand for property for immediate use has received a sharp check, because of the situation that is found in the building field. The enormous activity in that line has raised prices both of labor and of material until no one thinks now of starting a building unless he is absolutely forced into it. Contractors admit it will cost in the neighborhood of 25 per cent above the normal level to construct a building at the present time. Not only is the cost increased, but the work is unsatisfactory, for builders are rushed to such an extent that they are wasting little time in consulting wishes of owners. The dullness of the present situation will perhaps prove the salvation of the market in another year. A great many purchasers are deferring action until after the World's Fair. Everyone who contemplates building has been forced to defer his plans for the present because of this activity in the building situation. That will combine to furnish many customers for property next year who would in the natural course of things have been purchasers of property in 1892. The completion of elevated roads will also be a factor which will bring much activity into sections which before have been either completely neglected or available only for speculative transactions.

DEVELOPMENTS AT WAUKEGAN.

A recent report from Waukegan states that the Washburn & Moen company expect to begin work on additions to their works this fall which will enlarge them one-half more. They have already purchased 4,000,000 brick in Chicago, as local yards cannot near supply the demand. The Lanyon zinc works and Morrow Brothers' factory are nearing completion. The Washburn & Moen company's land has been surveyed for a system of sewers and a water system is a later possibility. Everywhere in both the old town and its southern extension new houses are going up. The $70,000 sewer system in the city is well under way. Plans for a lake water system are being matured. It will cost $100,000 and probably be built next year. The finest business block yet built, the Sauter Block, costing $35,000, is nearing completion. The Northwestern railroad will have its double track completed from Chicago to Spring Bluff, just north of here, in a few days. It has just completed a large freight-house and is building a large new freight-yard on the flat northeast of the city. The option which Chicago parties had on John Pillifaut's eighty acres there at $600 an acre ,was taken up this week and the abstract is being prepared. Several hundred acres thereabouts are under option.

It is announced that the Chicago and Northwestern Sand and Gravel company have sold to a syndicate of which James B. Hobbs is trustee a tract of land comprising about $1,400 acres situated on the lake shore just north of the city limits of Waukegan at $160 an acre, or a total of from $225,000 to $250,000. The purchasing syndicate comprises some of the most prominent men in Chicago, including Cyrus H. McCormick, R. R. Cable, Sidney A. Kent, Charles E. Simmons, Samuel W. Allerton, Washington Porter, William Munro, C. R. Corwith, H. R. Durkee, Daniel Goodwin, E. C. Carter, H. R. McCullough, R. P. Gormully, H. T. Birch, H. J. Peet, J. E. Blunt, C. W. Brega, Henry T. Byford, Daniel McCallay, E. Sturtevant, M. J. McDermont, S. P. Parmly, John J. Herrick, C. T. Trego, Richard W. Morrison, James Barrell and James B Hobbs. This land was originally contracted to be bought from the Chicago and Northwestern Sand and Gravel company, but later it was deemed advisable to buy additional land from several other parties interested in the immediate neighborhood. The Chicago and Northwestern Sand and Gravel company is comprised of the following people: M. J. McDermott, William D. O'Brien, Dennis O'Connell and W. P. Butler. The object of the purchasers is to utilize this land for manufacturing sites and for residence purposes for the workingmen who will be employed in the different factories. The land will be fully improved in all particulars. Many thousands of dollars will be spent to make it a model manufacturing center. Among other things contemplated a harbor will be built at the mouth of the Dead river with an inlet 300 feet wide and from sixteen to twenty feet in depth to extend through the property more than half way across it, from which two branches will extend in opposite directions. These branches will be of same depth and width. The harbor will be located due east of Benton station on the Chicago and Northwestern railroad. The land extends five miles along the lake shore and is half a mile in width The Northwestern railroad is accessible at all points and the Elgin, Joliet and Eastern railroad will soon have their tracks laid into the property. The Waukegan and North Shore Electric railroad, of which Dunlap Smith is President, will extend their line into the heart of the property, making it their northern terminus. The channels which are to be excavated in the land will be of such dimensions, that shipping craft of all kinds can gain ready ingress to any part of the channels. Docks will be built along the different waterways, making desirable sites for large warehouses. The southern part of this strip will be improved as soon as possible, and it is figured that in the building of harbors, canals, docks, streets, and other improvements the cost will amount to $250,000 which, with the cost of the land already expended, will make the total $500,000. This is merely the first outlay, but when the improvements are all completed as contemplated by the purchasing syndicate there will be on the shores of Lake Michigan within a short distance from Chicago one of the finest, largest, and most populous manufacturing cities in the country.

THE PURCHASE OF THE PHOENIX BUILDING BY THE WESTERN UNION COMPANY.

An important event was the purchase of the Phœnix Building by the Western Union Telegraph Company on Tuesday of this week. This building occupies the southwest corner of Clark and Jackson streets and will make an ideal home for the Western Union. The company will take possession Jan. 1. Two additional stories will be put on the present building and new elevators will be supplied. The price agreed upon for the property in its present condition is $1,500,000. Real estate men generally think the selection made by the Western Union a good one and call attention to the increase in values shown by this transaction. When the Phœnix Life Insurance company bought this site in 1886 for $400,000 the price was universally considered extremely high and the general supposition was that the company had made a mistake. The building that was erected is held by the company to be worth $800.000, although the probabilities are that it could be duplicated for much less But, allowing this valuation, it leaves the ground worth $700,000, an increase of 75 per cent within six years. The building was finished about Aug. 1, 1887, and was considered at that time the finest office building in the city. It has always been well rented, the gross rental last year being $138,590 and the net income $84,564.

VALUATION OF $6,000 A FRONT FOOT FOR WABASH AVENUE PROPERTY.

An inside lot on the west side of Wabash avenue, just south of Monroe street and adjoining the Ely Building, has been leased by Mrs. Charles H. Hoops to William Fitzgerald for ninety-nine years, at an annual rental of $15,000. This on a 5 per cent basis represents a valuation of $300,000. The lot has an east frontage of 48½ feet and is 90 feet deep. It is improved with a seven-story building erected shortly after the fire. The price named represents a front foot valuation of a trifle of $6,000 and a square foot valuation of $67.50. The lessee intends to add at least two stories to the present structure and will convert it into a model office building. The contemplated improvements will cost about $100,000. This property has been the subject of numerous negotiations in the past. Potter Palmer tried to secure it several times, but as he was unwilling to take a lease and Mrs. Hoops was unwilling to sell the negotiations fell through. This property was bought before the fire at an extremely low price. It was occupied at that time by a two-story frame residence. The present building was erected for Dr. Justin Haycs, who was the first occupant. The ground floor is occupied by retail stores and the upper stories by offices. Fitzgerald, Hamilton & Co. are also negotiating another $150,000 lease on Wabash avenue for Mrs. Hoops.

GARFIELD PARK TO BE CLOSED AND TURNED INTO RESIDENCE PROPERTY.

Garfield Park is likely to be turned into residence property by injunction. An attempt is to be made to suppress the racing park by legal proceedings. A bill in chancery will be filed asking the court to decree the track a nuisance and abate it. The prosecution will be carried on by the City Corporation Council, and State's Attorney Longenecker will be asked to file the petition in the name of the people. The proceeding to abate a public nuisance is an old one, but rarely invoked. Assistant Corporation Council DuPuy, who will draw the information, says that it will follow the main line of the city's defense in the injunction proceedings. The charge will be made that whatever rights the club may have acquired have been lost to it by reason of the nature of the resort that is alleged to have been conducted. The club in this way will be declared to have interfered with travel on the West Side, caused a depreciation of property, and to have been the attractive point for persons of questionable character. These allegations, if proved, Mr Du Puy says, will establish a public nuisance. The bill will raise another new point. Although the act of 1887 may have established the right to operate a race track the bill will charge that such permission is subject to certain general limitations.

HOTELS AND APARTMENT HOUSES IN PROGRESS FOR THE WORLD'S FAIR.

F. H Foster has leased from W. N. Craine through B. A. Ulrich & Sons the southwest corner of Forty-seventh street and Kenwood avenue for 198 years at an annual rental of $3,000. The lot has dimensions of 100 by 150 feet. Mr. Foster proposes to erect a seven-story apartment house to cost $200,000. It is to be of steel construction and fireproof. The exterior will be of attractive design and the interior finish will be quite elaborate. A fine restaurant and cafe will be located in the southeast corner of the building. This corner has been the subject of numerous negotiations within the past two years and is considered one of the best corners in Kenwood.

A stock company is being formed to erect a hotel on the Doggett property, at the southeast corner of Wabash avenue and Harmon court. It is proposed to erect a three-story building containing about two hundred rooms, besides stores on the ground floor. Negotiations are now under way for a lease of the entire structure to a World's Fair hotel company. The Doggett property has a frontage of eighty feet on Wabash avenue and is 180 feet deep, and the proposed building will cover the entire lot. The building will be of pressed brick construction with stone trimmings and will be semi fire-proof. Plans for the structure are now being prepared.

The Queen Isabella Association proposes to erect a club house at the corner of Oglesby avenue and Sixty-first street to cost $75,000. The lot secured has a frontage of 100 feet on either street and the building to be erected will be five stories high. The exterior is to be of Bedford stone and pressed brick, with

terra cotta trimmings. A feature of the building will be a large auditorium on the fifth floor having a seating capacity of 1,000 persons. There will be about twenty-five club-rooms for Women's organizations and about seventy-five sleeping apartments.

William Kent has purchased the southwest corner of Forty-third street and Calumet avenue for $36,000. The lot has a frontage of 120 feet on Forty-third street by 100 feet on Calumet avenue. The purchase is an interesting one, as by it the Kent estate secures control of three of the four corners at this point. The northeast corner was improved by them several years ago with a fine $90,000 building, and it is expected that they will improve the other two corners in a similar manner before long. An $80,000 structure is now being erected at the southwest corner, and the improvement of this corner with four modern buildings is only a matter of very little time. Mr. Kent proposes to erect an electric light plant on the rear of the lot just purchased, which will supply light to the three buildings which he will control and, perhaps, to others in the same vicinity. The completion of these improvements will establish a local business center at this corner, for which it is excellently adapted. The cross-town line passes this point and the alley "L" has a station at Fifty-third street. The corner is about mid-way between State street and Cottage Grove avenue, and is far enough from either to warrant the creation of a separate business center.

A large apartment house is to be built on the northwest corner of Duncan avenue and Seventy-ninth street. It is to be an immense two-story building, covering an area of ground 249 by 152 feet, and will be as plainly and cheaply constructed as possible, because it is intended for use only during the World's Fair. It will contain 441 sleeping rooms and is designed to be one fourth of a structure to be ultimately built. The cost of the portion now being contracted for will be about $20,000.

WORLD'S CONGRESS OF ARCHITECTS.

The Department of Art of the World's Congress Auxiliary includes the general divisions of Architecture, Painting, Sculpture, Decorative Art, Photographic Art, Illustrative Art, and Art-Literature. A committee has been appointed to arrange and conduct a Congress of Architects, under the auspices of the World's Congress Auxiliary. This Congress will probably be held in the month of August, 1893. This Committee will be assisted by an Advisory Council consisting of the Presidents of Architectural Associations and other eminent Architects selected from the various countries of the world. The members of this Advisory Council will be appointed by the President of the World's Congress Auxiliary, upon recommendation of this committee, and will co-operate with the committee by means of individual correspondence. To avoid all unnecessary delay, the persons designated are earnestly requested, without waiting to receive formal appointment of membership of the Advisory Council, to favor this committee with suggestions of themes to be presented; persons by whom such presentation may best be made, and the general modes of proceeding by which the proposed Congress of Architects may be made the most satisfactory and useful.

The practical objects of this Congress will be to bring the leading Architects of the world into fraternal relations for mutual acquaintance, and the promotion of their mutual interests; to review the progress of Architecture in different countries, and by a comparison of results attained promote the general advancement of the profession of Architecture throughout the world; and to consider the principles of Architectural Art, and the relations of Architecture to the other Arts, Sciences and Industries.

The themes to be selected from those which may be suggested for presentation in the proposed Congress will be chosen with a view to the most complete summary of architectural progress to the date of the Congress, and the most clear and comprehensive statement of the practical problems with which Architects are confronted at the present time. As far as may be practicable the most notable architectural creations of various countries will be presented by models and drawings. The committee in charge consists of Daniel H. Burnham, Chairman; Wm. Le Baron Jenney, Vice-Chairman; Solon S. Beman, Robert Craik McLean, Secretary, 19 Tribune Building.

NATIONAL REAL ESTATE CONGRESS.

CONCLUSION OF THE SECOND CONGRESS OF THE NATIONAL REAL ESTATE ASSOCIATION AT BUFFALO —A LARGE AND ENTHUSIASTIC GATHERING OF REPRESENTATIVE REAL ESTATE MEN.

BUFFALO, N. Y., Oct. 7.—[Special Correspondence to the Real Estate and Building Journal.]—The second congress of the National Real Estate Association adjourned tonight after a very successful session of three days. The report of the Committee on Credentials showed that 494 accredited delegates were present. Buffalo naturally was most extensively represented, having 239 delegates There were present 38 from Chicago, 5 from Cleveland, 12 from Duluth, 26 from Denver, 18 from Detroit, 15 from St. Louis, 26 from Milwaukee, 9 from Montreal, 8 from Nashville, 1 from Rochester, 16 from St. Paul.

A quorum of the board of control went into session shortly after 10 o'clock Monday morning and continued, with a short intermission for dinner at 1:15 o'clock, until late in the afternoon. When the roll was called the following members were present: Josiah L. Lombard, of Chicago: Henry S. Hill, of Buffalo; H. S. Cushing, of Toledo; J. T. Frazier, of Louisville, and E. C Holliday, of Duluth. The first business transacted was the revising of the programme.

On Tuesday the congress opened with a session at 10:30 o'clock a. m. Fully 1,200 people were present in Music Hall when Governor Flower of New York commenced his address of welcome. He was followed by Mayor Bishop and Judge Hatch, of Buffalo; Colonel Henry L Turner, of Chicago, delivered the response on behalf of the association With well turned compliments to the Governor, the Mayor, the Judge and the people of Buffalo, he conveyed the impression that as Buffalo was an ideal host, so the outside cities of the country through their representatives were appreciative guests. Speaking for the association Col. Turner said: "It is the great central organization of the real estate exchanges of the country. It stands to-day the representative of that great body of men who, believing that in the bosom of 'Mother Earth' is safety and sustenance, draw from this source their inspiration and emolument We are they who rear structures of their business success on foundat ons as solid as the everlasting hills."

President Benjamin M. Weil then read his report As a most important work for the association to enter upon he suggested efforts be made toward securing more uniform laws by the different States relative to the execution and acknowledgment of transfers of realty and securities based thereon, suggesting that a committee be appointed to consider the matter. This suggestion was approved by the convention. Mr. Weil referred to the value of good roads as factors in progress, the necessity for land title insurance and the possibility of decreasing the fire loss.

The convention adjourned on the conclusion of Mr. Weil's address until evening when Henry George spoke on the single tax question. The Chicago headquarters was prepared for the delegates by E. S. Dreyer in advance of their coming at the Iroquois House. The rooms were tastefully decorated. Mr. Dreyer was seconded in the reception of visitors by Byron A. Baldwin, F. A Henshaw, Malcolm McNeill, Elmer Dwiggins, Frank Riedle, Samuel Delamater, John N. Young, J. C Rivers, Jay Dwiggins, H. L. Turner, J. L. Lombard, H. B. F. Odell, M. A. Farr and others.

On Wednesday the Committee on Credentials reported that there were delegates to the convention present from the following cities: Atlanta Ga.; Binghampton, N. Y.; Baltimore; Brooklyn; Buffalo; Cincinnati, O.; Chicago; Clarkesville, Tenn.; Denver, Colo; Duluth, Minn,; Detroit, Mich: Louisville, Ky; Milwaukee, Wis.; Montreal, Que.: New York; Michigan City, Ind; Nashville, Tenn.; Pittsburg, Pa.; Pittsburg, Kas.; St. Paul, Minn; Minneapolis, Minn.; St. Louis, Mo.; Superior, Minn.; Scranton, Pa.; Tampa, Fla.; Toledo, O.; Seattle, Wash.; and Springfield, Ill.

Caucasing began at once for the location of the next convention. The Northwestern delegates decided to ask for the honor for St Paul, with a sop to Minneapolis in the form of a day's sight-seeing in the latter city. Florida made a bid for the congress if held in February, as proposed Tampa was the chief bidder and had a representative at Music Hall, with a lot of curiosities and photos. The meetings, they said, would be held out of doors in Tampa.

Active caucusing for the offices began Wednesday. The Real Estate Exchange contingent of the Chicago delegation announced as their choice for president, S. Delamater, but the Chicago Real Estate Board supported W. B. Cutter of Buffalo, and the slate was made up with Mr. Cutter for president and O. W. Crawford of Chicago for secretary.

Marvin A. Farr's address on "The Province of the Real Estate Man," although aside from the regular programme, was a feature of the Wednesday morning session. Mr. Farr took strong grounds in favor of the abolition of all legal limitations of interest.

Mr. Farr's paper was followed by an address on Real Estate Boards and Exchanges by Benjamin Hardwick, manager of the Real Estate Exchange and Auction Rooms Limited of New York. Mr. Hardwick said that New York was the first city to bring real-estate business to the system of an exchange and raise it to the dignity of an honorable pursuit, but he remarked, parenthetically, that Chicago had gotten ahead of New York. In the seven years of its existence it has transacted business to the amount of $600,000,000. The effects of the New York exchange were threefold in their benefits. First, it had inspired public confidence and interest in real estate and, second, it has raised land values; third, it has made the business honorable, and he disagreed with Mr. Farr, who said the sphere of the real-estate man could not be called a profession.

Judge Seymour Dexter of Elmira then read a paper on "Building and Loan Associations and Their Influence on Real Estate Interests," but the paper on "The Torrens System," by Frank Terry of Milwaukee, was not presented to the association during the afternoon session as the announcement by Frank Vierling of Chicago that carriages were waiting to convey the delegates to the wharf for an excursion around the harbor occasioned an unceremonious adjournment of the convention. In the evening a large audience assembled to listen to an address by Robert G. Ingersoll on "Progress."

On Thursday morning a paper was presented by Frank Terry of Milwaukee, on "The Torrens System." Mr. Terry described the workings of that system and advocated its general adoption. He told how successful it had been for thirty years in Australia, and said that in comparison with it the old system is as slow as a stage coach and is as obscure as the history of the middle ages.

A. S. Colyear of Nashville spoke on "Urban Realty Legislation," and attempted to describe the corruption of city councils. He suggested that only taxpayers should be allowed to vote. In the afternoon Peter A. Porter described the Niagara Falls tunnel, which was visited on Friday by the delgates.

The paper on "Land Tenure of Aliens" by R. C. Smyers of Chicago, was described by a prominent delegate as one of the most exhaustive presented to the convention. It included a history of the conditions leading up to the adoption of laws discriminating against aliens and gave copious digests from the treaties with leading foreign countries.

A paper by J. Craddock Simpson of Montreal, read by Mr. Mc Cord of the same city, was partially omitted, as was also the paper on "Millionaires and How they Are Made," by Mr. Henderson of Minneapolis, owing to pressure of business on the convention. All these papers will be printed in full in the proceedings of the congress.

The actual business of the congress was concluded by the election of officers for the ensuing year and the appointment of a place and time for holding the next meeting. The convention profited by past experience and deferred the election of officers and the selection of the next place of meeting until the last afternoon. At Nashville these points were settled early in the session and scarcely a quorum could be held together until the close. President Weil found the convention an unruly body at times. His rulings were considered often arbitrary, and the membership had no hesitation in setting him right.

The following were the officers chosen: For president, William B. Cutter, of Buffalo; secretary, O. W. Crawford, of Chicago; assistant secretary, J. C. Bartholf, of Milwaukee; treasurer, J. W. Williams of Nashville; board of control, Benjamin Hardwick of New York; E C. Van Huesan, of Detroit; S. S. Meddis of Louisville; Malcolm McNeil, of Chicago; A. J. Norton, of St Louis; D. S. Elliott, of Tampa; Benjamin M. Weil, of Milwaukee; R. E. Montgomery, of Denver; W. A. Barnes of Minneapolis.

St. Paul was chosen as the next meeting place and the date was fixed for August next, the exact day to be selected by the board of control. The day's proceedings were on the whole quite lively, owing to the friction which before the day was through began to reveal itself in no uncertain way. In the first place the constitution adopted last spring at Nashville proves to be an intricate and unwieldly instrument. The members do not understand it, and even the leading men in the association do not know its provisions. The rank and file of the association are restive under the power the constitution gives to the board of control and especially in the matter of electing officers.

It was voted that nominating speeches be limited to three minutes. Colonel Turner, of Chicago, arose amid great applause and nominated William B. Cutter, of Buffalo. The nomination was made in an eloquent speech. Said the gallant colonel:

> You ask what State he hails from
> My answer it shall be
> He hails from Buffalo City
> And his name begins with C.

Colonel Turner said the name of Cutter would inspire confidence everywhere in real estate circles. H. S. Hill, of Buffalo, seconded the nomination, and so did Mr. Warren of Detroit, and delegates representing St. Louis, Cincinnati, Louisville, Tampa, Fla., Texas, Colorado and St. Paul. The result was that

the nomination was made unanimous. Mr. Williams, of Nashville was the only nominee for treasurer, and O.W. Crawford of Chicago, the only nominee for secretary.

The report of the committee on resolutions was then read by Mr. Farr, of Chicago. The resolutions embraced several things which the delegates were strongly disposed to criticise, and one resolution they succeeded in knocking out bodily—that fixing the representation in the national congress at no more than 10 per cent membership in any one exchange. A strong fight was made on the committee's proposition to appoint an organizer to go about the country securing new members and working on the various legislatures for legislation on real estate matters. This was finally, after a long wrangle in which the chair and everybody else got into a hopeless parliamentary tangle, referred to the board of control. The other resolutions, which were chiefly those of thanks to retiring officers and to Buffalo, went through without further trouble.

Denver and St. Paul made a fight to have the next congress. Each of these cities flooded the congress with letters and telegrams from governors, mayors, boards of trade, real estate boards and other representative bodies, but St. Paul was in the lead from the start. Several ballots were had, but finally after a vain effort to combine enough votes to knock out St. Paul the latter city was chosen by a vote of fifty-six for St. Paul to fifty two for Denver, the Detroit people voting for Denver. The time was fixed for August, 1893, the exact date to be settled by the board of control. On motion of R. E. Montgomery the congress then adjourned.

Thursday night a reception and dance were given the delegates and others in honor of the congress. It was a full dress affair and 3,000 invitations were sent out. Music hall was splendidly decorated and the elite of Buffalo was among the merry throng. Dancing began at ten o'clock, after the reception. Kuhn's full orchestra of twenty-five was present and refreshments were served the guests. Harrison D. Folinsbee was chairman of the entertainment committee in charge of the affair, and had the assistance of an able corps of floor managers.

A largely attended and enthusiastic excursion to Niagara Falls and Lewiston was the final number in the programme of the congress Friday. The special train bearing the delegates went directly to Lewiston. A stay was made there and then the delegates returned to Niagara Falls, where they were taken in charge by a local committee. First the visitors were served with refreshments and then a visit was made to the great tunnel, followed by a carriage drive to the principal points of interest. Many of the delegates left for home to-night and Saturday morning will witness the departure of the remainder. The projected trip to points in the east by the Milwaukee delegates and others has been abandoned for the present, owing in a measure to the illness of the wife of ex-President Weil, which occasioned his hurried departure to his home. The trip will be made in January.

Among the Chicago delegation were G. W. Wheeler, J. L. Lombard, Colonel H. L. Turner, E. C. Crane, Malcolm McNeill, M. A. Farr, Samuel Delamater, John N. Young, Dr. Rufus H. Bartlett, E. W. Zander, Jay Dwiggins, Elmer Dwiggins, Frank Riddle, C. H. Chamberlain. Aaron Shubart, O. W. Crawford, E. S. Dreyer, R C. Smyers, Frederick D. Doty, B. A. Baldwin, Ely Smith, F. A. Henshaw, F. A. Hudliner, W. C. Gunn, C. J. Ford, O. A. Lewis, James Egan, W. T. Davis, H B. F. Odell, Samuel I. Polkey, E. H. Bradley, T. C Rivera, R C. Harding, T. Shaw, Robert Montgonery, J. H McEldowney, C I. Rapp, F. P. Hopkins and J. L. Garnett and many others whose names we have been unable to obtain. At the final meeting of the Chicago delegation a vote of thanks was tendered Messrs. McNeill, Dwiggins and Crawford, for hard service in the cause, and Messrs Callahan and Horner for railroad courtesies. Colonel Henry L. Turner was requested, on motion of E. S. Dreyer, to prepare a resolution thanking the Chicago papers for sending their staff real estate writers to Buffalo and to other daily and weekly papers for space given the proceedings of the convention.

WORLD'S FAIR ENTERPRISES.

An important measure, providing for transportation to the World's Fair by electric railway, was passed through the City Council Monday night. An ordinance was granted to the Calumet Electric Street Railway company to run a line of electric road on Seventy-ninth street, from Commercial avenue to Stony Island avenue, thence on Stony Island avenue to Sixty-fourth street; also a line on Sixty-seventh street, from Stony Island avenue to Cottage Grove avenue, connecting with the track of the Chicago City Railway company. This insures communication to the Fair by cable via Sixty-seventh street and the electric line, and also gives direct access from South Chicago to the Fair grounds. It is considered one of the most important measures yet provided for the accommodation of the vast throng of passengers who will seek transportation to the Fair.

A local syndicate is preparing to erect a $600,000 hotel at the southeast corner of Thirty-fifth street and Grand boulevard. The ground on which the structure is to be built is 160 feet square. The hotel is to be eight stories high, of fire-proof material and finished in hardwood. The main entrance will face Grand boulevard. The exterior will be of stone, pressed brick and terra-cotta.

THE AUCTION FEATURE.

The sale of real estate at auction is about to be inaugurated on the Real Estate Board in this city. Booths have been constructed and several prominent firms have signified their intention of conducting auction sales in the near future. With the prestige and influence of the board behind the enterprise it will be surprising if it does not prove to be a pronounced success. In this connection, the experience of the New York Exchange, as given before the National Real Estate Congress at Buffalo on Wednesday of this week is of interest. Mr. Hardwick, who is the manager of the New York Real Estate Exchange and Auction Rooms Limited, in an address on Exchanges, said:

"The theory of the Real Estate Exchange of the city of New York has been that the more you purify the market the more you will increase the actual transactions. Timid and inexperienced buyers are easily scared from a market where illegitimate methods are of constant occurrence. What we have sought to procure is not a vast amount of offerings at auction, resulting in a small percentage of sales, but a large amount of actual business. It must be remembered that both the seller and the buyer are interested in this. Where there are a large number of apparent transactions inexperienced persons are apt to intrust their property to a voluble auctioneer, putting a high reserve upon it, and discovering when too late that the money spent in advertisement and in other expenses has been thrown away."

RAPID TRANSIT NOTES.

At a recent meeting of Lake View property-owners a resolution was adopted favoring the underground system of electrical road on Evanston avenue, giving a continuous ride from the business center of the city for one fare, without change of cars, to the terminus of said road. The meeting had been called to effect a temporary organization to protest against the erection of an electric trolley road on Evanston avenue. Adolph Schoeninger was elected chairman. Committees were appointed and it was decided to apply at once for a charter of incorporation. A general meeting was called for Saturday, October 8, at the same place, for a permanent organization. The purpose of such an organization, as outlined by the chairman, states: "What we do need is rapid transportation from the Court House to the northern limits and no change of cars. Since the misconstruction of our miserable cable line there has scarcely been a day without breakage and stoppage for hours. Shall we stand this any longer? Call the whole people of the North Side to assist us in our efforts. Hold mass meetings, arouse the people, march down by thousands and petition the City Council to hold the North Chicago City Railway to its duty. Force the company to improve its lines and to extend the same within a reasonable time. Electric overheads will do for country towns, but not for a city of more than a million intelligent inhabitants."

Work is to be begun this fall on an electric street-car line to run through Hammond. A franchise was granted last spring to a company organized by Frank B. Weeks, and the necessary capital has been raised to build the road. It will run through the main streets of the town and branches will probably run to South Chicago, Kensington and to East Chicago. A storage-battery system, said to be superior to any storage devices yet suggested, is to be used. Mr. Weeks is also at the head of a company that proposes to erect a large distillery about a mile east of Hammond on the Calumet River. An option has been secured on the site and the stock of the company is now being placed. It is understood that the distillery will run in opposition to the whisky trust.

CURRENT COMMENT.

The event of the week in real estate circles was the National Real Estate Congress at Buffalo. A noteworthy assemblage of the most prominent real estate men in the United States were present. Some of the most distinguished speakers in the country addressed the convention. The subjects discussed embraced a wide range of important topics, and were listened to with close attention by the delegates present. A full account of the proceedings is contained in another column of this issue. It is sufficient to say that the Congress was an eminent success, both intellectually and socially, and that it has opened the way for future work in the interests of National real estate legislation and organization of the utmost importance.

***

The ordinance of the Mutual Fuel Gas company for an extension of their mains inside the old city limits has failed to find a champion among the aldermen, and judging from its provisions it does not deserve any other fate. It has long been claimed by friends of the company that the Mutual had solved the problem of cheap gas, and would furnish a superior article at fifty cents per thousand feet. THE JOURNAL has previously put itself on record as in favor of this cheap gas, provided it was so stipulated in the ordinance. It does not appear that any such stipulation has been made in the measure which the company now desire to introduce in the city council. The usual provisions as to the size of the plant to be erected and the method of laying the pipes are made, and then follows the condition that the company shall furnish gas at the price and upon the terms and conditions fixed in the ordinance passed by the trustees of the village of Hyde Park. But the rates fixed by the Hyde Park ordinance are $1.25 a thousand feet for illuminating gas and ninety cents for heating. These rates are practically no lower than those of the old companies. It is difficult, therefore, to see what advantage would accrue to the citizens of Chicago in return for allowing a new gas company to tear up the streets again indiscriminately under this ordinance. Besides, there is no assurance that the Mutual will not, at the earliest opportunity, sell out to the gas trust. Until a sufficiently low rate to make the change desirable is specified in the ordinance, together with an agreement to forfeit to the city all its plant and charter in event of combination with the monopoly, it should not receive a moment's consideration in the council.

***

The lake front cases between the Illinois Central railroad and the city are soon to come up before the United States Supreme Court, on appeal of the railroad company. These cases involve an immense amount of property along the right of-way of the Illinois Central, on the lake. The rights in question are variously estimated at from $50,000,000 to $100,000,000. For years the Illinois Central has been encroaching on the lake and constructing new land by filling in between their tracks and the shore line. Their right to do this is disputed by the city, and the question will now be decided by the court of last resort. The points of law to be raised will be of the utmost importance to all property-owners along the shore of the lake, as the riparian rights to property bordering on the lake are directly involved. It is claimed on the one hand that the rule of law giving to a property owner a title to the ground under a stream to its centre does not apply to a large navigable body of water like the great lakes. On the other hand, it is claimed that this rule does apply to lakes, and that an owner of property abutting the lake owns the bed of the lake also. This was the point raised in the Streeter case, where Captain Streeter reclaimed valuable property on the North side by allowing the sand to drift around his stranded scow. Other similar cases have arisen recently, and the decision of the United States Supreme Court on the subject will be awaited with interest.

WORLD'S FAIR FIGURES.

The probable income from the World's Fair has been the subject of much conjecture. The Stockholder, a financial paper published in Philadelphia where the Centennial furnished an illustration on a small scale, says that there are undoubted evidences that the general interest throughout the world in the Columbian Exposition at Chicago is increasing very rapidly, and that this growing interest is furnishing some idea of the volume of traffic the enterprise will bring to the railroads of this country. It has also a bearing of no small importance on the financial situation of the country which is beginning to attract serious attention among bankers. It is calculated by some authorities that the foreign money that the Fair will bring to America will aggregate between $400,000,000 and $500,000,000. These figures, however, appear rather large. A member of one of the large banking houses, of New York, who has just returned from abroad reports that while in Europe he was in constant contact with leading bankers and railroad men in both Great Britain and the continent, and that judging from their references to the World's Fair and the talk on this side about foreign interest in the enterprise, people in America do not begin to appreciate the vast benefit to accrue to them from the foreign patronage of the Exposition. He states that practically everybody in Europe wants to see the Fair. In business circles and among the better classes it is one of the most popular topics of conversation This gentleman calculates that the rush of pleasure seekers will result in bringing $500,000,000 to this country; the passenger accommodation on steamers is practically all engaged now for next summer, and the steamship companies are building and chartering additional vessels. Excursion rates from Europe to Chicago and return, including ten days' board in Chicago for $100, are now being extensively advertised on the continent.

AGENTS' BUDGET.

B. A. Ulrich & Sons report following sales: Premises 3010 Prairie avenue, 26 by 180 feet, with three-story brown stone residence for W. and H. B. Smith, for $17,000; 8826 Loring avenue, 150 by 150 feet, improved, for $7,000, and 5849 Indiana avenue for Frank Shield to Mrs. J. Morgan for $7,000.

Wm. A. Merigold & Co. have leased the eight-story brick building at 346 and 348 Wabash avenue for George F. Kimball to the National Printing and Engraving company for a term of ten years at a rental of $152,000 for the term.

It is reported that a company is being formed to build a 200-room hotel on the Doggett property at the southeast corner of Wabash avenue and Harmon court. If present negotiations for a lease are successful a three-story building with stores on the ground floor, will be erected on the lot, which is 80 by 180 feet.

F. H. Foster has leased of W. N. Craine the southwest corner of Forty-seventh street and Kenwood avenue, 100 by 150 feet, for 198 years at an annual rental of $3,000. A $200,000 seven-story apartment house will be erected on the corner.

L. G. Bees & Co. have sold for Julian Blaine the premises at 4601 to 4707 Champlain avenue for $13,500. Also forty-four feet on Prairie avenue, west front, near Forty-eighth street, for David J. Mitchell, for $5,000.

The southwest corner of LaSalle and Washington streets will be improved with a modern building. When the Peoks bought the building last spring from the Union Building Company it was announced that a new building would be erected on the lot next year. It was generally believed, however, that the Western Union would retain their location at this corner and that the only improvement that would be made would be the addition of another story to provide more room for that company. The Phoenix deal, however, makes this improbable and as the building will be practically vacant as soon as the Western Union leaves it, an early improvement of this corner may be looked for.

It is again rumored that the Leland Hotel property is about to be sold to Boston capitalists by A. J. Cooper for $1,250,000. Of this price 750,000 represents the fee. Mr. Cooper bought the Leland about eight months ago for $1,025,000 and the advance to be paid is quite marked for so short a time, but is not considered out of proportion to the value of the property. The price represents a square foot valuation of about $42, while the average price of property within a radius of three blocks is declared by competent judges to be $52 per square foot.

John Berry has sold to Ephriam Mariner the property on West Madison street 119 feet west of Ashland avenue, south front, 119 by 124 feet, and the property on the opposite side of the street, 260 feet west of Ashland boulevard, 100 by 104 feet, for $150,000.

A. J. Stone's triangular ten-story building at the intersection of Madison street, Ashland boulevard and Ogden avenue is to be opened Oct. 12 as a hotel. It is to be called the Chicago View.

B. F. George has bought of E. C. and J. S. Thomas the southwest corner of 50th and Winter streets for $84,550. The property has a frontage of 125 feet on Winter street and 249 feet on 50th street.

The Cleveland Linseed Oil company has taken out a permit for the erection of three two and one-story factory and elevators at Lawrence avenue and 110th street to cost $225,000.

C. C. Landt & Co. have sold a building site of 34½ feet front on Drexel boulevard, south of Forty-third street, to A. N. Reece for $16,000. The purchaser will erect a residence for himself on the lot. The same firm sold the stone front residence, 5209 Kimbark avenue, with a frontage of 25 feet, for $13,000.

W. H. Alsip, E. E. Scribner. R. Vierling, W. L. Hoffman and E. Kirk Jr., have been appointed a committee by the Builders' and Traders' Exchange to look into the subject of discounts and present a set of resolutions upon this matter to the next meeting of the exchange.

F. W. Green & Bro. report the following sales within the last two weeks: Forty feet on Woodlawn terrace, 70 feet east of Hope avenue, for Dr. James P. McGill, for $8,000; 40 feet on same street, south front, to George Baner, 300 feet east of the Illinois Central, for $6,000; 54 feet on Robertson avenue, for Mrs. Josephine Krick, for $5,000; 50 feet on Wharton avenue, near Sixty-seventh street, for Maria C. Plumridge, of St. Louis, for $4,000; 50 feet on same street for J. E. Cowan, of Galesburg, for $4,000; fifty feet on Woodlawn avenue near Sixty-fifth street for Julius Wolf, of New York, to James Sullivan for $4,000. Most of the above purchases were made for immediate improvement. Mr. Baner will erect a three-story stone front apartment building on Woodlawn terrace and the purchaser of the Plumridge property will build a block of three residences on Wharton avenue.

COOK COUNTY ASSESSMENT REDUCED.

The Committee on General Equalization has equalized the aggregate assessment of Cook County at $249,623,430. The following figures were made for Cook County:

City and town lots assessed at $157,446,400; amount added by General Equalization Committee, $36,212,672; percentage of increase, 23; total equalized value, $193,659,072.

Personal property assessment, $30,407,189; amount added, $7,601,797; percentage of increase, 25; total equalized value, $38,008,986.

Land assessment, $14,480,139; amount added, $3,475,233; percentage of increase, 24; total equalized value, $17,955,370.

Aggregate assessment for Cook County, $202,333,728; aggregate amount added, $47,289,702; aggregate equalized value, $249,623,430.

Last year the increase on the local assessment was $70,917,534, which was $23,627,832 more than this year's increase. This reduction of the addition made in Cook County's assessment was due largely to efforts of Maj. Blodgett. The City and Lots committee had in its preliminary calculations decided to raise the city and town lots assessment in Cook County 60 per cent, which would have been an increase of over $90,000,000. Maj. Blodgett, in a lengthy and effective argument before the committee, proved that the per capita wealth is greater in almost every other county in the State than Cook county, and produced an array of figures showing how Cook county has been treated in past years. The committee thereupon reduced the percentage of increase to 40 per cent, and as it comes from the Committee on General Equalization it is only 23 per cent.

PLANS BY ARCHITECTS.

Architects Lamson & Newman have completed plans for a three-story store and flat building to be erected at the northwest corner of Western avenue and Jackson street by T. N. McCauley. It will have a frontage of 113 feet and will be ninety-six feet deep. The exterior will be of stone and pressed brick, with upper bays, and the interior will be finished in hardwood and heated by steam. The cost will be about $60,000. Construction is to be commenced at once.

Architects Marshall & Ryder have designed for H. N. Marshall a three-story and basement apartment house 50x100, to be erected on Forty-third street, near Ellis avenue. It will be constructed of stone and pressed brick; cost, $30,000. For Mrs. C. M. Wright they have planned a two-story residence, 29x56, to be erected at Austin; cost, $5,500. For G. P. Parker they have designed a two-story, basement and attic residence, to be built at Kenilworth; cost, $4,500.

Architect Julius Speyer has designed for the Indiana Racing Association a grand stand to be enclosed with glass for winter racing, bookmakers' stands, restaurant and other buildings, to be built on the State line between 107th and 112th streets; cost, $70,000. For C. A. Anderson he has planned a three-story flat building, 50x74, to be erected on Halsted near Roscoe street; cost, $20,000. For John Gorman he has planned a four-story flat building, 27x60, to be built on Thirteenth street, near Centre avenue. It will be constructed of brick and stone; cost, $10,000.

Architect W. R. Gibb has designed a two-story flat building, 38x40, to be erected at 750 North Park avenue by Mrs. Emily A. Hill. It will be constructed of pressed brick and stone; cost, $6,500.

Architects Wilson & Marble have designed a three-story residence to be built on Michigan avenue near Thirty-sixth street. It will be constructed of brownstone and will cost $25,000. For William J. Brachvogel they have planned a three-story apartment house, 50x70, to be built on Vincennes avenue near Forty-ninth street. It will be constructed of stone, will be finished in hardwood and heated by steam; cost, $25,000. For Mrs. Kincaide they have designed a two story residence, 35x78, to be erected on Madison avenue; cost, $16,000.

Architects Raeder, Crooker & Coffin have designed a ten-story hotel, theatre, office and store building, to be known as the Colonnade and to be erected on Ninth street, between Olive and Locust streets, in St. Louis, Mo., by the Colonnade Building Company. It will be 228x127, and will be constructed of granite, pressed brick and stone, the interior being exceedingly elaborate and very handsomely appointed. It will be fireproof, and it is proposed that it shall surpass the Auditorium in this city. The cost is estimated at $1,100,000.

Architects Adler & Sullivan have completed plans for the Portland, a magnificent office structure to be erected in St. Louis. It will be thirteen stories high, and will front 59 with a depth of 116 feet. The exterior will be constructed of pressed brick and terra cotta. The interior will be cut into 175 offices, with a store and banking room on the first floor. The building will be modernly equipped; cost, $350,000. For Victor Falkenau they have planned a three-story and basement hotel, to be built at Chicago Heights. It will be constructed of pressed brick and staff and will contain 45 rooms.

Architects Ostling Brothers are letting contracts for a two-story and basement apartment house, to be erected at Douglas Park for S. A. Lindblad at a cost of $7,000.

Architect W. Longhurst has just let contracts for an apartment house to be built in Emerald avenue, near Forty-seventh street, for Miss C. A. Lamb. It will be two stories and basement and will cost $6,000.

The Hahnemann Hospital building is at present being placed under contract by W. W. Boyington & Co. It is intended to be an auxiliary of the Hahnemann college and is being built by the trustees of that institution. The hospital will be located in Groveland avenue, between Twenty-eighth and Twenty ninth streets. It will cover 63 by 128 feet and contain seven stories and basement. The structure will be divided into twelve wards, each 40 by 24 feet in size and containing ten beds. There will also be fifty private rooms in the hospital. The ground floor will be occupied by the administration offices and examining rooms, and on this floor as well as on each of the remaining stories there will be a large room to be used as an accident ward. The rooms for the physicians and nurses, library and kitchen will be on the top floor. The building will be fitted up with passenger and freight elevators, steam heat, electric light and all modern improvements. The exterior of the structure will be of buff Bedford stone in the first story and pressed brick and terra-cotta above. The cost of the entire structure is estimated at $100,000.

TEXAS.

Llano—Fred Opp, mayor, will receive proposals until October 1, for rebuilding the Llano public school building.—Rusk—Mrs. S. A. Willson will erect a brick business building.—Terrell—T. B. Bass will erect a brick business building. Waco—The Missouri, Kansas & Texas Railroad Co. (office, Denison) will, it is stated, build brick passenger and freight depots in Waco.

VIRGINIA.

Roanoke—E Mahoney & Bro. have been awarded contract at $5,045 for the erection of the school building for colored pupils.—Roanoke—Wilson & Huggins have prepared plans for a chapel 60x38 feet for Christ P. E. Church.—Suffolk—Contract has been let for the walls and roof of the edifice to be built for St. Paul's Protestant Episcopal Church. B. J. Black, of Richmond, prepared the plans, and the estimated cost is $10,000.

BONA FIDE LIST OF PROPERTY FOR RENT.

REVISED AND CORRECTED EVERY WEEK—ALL LETTERS MUST BE ADDRESSED DIRECTLY TO THIS JOURNAL AND MARKED WITH THE LETTER AND NUMBER OF THE PROPERTY ADVERTISED—PROPERTY THAT CANNOT BE DELIVERED, AND PROPERTY SOLD OR UNDER CONTRACT, WILL BE STRICKEN FROM THIS LIST AT THE REQUEST OF THE OWNER OR HIS AGENT.

FLATS—SOUTH SIDE.

Champlain av 4504, 2d flat, steam heat, hot water, janitor, gas range, gas log, sideboard etc, $40 per month. K 1.

College place 44, near Rhodes av, 2d floor flat, very desirable. X 7.

Within city limits, owner will sell a bunch of lots, only 28 minutes ride on two railways, 40 trains daily; streets graded, double rows of trees 40 ft above lake; only $175 each. This is a real snap. J 10.

20 acres, 60 ft, above the lake, only 35 minutes ride, 32 trains daily; 100% profit in this to syndicate or subdivide; only $500 per acre. J 10.

OUTSIDE REAL ESTATE.

500 acres in James River Valley, North Dak. Over half mile frontage on river. One of the most beautifully located farms in the Dakotas, with special adaptation for for both wheat and stock raising, 220 acres in cultivation —100 acres yet to be broken. Hay land which in good season produces 100 tons hay. Superior pasturage for 100 head of cattle or 200 sheep. Five room house, stable, garden with small fruit and fine asparagus bed; well of splendid water. Railroad station 3½ miles from land by section lines. Post office and neighbors ¼ mile away. School house one mile, plain sight, seven miles from county seat. Fishing and plenty of game, ducks, geese, snips, prairie chickens and jack rabbits. Price $10,000. Terms $2,500 cash balance real estate. M. 1.

320 acres good wheat farm in James River Valley, 265 acres in cultivation, fine pasture. Good house for seven or eight people; stable for eight horses. Granary capacity 5000 bu, good well, 1¾ miles from village and R R station. A very desirable farm in excellent location. Price $7,500. Terms $1,500, cash bal real estate. M 1.

170 acres good wheat farm on James River, 100 acres in cultivation, good pasture, house and stable, well, land of superior quality ¾ miles from Post-office, 1¾ miles from school house, six miles from county seat. Price $3,500. Terms $1,000, cash bal real estate. M 1.

160 acres good wheat land, 100 cultivated, all capable of cultivation, small house, four miles from R R station by section lines, one mile to Post-office, two miles to school house. Price $1,600. Terms $600, cash bal real estate. M 1.

For Sale: Hinsdale finely improved homes with one to ten acres of ground. Best of conveniences. Visit before deciding upon location. Ground high and quite rolling. Beautiful country for driving. H. 1.

For sale or exchange 160 acres of choice Kansas land and city lots for flat or residence not heavily incumbered. $4,000 to $6,000. H. 1.

REAL ESTATE LAW.

DECISION OF THE NEW YORK SUPREME COURT IN THE OGDEN WILL CASE.

The decision in the case of the Ogden will by the New York Supreme Court mentioned in these columns last week is of such importance as to merit additional reference The court decided that the proceeds of lands devised in another State was realty under the will. Justice Barrett, who rendered the decision said:

It is the settled policy of the law to treat the property of a testator as being of the kind left by him until it reaches some person having an absolute power of disposition. Thus, where real estate in which infants have an interest is sold, the proceeds of the sale are treated as realty until the infant arrives at maturity and thus has an absolute power of disposition.

It is certainly not the rule that where a person dies leaving a will devising his personal property and real estate to his executors in trust, creating an intermediate estate, and giving his executors a discretionary power of sale, and upon the termination of the intermediate estate bequeathing his personal property in one direction and devising his real estate in another, if the executors exercise the power of sale in respect to the real estate, the devisees of what at the death of the testator was real estate are thereby deprived of the provision made for them in the will. So in the case at bar, the devise having been valid as to the real estate at the death of the testator, the power of sale being merely discretionary, it was not possible for the executors by the exercise of that power of law to defeat the intention of the testators, more particularly so as the proceeds of sale are expressly disposed of to the said beneficiaries as the real estate had been by the will. I think, therefore, that it is clear that the proceeds of real estate, under said circumstances, must, for the purpose of distribution and for the purpose of determining as to the validity of devise contained in the will, be treated as though the power of sale had never been exercised. If not, the executors, simply because the testator has given to them a discretionary power of sale, would be empowered to defeat absolutely devises which would otherwise have been valid. It seems to me that the mere statement of such a proposal indicates what the answer thereto must be. It is conceded, substantially, that if the proceeds of sale of the lands in Illinois and New Jersey were re-invested in lands in said States, that such proceeds retain the legal character of land, and this court should not interfere with the disposition thereof. This being the case, the result, holding that by a sale the executor could defeat the devise, and by re-investing the proceeds of sale he could re-instate the devise, would give the executor power to play battledore and shuttlecock with the trust provided for by the testator. Whether the beneficiaries should take or not, would depend upon his whim, and not upon the provisions made by the testator in his will.

WHEN A DEED MAY BE PRESUMED TO BE DELIVERED.

The Supreme Court of Pennsylvania, in Ingles v. Ingles has decided that the signing, attestation and acknowledgment of a deed raises a presumption of a delivery which can not be overcome by declarations of the grantor that the deed was not delivered.

CONTINGENT ARBITRATION NOT WITHIN THE TERMS OF AN INSURANCE POLICY.

The Supreme Court of Iowa, in Adams v. New York Brewery Co. An insurance policy stipulated that each party should select an arbitrator, who should select an umpire, and they should appraise the sound value and damage. The submission provided for the selection of an umpire, "if necessary," and limited the appraisement of damage to the value of damaged goods saved Held, that the arbitration was not within the terms of the policy, and an award thereunder was no defense to an action on the policy. Held, further, that the consent of the company to such arbitration and acceptance of the award was a waiver of the right to insist on a proper arbitration before the suit was brought.

A DECISION OF INTEREST TO REAL ESTATE BROKERS.

Hartly v. Anderson, Supreme Court of Pennsylvania. Where a broker submits a proposition to the owners of land for the sale of the same, and it turns out that the proposed purchaser is a party with whom the owners had previously had negotiations for the sale of the property, Held, that the broker was not entitled to commissions on such sale. The court said:

"The plaintiff alleged and so testified that at the time the proposition was made he had no knowledge that Doty was in negotiation with the defendants. It is not material whether he had such knowledge or not. Assuming that the defendants should have accepted the offer, it is clear that the plaintiff did not bring them together. He rendered them no service by bringing them a proposition from a man who had been negotiating with them since the preceding February."

AGREEMENT TO LEAVE PROPERTY BY WILL DECLARED VALID WHEN PERFORMED.

Gall v. Gall. Supreme Court of New York. This was a case where an adopted son claimed as residuary legatee under a will pursuant to an agreement with the testator. The court sustained the will. Barrett, J, in rendering the decision, said: It is undoubtedly the settled law of this State that "where a certain and definite contract is clearly established even though it involves an agreement to leave property by will, and it has been performed on the part of the promisee, equity in a case, free from all objections on account of the adequacy of the consideration or other circumstances rendering the claim inequitable, will compel a specific performance." (Shakespeare v. Markham, 10 Hun, 322; affirmed 72 N. Y. 406; Parsell v Stryker, 41 N. Y. 480.) Such a contract, however, especially when it is attempted to be established by parol, is regarded with suspicion, and not sustained except upon the strongest evidence that it was founded upon a valuable consideration and deliberately entered into by the decedent (Waterman on Specific Performance, Sec 41).

Van Brunt, P J, (concurring):—I concur in the result. I do not think that the courts will enforce a contract whereby a party deprives himself of all power to bequeath or devise by will the property of which he is the owner at death, except in case of adoption, where the contract is made for the benefit of an infant, and not to the exclusion of children. It will certainly not do so in a case where the agreement is unilateral, and where it may be terminated by the other party at will.

STATUTE OF LIMITATIONS—MORTGAGE DEBT.

Biddel v. Brizzolara; Supreme Court of California. An acknowledgement by a mortgagor to a stranger of the existence of the debt secured by the mortgage, without an express promise to the mortgagee to pay the debt, will not prevent the bar of the statute of limitations from applying in a suit to foreclose the mortgage.

PARTNERSHIP IN REAL ESTATE ADMISSIBLE.

Bates v. Babcock; Supreme Court of California. An agreement to share profits arising from the purchase and sale of real estate, apart from any contract for the transfer of an interest in the land itself, was held not to be within the statute of frauds and that parol evidence thereof was admissible. The court said: "A partnership may be formed for the purpose of dealing in lands, as well as for dealing in personal estate, or for engaging in professional or commercial or manufacturing occupations. Like any other contract of partnership, it is an agreement to share in the profit and loss of certain business transactions. Such a partnership may be formed for the purpose of buying and selling land generally, or it may be limited to a speculation upon a single venture. * * * Whether such partnership can be formed, except by an agreement in writing, has been the subject of conflicting decisions. * * * The great weight of modern authority, however is in support of the rule that such a partnership may be formed in the same mode as any other, and that its existence may be established by the same character of evidence."

FRAUDULENT OWNERSHIP OF REAL ESTATE BY WIFE WILL NOT PROTECT IT FROM HUSBAND'S DEBTS.

Laehman v. Martin. Illinois Supreme Court. 139 Ill., 450. In this case, which was upon creditor's bill, to subject certain real estate held in the name of the debtor to the payment of the husband's debts, the facts and circumstances are stated, which show that the debtor's business was carried on in his wife's name, to cover up the same, and place his means, earnings and profits beyond the reach of his creditors, and that in fact the means of conducting the business was furnished by him, and that the large gains from business were the product of his own shrewdness and skill as a gambler, and not the result of his wife's investment.

Since the act of 1874 a married woman may have her own separate property, and make contracts and do business as a feme sole, and may avail herself of the services and agency of her husband in the conduct of her business or management of her property, without necessarily subjecting the profits arising from his management to the claims of his creditors. But an insolvent debtor can not use his wife's name as a mere device to cover up and keep from his creditors the assets and profits of a business which is in fact his own. Transactions between husband and wife having the appearance of being fraudulent will be closely scrutinized by the courts. It is a question of fact to be determined from all the circumstances of the case, whether or not a husband is carrying on his own business or is merely managing his wife's business. It must clearly appear that the wife is the bona fide owner of the capital invested in the business, and that the accumulations which result from the conduct of the business are the legitimate outcome of the investment of her property.

REAL OWNERSHIP OF THE AIR—A CASE RECENTLY DECIDED IN ENGLAND.

Can a person own the air? Apparently yes—at least so it appears from a very curious case which recently rose in England on the maxim that the owner of land owns it usque ad cælum. The facts were these: A owned a public house in fee, and B an adjoining timber yard. A loft, which formed part of B's premises, projected over A's land Both the properties had belonged formerly to X, who in 1870, leased the timber yard to B for twenty-one years. In 1872 X conveyed the public house to A, no reference being made to the overhanging loft, and shortly afterwards, conveyed the timber yard to Z, who conveyed it, in 1875, to B. B began to heighten the loft, and A asked an injunction on the ground that it or at least the column of air over it, belonged to him. To this latter proposition the court assented and decided that A was the owner of the space above the loft, and enjoined B from raising it. The name of this remarkable case was Layburn v. Gridley, L. J. 55; S. J., 363; L. T. 390. —Irish Law Times.

EPITOME OF NEW INDUSTRIES.

ALABAMA.

Greenville—J. H. Perdue has contract at $13,445 for the erection of the two-story school building 65x80 feet.—Montgomery—The city council expects to award contract about October 15, for a new city stable to cost from $8,000 to $10,000.

ARKANSAS.

Bentonville—James Haney has been awarded contract for a two-story brick city hall building 20x40 feet.—Forsyth—The Second Methodist Church, of East Americus, contemplates building a church.—Hot Springs—The building of a $500,000 sanitarium by the Independent Order of Odd Fellows is proposed. Z. W Lakenane can give particulars.—Pine Bluff—The Knights of Pythias intend building a hall.

DISTRICT OF COLUMBIA.

Washington—C. C. Martin has contract for a $11,000 addition to the Hotel Shoreham. R. I. Fleming prepared the plans —Washington—J. F. Adams has contract to erect a brick stable 30x250 feet for the Belt Line Railroad Company.

FLORIDA.

Orlando—J. R. King is promoting a project to build a $300,000 hotel.

(Continued on page 1302.)

Continued from page 1299.

GEORGIA.

Adairsville—W. J. Hilburn will build a two-story brick hotel.—Augusta—S. R. Craig, referred to in last issue, is agent for Henry B. King, who contemplates erecting a three or four-story business building.—Forsyth—The building of a $25,000 courthouse by Monroe county is talked of.—Waresboro—The Methodists will build a church.

KENTUCKY.

Bellevue (P. O. Newport)—Plans have been prepared for a new edifice for the English Lutheran Church.

MARYLAND.

Arlington—The Baptists will build a new church. Rev. Allan K. Foster can give information.—Baltimore—Building permit has been granted the Drovers and Mechanics' National Bank to erect a six-story brick and stone building, and the Baltimore City Passenger Railway Company to erect a one-story brick and stone building 124¾x184¼ feet.—Baltimore—The City and Suburban Railroad Co. will build a one story brick car house 51x200 feet.

MISSISSIPPI.

Greenville—The Greenville Opera-House Co. has been chartered by H. K. Johnson, L. P. Smith, J. H. Wynn and others. The capital stock authorized is $30,000.

NORTH CAROLINA.

Greensboro—Contract will shortly be let for an edifice to be built in South Greensboro for the Episcopalians. Epps & Hackett are the architects.—Wilmington—D. A. Garber prepared plans for the three-story brick and granite office building for the Carolina Insurance Co. It will cost $5,000.

TENNESSEE.

Chattanooga—Building permit has been granted the Chattanooga Gas Light Co. for its three-story brick building. Adams & Schneider have the contract, and the cost will be $12,000.—Chattanooga—Rev. T. H. McCallie will erect a two-story brick block with a frontage of 100 feet.—Chattnooga—The East Tennessee, Virginia & Georgia Railway Co. (office, Knoxville) has, it is stated, purchased property on which to build a new freight depot.

STREET IMPROVEMENTS.

ORDERED AND APPROVED BY THE COUNCIL.

NOTE—Abbreviations signify: c, curbing; g, grading; m. macadamizing; p, paving; f, filling; w. s., water service; swk, sidewalk; lp, lamp-posts.

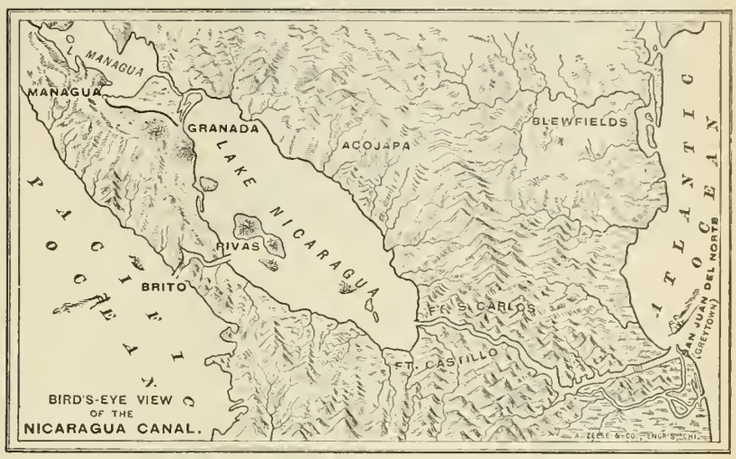
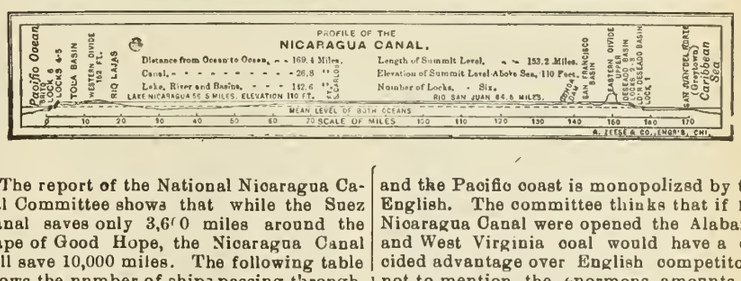
Lake st W 331, Rufus Wright, 3 story factory, $8,000.



Woodside av 113, Nells Bach, 2 story dwelling, $2,800.



Woodside av 99-105, H L Huntly, two 1½ story cottages, $3,600.

THE NICARAGUA CANAL PROJECT.

AN ADDRESS TO THE PEOPLE OF THE UNITED STATES BY THE COMMITTEE OF THE NATIONAL NICARAGUA CANAL CONVENTION — REASONS WHY THE ENTERPRISE SHOULD BE CONTROLLED IN THE UNITED STATES.

The report of the National Nicaragua Canal Committee shows that while the Suez Canal saves only 3,600 miles around the Cape of Good Hope, the Nicaragua Canal will save 10,000 miles. The following table shows the number of ships passing through, the net tonnage and the gross receipts of the Suez Canal for six separate years :

Year	No. Ships	Net Tonnage.	Gross Rec'ts (Francs.)
1870.....	488	436,600	4,345,758
1875.....	1,494	2,009,984	26,430,750
1880.....	2,026	3,057,421	36,492,620
1885.....	3,624	6,335,752	60,057,259
1890.....	3,389	6,853,637	68,983,500
1891.....	4,206	8,699,020	83,421,504

The tonnage tributary now to the Nicaragua Canal, and which would pass through after its opening, is over 6,000,000 tons a year. At $2 per ton, the charge made by the Suez Canal, this would be $12,000,000 in tolls. The cost of operation and maintenance is placed at less than $1,000,000, and 6,000,000 tons would show a net income of $11,000,000 per annum. The committee is confident that within five years the income will be over $20,000,000. The committee thinks the completion of the Nicaragua Canal is only needed to develop that country to production of gigantic proportions and double the population of the Pacific Coast in a few years. The cotton growing sections of the gulf states have undergone a depression, and the committee believes that nothing could be of greater immediate advantage than the canal in relieving that depression, and making a market for American cotton in Japan, China and Corea, where already the people are beginning to manufacture cotton goods by machinery. Japan imported over 7,000,000 pounds of American cotton in 1891, most of which was shipped from New Orleans to New York and then by rail to Vancouver and steamship to Japan.

At present the coal trade of South America and the Pacific coast is monopolized by the English. The committee thinks that if the Nicaragua Canal were opened the Alabama and West Virginia coal would have a decided advantage over English competitors, not to mention the enormous amounts of coal the canal company itself would use. At the entrance of the Suez canal last year 1,500,000 tons of coal were sold. In competition with England for Pacific Ocean trade the Nicaragua Canal would give American commerce an advantage of 2,700 miles, while besides the specific benefits the committee thinks great general benefits will accrue to the entire Mississippi Valley, the lake ports, and the Atlantic coast. Ship building and the shipping interests in New England will receive a new impetus. A new coasting trade will spring up and American tonnage on the high seas will largely increase.

The committee says that great trans-Atlantic powers are looking with covetous eyes toward the Nicaragua project and that foreign governments would very cheerfully and eagerly embrace an opportunity to take advantage of the enterprise with unlimited capital and prompt energy, but it conceives it to be the patriotic and political privilege of the United States to complete the canal. The commercial and naval supremacy of the nation which might secure control of the canal demands imperatively that its control should not pass away from the people of the United States. It is made plain that two fleets would be required to block an American fleet in Nicaragua where one would be necessary elsewhere. As a foothold from which to attack or defend, to threaten or protect all the coasts, islands and adjacent seas, it is a more commanding power than Gibralter.

Among the beneficial results foreseen are a more practical drawing together of the remote parts of the vast domain of the world and a firmer cohesion of the widely-separated sections of the United States

added to a stronger feeling of neighborhood and community between the Atlantic and Pacific seaboards. The consummation of the work, whose feasibility has already been demonstrated, is asserted to be of far greater importance to the Western hemisphere than the Suez Canal is to the Eastern. It is said that no precedent can be cited upon which to predict the future of American commerce when the gateway of the Inter-Oceanic Canal across Nicaragua shall be open to it.

THE
CHICAGO,
MILWAUKEE
AND ST. PAUL
RAILWAY CO.

Owns and operates 5,650 miles of thoroughly equipped road in Illinois, Wisconsin, Iowa, Missouri, Minnesota and Dakota.

It is the Best Direct Route between all principal points in the Northwest, Southwest and Far West.

The Marvel of the Musical World.
$30 worth of CHOICE MUSIC for $1.50.
The New York Musical Echo is quite a novelty in modern journalism, and affords a grand opportunity to musicians and music-loving people. It is a large quarto musical publication, published monthly, each number containing 24 full size pages of sheet music, the brightest, liviest and most popular selections of the day, both vocal and instrumental, together with a pretty cover, on which is a full page portrait of some beautiful actress for singer. The music and portrait changed with each issue.
A Year's Subscription to the New York Musical Echo is $1.50 (sample copies 15c.) and means 288 full size pages of sheet music and twelve fine portraits, making when bound one of the handsomest portfolios of the newest and nicest music ever published. We want our friends to be careful of each number as duplicate copies may soon be a thing of the past. Don't lose any of the pretty music we are publishing, so start from the December number. The American News Co., or any of the News Agencies will supply you, or order direct of us
The New York Musical Echo Co.,

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same

A number of new factories has been indueed to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,

Industrial Commissioner,

C., M. & St. Paul R'y, 160 Adams St., Chicago, Ill.

FRANKLIN PARK 90 feet above Lake Michigan. "EXCELSIOR" Is Its Motto.

What a Word of Significance in these simple Figures for the safe Guidance of the prudent Man who, in locating a Home for his Family, would put high above all minor Considerations,

The Priceless Boon of Health.

FRANKLIN PARK is the Growth of less than two Years. It is the suburban Terminus of the Chicago & Northern Pacific R. R., and is situated at the Intersection of the Wisconsin Central R. R. with the Chicago, Milwaukee & St. Paul R. R. It is 90 feet above Lake Michigan, 11 miles from the City's centre, 2 1-2 miles west of the City limits and is accommodated by 54 passenger trains daily. It has the two finest suburban depots west of the City, costing over $5,000 each, a spacious hotel, a fine block of stores, scores of attractive residences, miles of side-walk, sewers and shade trees and an abundance of wholesome water.

On its western border is MANHEIM, the nucleus of extensive manufacturing concerns and destined to be a busy centre of diversified industries.

You areWelcome any Sunday or any Weekday, to a free Ticket for the Inspection of this,

The Highest Suburb of Chicago.

My Sunday Trains leave on { Chicago and Northern Pacific R. R.
Chicago, Milwaukee and St. Paul R. R.
At one o'clock P, M

Besides the Sanitary Excellence of this Richly-Favored Locality, FRANKLIN PARK Lacks not a single Element

OF A PERFECT SITE FOR A HOME.

BUSINESS OF THE WEEK.

COLUMBUS CELEBRATION BREAKS INTO THE BUSINESS WEEK—FIRMER FEELING IN THE MONEY MARKET—STRONG BUT NARROW NEW YORK STOCK MARKET—GREAT WHEAT MOVEMENT.

The holidays which have broken into the week at New York and which promise to monopolize the most of next week here, have had some little effect in unsettling markets. The money market, especially in the East, is a trifle firmer than it has been for some time. This is due in part to the unfavorable bank statement of last week. It is claimed by a great many brokers that the money market is shaping itself for a stiff advance in rates. Unless there should be a further decline in sterling exchange rates and importations of gold, bankers look for a full six per cent money rate. The Columbus celebration will temporarily lessen the demand for money, and the Treasury is about to make large pension payments. At the present rate of the currency movement to the west, however, the surplus reserves of the banks will be further reduced if not swept away altogether. The higher rates of discount in London and the purchases of gold there for the Austrian account may serve to prevent any large sterling loans here.

Notwithstanding the fact that call money on the New York Exchange has been bid up to nine percent, the stock market has been reasonably firm. The market, however, is virtually one of trusts, and the industrials lead in activity. Distiller's and Cattle Feeder's Trust and Chicago Gas have lead the trading throughout the week. Sugar trust has not been quite as strong as the two above stocks and netted a fractional decline. This was the course in General Electric as well. In reference to the holdings of gold abroad the statement is made that the great European banks have an aggregate of £144,190,000, an increase of £22,578,000 over the holdings a year ago. The largest increase is shown by the bank of Austria-Hungary. The bank of France is second and the bank of England third on the list of increases. The bank of Germany has been a loser and now holds less gold than a year ago.

The outlook in the various lines of business was never much better than at present. Despite all theories and statements to the contrary, the year's crop promises to be more than an average one, and the movement of wheat during the past ten weeks is something phenomenal. Within the past five years the largest crops ever produced in this country have been moved under the pressure of a foreign demand far greater than was ever known before. There has never been, however, a single week during that time in which the receipts of wheat at nine principal western ports has been as great as that of last week or the week before. In the two weeks together the aggregate of what is known as the interior movement, was 18,000,000 bushels. The aggregate in any two consecutive weeks before has never been above 16,000,000 bushels. In the ten weeks ending Oct. 8, the receipts at the seven points above mentioned amounted to 77,000,000 bushels. Last year during the same period the receipts were about 67,000,0 0 bushels. In 1890 26,000,000 bushels were received, in 1889 about 34,000 000, and in 1888 about 33,000,000. Under ordinary circumstances an unusual wheat movement is caused either by exceptionally high prices or an unusual demand from abroad. The situation is something of a paradox this year for the reason that the movement has come with prices down below all precedent. The export demand, too, has been light and the exports during September much smaller than a year ago. The domestic demand is scarcely the moving force, as the visible supply at present exceeds that of last year by 20,000 bushels. To further complicate matters there does not seem to have been any force to drive wheat away from the farmers. The Western farmers can not be in any immediate need of money. The unprecedented crop of last year being sold at unusual prices, was followed by extensive liquidation of indebtedness and they were left in a better financial condition than they had known for years. The wheat experts under the existing condition have given up the attempt to furnish any theory which shall be entirely satisfactory regarding the crop movement.

ANALYSIS OF BANK CLEARINGS.

The following are the bank clearings of 70 leading cities for the week ending Oct. 6, 1892, as compared with those of the corresponding week last year, with percentages of increase and decrease.

†Not included in totals.

The grand total of bank clearings for the week is $1,303,000,000. This is an increase over last week of 23 percent, and is nearly 6 percent more than the total of the corresponding week in 1891. This is said to be due to the volume of settlements at the end of the third quarter of the year. It indicates an unprecedented activity at almost every point. Improvement is noticed especially at the South. An advance in the price of cotton has stimulated trade of all kinds at New Orleans and Memphis. Louisville and Nashville both report encouraging indications. Cotton and tobacco are both active just at present, and these products are of especial interest to almost every section of the South. The demand for all kinds of merchandise at southern centres is increasing and a general wave of prosperity seems to be on its way. St. Louis, Kansas City, Omaha and Denver, all report visible improvement in the business situation. The West and Northwest likewise share in the general prosperity. Chicago's clearings this week exceed those of the week last year by 19 percent. Detroit and Indianapolis report a boom in manufacturing. Trade has increased at St. Paul, and at Minneapolis the output of flour for the week was 209,000 barrels against 194,000 last year. At Philadelphia, Baltimore and Pittsburg trade is reported better than usual, with a large demand at the latter city for manufactured iron. At the cotton manufacturing centres of the East prices are reported firm and holders of manufactured goods are not yet embarrassed with an over supply.

The situation on the whole indicates a strong domestic demand for manufactures. The foreign trade of the week has not been encouraging. Exports of domestic products have been far less than in the corresponding week last year. At the same time imports of foreign merchandise have greatly increased. The present stagnant condition of trade in England doubtless has some effect in decreasing the volume of our exports. Viewed with reference to the foreign trade, the home situation must be conceded to be exceptionally strong. The only cities that have shown decreases during the present year are San Francisco, Los Angeles, Tacoma, Duluth, Nashville, Chattanooga Birmingham, Norfolk, Waco, Fort Worth and Galveston.

An examination of the bank clearings for the first nine months of 1892 shows that Chicago has outstripped Boston and now rightfully takes her place as the second city in the list. The aggregate of Chicago's clearings for the nine months is $3,712,431,794. This is nearly $88,000,000 more than Boston's total for the same period, so that the excess is not small, and Chicago may be considered as having advanced to second place permanently. Other changes in the list are noted, the most important of which are Kansas City, Minneapolis, Cleveland and Omaha. Kansas City has passed New Orleans and taken tenth place. Minneapolis has passed Buffalo and Louisville, and comes up from fourteenth to twelfth place. Cleveland has passed Galveston and Providence and moved up from nineteenth to seventeenth. Omaha has advanced from twenty-second to eighteenth. Note that these are all western cities. The indication is clearly in favor of a westward movement of trade of great magnitude.

The total clearings for all of the cities of the table which are available for comparison shows an increase of 10 percent for the first nine months of 1892 as compared with the same period in 1891. The corresponding total for all the cities except New York shows an increase of 9.8 percent over 1891, 6 percent over 1890 and 20 percent over 1889. It should be explained in this connection that the New York clearings have fallen off during the past few months owing to the establishment of a separate clearing house for the Stock Exchange of that city.

The analysis by groups of States for the same weeks is as follows:

	WEEK ENDING OCT 6, 1892.	WEEK ENDING OCT. 10, 1891.	PERCENTAGE.

LOCAL STOCK MARKET.

The tendency in the Chicago stock market during this week has been toward greater activity and higher prices. The street railway stocks as usual developed the most strength, and were leaders in the upward movement. A number of elements enter into the advance of West Chicago Street Railway stock. The bull element in this security believes that a considerable short interest has been developed in West Side at about the 200 point, and they believe that the shorts can be run to cover before the stock goes many points higher. The course of the market is undoubtedly in the hands of a small clique, and the past movements have demonstrated that it is susceptible to manipulation. The constant flow of stock is apparently toward Philadelphia, and it seems as if the Philadelphia buyers must have made considerable progress in securing control of the property. The market on Monday opened with the sale of one hundred shares of the stock at a cash price of 200¼. On Tuesday the stock reached 205¾ regular and 208 for the account. From that point on there were rapid fluctuations in the stock but in the main the prices set by Tuesday's operations were sustained. North Side stock has been scarcely so buoyant as the stock of the West Side company, presumably for the reason that the Philadelphia people have not been trading so extensively in it. It has been quoted during the week at about 255 to 257. The Industrial stocks have shared to some extent in the general activities of the market. Strawboard on Monday went from 78 to 79 regular. It is claimed that the directors of the Strawboard company have patched up some sort of an arrangement with the independent mills by which the questions at issue between them will be adjusted and the old rates of prices re-established. The brewery stocks were firm but it is a disappointment to some that they do not advance more rapidly. The speculation among brokers is now as to the probability of common stock dividend both in the Chicago Brewing and Malting company and in the Milwaukee and Chicago Brewing company.

If the entire stock of Street's Stable Car company did not appear to be anxious to come out at a price slightly above 30 some advances might be noted. The stock was strong this week and there was talk of squeezing some of the shorts. The usual quarterly one percent dividend was declared, payable Oct. 25. The action of the Chicago Great Western, Chicago Milwaukee and St Paul and other Western roads in practically abolishing the use of private stock cars will no doubt be watched with interest by the stockholders of the Street's company. A New York financial paper quotes the manager of one of the important Western railway systems as follows: "I don't know of a more foolish waste of money than our payments to private stock car people, I have had figures prepared which show our own cars must have been standing idle while we have paid private stock car owners over $100,000 during the past year. There were only four days during the year when we had more loaded cars on our track than we actually owned. Aside from the tax of $30,000,000 annually, which American roads pay for the use of private cars the main point against them is the discrimination possible by their use. It is a very common thing for a large shipper and a private stock car company to make a deal by which the car company pays the shipper a certain amount on every car used. The shipper then insists on the use of this particular car and the railroads are forced to pay mileage to the private car company. The mileage to Western cattle ranches averages about 1,500 miles from Chicago. At a cent a mile each way the railroad companies are forced to pay an average of $30 a car. It is easy to see how the private car people could well afford to pay the shippers a certain sum for using their cars."

The weakness in Calumet Dock which has been a feature in the market for some time is partially explained on the ground that some important sales which were arranged for, have gone by default inasmuch as the company has had trouble in perfecting title. Some time ago an important sale to the McCormick company was made with the provision that part payment was to be made in preferred stock. This stock was deposited in escrow, subject to the perfection of the title. When the preferred stock was retired this stock was taken out of escrow, and notes endorsed by the Dock company substituted. The Dock company, on account of squatters claims, has failed to complete the title to the property and has been forced to meet the notes which it substituted for the preferred stock. All the available cash resources have thus been used up, and dividend prospects are not good.

THE REAL ESTATE MARKET.

It is rather an odd coincidence that the two leading sales of down town real estate of the week, and in fact the only sales of importance should be of Clark and Jackson street corners. The negotiations between the Western Union company and the Phenix Insurance company have been of such long standing that the sale of the Phenix for a million and one half dollars can scarcely be classed with this week's business. However, the sale was not actually closed until early this week and the prospects a week ago were that the lease of the Postal Telegraph company would prevent the occupancy of the building by the Western Union. The sale will be the largest ever made in the history of Chicago down town property. It is the first sale of importance made in which the improvements were first class. The lot on which the buildings stands has a frontage of fifty feet on Clark street, 200 feet on Jackson street and a third frontage of fifty feet on Pacific avenue. Estimates have been made of the value of the land and building, which place the land at about $75 a square foot. The Telegraph company will begin operations in re-building the upper story of the Phenix building. The building at present is nine stories high, the upper story being one large room twenty-two feet in the clear. The Phenix Insurance company now occupies this portion of the building and will be continued as a tenant in case the Western Union people can make the improvements they propose. They will rebuild the attic of the structure into a tenth story and use it as an operating room. The ninth story will then be kept in reserve in case further operating space is needed.

The corner directly east of the Phenix Building on which the Hotel Grace stands, has been purchased as a fee by the Chicago University. The lot has a frontage of thirty feet on Clark and 103 feet on Jackson street. It is sold by the estates of Nimrod Long and George W. Norton of Louisville, Kentucky, for $265,000. The lot is under lease to Edward Grace for a fifty-year term running from Feb. 1, 1882. The present ground rent is $6,750 a year, and the rental is on a basis of 6 per cent of the appraised valuation to be made every five years. The next appraisal will be made Feb. 1st 1894. The present building, an eight story brick structure, cost $130,000 and is to revert to the lessors at the end of the term. In the purchase the Clark street frontage is valued at $8,952 a foot and the square foot valuation of the land is put at $51.50. The Trustees of the University evidently believe in putting their funds into real estate holdings and now have quite an extensive line of fees.

The stockholders in the Waukegan Harbor and Dock company, on Thursday visited the 1,400 acre tract lying along the Lake Shore North of Waukegan which is to be developed by the construction of a harbor and the establishment of an industrial point. The property lies along the Lake Shore for a distance of nearly five miles. A committee consisting of Dunlap Smith, J. B Hobbs, Charles A. Kerfoot, Samuel P. Parmly, and Charles E. Simmons was appointed to perfect the organization of the company. S. W. Allerton will be the President of the new company which will have a capital stock of $500,000. It is the intention of the syndicate to begin work at once in dredging out what is known as Dead River so as to form a harbor and dock system and to connect this system with the Elgin, Joliet and Eastern Railway.

A LARGE CINCINNATI FIRM MOVING TO CHICAGO.

The removal of the Frank B. Barkley Manufacturing company from Cincinnati to South Waukegan is regarded as significant by men engaged in the manufacture of harness. Cincinnati has always been known as the harness center of the country, but the removal of the Barkley company is said to mean that other Cincinnati concerns will soon follow its example. While Cincinnati has the best facilities for manufacturing harness, it has not the commercial relation with the world that Chicago possesses and is wanting in transportation facilities. The Barkley company will begin the erection of its factory at South Waukegan at once, and it is expected that it will be completed by Jan. 15. The plant will be a model of its kind, particular attention being given to the ornamentation of the grounds, which will be visible from the Northwestern Railroad. Employment is to be given to 100 men from the start, to be increased as business justifies. The buildings will be of brick and iron. The main structure will face the railway, and from the rear will extend three long wings.

CLOSE OF THE PURCHASE OF THE ART INSTITUTE BY THE CHICAGO CLUB.

The transfer list yesterday contained the final record of the transaction whereby the Chicago Club becomes owner of the Art Institute property at the southwest corner of Michigan avenue and Van Buren street. The consideration named is $425,000. The purchase of this valuable property has been in process of consummation for about a year. It was first formally announced last December. The ground measures 80 x 171 feet and is valued in the transaction at $4,000 a front foot or a little over $23 a square foot. The building is a beautiful structure of brown stone and will make the club a palatial home. The corner 54 feet of this property was sold in 1880 by White & Vowell to A. E. and S A. Kent for $28,000. In 1882 it was sold to the Art Institute for $45,000. The valuation in the present transaction of $4,000 a front foot would make a total of $216,000 for the fifty-four feet which is thought to be less than the actual present value of the property. This, however, is nearly five times the value of the property ten years ago.

A WORLD'S FAIR HOTEL TO CONTAIN OVER 6,000 ROOMS.

A company known as the World's Fair Co-operative Bureau has leased the property bounded by Seventy-third and Seventy-fourth streets and Seipp and Cregier avenues for two years from Martha J. Boardman, for $21,000. It is proposed to build on this site a series of World's Fair hotels which will cover in all a ground area of ten acres. The structure will consist of a series of four story frame hotel each thirty feet wide and 620 feet long, separated by courts thirty feet wide. Each of the upper floors will have about five acres of floor space. In all there will be 6,124 rooms. "The Andreas" is to be the name. It will be lighted by electricity and heated by steam, and will have the usual proportion of parlors, reception and dining rooms. "The Andreas" will be a depot and have its own side tracks, platform, and station. Special trains running in connection with it will deliver and receive passengers and baggage on its platform. The location of the hotel is only six blocks from the World's Fair ground. The building will cost about $250,000. Work will commence at once. The personnel of the company is as follows: Directors—General John L. Beveridge. General A. L. Chetlain, the Hon. Richard S. Tuthill, General H. H. Thomas, Captain A. T. Andreas, J. B. Skinner, J. F. Keeney. Officers—President, General John L. Beveridge; First Vice President, General A. L. Chetlain: Second Vice President, General H. H. Thomas; Secretary and General Manager, Captain A. T. Andreas. The company proposes to furnish its subscribers with sleeping accommodations at the rate of $1 a day.

NO END TO THE BUILDING ACTIVITY.

The present phenomenal building activity seems to be without limit, judging from recent developments. New hotel enterprises are being inaugurated on a larger scale than ever before, and apartment houses are being built in all parts of the city in an apparently reckless profusion. And yet the experience of real estate men is that new buildings, except in the World's Fair district where they are held at speculative rental prices, are occupied almost before they are completed. An attempt has been made to give the impression that there are large numbers of buildings standing empty, but this on investigation is found to be untrue. Of course there always will be a good many old houses that will be without tenants, but the new buildings are being taken as fast as they can be completed. This is true on the north and west sides as well as on the south side. People who cannot afford to pay the almost prohibitive rentals in some parts of the south side are moving to the north and west into cheaper but as convenient quarters. The moving vans may be seen night and day engaged in helping on this exodus, and this movement will continue until after the opening of the Fair. After the Fair there will necessarily be a movement back again into the district, but this cannot be extensive enough to cause any very great falling off in the demand for houses throughout the entire city. The fact is, the growth of the city is so rapid that, to use a colloquialism, the World's Fair "is not in it," and those investors who are now holding back in expectation of a drop after the Fair will discover that values then will be greater than they are now.

ECHOES FROM BUFFALO.

A certain amount of friction is characteristic of American institutions. When individuality, sociality and nationality are all recognized in one body which has a common purpose, there is sure to be more or less friction until the corners are worn off and the heterogeneous elements are rendered homogeneous. Different dispositions must be adapted to one another, different issues not exactly similar, but tending toward a common purpose must be understood and appreciated by all before a newly organized body can make progress in the work for which it is created. No other body of men representing so many interests ever organized with less friction than the National Real Estate Congress. The second congress, recently held at Buffalo, made but little progress to be sure, but it laid the foundation for good work in the next meeting at St. Paul. The association can profit by past experience and from increased membership. Its officers were the unanimous choice, almost, of the entire body, because they were chosen on account of their fitness for their respective duties and not simply because they wanted the office.

The petty jealousies and rivalries among the delegates will wear away and deliberation will take the place of chaos. No such disorder among the delegates as described by a Chicago daily existed at Buffalo, but the annoyance came from outsiders who went there to disturb the meeting. It is not generally known that a few parties from Chicago, not delegates, were in Buffalo for the express purpose of doing all they could to annoy the speakers, as well as the chairman, of the convention. A few others with similar motives, together with some newspaper boys, acting in concert, were permitted to disturb the meeting, but it was nothing more than what occurs every week in Chicago where the rifraff are not always excluded. The convention was allowed to take its course and the provisions of the constitution were either forgotten or ignored.

* * * * * * *

The little episode on Wednesday which resulted in all of the delegates and the spectators leaving the hall, was more the result of a hasty remark by Alderman Vierling not intended to injure the president or the association, than of opposition to anybody or any measure before the house. The delegates were tired even then, having been harangued by Henry George, and a score or more of would-be orators. It is safe to say that Robt. G. Ingersoll was the only speaker before the convention who was treated with due respect.

* * * * * * *

Ingersoll directed his thunderbolts against the barbarisms of the common law, and not against the Bible as usual, and his subject, "Progress" gave him a wide scope. He is the only man I ever heard talk on scientific subjects in a popular sense. He taught philosophy in eloquent language and brought down the house; he stripped science of its technicalities and wound up with a series of climaxes, by asserting that Buffalo would be the greatest manufacturing centre of the world. Others in that magnificent audience of 5,000 spell-bound hearers were inspired with the same eloquent thoughts as he referred agai and again to Niagara and the tunnel which is to hold and curb but a small fraction of the power of the falls, and yet utilize a force greater than all other water powers on the face of the globe.

Had the speaker capped the climax with a sentence written for the occasion by a man on the stage,

In rear of him, Buffalo would have been presented in its true light. Here it is: "Buffalo is indeed the colossus of the Fresh Water Seas. Standing with one foot on Niagrra, the other on the Shore of Erie, the right hand reaching out to the wheat fields of the great northwest, and the iron mines of Superior, and with the left grasping the railroads of a continent, it commands the admiration of the world.

FINANCIAL POSSIBILITIES.

To the capitalist the possibilities for the profitable investment of money in Chicago real estate are practically boundless. In view of this fact it is surprising that so little interest is at present manifested in real estate.

The World's Fair has had a favorable influence on the market so far as hotel sites and business property in the Fair district are concerned, but even there the opportunities that are offered do not meet with so ready an acceptance as might be reasonably expected in view of the almost sure returns that will be forthcoming next year. Owners of vacant property are offering every inducement to secure purchasers. In some cases they are even willing to take second mortgages in part payment to encourage substantial improvements on their property. Conservative real estate men have been able to figure out a profit of from 50 to 60 per cent on their investments, and in fact in one instance a World's Fair hotel was recently leased for the term of the Fair for 66⅔ per cent of the entire cost of the ground and the improvements! This may be an exceptional case, but it simply illustrates what can be done by the judicious investment of money in World's Fair property at the present time. The announcement is publicly made by the leading hotels of Chicago a week in advance of dedication day, that their accommodations are all taken, and that they can not find room for any more guests on that occasion What will be the result when the present floating population is augmented ten fold during the Fair? People are beginning to see that the hotel accommo lations of the city are sure to be taxed to their utmost.

But the opportunities for profitable investment in Chicago real estate are not confined to the World's Fair district. Central property is probably safer and in the long run more profitable than any other. Careful investors are alive to this fact now more than ever before. The experience of the past has taught them that for a constantly improving investment nothing exceeds in value, Chicago down town property. When it was desired to invest the funds of the new Chicago University the trustees selected central ground fees as the choicest security they could find. Their recent purchases of this class of property has demonstrated their confidence in its value as a permanent investment. The university is expected to be in existence for hundreds of years. As time passes the land held for it will double and double again in value, while were the investments in bonds or mortgages, all increase, except from income, would be barred out. An instance of the advantages of investments in property is afforded by the purchase for the university prior to that of the Clark and Jackson street corner. This was 40 feet on Michigan avenue, 200 feet south of Peck court. The price paid was $65,000 or $1,625 per front foot, and the purchase is subject to a ninety-nine years' lease, paying 5 per cent per annum on the purchase price. This land is now worth $2,500 per foot and would command that price were it in the market.

Time works wonders in Chicago, and those who can afford to wait are sure to win. As a case in point may be mentioned the holding of the Northwestern University in the west half of the property covered by the Grand Pacific Hotel. The ground, which cost the university $50,000 twenty years ago, is now worth $1,000,000. Numerous other instances could be cited, the most notable, perhaps, being the holdings of New York real estate by Trinity Church, the values of which run up far into the millions.

RAPID TRANSIT NOTES.

TROLLEY SYSTEM TO BE USED IN CHICAGO IF THE COUNCIL WILL PERMIT.

The extension of existing railway systems and the building of new lines is the order of the day in Chicago at present. The Chicago, Rock Island and Pacific railway company have begun building operations on a branch line running from the main line of the road to West Pullman. The new line or spur will be about three miles long. It will commence at a point 600 feet south of One Hundred and Twenty-third street and swing around east on One Hundred and Twenty-third street to the right of way of the Illinois Central railroad. It will then extend in a northeasterly direction along this right of way into the West Pullman tracks. The station and warehouses of the company will be at Morgan and One Hundred and Twentieth streets. When the spur is built the town of West Pullman will have connection with the Pennsylvania line, the Illinois Central line, and the lines of the Chicago, Rock Island and Pacific railway.

The Whiting, Hammond and East Chicago railway company is seeking a franchise from the East Chicago Town Board. The company asks the exclusive right to construct a line on One Hundred and Fifty-first street from the western limits to Olcott avenue, thence north on Chicago avenue, west to Forsyth avenue, north on Forsyth avenue to the limits From that point the company will use the public highway to Whiting and the Robey race track, where the road is to connect with one from South Chicago. Franchises were asked for covering practically every important street in the town.

The Chicago City Railway company, at the last meeting of the council, asked leave of that body to operate its cars with electricity on the following streets:

Halsted, from Archer avenue to southern terminus; Archer avenue from State to Thirty-eighth, and on Thirty-eighth to terminus; on Forty-third street from Eastern terminus to State, thence to Root street, and on Root street to terminus; on Wentworth avenue from Archer avenue to southern terminus on Sixty-ninth street, and from eastern to western terminus; on Ashland avenue from Archer avenue to southern terminus; on State from Sixty-first over the viaduct to Wentworth avenue, on that street to Sixty-third street, and from there to western terminus of present tracks.

The ordinance provides for overhead wires suspended not less than 18½ feet above the rails. In event of the discovery of another practicable method of furnishing electric power the measure gives the company a right to adopt it under the approval of the Mayor and Commissioner of Public Works. Power poles are required to be not less than 115 feet apart. The measure went to the Committee on Streets and Alleys South.

AGENTS' BUDGET.

J. H. Van Vlissingen & Bro. report an improved tone to the market, as evidenced by the following sales made this month: To W. H. Colvin Jr, 100 feet on Cottage Grove avenue near 54th street, $15,000; F. H Rood premises 5 and 10 47th court, $11,900; S. Page premises 220 46th street, $15,000; W. A. Hettich, 50 feet on Vincennes avenue near 60th. $4,000; August Schwartz, premises 100 Park avenue, $14,500; Albert Trunk, premises 412 Garfield avenue, $4,700; E. D. Seaton, 25x130, w f, on Dearborn avenue, 92 feet south of Goethe, $7,500; A. L. Stone, premises 2722 State street, $9,500, and the premises, 160-164 24th street $12,000; George McKibbion and Cyrus E. Sumner, the northeast corner of Armour avenue and 38th street, $4,300; T. H. Jones, 50x125 feet n f, on Englewood avenue near Winter street, $2,250; W. W. Pick, northwest corner Wood and Lake streets, 35x125, $8,000; Geo. McKibbion, southwest cor La Salle and 27th street, $7,000; F. and J. Devitt, southwest corner Vernon and 26th street, $5,500; Wm Merwick, 25 feet on Union avenue and 39th street, $900; Thomas H. Jones 50 feet on Emerald avenue, near 66th, $1,700, Frederick Berndt, 25 feet s f, on 21st street near Western avenue, $1,100.

E. P. Hotchkiss & Co. have sold for Messrs. Neuman & Hart to James E. Baker the northeast corner of Cottage Grove avenue and 63rd street, 100x115 for $41,000 cash. This is an advance to Neuman & Hart of $26,000 on the price paid less than three years ago. Also for Bogue & Co. to the same gentleman, the southwest corner of 63rd street and Drexel avenue, 117x100 for $10,000. Also for Chas. R. Cowan to R. Johnson 25x207 e f, on Drexel avenue north of 63rd street for $2,200 cash. All of these pieces are to be improved with first class buildings at once, excavations being already begun. This is first results of the "L" railway in that region, the construction of which at that point is only begun as yet.

Baldwin & Wilson and Stephen H. Garst have sold for John Vogel of Muskegon Mich.; twenty-three cottages and seven flat buildings located at the corner of Grand avenue and Division street to Frank W. White of Chicago for $70 000.

The property of the Waukegan Harbor and Dock company which was recently inspected by the stockholders of the company consists of about 1400 acres lying on the lake shore immediately north of Waukegan. The land extends north from Waukegan for nearly five miles. The title is said to be complicated, owing to sales for taxes. The land is admirably located for development. The channel of what is known as the Dead River can be made into a harbor with but little expenditure. The scheme of the company is to dredge out this channel and connect the dockage with the Elgin, Joliet and Eastern Belt Line. The scheme differs from the ordinary manufacturing town site project for the reason that the harbor feature is to be emphasized. A committee consisting of John B. Hobbs, Charles E. Simmons, Samuel P. Parmly, Charles A. Kerfoot and Dunlap Smith was appointed to perfect the organization of the company. S. W. Allerton will be President and either J. B. Hobbs or Samuel P. Parmly Vice-President. The Secretary will probably be Charles T. Trego.

The southwest corner of Clinton and Jackson streets has been leased to a local capitalist who will improve the property with an eight-story manufacturing building. The lot has a frontage of 100 feet on Clinton street by 156 feet on Jackson and the rental to be paid is $6,000 a year, being 6 per cent on a valuation of $100,000 or $1,000 per foot of Clinton street frontage. It is stated that the building to be erected will be of fireproof construction and will cost about $200,000. This corner was for years occupied by wholesale meat markets, but since their removal to Fulton street it has been vacant. The present improvement consists of a one-story brick building occupying the entire Jackson street frontage.

The Nonotuck Silk company, who have been located at Jackson street and Fifth avenue during the past five years, have leased, through Rounds & Clough the second floor of the new C. H. Fargo building on the southeast corner of Market and Quincy streets, for a term of five years at an annual rental of $5,500, or $27,500 for the entire term. Rounds & Clough have also rented the third floor in the same building to Lamm & Co., wholesale woolens, for a term of three years at a gross rental of $13,500.

Galloway, Lyman & Patton have made the following recent sales: Three two story brick residences at the southeast corner of Forty-sixth street and Champlain avenue for S. Blain to D. J. Mitchell for $13,500; 44 by 133 feet on Prairie avenue, between Forty-eighth and Forty-ninth streets, west front, for $5,500; 48 by 92 feet north front, on Chicago avenue between Noble and Snell streets, for $4,000; and 120 by 121 feet, south front, on West Superior street between Leavitt street and Oakley avenue, for $4,000.

Winston & Co. have leased to a syndicate for fifteen years thirty-four feet on Indiana avenue, about 200 feet south of Twelfth street, for $1,800 a year, 5 per cent on a valuation of $1,000 per front foot. The property is improved with an old two story brick structure that can hardly be considered of value in this transaction. The syndicate proposes to extend the building out to the street line and to remodel it into a saloon and hotel. When it is considered that property in this block went begging at $200 a foot a year ago the advance in values may be said without exaggeration to have been one of the most rapid in the history of the city.

Real estate values at Glencoe have taken a jump recently, owing to the reported strike of natural gas near the village. It is thought that the flow is only temporary, however, and that a pocket of gas has been tapped which is now exhausted.

Ederheimer, Stein, & Co. have leased the McCormick building at the southwest corner of Market and Jackson streets. It is a seven-story structure, having a frontage of fifty five feet on Market street and 120 feet on Jackson. It has been vacant since the McCormick company moved to Congress street and Wabash avenue. The aggregate rental is said to be $200,000. The present quarters of Ederheimer, Stein & Co have been sublet to H. Adams. The firm occupies the northwest corner of Van Buren and Market streets on a lease which has three years yet to run at an annual rental of $11,000.

W. W. Hutchinson has sold to C. H. Douglas for W. A Kammerer lot 383 in block 20 of the second division of Riverside for $6,500; also five lots on Kedzie avenue north of Armitage avenue to Gardner & Baker for $7,000.

W. D. Kerfoot, head of the firm of W. D. Kerfoot & Co. has returned from Europe after an absence of two months. Owing to the prevalence of cholera on the continent Mr. Kerfoot spent his vacation in London.

J. E McElroy & Co. report fifty-four lots sold at Chicago Heights during this month, ranging in price from $300 to $700. Lots that sold there last spring at $450 each have been resold for $1,500. F. B. McElroy will build three stores, 80x60 feet, to cost in the aggregate $15 000. Work will commence at once. The above firm will run a series of excursions to Sheldon Heights every Saturday and Sunday. Stewart avenue from 111th to 115th street is now being macadamized at a cost of $8,500.

Architect J. N. Tilton has planned for Arthur Pierce a four story store and flat building, 21x80, to be erected at 1549 Michigan avenue. It will be constructed of stone and pressed brick; cost, $10,000. For Peter Funk he has planned a frame house to be built on Edgecomb court, at a cost of $4,500.

DEDICATION WEEK.

The exercises commemorative of the dedication of the World's Fair buildings will commence Wednesday Oct. 19 with a banquet and reception to President Harrison at the Auditorium Hotel in the evening. On Thursday there will be an imposing procession in which it is estimated that fully 80,000 people will participate. The procession will form on Congress street and streets south of it intersecting Michigan avenue. The column will move north along Michigan avenue about 10 o'clock. When Adams street is reached the line will be west to Wabash avenue, north to Lake street, west to State street, south to Adams street and west to the reviewing stand, which will be in front of the post office, thence to Franklin street, south to Jackson and east to State street. The procession will march a few blocks south and then disperse.

Friday, Oct. 21, will be dedication day proper. The procession of invited guests will form near the Auditorium Hotel and move southward to Jackson Park. At 12:30 o'clock the program of exercises will take place in the Manufactures Building, under the Director-General as master of ceremonies. The night of Oct. 21 there will be a display of fireworks in Washington, Garfield and Lincoln Parks. Inaugural ceremonies in connection with the World's Congress Auxiliary will also take place on the night of Oct 21 at the Auditorium. President Harrison will be the honorary chairman for the occasion.

The dedicatory ceremonies will conclude on Saturday with the dedication of a number of the State buildings in Jackson Park, and military maneuvers in Washington Park. Arrangements have been made for seating 90,000 people in the Manufactures Building, and room for 35,000 more people will be provided. There will be 15,000 reserved seats for specially invited persons, whose tickets will indicate the portions of the hall where good. All other ticket holders, excepting 2,500 distinguished guests, will occupy seats in the order of first come first served.

THE COAL COMBINE.

A recent issue of an exchange contains three important items bearing on the anthracite coal situation, as follows;

Hard coal is reported at Bay City, Mich.; at a depth of 75 feet there is said to be a seam of 6½ feet in thickness.

Goshen, Ind.—The discovery of a promising vein of anthracite coal on the Belgium Horse Co.'s farm, west of this city, has been made. Prospectors of experience say the find is a good one, and farming lands adjoining have quadrupled in offered values in twenty-four hours.

The managers of the Color do Coal and Iron Co. assert that, owing to the economies of production that can be effected under the consolidation of practically all of the coal producing interests in Colorado, which has virtually been accomplished, the product of their anthracite mines can be laid down at the Missouri river, and points somewhat farther east, at prices that will commend it to consumers in preference to Pennsylvania coal.

The significence of these items is best, seen in the light of the recent opposition to the coal combine and the agitation in and out of the courts, against the Reading company. Here are three points widely separated, but all in the west, Indiana, Michigan and Colorado, in which anthracite coal is to be found. It is highly probable that in many other localities throughout the west, deposits of anthracite will yet be discovered in considerable quantities. The attempt of the coal combine to put up prices arbitrarily is stimulating the search for these deposits of coal, and the result which is thus being surely brought about by the combine itself, is that sooner or later the anthracite fields of the west will be opened up on so extensive a scale as to bid defiance to the east. Then will be seen a practical revolution in certain important lines of manufacturing which have hitherto been almost the exclusive property of the coal regions of Pennsylvania. The greed of the coal barons of that state is overreaching itself just as fast as it is met by the development of the new west.

NEW ORLEANS REAL ESTATE.

The recent prize lights at New Orleans were anything but creditable events in that city's history. An Eastern paper, speaking of these events, says: "The Olympic Club at New Orleans cleared $103,000 by the prize-fighting 'carnival,' and when all expenses were paid, $43,000 remained." It is certain that any level-headed, respectable investor, reading the above quotation and remembering New Orleans' disgrace in connection with the lottery business, would not dream of putting his money into real estate in a city where such a class of people congregate. Many things would at once warn such an investor not to place his money in New Orleans. Among other reasons he would argue, and justly so, too, that a city which fosters such nefarious schemes as prize-fights and the infamous "Louisiana Lottery" must inevitably be a city which, when one or other of such vile schemes are not in operation, is sure to have a far larger pack of lawless rounders and political lambs than ordinarily falls to the lot of one town. When such bummers have lost a pile of ill-gotten money in such contests as the late prize-fights at New Orleans, they are ready for all lawless schemes to replace it. It is unnecessary to mention here how much extra care was needed by the police to keep these classes in New Orleans in order. Men were said to have been searched for fear they carried concealed weapons into the fistic arena. New Orleans police were also thoughtful enough to warn some of the notorious characters to quit the town during the "reception" of plug-uglies who came to see the battering matches. It was an outrage that the city authorities consented to have officers of the law present to prevent any disturbance at the prize-fights, and to be very scrupulous in weighing the gloves. The moral character of the city which fosters the "Louisania Lottery" and three human stamp-mills for three days running must be decidedly low. We repeat again, therefore, that any business man would be at once repulsed from investing or settling in New Orleans by the above notorious facts, which give that city the unenviable reputation of being the most disgraced city in the United States."

FACTS ABOUT CHICAGO.

Population, 1,420,000, comprised in 27 nationalities. In point of population it is second in America and seventh in the world. Area in square miles, 180.5. Area of park and boulevard systems, 3,290 acres—the most extensive in the world. Miles of boulevard drives, 74. Number of steam railway lines centering in the city, 35, entering seven terminal stations Number of public hotels, exclusive of boarding houses and restaurants, 750, with room and accommodations for 200,000 guests, additional to regular patronage. A French traveler says Chicago wastes enough food every day to feed Paris Number of theaters and first class places of amusement, 32, with an average daily attendance of 25,000. Number of places of public worship, 465, with an average Sunday attendance of 100,000. Number of newspapers and serial publications, 531, which send through the postoffice yearly 20,000,000 pounds of printed mater. Bonded debt of Chicago, $18,500,000. the smallest debt of any great city in the world. Number of public school buildings, 221; number of pupils, 139,000. Miles of street railways, 397, carrying 600 000 passengers daily. Miles of streets, 2,335. Miles of river frontage. 41. Miles of lake frontage 21. Age of Chicago 60 years. Gladstone, the English statesman, was in active political life before Chicago was on the map. The Chicago fire of 1871 destroyed $1,000,000 of property every five minutes, and 125 acres of buildings every hour.

FRENCH LICK SPRINGS.

It is reported that a syndicate of Chicago capitalists will purchase the famous French Lick Springs, located in Orange County, Indiana, 275 miles from Chicago and about eighty miles northwest of Louisville, Ky. The land set apart by the French Lick and West Baden companies consists of about one thousand acres and on which are located the different springs, hotel, bath houses, club houses, etc. The springs comprise two groups which are nearly a mile apart. The southern group is the French Lick and the northern is the West Baden. Those at French Lick are inclosed in stone casements, while at West Baden they are covered with stone basins cut from the native whetstone rock. The principal springs yield about thirty gallons each a minute and seldom vary from fifty-three to fifty-five degrees Fahrenheit. The waters are classed by specialists as saline-sulphur but are rich in carbonates and chlorates as well. Among the promoters of the new company are Joseph T. Kretzinger and S. S. Beman. They will organize with a capital stock of $500,000, and expect to put the hotel and springs on a basis of attractiveness second to no similar resort in the country.

CURRENT COMMENT.

A municipal loan of $1,000,000 at 3 per cent was recently effected in Philadelphia. The insurance company that secured the loan bid a premium of $9,750, which brings the rate down nearly to a 2½ percent basis. The demand for safe investment securities has been so brisk of late that there need be no surprise at the floating of municipal bonds of the character issued by such a city as Philadelphia at so low a rate as 2½ percent. These bonds mature at the rate of $50,000 annually after the first ten years.

***

The problem of freight handling on our railroads is likely to prove difficult long before the close of the World's Fair. Even now there is great difficulty in some sections. In Indianapolis the demand for cars recently to move manufactured goods has been so great that the railroads have been entirely unequal to the emergency. In many smaller cities and towns the scarcity of cars has been more disastrously felt. Especially is this true in the coal carrying trade. Some dealers say they are short hundreds of tons of anthracite coal because the railroads have not been able to deliver it. In the crop districts there has been this year as usual a car famine, though no serious results have been reported as yet. Still the situation is sufficiently serious to merit attention in view of the approach of the World's Fair and the immense demands that will then be made on the railroads for carrying passengers. It appears that the difficulty heretofore has been chiefly augmented by the interference of special passenger trains with the regular freight traffic. Excursion trains have required the right of way, to the hindrance of freight trains. Some idea of what complications will be brought about in this way during the Fair period can be gathered by the experience of the present year.

***

The famous lake front litigation, with the State of Illinois and the City of Chicago against the Illinois Central Railroad company, is now before the United States Supreme Court at Washington. The Illinois Central claims the right to the submerged lands along the lake front comprising the entire outer harbor. It has been well said that if the Supreme Court shall decide that the claim of the railroad company is good, it will place in the hands of the Illinois Central Railroad company the power to close the gateways of commerce to Chicago and to bar the highways of trade in this city.

The railroad company bases its claim to the submerged lands of the harbor on two grounds. First, it claims the accretions to the soil along its lake shore right of way by virtue of the law of riparian rights. Under this rule of law the company claims that it is entitled to all the new land, piers or wharves it may reclaim or construct in the lake opposite its property skirting the outer harbor. This practically means the control of the entire harbor. The Supreme Court will be called upon to decide this question. But the Illinois Central company has also a distinct grant from the Legislature of Illinois, known as 'The Lake Front Act" of April 16, 1869. This act granted to the railroad company a right of way, 200 feet in width, through the lands and waters of the State, and also authorized the company to take possession of and use, for specified purposes, any lands, waters, materials and privileges belonging to the State, and by condemnation to acquire such as the State did not own and control. It is claimed by the attorney-general of the State that this act never had any force as a law. Upon the validity of this

act, then, depends almost entirely the right of the Illinois Central company to a hold on the commerce of Chicago forever.

***

The World's Fair dedication exercises at Jackson Park next week will be of interest in demonstrating the strength or weakness of our transportation facilities. There is a general impression that the present facilities are far from adequate to the accommodation of the thousands who will seek transportation to the grounds. The cable lines are only a small factor in the calculation. The alley "L" will run only to Fifty-fifth street and can carry possibly 8,000 passengers in an hour to that point, but from the terminus of the road to the World's Fair grounds is a walking distance of about two miles. The steamboat lines will have an opportunity to show what they can do. But probably the largest dependence must be placed on the Illinois Central railroad. There is hardly any limit to the number of passengers to be carried on that road. The other railroads also may be of some assistance, but on the whole it would seem well nigh impracticable to provide for the possible hundred thousand or more passengers who will demand transportation. If this can be done, it will demonstrate beyond a doubt the ability of Chicago to take care of the great World's Fair crowds which will be here next year.

***

A recent census bulletin shows that the rate of interest on bonded indebtedness in Minnesota, Wisconsin, Iowa, North Dakota, South Dakota, Nebraska and Kansas in 1890 varied from 4.99 percent to 6.76 percent. These may be considered rates for gilt-edged security. The rate paid by Minnesota, 4 99 percent, was a lower rate than was paid by thirty-eight other States and territories. Only eight States and the District of Columbia obtained money on bonded debts at lower rates as follows: Vermont, 4.92; Massachusetts, 4 85; Rhode Island, 4.95; Connecticut, 4,68; Delaware, 4.74; District of Columbia, 4.32; Indiana, 4.75; Tennessee, 4.37; Alabama, 4 37. It will therefore be seen that on bonded State, county and municipal security Minnesota can borrow money at almost as low a rate as the most favored eastern States. The average rate in the nine North Atlantic States was 5.10 percent, which was eleven mills on a dollar more than Minnesota paid.

***

Coal tar is said to be an excellent preservative for masonry, especially rendering it impervious to water where exposed to direct contact with that element. The tar is applied in a boiling state, in one or more layers. This method of treating foundations is declared to be of special utility in all public buildings, particularly those designed for the preservation of works of art, preventing, as is does, the exudations of water charged with lime salts from the mortar.

***

A Chicago real estate man of an inventive turn of mind has applied for a patent on a garbage receptacle which he claims will, if adopted, solve the problem of the disposal of kitchen refuse. His plan is for each householder to deposit all garbage in a pail with a perforated bottom resting on a base of tin or galvanized iron into which the drainage from the receptacle above is allowed to fall. In the course of a few hours the moisture is thoroughly drained off from the garbage, and it is then ready to be burned in the kitchen stove. Practical experience has shown that all kinds of kitchen refuse when thoroughly drained burns readily, and adds to rather than deadens the fire. In this way the disease breeding refuse from the kitchen is safely and effectually disposed of.

REAL ESTATE LAW.

TITLE TO REAL ESTATE ACQUIRED THROUGH INACCURATE FORECLOSURE PROCEEDINGS WILL VITIATE A CONTRACT.

New York Supreme Court, first department, Bernstein v Nealis. The plaintiff brought the action to recover the amount paid on a contract between the plaintiff and the defendant, whereby the defendant agreed to convey to the plaintiff the house and lot known as No. 237 Elizabeth street, together with all the fixtures therein, being the same premises as are particularly described by a deed made by Charles A. Binder to the defendant It was claimed that the defendant failed to perform the agreement on his part because the premises which he offered to convey are described in said deed as being twenty-three feet three inches in width in front and rear, whereas in reality they are only twenty feet in front and rear. Another objection stated in the complaint is that the defendant's title is defective, because in the deed of Binder to the defendant the premises are described as being 123 feet two inches from the corner of Prince and Elizabeth streets, while in reality the premises are 121 feet two inches from said corner. It was proved upon the trial that the defendant offered performance by tendering a deed describing the property as being known as No. 237 Elizabeth street, and situated between 239 and 235 Elizabeth street, having a frontage of about twenty-three feet three inches more or less and a depth of 91 feet three inches on each side. The plaintiff also established by the evidence that a survey had been made of the premises and they were 121 feet two inches from the corner and twenty feet two inches in width. The lower court decided in favor of the plaintiff, and the Supreme Court affirmed the decision of the lower court and stated as the title comes through a suit to foreclose a mortgage, and in the complaint and judgment therein the premises were described simply by metes and bounds, without reference to previous deeds or street number, the fact that the premises contracted for are two feet nearer the street corner than such description located them constitutes a fatal defect in the title, which entitles the purchaser to be released from the contract and recover back his deposit.

BURDEN OF PROOF IN CONDEMNATION PROCEEDINGS.

Supreme Court of Washington, Seattle & M. Ry. v Murphine. In condemning land for a corporate purpose, the burden of proving the value of the land sought to be condemned falls upon the party seeking condemnation, and not upon the owner of the land.

TITLE NECESSARY IN SALE OF LAND.

Supreme Court of Ohio, Rife v Lybarger. Where in a contract for the sale of land there is no stipulation to the effect that the premises shall be free from any incumbrance or cloud, the vendor is only bound to tender a marketable title.

CLAIM FOR MECHANIC'S LIEN AGAINST HUSBAND ALONE FATALLY DEFECTIVE.

Supreme Court of Washington; Sagmeister v Foss. Under statute requiring a claim of lien to give the name of the owner or the reputed owner of property sought to be charged, a claim which shows that claimant knew that an owner was married, but fails to give the name of such owner's wife, is fatally defective, as an action will not lie against a husband alone to enforce a mechanic's lien against his interest in community property, the wife being alive.

SUFFICIENCY OF DESCRIPTION IN A DEED.

Redd v Murry et ux., 30 Pac. Rep. 132. Where a deed conveyed land as a numbered block, as marked on the plat of the grantor's addition to a town, this evidences the existence as against him of such a plat; and evidence tending to show a survey of the town prior to the conveyance, and that the grantor produced the plat in question some years afterward as such plat, is sufficient to identify it as that mentioned in the deed —Sharpstein & McFarland, J. J, dissenting.

Such plat, although on its face furnishing no data for locating the particular block in question, is sufficiently definite if with the aid of parole evidence, the land can be identified from it.—Sharpstein & McFarland, J. J., dissenting.

Where the ownership of land described in a deed as a numbered block, as marked on a plat produced, is put in issue, by a denial of the allegation of ownership in the complaint, the plaintiff must prove title; and the decree for plaintiff following the metes and bounds of the block as alleged in the complaint is erroneous in the absence of evidence identifying them as those of the block described in the deed.—Sharpstein & McFarland, J. J. dissenting.

WHEN A BILL TO REMOVE A CLOUD WILL HOLD IN EQUITY.

Patton v Crumpler; Supreme Court of Mississippi. Where a deed or other instrument of writing exists, apparently valid on its face, but in fact invalid, and which may be vexatiously or injuriously used after the evidence to impeach it is lost, or which may throw a cloud over complainant's title, and he can not, being in possession, establish his right in any course of proceedings at law, a court of equity will afford him relief; but where his title is legal in its nature he must be in possession before he can invoke the aid of a court of equity to remove a cloud from his title.

EQUITY WILL CORRECT A MISTAKE IN OVERSTATING THE AMOUNT OF PROPERTY SOLD.

Gallop v Bernd, New York Supreme Court. Where a vendor, in selling land by the acre, by mistake overstates the amount thereof, the right of the vendee, after the contract is executed, to demand an abatement of the purchase price is equitable, and ten years' statute of limitation applies.

RIGHTS OF PRINCIPAL IN USURIOUS CONTRACT BY AGENT.

Nye v Swan et al., 52 N. W. Rep. 39. An agent with authority to buy lands and entrusted with funds of his principal to pay therefor, without the authority or knowledge of his principal loaned the money at a usurious rate of interest, and as security for the repayment of the money took from the borrower a deed to the principal of certain land, which was in form an absolute conveyance, but in fact executed merely as security. Held, That if the principal elects to accept the deed, and avail himself of the benefits of it, he will hold it as a mortgage merely, and not as an absolute conveyance. Also, that by accepting it and seeking to avail himself of it as security for the amount of his money actually loaned by his agent, with legal interest, he does not thereby ratify the act of the agent in exacting usury.

STATUTE OF LIMITATIONS—HOMESTEAD.

Supreme Court of Nebraska; Wills v Traver. Where one person acquires title to public lands under the United States homestead law, to a portion of which another person claimed title by adverse possession, the statute of limitations does not begin to run against the party entering the land in favor of the one holding adversely, until the right to the patent is completed by the performance of every act required of the entryman by the homestead law.

MORTGAGOR WHO HAS CONVEYED NOT A NECESSARY PARTY TO FORECLOSURE.

Watts v. Creighton; 52 N. W. Rep. 12. (Iowa) When a mortgagor has conveyed all his interest in the mortgaged premises to others, he was not a necessary party to foreclose the mortgage, in which no personal judgment was sought against him.

AN AGREEMENT TO EXECUTE A MORTGAGE DOES NOT IMPLY AN AGREEMENT TO GIVE NOTES ALSO.

Brace et al v. Doble; South Dakota Appellant and respondents entered into a written contract for the purchase and sale of real estate therein described, by which after certain cash payments have been made by appellant, he should on receipt of a deed of the premises from respondents, execute and deliver to them a good and sufficient mortgage on such premises to secure the balance of the purchase money, the contract being silent as to the giving of any notes, bond, or other evidence of the indebtedness in place of the contract undertaking to pay. Afterward respondents sent a warranty deed of the premises duly executed by them together with four negotiable promissory notes, made payable at a particular bank corresponding in amount and times of payment with the terms of the contract, and a mortgage to secure such notes, to a bank in Massachusetts, where appellant resided, with instructions to such bank to deliver the deed to appellant upon his execution of the four promissory notes, and mortgage. Held, That such offer, made to appellant did not constitute a tender of the deed, for it was subject to the condition that appellant should sign these notes, which, under the contract, he was under no obligation to sign, and execute a mortgage to secure such notes.

SUB-CONTRACTORS.

Sub contractors must serve notice on owner within forty days after completion of sub contract.

When claim is for labor, notice may be served within twenty days and obtain lien on ten per cent of value of work done under original contract, even if the contractor has been paid in full.

If such contractor is not paid within ten days after serving notice, he may bring suit, and must bring suit within three months from completion of sub-contract.

In general it is safer to deal directly with principals than with their agents; and in dealing with the latter, be sure that they have authority and are not exceeding it.

Before signing a building contract, read the whole of it, and understand the whole of it; and above all, see that it describes the lot upon which the building is to be erected, that the time for the commencement and completion of the work is clearly stated, and that the contract price and times of payment are mentioned and understood. Where it becomes necessary, to have the contract for "extras" reduced to writing.

A claim for "extras" will support a lien.

Use the uniform form of contract and avoid complications.

BONA FIDE LIST OF PROPERTY FOR RENT.

REVISED AND CORRECTED EVERY WEEK—ALL LETTERS MUST BE ADDRESSED DIRECTLY TO THIS JOURNAL AND MARKED WITH THE LETTER AND NUMBER OF THE PROPERTY ADVERTISED—PROPERTY THAT CANNOT BE DELIVERED, AND PROPERTY SOLD OR UNDER CONTRACT, WILL BE STRICKEN FROM THIS LIST AT THE REQUEST OF THE OWNER OR HIS AGENT.

Within city limits, owner will sell a bunch of lots, only 28 minutes ride on two railways, 40 trains daily; streets graded, double rows of trees 40 ft above lake; only $175 each. This is a real snap. J 10.

20 acres, 60 ft, above the lake, only 35 minutes ride, 32 trains daily; 100% profit in this to syndicate or subdivide; only $500 per acre. J 10.

PLANS BY ARCHITECTS.

Architect W. G. Barfield has prepared designs for a four-story apartment house, to be built at Prairie avenue and Forty-ninth street for John Morris. It will cost $40,000. It will have a frontage of 100 feet and it will be 70 feet deep. The exterior will be of pressed brick with stone trimmings and galvanized cornices. The interior will have hardwood finish, steam heat, marble mantles, gas fixtures, and the plumbing will be of high order. The building will have gravel roof and will be provided with fire escapes.

Architects Banmann, Handy & Cady have planned a four-story store and flat building, 54x120, to be erected at the northwest corner of Thirty-first street by the Wellsboro Hotel Co. It will be constructed of stone and pressed brick with copper bays, with interior in hardwood and heated by steam; cost, $64,000.

Architect George Beanmont has planned for J. B. Scholl a three-story hotel restaurant and pavilion to be built on Stony Island Avenue between 67th and 68th streets. It will be of frame construction; cost $40,000. For W. C. Streeter he has planned a three-story apartment house, 42x74, to be built at 415 Chestnut street. It will be constructed of pressed brick and stone, and will be heated by steam or hot water; cost, $20,000.

Architect Eugene Bivert is getting out plans for about sixty houses to be built on Seventy-third street, near Rhodes avenue, by a syndicate headed by Alexander Watson. The houses will be of different designs, two stories high and will each have ground dimensions of 22 to 30 feet. They will be built of frame and their cost will be $138,000.

Architect D. H. Burnham has completed plans for a new building for Immanuel Presbyterian Church, to be erected on Thirty-first Street opposite Bonfield. It will be 72x124, and will be constructed of brick with pressed brick trimmings; cost, $20,000. He has also planned for J. C. Higley a colonial summer house to be built at Lake Geneva; cost, $10,000.

Architect James J. Egan has completed plans for a four story and basement apartment house, 150x94, to be built at Fifty-sixth street and Washington Avenue by L. E. Steinfeld. It will be constructed of pressed brick and brownstone, will be finished in hardwood, heated by steam and lighted by electricity; cost, $90,000.

Architects Wilson & Marble have designed a three-story apartment house, 100 by 50 feet, to be built on Lake avenue near Forty-first street, for Sutton Bros. It will be built of brick and stone, will have galvanized iron, plate glass, slate roofs, grates, hardwood finish and all modern conveniences. It will cost $32,000. The same architects have prepared drawings for a four-story apartment house, to be erected at 2339 Michigan avenue for H. M. Gleason. It will be of brick and stone, will have hardwood finish and all modern conveniences. It will cost $15,000. The same architects have planned for H. M. Wilcox a three-story and basement residence, 26x75, to be built on the east side of Michigan avenue, south of Eda street. It will be of Bedford stone, will be finished in hardwood and heated by hot water; cost, $18,000. For J. D. Wirt & Co. they have planned four two story and basement flat buildings, 100x60, to cost $25,000. They have also designed three three-story and basement flat buildings, 62x74, to be built on Prairie avenue near Twenty-sixth street; cost, $36,000. They will be constructed of stone with hardwood interior, and will be heated by steam.

Architects W. A. Youmans & Bro. have on the boards plans for an apartment house to be built at Garfield boulevard and Stewart avenue for Mrs C. O. Holmes. It will have ground dimensions of 168 by 70 feet and will be four stories high. The estimated cost is $65,000. The exterior is to be of attractive design, of stone, pressed brick and terra-cotta, with corner tower and slate gables. The interior will have hardwood finish and wood mantels.

Architect Robert Rae has prepared drawings for a three-story flat building to be built at Calumet avenue and Forty-fourth street for W. J. Wood. It will be 25x75 feet, will have stone front and hardwood finish. The building will cost $12,000.

Architect J. A. Thain has planned for Benjamin Arnheim a three-story residence, 30x75, to be built on Michigan avenue south of Thirty-seventh court. It will be constructed of Connecticut brownstone with glazed tile roof, and the interior will be finished in hardwood and heated by hot water; cost, $30,000.

EPITOME OF NEW INDUSTRIES.

ALABAMA.

Decatur—The East Tennessee, Virginia & Georgia Railroad Co. (office, Knoxville, Tenn.) will build a freight depot in Decatur.—Florence—The Episcopalians have secured site on which to build a church.

ARKANSAS.

Magnolia—A three-story brick hotel to cost $10,000 will be built.—Paragould—W. W. Christian & Co. will build a brick business house, and J. M. Winder and John Rosson a brick business building 50x90 feet.

GEORGIA.

Drade Sams, Atlanta, is reported as planning to build a three story brick hotel, to cost $50,000, on Signal mountain.—Savannah—Baldwin & Pennington, of Baltimore, will prepare plans for completing the Savannah Cathedral including the building of two iron spires, one to contain a clock and the other a chime of bells. The cost of the improvements is estimated at $40,000.

ILLINOIS.

Decatur—H. B. Wheelock, of Chicago, has designed, for a syndicate, a four-story store and office building, 84x80 feet. It will be of brick, stone and terra cotta, at total cost of $25,000.

INDIANA.

Anderson—Prof. W. J. Morgan, on behalf of Indianapolis, Chicago, Cincinnati, and Kokomo capitalists, has purchased ten acres of ground, on which will be located the buildings of the Indiana Surgical Institute. The institution will be opened January 1. The capital stock of the new enterprise is $200,000.—Elwood—Plans have been set on foot for a first-class hotel.—Indianapolis—Construction work has begun on the new electric light building, 200x90 feet and 100x70 feet, on Kentucky avenue and West street.—Yorktown—This place is enjoying a boom, largely due to the Western Improvement Co., which is building a hotel and is constructing a lake. Glass factory buildings are being erected, the aluminum works are nearly completed, work has commenced on the strawboard works, the main building of which will be 60x600 feet. A tank factory is now being framed, and the erection of thirty dwellings has been contracted for. Yorktown, sometimes called West Muncie, is rapidly pushing to the front.

MARYLAND.

Salisbury—H. S. Brewington, of Baltimore, will erect a block to contain bank office, opera house and three stores.—Baltimore—The Baltimore Steam Packet Co. will erect a two-story brick business building.—Catonsville—The Catonsville Casino Co. has been incorporated to build the club building lately mentioned.—Sparrow's Point—The Evangelical English Lutheran congregation intends building a church.

MISSISSIPPI.

Vicksburg.—The Knights of Pythias are taking steps toward building an $80,000 opera house.—Vicksburg—Vincent & Hayne will erect a brick business building.

NORTH CAROLINA.

Nantahala—The Nantahala Marble & Tile Co. is reported as to build a hotel.

OHIO.

Cincinnati.—The Iron Casting Co. will put up a two-story building at Guest and Depot streets.

SOUTH CAROLINA.

Edgefield—The Anderson Hotel will be enlarged by an addition of twenty rooms.—Gaffney City—W. S. Lipscombe contemplates building a 40 room hotel.

TENNESSEE.

Chattanooga—Garnett Andrews has awarded contract to C. C. Green for a three-story brick business building.—Erwin—W. S. Tipton has been awarded contract to build a church for the Methodists.

TEXAS.

San Marcos—The Christians will probably build a church. Rev. J. J. Williamson can give particulars.

VIRGINIA.

Charlottsville—R. C. Vandegrift & Son have been awarded contract at $22,989.66 for the gymnasium building at the University of Virginia.—Lynchburg—The Chesapeake & Ohio Railroad Co. (office Richmond) will, it is stated, commence work within ninety days on the erection of a $60,000 passenger station.—Norfolk—Dr. Gale will erect a large warehouse.—Petersburg—The congregation of the Second Baptist Church is receiving plans for a $10,000 edifice.—Richmond—Contract for the State library building has been awarded to W. O. Burton and W. A. Chesterman at $158,361. It is to be a fire-proof structure, with a frontage of 118 feet, and have a wing 151 feet long. W. M. Poindexter, of Washington, D. C., is the architect.—Roanoke—Wilson & Huggins are preparing plans for college buildings to be erected by Dr. W. A. Harrison, of Staunton. They will cost about $25,000.—Staunton—Collins & Hackett have prepared plans for two three-story brick store buildings for C. T. Palmer to cost $5,000 each.—Morgantown—Huston & Demain have contract for building the opera house. It will be 50x90 feet, and cost $7,000. John C. Fulton, of Uniontown, Pa., prepared the plans.

THE LIEN LAW.

The Mechanic's Lien Law of Illinois, as collated by the Builder and Trader, is as follows:

The mechanic's lien statute is strictly construed, and all its requirements must be strictly complied with.

Materials must be for a definite building specified in contract, and must be actually used in its construction. No lien can be had for materials furnished on open account, and not for use in specific building.

Taking note as evidence of indebtedness does not waive lien unless taken as absolute discharge of debt. Taking other security discharges lien.

Contract must be with owner of land, or with party having an interest in the land, and attaches only to such interest.

ORIGINAL CONTRACTOR.

Contract, if expressed, must provide for completion within three years and time of payment within one year from time of completion. Implied contract must be completed within one year from commencement of work or delivery of materials.

Lien, as to the improvements, has preference over incumbrance but prior incumbrance of record has preference over lien as to the land.

Contractor must, within four months after last payment is due and payable, file with the clerk of the Circuit court an itemized and detailed statement or account, under oath, of amount due after all credits, setting forth times when labor and materials were furnished and credits paid, and containing a correct description of property. Sec Sec. 4.

Suit must be commenced within two years after filing such claim.

Contractor must, when requested in writing by owner, make statement, as provided in Section 35, or suffer penalty.

Owner may retain ten per cent of proportionate value of work performed.

STREET IMPROVEMENTS.

ORDERED AND APPROVED BY THE COUNCIL.

NOTE—Abbreviations signify: c, curbing; g, grading; m, macadamizing; p, paving; f, filling; w. s., water service; swk, sidewalk; lp, lamp-posts.

A. J. EARLING, General Manager. GEO. H. HEAFFORD, Gen'l Pass and Tkt. Agt.

CHICAGO, ILL.

☞For information in reference to Lands and Towns owned by the CHICAGO, MILWAUKEE & ST. PAUL RAILWAY COMPANY, write to H. G HUGEN, Commissioner, CHICAGO ILL.

The Marvel of the Musical World.

$30 worth of CHOICE MUSIC for $1.50.

The New York Musical Echo is quite a novelty in modern journalism, and affords a grand opportunity to musicians and music-loving people. It is a large quarto musical publication, published monthly, each number containing 24 full size pages of sheet music, the brightest, liviest and most popular selections of the day, both vocal and instrumental, together with a pretty cover, on which is a full page portrait of some beautiful actress for singer. The music and portrait changed with each issue.

A Year's Subscription to the New York Musical Echo is $1.50 (sample copies 15c.) and means 288 full size pages of sheet music and twelve fine portraits, making when bound one of the handsomest portfolios of the newest and nicest music ever published. We want our friends to be careful of each number as duplicate copies may soon be a thing of the past. Don't lose any of the pretty music we are publishing, so start from the December number. The American News Co., or any of the News Agencies will supply you, or order direct of us ☞

The New York Musical Echo Co., B'way Theatre Bld'g, 1441 Bway, N.Y. City.

CHICAGO, MILWAUKEE & St PAUL R'Y., CO.

GENERAL OFFICES:

160-172 Adams Street, CHICAGO.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same.

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,

Industrial Commissioner,

C, M. & St. Paul R'y, 160 Adams St., Chicago, Ill.

FRANKLIN PARK 90 feet above Lake Michigan. "EXCELSIOR" Is Its Motto.

What a Word of Significance in these simple Figures for the safe Guidance of the prudent Man who, in locating a Home for his Family, would put high above all minor Considerations,

The Priceless Boon of Health.

FRANKLIN PARK is the Growth of less than two Years. It is the suburban Terminus of the Chicago & Northern Pacific R. R., and is situated at the Intersection of the Wisconsin Central R. R. with the Chicago, Milwaukee & St. Paul R. R. It is 90 feet above Lake Michigan, 11 miles from the City's centre, 2 1-2 miles west of the City limits and is accommodated by 54 passenger trains daily. It has the two finest suburban depots west of the City, costing over $5,000 each, a spacious hotel, a fine block of stores, scores of attractive residences, miles of side-walk, sewers and shade trees and an abundance of wholesome water.

On its western border is MANHEIM, the nucleus of extensive manufacturing concerns and destined to be a busy centre of diversified industries.

You are Welcome any Sunday or any Weekday, to a free Ticket for the Inspection of this,

The Highest Suburb of Chicag o

CHICAGO HEIGHTS!

THE GREAT MANUFACTURING AND BUSINESS CENTER.

Business and Residence Property For Sale at Extremely Low Prices and on Easy Terms.

DOLESE & SHEPARD, 162 Washington Street, Chicago,
HAVE BEEN AWARDED A CONTRACT AMOUNTING TO

ONE HUNDRED AND SEVENTY THOUSAND DOLLARS

($170,000) for the purpose of macadamizing 17 miles of streets and building stone sidewalks.

NO ASSESSMENT will be made for the improvements, the Association assuming the entire expense. The wise and prudent people who invest a small amount of money in CHICAGO HEIGHTS property will in a comparatively short time reap large benefits. No sane person can question the wisdom of making an investment in Chicago property.

Four large factories are in full operation and contracts closed with several others. A large number of residences and business houses in course of construction, also an extensive factory building for Roth & Englehardt, Piano Manufacturers of New York.

STABILITY OF THE ENTERPRISE

The following well-known gentlemen are among the promoters of Chicago Heights:

GENERAL OFFICERS OF THE CHICAGO HEIGHTS LAND ASSOCIATION:

C. H. WACKER, President. **E. S. DREYER, Treasurer.** **GEORGE BURRY, Secretary.** **M. H. KILGALLEN, Manager**

BUSINESS OF THE WEEK.

INFLUENCE OF THE CHICAGO DEDICATION CEREMONIES AND THE NEW YORK CELEBRATION ON GENERAL BUSINESS—GREAT PREPARATIONS FOR INCREASED TRAFFIC DURING THE WORLD'S FAIR YEAR—HOPEFUL INDICATION IN THE STOCK SITUATION AND THE MONEY MARKET.

A week of celebration in New York, followed by a week of dedication in Chicago, is not conducive to great results in the business world; but so far as can be ascertained in the midst of the noise of the week at Chicago there is little or no cause for complaint as to the general tone and volume of trade throughout the country. The celebrations at Chicago and New York have been largely local affairs and have blocked traffic and hindered business chiefly at these two most important trade centres in the Union. But outside of these cities business has been but slightly affected. Through the country districts there has been practically no excitement. The worst that can be said of the influence of the celebration on the whole is that it has caused for a few hours or days a pleasant diversion from the routine of business to a participation in the festivities of the occasion.

The dedication ceremonies at Chicago are having an important effect on the railroads and all kindred industries. The experiences of the past season in attempting to move vast bodies of excursionists have taught the railroad companies the utter inadequacy of their present accommodations. They are, therefore, bestirring themselves to get ready for the immense crowds of visitors that are expected next year. It is no exaggeration to say that millions of dollars are being expended by the railroads centering in Chicago in preparation for the expected increase of business during the World's Fair. Upward of 1,500 new passenger coaches and over 400 new engines have been ordered to be constructed and delivered before May 1, 1893, and all the car works and locomotive shops in the country are running over time to fill the orders. The Illinois Central has given orders for 300 cars and 50 engines. The Chicago & Northwestern is having built 180 cars and 40 engines, and the Lake Shore 120 cars and 30 engines. In about the same proportion all the roads are adding to their equipment. It is estimated that the outlay for additional rolling-stock and motive power by the Chicago roads alone will not fall short of $7,000,000.

The influence of such unprecedented activity on other branches of industry is sure to be felt. It is reasonably certain that in every department of trade and manufactures from the present until the close of the Fair there will be the greatest activity. Heretofore business has suffered from a variety of causes which no longer continue to exert an unfavorable influence. Everything is now conducive to prosperity. The influence of the great wave of incoming wealth of next year is already being felt all along the shore. It will rise higher and higher as the months go by, until the full tidal effect will be felt in an addition to the wealth of this country of millions of foreign money brought here by visitors to the Fair. Unless some unforeseen disaster interferes, the coming year is destined to be the most prosperous in the history of this nation.

The only serious drawback to the present financial situation is the condition of the London and other European markets, which for a long time have been stagnant so far as American securites are concerned. An improvement is now noticeable. Whether this will be of sufficient importance to increase the demand for our securities on the London stock exchange is not at all certain, but in the light of the past conditions any improvement is at present exceedingly welcome.

The monetary conditions at home are improving simultaneously with this improvement abroad. Gold shipments doubtless will continue in spite of the fact that the balance of trade is in our favor, for Europeans are such large holders of our stocks that they can exchange them for our gold at their pleasure. But the fact that we are large producers of gold, that the annual yield of our mines is far in excess of the amount of gold used for other purposes than money, ought to create confidence, even though we had not the additional fact in our favor that we always have a market abroad for many of our products worth more to this country than gold.

ANALYSIS OF BANK CLEARINGS.

The following are the bank clearings of 72 leading cities for the week ending Oct. 13, 1892, as compared with those of the corresponding week last year, with percentages of increase and decrease.

Totals, Can.	$21,012,805	$11,896,717	

†Not included in totals.

The week shows a slight falling-off from last week but a gain as compared with the corresponding week last year. New York City again returns a decrease, which accounts for the fact that the grand total shows an increase of only 5.2 percent, while the total excluding New York increases 10.8 percent. All other leading cities, except San Francisco, return substantial increases. Tacoma and Los Angeles, also of the Pacific coast group, return slight decreases, as do a few of the eastern cities and some in the Southern group.

On the whole, however, the South is improving rapidly. Export trade at New Orleans has improved wonderfully during the week, and the prospects for business there are now excellent. At Galveston and points in Texas trade as yet is only fair, but this is due largely to local campaign excitement which has interfered with business to an unusual degree. Reports from Baltimore are favorable. Baltimore is an excellent point for observation as to the real state of trade throughout the South, for the reason that its merchants are largely interested in Southern trade. The present week has developed a firmer tone in the markets there, with exceptionally good collections and fewer failures reported. A like improvement is manifest at Memphis and Nashville and the general situation throughout the South may be said to be hopeful.

But the most hopeful indication of the table is the general increase shown at Eastern points. The situation on the seaboard is again favorable. Trade is active at Boston and Philadelphia. The leather trade at Boston is active, and throughout other New England cities the demand for manufactured goods is encouraging. The hat trade, for instance, has been the largest in the history of the industry in New England, and all indications point to a continuance of the great demand in this line. Other branches of trade are similarly affected.

At Philadelphia there is a marked improvement in the iron market. The demand for iron for structural purposes is in excess of the capacity of the mills to supply. The coal trade is suffering mainly from the inability of the railroads to move the coal to the west. Orders are still seriously delayed by blockades of trains en route or by lack of cars to carry the immense tonnage ordered.

The West is again at the front with large gains at Chicago, St. Louis, Cincinnati, Kansas City, Minneapolis, Detroit, Milwaukee, Omaha, etc. Chicago is still demonstrating its great superiority as a jobbing centre in dry goods, clothing and the like. St. Louis merchants also report active business. At Cincinnati the increase is mainly in the boot and shoe and hat trade. At Kansas City business is good in staples. At Minneapolis, Detroit, Milwaukee and Omaha business continues good notwithstanding the fact that trade in winter goods has been hindered by warm weather.

The analysis by groups of States for the same weeks is as follows:

	WEEK ENDING OCT 13, 1892.	WEEK ENDING OCT. 16, 1891.	PERCENTAGE.
New Engl'd States.	$117,468,675	$111,829,845	Inc 5.0
Middle "	738,401,207	776,093,214	Dec 4.9
Southern "	46,198,922	44,004,868	Inc 4.7
Western "	49,892,648	39,039,597	" 27.7
Northwestern "	148,846,778	126,519,577	" 17.6
Southwestern "	50,909,848	44,011,272	" 15.7
Far Western "	29,944,620	31,040,314	Dec 3.5
Totals,	$1,181,662,698	$1,172,538,687	

The New England group shows a gain of 5 percent but the Middle loses nearly as much (4.9) owing to the loss at New York City. The Southern group still improves and this week shows an increase of 4.7 percent, which is in direct line with the general improvement at various Southern centres referred to above. The Western group sends in the banner returns so far as increase is concerned, but this is not surprising. Nor is it unusual to find a similar result in the Northwestern group. Possibly the most surprising figures of the summary are those from the Southwestern group, which in view of past returns are certainly a marked improvement. The Far Western has not yet recovered from the languishing condition into which it fell some time ago, and in the throes which it has been laboring for a year or more with but slight hopes of escape.

LOCAL STOCK MARKET.

For a week which has been cut in two by a triple holiday, the market has been of more than ordinary interest. There have been only five regular sessions of the local stock Exchange, an adjournment having been taken Wednesday morning on account of the death of R. E. Wasmandorf, one of the well known members of the Exchange. It is surprising that even in this short period there should be more general activity and interest shown on the part of the public than during full weeks of preceding seasons. In fact the public interest which has been shown in the local stock market throughout the summer and fall, has been a suprise to old traders, as there has really been no "midsummer dullness" experienced. The feature of the week possibly, was the bulge in Strawboard prices. On Monday the stock opened at 81¼ and sold up without any set back to 86. The bulls in the stock began to talk of the possibility of par being reached. The sudden upturn of Monday was not maintained, however, the following two days. On Tuesday, the securities sold off to 83. The advances in Strawboard have been due to reports regarding certain agreements being made with independent mills by which prices were to be put back on the old footing. It is true that a temporary agreement has been reached, which is to cover the period between Oct. 17 and Jan 1. Although this agreement at best is an adjustable affair, it is sufficiently strong to hold prices and discourage new ventures in the way of establishment of Strawboard mills. The new price list, which went into effect this week, raises Strawboard to $40 a ton in the East and $37.50 in the West. The company so far this year has earned eleven per cent on its stock besides providing for the bond interest and the operating expenses. The account settlement price Wednesday noon was 82, with 82¼ bid and 83 asked.

The flurry in Strawboard divided honors with a movement in West Chicago Street Railway stock. The upward turn of last week was taken up at prices a few notches higher than the close on last Saturday. Monday the stock was usually strong, ranging from 210 up to a fraction better than 220. On Tuesday the expected reaction came and the stock sold down to 215½. Nearly all that was lost, however, on Tuesday was gained on Wednesday, and the stock closed at 218¾ for the account. Whatever the forces at work are, it seems probable that the West Side is destined to again register some high point which will discount those of two months ago. The possibilities of extraordinary earnings next year are attracting the public and it is stated definitely that the next dividend rate will be established at nine percent and it is even rumored that ten percent may be reached. North Side Stock was strong but sympathized with West Side in declines and advanees. Its fluctuations follow those of its twin Yerkes stock but are simply not so pronounced.

The buying of the brewery stocks is better than it has been for some time and the entire range of securities seems to be strengthening. Milwaukee Brewing Company preferred went to forty-four on Monday and was maintained at that price. Other Industrial stocks were strong with a tendency shown toward higher prices. Diamond Match went to 142. Street Stable Car Stock and Calument Dock continue to be the weak securities of the entire list. Streets' stock went all week at a fraction better than twenty-eight. The Dock Company feels the influence of a dull real estate market, and at best the public has not the greatest confidence in the integrity of the company's management. The bond sales of the week have been fair but not extraordinary considering the large amount of investment capital which is said to be in the market.

The dedicatory exercises are sure to have a favorable influence on local securities on the Exchange in common with other investment interests in Chicago. An influx of people who have money to invest is always of value to those seeking investors. It is surprising how densely ignorant on the subject of Chicago investments the public outside of Chicago has been heretofore. The World's Fair will educate them.

THE REAL ESTATE MARKET.

The event of a quiet week in real estate was the sale of the Jewett property on Monroe street to John McConnell and T. J. Hudson. The property is directly opposite John V. Farwell's wholesale store, and until about a year ago was occupied as a stove and furnace warehouse. At that time Mr. Jewett built a new warehouse on the South Side and leased the Monroe street building to Messrs. McConnell and Hudson, with an option of buying. They have availed themselves of this option and a transfer will be made to them at a consideration of $150,000. The option was made some time ago and although it is difficult to find recent sales upon which to base a valuation, the land and building are probably worth not far from $200,000. The lot has a south frontage of 136 feet on Monroe street and a depth of 100 feet. It therefore has a frontage on the river of 100 feet. The improvements consist of a seven story warehouse building which is of structure sufficiently strong to bear at least one more story. The building was erected in 1882 and is valued at $100,000. Assuming the consideration of $150,000 to be the valuation, and assuming that the building is worth $75,000, the land valuation would be left equivalent to $75,000. This would be $550 a front foot for the Monroe street frontage, or only $5.50 a square foot. It is such sales as this which accentuate the prices paid for choice corners in the strictly down town district. While corners and frontages on favorite streets are worth from $80 to $120 a square foot, property located on the same streets only a few blocks away from the business centre brings only a small fractional part of such prices. The great advances which have been made in choice down town property are driving investors to investigate holdings which are not in popular demand, but which may promise a fair income rate. Strangers to the city are astonished to find how rapidly values decline along a radial line drawn from the corner of State and Madison streets, for example, as a center. The Chicago Telephone Company in making selection of a building site, went into a locality which is at present considered second or third class and the example of this company will no doubt be followed by other organizations, which desire to own their own property and are not willing to pay present down town prices.

The three days of celebration may have at least one effect on the real estate market. Of course the protracted holiday has precluded the possibility of any extended sale lists. It, however, will serve to convince Chicago people of the magnitude of the city. It is a notable fact that people from outside cities have a rather better appreciation of Chicago and Chicago enterprise, than people who have been witnesses to her steady advance and growth.

BUILDING PROJECTS STIMULATED BY THE WORLD'S FAIR.

Plans are being prepared for a new theater at the northwest corner of Madison street and Ogden avenue. Most of the capital stock in this enterprise has been subscribed and the project has assumed such a shape that its promoters feel confident it will be a success. The proposed building will probably be six stories high, though it is possible that this will be reduced to four stories It will have a frontage of about sixty feet on Madison street and 160 on Ogden avenue. Both of the street frontages will have stores on the ground floor and the portion of the upper stories not used by the theater will be devoted to offices. The building is to be of fire-proof construction, and its exterior will be of stone, brick and terra-cotta. It will cost about $150,000.

A very elegant six-story apartment building is in process of erection at the corner of Sixty-sixth and Yale streets. This portion of the city and southward as far out as Seventy-ninth street and between the Rock Island road and State street shows exceptional activity in building, the structures, whether apartments, flats, or residences, presenting very handsome and elegant exteriors, with most superior interior appointments. The building up of that section has been almost phenomenal. Where four years ago was a bare prairie is now a well settled community occupying superior houses and a majority of these houses occupied by their owners.

A group of three apartment houses is to be erected on Bonfield avenue and Thirty-first street which will occupy both sides of the entire block. The total frontage to be improved will be 864 feet, and the total cost of the buildings, exclusive of the ground, will $425,000. H. N. Reynolds is the projector of this enterprise. The principal building will have a frontage of 480 feet and will occupy the entire west side of the street. It will be four stories high and will contain eighty flats of seven rooms each. It will be known as the Stanhope apartment house. The east side of the block will be occupied by two buildings, each four stories high. One will have a frontage of 240 feet and will contain sixty seven-room flats and the other will occupy 134 feet and will contain twenty-four flats of equal size. All three of the buildings will have red pressed brick fronts with Bedford stone trimmings. They will be far superior, both in exterior and interior finish, to anything ever erected in that vicinity. The object of the owner is to provide comfortable homes for workingmen at reasonable rentals. The Stanhope will have the largest frontage on one street of any apartment house in the city and is excelled only by one business block in this respect, that being Jacob Weil's block on State street, near Forty-eighth. Contracts have already been let for these apartment houses and work is to begin soon.

AN ACRE SALE FOR SUBDIVISION PURPOSES.

A local syndicate, headed by Joseph E. Bidwell, has bought a fifteen-acre tract at the southeast corner of Twenty-second street and Richmond avenue for $60,000, being at the rate of about $4,000 an acre. The tract extends south to the Burlington Road and Ogden avenue divides it diagonally. Crawford station is within two blocks of the property and the Ogden avenue car line, which has recently been extended to Fortieth street, is but three blocks away from this tract. The property is to be subdivided at once and sold in lots.

SALE OF A $75,000 APARTMENT BUILDING.

Dillon & Haines have sold for Frank W. Ashley to George W. Marquardt the southeast corner of Henry street, and Newberry avenue for $75,000 cash. The lot is 100 by 70 feet and is improved with a four-story stone and brick apartment house containing twenty-four flats of five and six rooms each. The building was erected a little over two years ago and was bought by Mr. Ashley last winter for $60,000. It is one of the largest flat buildings in this section of the city.

LOAN AGENTS SHUNNING THE WORLD'S FAIR DISTRICT.

Projectors of World's Fair hotels near Jackson Park complain that there is difficulty in securing loans on their buildings. One of them recently said to a reporter, "Our company had bought land valued at $50,000, and proposed to erect a building to cost $60,000. We paid for the ground, but decided to borrow $20,000 toward the construction of the hotel. As money was easy we expected that money loaners would jump at the opportunity of making a $20,000 loan on security worth $110,000, but we were cruelly disappointed. Financial men told us frankly that they had received instructions from their clients not to make loans in the Fair district under any consideration, and we were compelled to raise the $20,000 among ourselves. It is not to be wondered at that there is no more building around Jackson park than there is, and if visitors find inadequate accommodations next year the blame will rest not so much on Chicagoans as on the wealthy eastern insurance companies which supply the bulk of the money loaned for building purposes."

REAL ESTATE MAN FOR COUNTY COMMISSIONER.

The JOURNAL is ready at all times to assist in the election of reputable real estate men to positions requiring such knowledge and experience as they possess. No class of men in the community are better acquainted with public improvements and the need of them than are the real estate agents. Mr. John S. Clark, candidate for county commissioner at the forthcoming election, has been a resident of Cook county for a period of over twenty years, during which time he has been engaged in the real estate business with credit to himself and the profession to which he belongs. He has been a subscriber of the JOURNAL for thirteen years and is known to be a gentleman of honor as well as considerable means. He cannot afford to sanction dishonesty in any form and being above want will not be dishonest himself if elected to the office of county commissioner. He is the regular nominee on the Democrat ticket and will be a safe man to vote for by Democrats and Republicans who are in favor of honest government.

Compulsory Registration of Titles.

EXTRACT FROM A PAPER READ BEFORE THE NATIONAL REAL ESTATE ASSOCIATION OF BUFFALO.

The abstract question as to whether registration of titles should be compulsory, and on which much may be said on both sides, was happily met by adapting the interests of proprietors to the theoretical lines of the Cadastral Regime. It was held by some that failure in England of the tentative schemes of Lord Cairns and Westbury, looking towards an improved system, was due to not making the registration obligatory. With us no one is obliged to register his title. It is a private matter into which no third party had a right to enquire. If the purchase price were paid, so that there were no rights of others involved, and possession was taken of the realty, the early English view of "putting his title in his box and sitting on it" could be indulged in, without consulting Lord Eldon, but the moment he wished to transfer the ownership to another, then the law stepped in, and to render the chain of title perfect, and prevent doubts in the future, the acquisition must be registered. Next to the abandonment of the name in registration, the salient points of cadastration was, that every mortgage and claim of any description affecting realty had to be produced from its obscurity, and re-registered on the number, not against the debtor. A search light was thus thrown on every lot of land and a new departure made. Every practicing lawyer in the Province of Quebec, and every experienced land owner, had been brought up to respect and dread a dower. He never knew when he was safe. The widow and children appeared and he suffered from not having made enquiries which in many cases were impossible from the circumstances of the case. Here, again, modern legislation intervened, and all dowers must be registered with the cadastral number and the danger is minimized.

If an original cadastral number be subdivided into more than five portions, a new subdivision plan is made, new books opened and a sub cadastration begun. The grouping of classes of rights, which was pointed out in England years ago as essential, has long proved a part of our system. Each Cadastral and Sub-Cadastral number has a page assigned to it, where at a glance the history of a title may be seen, and each group of rights bears a distinctive letter—independent of the consecutive number which marks the hour and the minute of presentation for registration. In addition to this abbreviated or skeleton register, all deeds are also entered at length, in folios, and from these folios short headings are prepared for abstracts of title. This system also furnishes a check on the original deeds, which if lost can be replaced from the registry offices.

The hypothec or mortgage in the Province of Quebec differs in its nature from the mortgage under the English system, though both have in view the same end, that of securing an advance made on real estate. Under the Quebec system, no rights of ownership are in the mortgagee. Though the land be encumbered to more than its value, the lender's rights are in and not to the realty. In the absence of special conditions, rarely entered into, the land must be judicially sold to the mortgagee, to vest the title in him. We are disposed to think that the placing of the fee simple in the mortgagee, with an equity of redemption, was an artifice of the early lawyers, in pre-registration days, in order to overcome uncertainties and render the lender secure.

Many were our difficulties in Quebec, before we arrived at our present system, the principal feature of which is, that all rights whether of ownership or otherwise against any piece of land must be registered against this particular piece of land, and moreover, it is essential that this piece of land be described by its cadastral number, otherwise the registration would have no legal effect.

In the United States the greatest difficulties have arisen through a defective system or systems of registration, and much attention has been given to the subject, but up to now, as far as we are aware, no sufficient solution has been arrived at. Last year we find it stated that in preparing abstracts the labor was enormous in the cities. That as deeds were not classified in any way at the time they were entered, the field to be covered was of vast extent. That every deed placed on the record had to be examined within the time covered by the examination, either wholly or in part, to ascertain whether every one of them affects the matter in hand. This resulted in New York in a class known as official searchers, without whose assistance no one can prudently venture into the mysteries of examining an important title. Works denominated "Supplemental Index", or "Searcher's Assistant", have been published, with the comforting assurance that more than two hundred duly recorded deeds are not referred to at all in

the official indices, and that the mistakes or erroneous references to be found in them exceed two thousand. So voluminous are the records that a complete examination is rarely attempted.

The spelling and misspelling of proper names has been a source of much inconvenience, and often in these matters a game of chance is said to prevail. Certain well-known variations in the orthography can be noted only. In New York and Suffolk County, Mass., the indices have been printed and in the former a duplex system adopted. An approach there to a cadastral system would seem to have been attempted in what is known as the block system, under which every deed to be entitled to registration, must refer to the block in which the land lies.

There are a large number of facts, such as the marriage status of sellers or owners, results of wills or intestacy and the like, which are most important factors in the question we are examining, which cannot often be ascertained, and risks must be run, and an element of good faith often permeates transactions in land and is obliged to be taken, which is at the most absolute legal antipodes of the theory of title to realty.

A practical nineteenth century method, but one which is essentially opposed to the doctrine of stability which has been supposed to be the essence of land tenure, and which at the same time is the clearest admission that no practical system has yet been discovered to render the holding of immovable property safe—the Title Insurance Company is enough to make the early lawyers rise from their tombs. There are many reforms which the necessity of our more rapid modern life would appear to suggest, if a freer trade in land is to occupy the position we would fain hope. Some of these we can briefly notice here, and many involve principles which lie at the base of national life, and might require the gravest consideration. There is a demand appearing in countries where French law has not prevailed, to make the mortgage what it is in Quebec, and what it really was intended to be and has been treated as, a charge on the land, without any transfer of title by way of security. That trusts should not appear in deeds more than they do in connection with stock or money. That the rights of the wives should be declared as we have noted is now done in Quebec. That the borrowing of money on real estate should be rendered much simpler. For sudden emergencies of the money market, realty is unavailable as a security. Above all, simplicity in forms of deeds and transfers is asked for.

A CASE OF LANDLORDISM.

The holder of a Chicago leasehold is often the possessor of a fortune by virtue of the terms of his lease. This is frequently the case in ninety-nine-year leaseholds. This form of investment is of late much sought after. A contrast to the fortunate condition of Chicago land tenants is that of the residents of the Magdalen Islands, seven in number, lying near the southern point of the Gulf of St. Lawrence. The population of these islands numbers about 8,000, most of whom are French catholics. Their chief occupations are fishing and seal hunting, in which they carry on a large export trade. The present condition of the inhabitants is deplorable, owing to the fact that the whole group of Islands is owned by an absentee landlord, who grinds the people to the earth with the hard terms he makes for his land. Time and again the inhabitants have sought the aid of the Quebec government to escape from the oppression of their landlord, but without avail. The islands are now for sale and new interest has been aroused in them.

The present proprietor is Captain Coffin, of her majesty's Twenty-first Regiment of Scotch Fusilliers. He is a direct descendant of Captain (afterward Admiral) Sir Isaac Coffin, of London, England, to whom the Islands were originally granted, April 24, 1798, by Governor Robert Prescott, by letters patent under authority of King George III. Sir Isaac, who was then a captain in the royal navy, had petitioned the other governor general of Canada, Lord Dalhousie, for a grant of the islands in recognition of his services during the American war. He stated that his reason for getting possession was that he was desirous of engaging in the fisheries, which are particularly good along their shores.

The request was complied with, the islands being granted to him unconditionally, with the exception of Coffin Island, which was reserved for the support and maintenance of a protestant clergy in the province. He was given full authority to make what use he liked of the land, and on the beaches and shores he had the same exclusive authority with regard to taking fish and sea animals, and the same rights were by the grant, to be continued in his heirs and assigns, with the further right "to apply the entire profits and produce thereof to his and to their own use and benefit without account thereof or of any part thereof to us, our heirs, or successors." The captain never worked the fisheries, though that was the pretense he made for demanding possession of the islands. Instead, he started in as a landlord, the poor settlers becoming practically his slaves. The leases which the poor unfortunates were required to sign had several iron-clad conditions. The first obliged them "to take the property in its present condition, without having any right to exact from the lessor, at any time or under any pretext, any repairs whatsoever."

Three generations of Coffins have ruled over the Magdalen Islands, and the present condition of the inhabitants is no better than it was at the beginning of the century. Again and again the Government has been appealed to to buy the islands and sell them to the tenants on such terms as could be easily met by them. A year or two ago fresh appeals were made to the government, hundreds of names were appended to petitions, and the government agreed to look into the matter. A new commission was appointed and a report was made, but again the government refused to act. This decision of the government fell like a thunderclap upon the ears of the tenants for they had expected that they were to be relieved at last, Coffin having offered to sell for $100,000. But they were disappointed, for the matter ended there and there it stands to-day.

Every one who wishes to see the worst form of absentee landlordism brought to an end in this free country will hope that at last the unfortunates of the Magdalen Islands may get their rights and be relieved from a system of atrocious bondage and feudalism. It seems hardly possible that this state of affairs has been allowed to exist in a civilized community for nearly one hundred years. The people are prevented from improving their property through fear of losing it or of having the rent raised. The young men who can, leave the islands, and no one will settle there while the present system prevails. The land is said to be good, and the possibilities of the islands are great if they were relieved of the vicious system of government under which they are now suffering.

AGENTS' BUDGET.

In reporting the sale of the southwest corner of Sixty-third street and Drexel avenue last week the types were made to say that the price was $10,000 instead of $20,000. The correction is due from us, as the corner, 117 by 100 feet, is easily worth $20,000.

The lease has gone to the records of the southeast corner of Washington avenue and Fifty-sixth street by E. E. Reed to Frank Dillon for ninety-nine years at an annual rental of $4,000. This represents a valuation of $80,000 on a 5 percent basis, or $800 per foot, the corner being 100 by 150 feet. It was bought last March by Mr. Reed fer $33,750.

Dillon & Haines have sold for Mrs. Alice A. Ashley to George W. Marquardt of Iowa the southeast corner of Newberry and Henry streets for $75,000. The lot is 163x78 feet and is entirely covered by a four-story brick and stone building. There are twenty-four flats in the building, all of which are rented.

Adms

The lease of the triangular corner at Cottage Grove and Indiana avenues, now occupied by Baum's pavilion, to H. J. Tollotson has gone to the records. The lot has a frontage of 297 feet on Indiana avenue and the annual rental is $13,000, being 5 per cent on $260,000, or about $870 per foot for Indiana avenue frontage. The lot is to be improved with a four-story apartment house.

A permit has been issued for the Imperial Hotel on Cornell avenue, between Fifty-fifth and fifty-sixth streets. It will be six stories high and will have a frontage of 150 feet.

James E. Baker has bought the southeast corner of Sixty-third street and Drexel avenue, 124 by 100 feet, also the northeast corner of Sixty-third street and Cottage Grove avenue, 115 by 100 feet, and will improve both corners with four-story pressed brick buildings, to be used for stores and flats.

322 Ashland avenue two-story mansard and cellar stone front residence, for Charles E. Kremer to

J. C. Magill & Co. report the following sales: Augustine W. Wright, $21,000. Three-story store and flat building at 734 W. Madison street, for J. A. and R. Selle to Max Eberhardtfor $18,000. 645 Park avenue, for E R. Spear to George Henson, for $4,000. N. W. Cor. Congress and Forty-fourth street, 53x110, for Lyman A. Kennedy to B. F. Hartwell, for $2,000. N. W. Corner Forty-third and Congress street, for Louis Oberding to C. W. Lasher, for $1,600. Three lots on Paulina street, near Cornelia street, for Grace Bitner to C. H. Kirchhoff, for $3,000.

Rexford & Bellamy have made the following sales in their Spaulding subdivision since Saturday: The southwest corner of Western and Spaulding avenues to Louis Eggert for $3,000; four lots to H. Heide for $1,200 and ten lots in various portions of the subdivision at an average of $325 each.

Sonnenschein & Solomon have sold seventy-seven lots in Sonnenschein & Pierce's addition, sixty-five lots in Sonnenschein & Solomon's addition, and sixty-one lots in their second addition to La Vergne to J. H. Bellows for a total consideration of $57,710. The purchaser contemplates some extensive improvements for the property.

ANOTHER SCHEME TO FOOL THE COUNTRY JAKES.

Chicago and St. Louis are to be united as it were by a new Electric Railway which shall annihilate distance. "If," says the Chicago Herald, "electrical wizards are not off their base a man may go to St. Louis from Chicago in three hours and cover a distance of 280 miles." The Herald further says: "A man has not a pleasant task before him when he starts to St. Louis now. He doesn't care if it takes a week to get to St. Louis, provided he can get away from there quick. His whole thought is bent on getting away." This kind of talk makes intelligent people sick. If such is the case why will Chicago and St. Louis capitalists build the greatest, fastest and most expensive line in the world to get there. A St. Louis man who is well bred, nice-looking and wealthy remarked to a JOURNAL reporter that he "would bet a million dollars that there was less dirt and filth and stink, and more self-respect in St. Louis to the square acre than in She-cow-go." The fact of the matter is that intelligent people are getting very sick of so much "gall" on the part of Chicago newspapers. This kind of talk is all rot; that railroad is a fake. Give us a rest and a few more suburban trains that can run even 30 miles an hour, so as to allow suburbanites to escape the stench of the streets and the Chicago river before darkness sets in. Chicago can no more live alone without friendly relations with sister cities than can an individual live happily by ignoring and denouncing his neighbors.

CURRENT COMMENT.

In the financial articles of previous issues of this JOURNAL frequent references have been made to the prosperous condition of the Chicago, Milwaukee & St. Paul Railway. Other journals, notably the Chicago dailies, have recently contained statements of the same character. Some time ago a gentleman prominent in financial circles was heard to say that capitalists of Europe regarded the stocks and bonds of the above named road as among the very best of American securities, because the company had invested its earnings in making improvements, and extensions and in purchasing equipments of the very best grade. The rapid increase in through traffic both passenger and freight has necessitated many of these improvements and the construction of a double track between Chicago and Elgin is but an example of the enterprise of the company. The Chicago, Milwaukee & St. Paul railway company runs out of the city some of the finest passenger coaches in the United States drawn by the best engines in use in this country. A wise and judicious management, who foresaw the great future development of the country through which and in the direction of which its lines extended, called to its aid the best talent in the country, and by a liberal expenditure of money in salaries, equipments, road bed, tracks and bridges placed

the road foremost among the railways leading west and northwest from Chicago.

***

No doubt the practice of offering large bonuses to manufacturing enterprises to locate in new towns has in some instances resulted in abuses, but the wonder is that the results have not been more disastrous than they have been. The chief difficulty is that concerns of this kind are too frequently of a shaky character and are attracted to new towns by offers of free land and other advantages which their lack of finances makes specially desirable. In such cases the promoters of the town are most likely to be the heaviest losers. But fortunately the great majority of manufacturing enterprises that are locating in or near Chicago are on a firm financial footing before coming here.

***

The necessity of securing a supply of pure water during the recent threatened cholera epidemic in New York gave rise to a discussion of means to secure so desirable an end, and among the measures proposed was the evaporation of the entire water supply of the city. The figures involved in the transaction are so large as to be practically prohibitive of any such scheme. The city uses in the neighborhood of 100,000,000 gallons or 830,000,000 pounds of water per day, to evaporate which would require about 83,000,000 pounds or 41,500 tons of coal per day. The size of the plant required would be an additional wonder in the computation which has not yet been stated.

***

The locomotive whistle nuisance is of direct interest to all owners of and dealers in real estate where located within earshot of a railroad. There are some portions of the suburbs of Chicago that are almost uninhabitable by reason of the day and night shrieking of locomotive whistles. This is particularly true of railroad crossings, at which engineers take especial delight in blowing loud and long at the most unseasonable hours. Steps have been taken recently to put a stop to this nuisance, and it is to be hoped the effort will be successful.

***

The practice of numbering houses by beginning with a new hundred for each block has its imitators in the Indian villages of Alaska, but on a scale far from perfect. The natives evidently appreciate that the numbers should grow larger as they progress, but they have not as yet learned that the increase of the numerals should be regular or in fact according to any established system. Accordingly, their first house will commence with any number, as the fancy strikes them, for instance, 500, the second will be 600, the third 750, the fourth 1,000, the fifth 1,075, and so on. These jumps are most erratic, but they display a steady increase and never a decrease. At the end of a comparatively short row of houses you may come to number 3,000, and this you will find to be the rule on every street and in every village. This, of course, applies only to the residences of the half-civilized Indians.

***

That section or the city lying south of Fifty-eighth street and tributary to Wentworth avenue as far south as Eighty-third street is destined soon to have transportation facilities equal if not superior to any other portion of the city. The alley elevated road will construct a branch starting at Fifty-eighth street and running west to an alley just west of Wentworth avenue, where it will run south to Sixty-third street, the purpose being to continue it southward as far as Eighty-third street as soon as possible. This entire territory is now very effectively served by the Rock Island and Eastern Illinois roads and the South side cable road, all of which are doing a very large business, owing to the rapid settlement of the territory. The alley elevated will not only be a formidable rival of these lines but will complete a system of rapid transit for Englewood and the suburbs immediately south which, we venture to say, is unsurpassed not only in this but in any other city.

***

Combination seems to be the order of the day, notwithstanding the agitation against trusts and combines. The latest report is that the Standard Oil magnates have virtually secured entire control of Superior, Wisconsin, and its immense iron and shipbuilding interests and that they will consolidate all these into one mighty company. The companies said to be concerned in the combination are as follows: West Superior Iron and Steel company, Land, River and Improvement company, Illinois Steel company, American Steel Barge company, Minnesota Iron company, Minnesota Steamship company, Duluth and Iron Range Railway company.

The aggregate capital of these companies is said to be in the neighborhood of $50,000,000, and not a dollar of it is water. The combination will be able to dictate in the Northwest and will dictate for the benefit of Superior, which is to be made the center of iron manufacture. The combination in the fleets of the Minnesota Steamship company and the American Steel Barge company will have the power to fix and control Lake ore freights. Through the Minnesota Iron company control will be secured of all the valuable mines on the Vermillion range, and very large holdings on the new Mesaba, holdings which will be added to until it is also under the sway of the combination. The magnitude of the new company is best seen in what it will be able to accomplish. It will mine iron at its own mines, bring it to the terminal points over its own rails, make it into plates at its own mills, form it into vessels in its own yards and in all of these departments of work will be powerful enough to crush out its rivals.

THE JEFFERSON STREET RAILWAY.

At a well attended meeting of the property-owners interested in the Jefferson Street Railroad Company at Room 37, 94 Washington street, Wednesday afternoon, plans were considered for the extension of the line from Milwaukee avenue north. The projectors of this line are all property-owners and they say that the enterprise is sure to be a success. The applications for stock are already in excess of the amount necessary to be issued. At this week's meeting a proposition was received from one section of the contiguous territory that if the company would run a branch line, owners of property along the line would pay $15,000 bonus. It is said that an equally good or a better proposition will be made from another section. The line as far as projected is to run from the intersection of Milwaukee, Elston and Chicago avenues, on Elston avenue to Jefferson avenue. From this point it will branch out in several directions. A consideration of the routes to be taken will be the first order of business at the next meeting.

AMERICAN INSTITUTE OF ARCHITECTS.

Aa the annual meeting of the Illinois Chapter of the American Institute of Architects at the rooms of the Institute of Building Arts, No. 65 Washington street, the following officers were elected:

President, W. L. B. Jenney; first Vice President, W. W. Clay; Second Vice President, S. A. Treat; Treasurer, N. S. Patton; Secretary, George Beaumont; trustees for the Institute of Building Arts, S. A. Treat and S. V. Shipman.

Reports of the retiring officers were read. The chapter took charge of the reception and entertainment of members of the American Institute of Architects, at the twenty-sixth annual convention held Thursday, Friday and Saturday. An informal reception at the institute of building arts was tendered the visitors Thursday by the Illinois Chapter. Thursday evening the convention met at Recital Hall in the Auditorium building. Friday and Saturday the convention's headquarters are in the horticultural building, Jackson Park. The architects attended the dedication ceremonies in a body.

GOOD ROADS CONVENTION.

A convention of delegates from various states assembled in Central Music Hall Thursday evening for the purpose of forming a national league to promote highway improvement. Chauncey B. Ripley of New Jersey called the meeting to order and introduced for chairman Gov. Fuller of Vermont, who in turn introduced Gen. Roy Stone of New York, the speaker of the evening.

Gen. Stone addressed the convention at some length, and at the conclusion of his address Judge E. H. Thayer was by acclamation made permanent chairman, Col. Albert A. Pope of Boston and Isaac B. Potter of New York escorting Judge Thayer to the front. S. Thornton K. Prime of Illinois was made permanent secretary. Upon motion the following were selected to present a constitution for the association: Gen. Roy Stone of New York, William H. Rhawn of Pennsylvania, Isaac B. Potter and Gen. Horace Porter of New York, Gen. P. S. Post, John M. Stahl, T. N. Hackett and F. W. Gerould, of Illinois and Col. Albert A. Pope, of Massachusetts. A committee on organization was appointed, consisting of all those who recently signed the call for the meeting. The constitution, as submitted by the committee, was adopted, and it provides that the name of the organization shall be "The National League for Good Roads." The headquarters of the league are to be in Washington. D. C., except during the Columbian Exposition, when they will be in Chicago.

REAL ESTATE LAW.

DECEIT IN THE SALE OF LAND.

Supreme Court of Indiana; Williamson v Woten. In an action of deceit for damages in the sale of land the complaint stated that plaintiff was induced by defendants to exchange his lands for lands in Kansas; that there were false representations as to the lands in Kansas, and plaintiff relied upon them and was damaged. Held, that the complaint sufficiently stated a cause of action, and further, that the plaintiff was entitled to a vendor's lien on the lands sold for the Kansas lands as security for the damages claimed for the false representations.

FORFEITURE OF PROPERTY SOLD ON PAYMENTS.

A decision of considerable interest to real estate dealers was rendered by Judge Horton recently in the suit of Robert A. Davis against John T. Crawford. Davis entered into an agreement with Crawford to sell him the South Chicago hotel at Ninety-second street and Exchange avenue for $15,000. After paying $4,800 Crawford defaulted in his payments and Davis sued to have the sale set aside and the full title to the property vested in him again. Crawford brought a cross-bill, claiming that Davis was not entitled to a verdict because he had declared a forfeiture immediately after the first default of payment. Judge Horton found for the complainant, and ordered Crawford to surrender the property.

OWNER OF LAND PURCHASED WITH PROCEEDS OF SALE OF HOMESTEAD IS ENTITLED TO HOMESTEAD RIGHTS.

Kentucky Court of Appeals; Sebastian v Steel. Decided that where it appeared that the land sought to be subjected to a lien was purchased with the proceeds of land occupied by the defendant as a homestead prior to the creation of the plaintiff's debt, and no lien was asserted by the pleadings, the court held that the defendant was entitled to a homestead.

RIGHTS OF RAILROAD TO LAND TAKEN AS RIGHT OF WAY.

Kentucky Court of Appeals; Stickley v Chesapeake & Ohio Railroad Company. Decided, that a railroad company which enters upon and appropriates the land of another to its own use without right cannot transfer its corporate privileges to another, so as to justify a continuance of the wrong by its vendee as if the latter were an innocent purchaser; that where the proximity of a railroad to the property of another is such as to prevent the owner's reasonable ingress and egress to and from his premises, or to cause necessarily soot and cinders to enter his dwelling, there is a taking of private property for public use for which compensation cannot be made; that if the company which constructed the road transfers it by lease or sale to another, the original company and its lessee or vendee are jointly liable to the owner for the damages sustained, but where the injury resulted from the careless operation of the road, the rule is different, and the company operating the road at the time the injury was sustained is alone liable. The court further held that where property has been permanently injured by the construction and prudent operation of a railroad, the right of action to recover the damages sustained is in the person who owned the property at the time the road was constructed, although he may have parted with his title since that time, and that where the injury is permanent in its character a single recovery should be had for all past, present and future damages.

PLANS BY ARCHITECTS.

Architect Charles F. Sorenson is taking estimates on two flat buildings to be erected on Potomac, near Hoyne avenue, for M. Anderson. They will be three stories high, twenty-two by fifty-six feet each, have ornamental stone fronts, plate and stained glass, hardwood finish, furnace heat, wooden mantels and modern conveniences. Cost, $14,000.

Architect L. C. Hallberg is taking estimates on a flat building at the northeast corner of Jackson boulevard and Hoyne avenue, for E. T. Person. It will be three stories high, twenty-seven by sixty-five feet. have pressed brick and stone fronts, furnace heat, mantels, and modern improvements. Cost, $9,000.

Architects White & Coleman are having plans prepared for a four-story store and apartment house to be erected at the northwest corner of Oglesby avenue and Sixty-seventh street. It will have dimensions of 165 by 138 feet and will contain eight stores and forty flats of five and six rooms each. The building will be of stone and brick construction and will cost $75,000.

Architects Mayo & Curry are making plans for an apartment house to be built on the northeast corner of Sixty-seventh street and Rhodes avenue for A. J. Robertson. It will be 125 by 100 feet in size, three stories high, and will cost about $50,000. The structure will be used as a hotel during the World's Fair and will be known as the Tennyson. An innovation in this structure will be that the building will not only be lighted but heated by electricity. The same architects are also making plans for eight frame houses for Dunham & Fuller, to be built in the Manufacturers' addition to Luddington, Mich.

Architects McMurry & Davis are completing plans for a handsome office building to be erected at Mount Vernon, Ill., for W. H. Green. It will cover 120 by 80 feet, be three stories high with a basement, have stone fronts, steam heat, electric light, tile and marble work, vaults, and the latest improvements. It will contain about one hundred offices and three stores. Cost, $20,000. They have also made plans for a flat building at 3943 St. Lawrence avenue for George Einbecker, 3700 Wentworth avenue. It will be three stories high, cover twenty-two by fifty-eight feet, have a stone front with an octagon stone bay, mantels, bathrooms and possibly hot water heating. Cost, $7,000.

Contracts are about to be let for the reconstruction of the Laflin building at the southeast corner of Wabash avenue and Randolph street. Two stories are to be added to it, several elevators put in and all floors above the first are to be divided into offices. The total cost of the improvement will be $100,000. The conversion of this building into an office structure is directly traceable to the construction of the Wabash avenue loop of the South Side cable.

Architect S. A. Jennings, of Evanston, reports the following buildings:

Frame residence for Geo. Bristol, to be built on Forest avenue, Evanston, costing $10,000 complete, with stone basement, finished in hardwoods and heated with hot water. Porch has Bedford stone columns and carved soffit. Porch gable treated with a design in cement fiber. A brick veneered two-story double residence for Mr. A. Thomas, to be built in Edgewater, Ill., costing $8,000 complete. Entire house finished in white ash, heated with hot air, and has porches entirely separated. A 2-story and attic double frame residence for Mr. Edward S. Taylor, costing complete $12,000. Has colonial porches, design of cement fiber in main gable, and the "double house look" is entirely done away with. To be built on Hinman avenue, Evanston. Very odd Swiss Villa residence for Mr. Edward H. Taylor to be built on Hinman avenue, Evanston, costing $5,500. A residence for Mr. A. L. Butler, to be built on Orrington avenue, Evanston, costing $5,600. Frame residence for Mr. John Hacker to be built on Wesley avenue Evanston, costing $4,500. Frame residence for Mr. A. Rogerson to be built on Hamilton street Evanston, costing $5,100. Frame residence for Mr. Thos. H Beebe, to be built on Asbury avenue, Evanston, costing $5,500. A large brick veneered 3-story double house to be built on Orrington avenue Evanston for Mr. Geo. N. Foster, costing $15,000. Heated with hot air, trimmed with Georgia pine finished on the grain. Porches separated. Frame residence for Northwestern University to be built on Orrington avenue, Evanston, costing $9,000. Trimmed in Georgia pine finished on the grain, with hot air heat and all modern conveniences. Brick veneered residence for the Northwestern University to be built on Orrington avenue, Evanston, costing $9,000. Also heated with hot air and provided with all modern conveniences. Treatment of cement fiber in front gable. A fine frame residence for Mr. J. W. Low to be built on Oak avenue, Evanston, costing $14,000. To be trimmed in hard woods, and heated with hot water Exterior English gothic style. Main gable and various other parts of design treated with cement fiber. Basement, porch piers and ballustrade of rock-faced Bedford stone. Easements to porch soffit carved in bold relief.

SOUTH CAROLINA.

Anderson—An addition 45x37 feet is being built to the Anderson hotel at a cost of $6,000.—Camden—John Burdell has awarded contract to Adams & Holler for the erection of a two-story business building.

EPITOME OF NEW INDUSTRIES.

ALABAMA.

Gurley—The plans of Architect Breedon, of Huntsville, have been adopted for the building for the Donnell high school.—Mentone—J. Craddock will enlarge his hotel.

ARKANSAS.

Hot Springs—Contract has been awarded P. J. Ledwidge to build a hotel at Spring Lake.—Little Rock—Gibb & Breysacher, architects, report the following: O. M. Neelson, brick veneer, $2,800; A. Bragg, brick, $4,000; George Liper, brick, $6,000; B. L. D. Cook, north side, brick store, $8,000; B. A. Hardy, Monticello, frame, $2,500; J. P. Hewy at Hope, remodelling, $1,000, frame; A. G. McRae, at Hope, frame, $1,000; Confederate Home, Little Rock, brick, $13,000.

DISTRICT OF COLUMBIA.

Washington—The congregation of St. Matthew's Church will build a new church.—Washington—Richardson & Burgess have been awarded contract to build a $20,000 villa for Hon. W. M. Stewart, A. L. Johnson, of Philadelphia, Pa., prepared the plans.

FLORIDA.

Bronson—The building of a new courthouse by Levy county is proposed. The county clerk can give information.

GEORGIA.

Americus—A company may be formed to build a new opera house.—Atlanta—George J. Dorr and C. B. Holmes, of Chicago, Ill., have purchased a tract of land on which it is rumored that a depot will be built for the joint use of the Georgia, Carolina & Northern Railway (office, Athens) and the Nashville, Chattancoga & St. Louis Railway (office Nashville, Tenn.)—Macon—A hospital will probably be built. T. S. Jones can give information.—Macon—A school building will be erected at Bellevue. The board of education can give particulars.—Macon—The Knights of Pythias will shortly commence erecting their hall. It is to be three stories, 72x92 feet, and to cost with site $35,000—Macon—The enlargement of the Ribb county jail or the building of a new one will probably be considered at the next meeting of the county commissioners.

KENTUCKY.

Hopkinsville—The plans of Carpenter & Peebles, of Nashville, Tenn., have been adopted for the church to be built by the Baptists. It will be a white limestone structure with red sandstone trimmings, 80x130 feet, and cost about $20,000. Dr. James Rodman can be addressed.

LOUISIANA.

New Orleans—The New Orleans City & Lake Railroad Co, will build a brick stable to cost about $11,000.

MARYLAND.

Barton—The Alleghany county school board will erect a school building in Barton.—Crisfield—R. B. Owens, of Baltimore, has prepared plans for a church 60x90 feet with ninety-six-foot tower for the Methodist Protestant Church. It is to cost $20,000. Rev. J. M. Holmes can be addressed,—Frostburg—The erection of a two-story brick school building 76x112 feet is proposed. School Commissioner Beall can give information.—Highfield—J. W. Shatzer intends building a hotel.

MISSISSIPPI.

Magnolia—An additional building will be erected for Magnolia College.

NORTH CAROLINA.

Durham—B. L. Duke is building a storage warehouse 20x80 feet to cost from $20,000 to $25,000.

TENNESSEE.

Union City—H. C. Lefiles is building a forty-four room hotel. Heating apparatus will be put in.

TEXAS.

Dallas—J. E. Handes, architect, has prepared plans for a twelve room school building for Oak Cliff. It is of pressed brick with stone trimmings, two story and basement, metal tile roof, Fuller & Warren's system of heating and ventilation. Also plans for a block of fourteen store rooms for J. L. Norselles, Oak Cliff. It will be of brick and cost about $10,000. Also plans for a block of seventeen one story store rooms, having a total frontage of 400 feet. Will be of pressed brick and will cost about $15,000. Also plans for a four room school building for the fourth ward of that city. It will be of pressed brick with stone trimmings, slate roof, Fuller & Warner's system of heating and ventilation, and will cost $15,000.—Dallas—A. B. Bristol & Son, architects, have prepared plans for a residence for E. M. Turner, Hillsboro. It will be a frame with brick foundation and will cost $3 000. The same architects have prepared plans for Jno. L. Simpson's residence, Gainesville; cost $8,000, nearly completed; also a barn to cost $1,800. The same architects have prepared plans for a residence for C. C. Hemming, Gainesville, nearly complete to cost $6,200; also plans for M. E. Church, South, Gainesville, brick veneer, to cost $11,000; school house, Ladonia, almost complete, cost $10,000; school house for Whitesboro, cost $11,000; city hall for Whitesboro, cost $4,000; store for E. M. Turner & Co., Hillsboro, cost $6,400; residence for R. S. Lumpkin, Hillsboro, approximate cost, $4,000.—Dallas—O. H. P. Rudosill & Son, (successors to J. B. Legg Architectural Co.,) architects, have prepared plans for a frame residence for B. F. Lord, Esq., of that city; it will cost about $25,000. They have also prepared plans for a frame residence for Bryan T. Barry, Esq., two story with brick foundation; it will cost about $6,000. They have also prepared plans for a two story frame residence for B. Blankenship, Esq., with brick basement. It is to be fitted with gas and electric lights and hot and cold water throughout. They have also prepared plans for the Centennial Memorial Church Building for the Baptists of South Dallas, to replace the building recently destroyed by fire. It will be of pressed brick with stone trimmings, and will cost about $7,500. Also plans for a summer residence for Henry Exall, Esq., to be erected on the Lomo Alto Stock Farm, about four miles from Dallas; it will be frame with brick foundation and will cost about $4,000.—Gainesville—A. B. Bristol & Son, architects, Dallas, Texas, have

VIRGINIA.

Christianburg—The Christianburg Building Co. will be organized with a capital stock of $25,000—Harrisonburgh—The building of a new court house and jail by Rockingham county is proposed.—Lynchburg—Mr. Morrison will probably build a hotel at Sixth and Main streets.—Newport—W. H Landon intends building a three-story brick business house. Teagne & Marye are preparing the plans. Newport Church—The Presbyterians contemplate building a church.—Roanoke—Joseph A. Galed, referred to in the last issue, will not build a warehouse in Norfolk, but may build one in Roanoke.—Staunton—Bids are invited for building the city hall and market-house lately mentioned. It is to be a two story brick building 75x750 feet.

THE LIEN LAW.

The Mechanic's Lien Law of Illinois, as collated by the Builder and Trader, is as follows:

The mechanic's lien statute is strictly construed, and all its requirements must be strictly complied with.

Materials must be for a definite building specified in contract, and must be actually used in its construction. No lien can be had for materials furnished on open account, and not for use in specific building.

Taking note as evidence of indebtedness does not waive lien unless taken as absolute discharge of debt. Taking other security discharges lien.

Contract must be with owner of land, or with party having an interest in the land, and attaches only to such interest.

ORIGINAL CONTRACTOR.

Contract, if expressed, must provide for completion within three years and time of payment within one year from time of completion. Implied contract must be completed within one year from commencement of work or delivery of materials.

Lien, as to the improvements, has preference over incumbrance but prior incumbrance of record has preference over lien as to the land.

Contractor must, within four months after last payment is due and payable, file with the clerk of the Circuit court an itemized and detailed statement or account, under oath, of amount due after all credits, setting forth times when labor and materials were furnished and credits paid, and containing a correct description of property. See Sec. 4.

Suit must be commenced within two years after filing such claim.

Contractor must, when requested in writing by owner, make statement, as provided in Section 35, or suffer penalty.

Owner may retain ten per cent of proportionate value of work performed.

SUB-CONTRACTORS.

Sub contractors must serve notice on owner within forty days after completion of sub contract.

When claim is for labor, notice may be served within twenty days and obtain lien on ten per cent of value of work done under original contract, even if the contractor has been paid in full.

If such contractor is not paid within ten days after serving notice, he may bring suit, and must bring suit within three months from completion of sub-contract.

In general it is safer to deal directly with principals than with their agents; and in dealing with the latter, be sure that they have authority and are not exceeding it.

Before signing a building contract, read the whole of it, and understand the whole of it; and above all, see that it describes the lot upon which the building is to be erected, that the time for the commencement and completion of the work is clearly stated, and that the contract price and times of payment are mentioned and understood. Where it becomes necessary, to have the contract for "extras" reduced to writing.

A claim for "extras" will support a lien.

Use the uniform form of contract and avoid complications.

BONA FIDE LIST OF PROPERTY FOR RENT.

REVISED AND CORRECTED EVERY WEEK—ALL LETTERS MUST BE ADDRESSED DIRECTLY TO THIS JOURNAL AND MARKED WITH THE LETTER AND NUMBER OF THE PROPERTY ADVERTISED—PROPERTY THAT CANNOT BE DELIVERED, AND PROPERTY SOLD OR UNDER CONTRACT, WILL BE STRICKEN FROM THIS LIST AT THE REQUEST OF THE OWNER OR HIS AGENT.

THE

CHICAGO,

MILWAUKEE

AND ST. PAUL

RAILWAY CO.

Owns and operates 5,650 miles of thoroughly equipped road in Illinois, Wisconsin, Iowa, Missouri, Minnesota and Dakota.

It is the Best Direct Route between all principal points in the Northwest, Southwest and Far West.

For maps, time tables, rates of passage and freight etc, apply to the nearest station agent of the CHICAGO, MILWAUKEE & ST. PAUL RAILWAY, or to any Railroad Agent anywhere in the world.

A. J. EARLING, General Manager.

GEO. H. HEAFFORD, Gen'l Pass and Tkt. Agt.

CHICAGO, ILL.

☞For information in reference to Lands and Towns owned by the CHICAGO, MILWAUKEE & ST. PAUL RAILWAY COMPANY, write to H. G HUGEN, Commissioner, CHICAGO ILL.

The Marvel of the Musical World.

$30 worth of CHOICE MUSIC for $1.50.

The New York Musical Echo is quite a novelty in modern journalism, and affords a grand opportunity to musicians and music-loving people. It is a large quarto musical publication, published monthly, each number containing 24 full size pages of sheet music, the brightest, liviest and most popular selections of the day, both vocal and instrumental, together with a pretty cover, on which is a full page portrait of some beautiful actress for singer. The music and portrait changed with each issue.

A Year's Subscription to the New York Musical Echo is $1 50 (sample copies 15c.) and means 288 full size pages of sheet music and twelve fine portraits, making when bound one of the handsomest portfolios of the newest and nicest music ever published. We want our friends to be careful of each number as duplicate copies may soon be a thing of the past. Don't lose any of the pretty music we are publishing, so start from the December number. The American News Co., or any of the News Agencies will supply you, or order direct of us ☞

The New York Musical Echo Co., B'way Theatre B'ld'g, 1441 B'way, N.Y. City.

GENERAL OFFICES:

160-172 Adams Street, CHICAGO.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electr c power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same.

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,

Industrial Commissioner,

C, M.. & St. Paul R'y, 160 Adams St., Chicago, Ill.

FRANKLIN PARK 90 feet above Lake Michigan. "EXCELSIOR" Is Its Motto.

What a Word of Significance in these simple Figures for the safe Guidance of the prudent Man who, in locating a Home for his Family, would put high above all minor Considerations,

The Priceless Boon of Health.

FRANKLIN PARK is the Growth of less than two Years. It is the suburban Terminus of the Chicago & Northern Pacific R. R., and is situated at the Intersection of the Wisconsin Central R. R. with the Chicago, Milwaukee & St. Paul R. R. It is 90 feet above Lake Michigan, 11 miles from the City's centre, 2 1-2 miles west of the City limits and is accommodated by 54 passenger trains daily. It has the two finest suburban depots west of the City, costing over $5,000 each, a spacious hotel, a fine block of stores, scores of attractive residences, miles of side-walk, sewers and shade trees and an abundance of wholesome water.

On its western border is MANHEIM, the nucleus of extensive manufacturing concerns and destined to be a busy centre of diversified industries.

You areWelcome any Sunday or any Weekday, to a free Ticket for the Inspection of this,

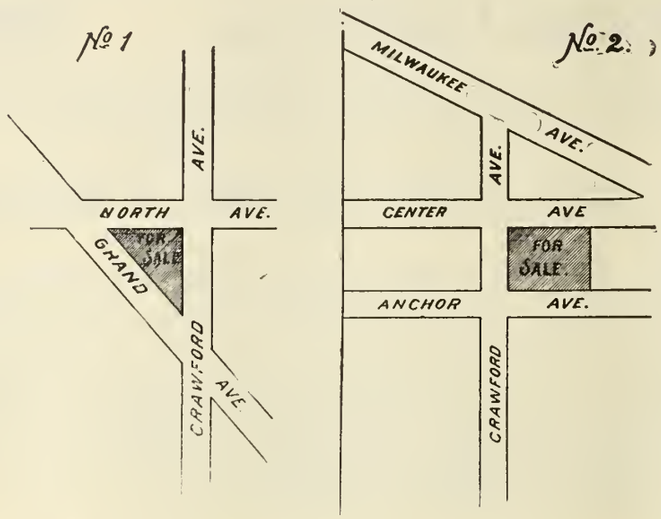
L. FRANKLIN,

130 LA SALLE STREET:

I WANT INVESTORS TO INVESTIGATE



These Two Bargains

They are Good Value and will pay 100 per cent. within one year.

NO. 1.

20 acres between Crawford, Grand and North Aves. Three choice streets. Price $3000 per acre. Lots on North Ave. within one block of this land are selling at $50 per foot. This is the only land not platted in this section.

Call quick on

NO. 2.

5 acres already sudivided into 48 lots. Crawford Ave. on its west line, only a short distance south of Milwaukee Ave., as indicated on map. This property can be bought now at $2500 per acre and will sell readily at $500 to $750 per lot—9 lots to an acre.

Investigate this. $2000 cash will buy it.

WM. W HUTCHINSON, Room 407, 225 Dearborn St.

CHICAGO HEIGHTS!

THE GREAT MANUFACTURING AND BUSINESS CENTER.

Business and Residence Property For Sale at Extremely Low Prices and on Easy Terms.

DOLESE & SHEPARD, 162 Washington Street, Chicago,

HAVE BEEN AWARDED A CONTRACT AMOUNTING TO

ONE HUNDRED AND SEVENTY THOUSAND DOLLARS

($170,000) for the purpose of macadamizing 17 miles of streets and building stone sidewalks.

NO ASSESSMENT will be made for the improvements, the Association assuming the entire expense. The wise and prudent people who invest a small amount of money in CHICAGO HEIGHTS property will in a comparatively short time reap large benefits. No sane person can question the wisdom of making an investment in Chicago property.

Four large factories are in full operation and contracts closed with several others. A large number of residences and business houses in course of construction, also an extensive factory building for Roth & Englehardt, Piano Manufacturers of New York.

STABILITY OF THE ENTERPRISE

The following well-known gentlemen are among the promoters of Chicago Heights:

GENERAL OFFICERS OF THE CHICAGO HEIGHTS LAND ASSOCIATION:

C. H. WACKER, President. **E. S. DREYER, Treasurer.** **GEORGE BURRY Secretary.** **M. H. KILGALLEN, Manager**

BUSINESS OF THE WEEK.

GENERAL VIEW OF THE SITUATION—PROSPERITY AT HOME MARRED ONLY BY ADVERSITY ABROAD—TRADE HINDERED BY HOLIDAYS—THE OUTLOOK ENCOURAGING.

The general business situation throughout the United States is decidedly healthy. Trade is active, money is plentiful, collections are good, failures few, and the volume of business in all lines enormous. The aggregate of bank clearings outside of New York for the month of October has never been equalled in the same month of any previous year. The excess over last year is about fourteen percent, and over 1890, when October transactions were the largest on record, the excess this year is about nine percent. This is the more remarkable as prices are uniformly low. All industries report a rush of orders, many establishments being worked over time. This extraordinary demand and the great distribution of goods throughout the entire country has resulted in a car famine. The transportation facilities of the country which heretofore have been considered more than ample, have at last been outgrown by the rapid increase in trade and traffic.

At Chicago incoming freight from the west has filled the railroad yards to overflowing, so that for a few days the congestion has been almost unmanageable. The result of the unprecedented traffic of the year is that all the railroads are increasing their earnings. The gross earnings of seventy-two roads for the first week in October, 1892, were $8,609,816, an increase of $323,390 over 1891. The gross earnings of forty-seven roads for the second week in October this year were $7,310,236, an increase of $333,547 over last year. All the western roads show a large increase. The effect on the stock markets is noticeable.

The only cloud on the business horizon is the unfavorable condition of foreign trade. The commercial situation in England is about as bad as it can be, and the effect on our exports is plainly appreciable. The short crops among English farmers may stimulate the shipment of grains from this country, but lack of prosperity there is sure to decrease the general foreign demand for our products. The fact is that there has been a heavy falling off in exports this year as compared with last. Our exports in September were less than $63,000,000, as against $83,000,000 for the same month last year, and $68,700,000 in 1890. A similarly unfavorable comparison can be made for July and August. The exports for the three months, July, August and September, 1892, were over $32,000,000 less than in the same three months of 1891. Add to this the fact that for the same period the imports have been unusually heavy, and you have at a glance the explanation of the unfavorable condition of our foreign trade at present. During September, 1892, our imports exceeded our exports by $10,000,000; and during the three months, July August and September, the excess of imports was $35,524,519. During the same months last year the trade balance in our favor amounted to $23,708,387. We need not wonder at the heavy shipments of gold from New York in the face of our excess of importations. Were it not for the enormous trade balance built up in favor of this country in the previous two years, the present showing might be considered alarming.

The wheat market has been depressed, owing to large receipts with lack of elevator room and the inability to handle incoming cars promptly. Corn also has been bearish, but oats and hog products have been active and advancing. On the whole, the board of trade has felt the influence of the late holidays unfavorably.

At New York a further depressing influence on the wheat market has been exercised by the New York Central railroad company in notifying owners of 216,000 bushels of wheat now on the track there that it must be taken care of at once. As the elevators are full, this practically puts 216,000 bushels of wheat additional on the market.

Stocks on Wall street have been comparatively uninteresting except for the professional manipulation which has been active during the week. The public has learned that bull movements on the parts of manipulators are safe things to keep away from. An attempt was made early in the week to boom Chicago gas on the New York market. The fact that a reduction in price of five cents per 1,000 feet is to take effect January 1, did not help the bull movement, and the latest report is that the stock has fallen off again.

ANALYSIS OF BANK CLEARINGS.

The following table gives the total bank clearings for sixty-one cities of the United States for the first nine months of 1892 as compared with the same months in 1891, with percentages of increase or decrease. The table also indicates the new relative order of the cities.

CITY.	1892	1891	PERCENTAGE
New York	$26,800,489,462	$24,259,906,426	Inc 10.7

Total, U. S.	$45,489,413,531	$41,380,105,233	Inc 10.0

We have compiled for our readers this week from Bradstreet's reports a complete summary of the bank clearings totals for the first nine months of 1892, with the percentages of increase or decrease for each city from which reports are available. Sixty-one cities are represented in this compilation. The remaining cities of the table do not allow of a comparison, as the returns of their clearings do not extend over the period of twenty-one months embraced in the present table.

The total clearings of all the cities of the table amount to $44,500 millions for the first nine months of 1892, or 10 percent more than in 1891, three-tenths of 1 percent more than in the first nine months of 1890, and 9 percent more than the same period in 1889. The aggregate clearings of all the cities except New York are 9.8 percent more than for nine months of 1891, 6 percent more than in 1890, and 20 percent more than in 1889.

The cities are here given in the order in which they now stand, judged by the results of this latest comparison. It will be seen that Chicago has passed Boston and secured second place, to which for a long time it has evidently been entitled and in which it will doubtless remain. The first nine cities, with the exception of Chicago, remain unchanged as to rank. But New Orleans, which was tenth a year ago, has dropped back one place to give way to Kansas City. Minneapolis has passed Buffalo and Louisville, and comes up from fourteenth to twelfth place. Detroit and Milwaukee have held their own. Cleveland has gone ahead rapidly passing Galveston and Providence and thus changed from nineteenth to seventeenth in rank. Omaha, which was twenty-second in order, is now eighteenth, but Providence has gone back from eighteenth place to nineteenth. Denver has maintained its position as twentieth and St. Paul also as twenty-first, but Galveston has dropped back five points from seventeenth place, which it held a year ago, to twenty-second. Indianapolis remains twenty-third. Columbus has advanced from twenty-fifth to twenty fourth. Further down the list numerous changes occur, but Rochester, New Haven, Portland, Me., Wilmington, Los Angeles, New Bedford, Topeka and Binghampton occupy relatively the same positions that they did one year ago.

The percentages of increase of the totals indicate a large gain over previous years. If the same ratio of increase is maintained during the remaining three months of the year, it will be the banner year for bank clearings. Two sets of totals have been considered, one including New York and the other excluding that city. It will be noticed that by far the largest percentage of increase over past years is in the total of cities outside of New York. This would indicate that the rate of increase of New York's clearings is considerably less than that of the combined outside cities. In the table printed above, New York shows an increase over 1891 of 10.7 percent. Other cities return increases varying from 2.1 to 39.5 percent. Omaha returns the latter remarkable percentage of increase. Minneapolis comes next with an increase of 25.8 percent. Then comes Lincoln, Neb., with an increase of 23.3. St. Joseph increases 19.4; Denver, 19.4; St. Paul 18.0; Columbus 17.4; Chicago, 16 0; Philadelphia, 15.7; Memphis, 15.0; Salt Lake City, 14.7; Washington, 14 6; Fort Worth, 14 0, and so on. Only twelve cities show decreases. They are San Francisco, New Orleans, Galveston, Nashville, Duluth, Ft. Worth, Waco, Norfolk, Tacoma, Los Angeles Birmingham and Chattanooga. Nearly all these are seen to be Far Western and Southern points. The South and Pacific coast have for some time been toiling along heavy roads and have not yet succeeded in getting out of the mire. The North and East are seen to be progressing handsomely, judging from the comparisons of the table, and are in a fair way to make a brilliant record for 1892.

Making an analysis of the situation by groups of States we have the following result.

	1892.	1891.	
New Engl'd States.	$4,162,762,954	$3,990,443,886	Inc 4.3
Middle "	30,546,629,000	27,550,581,296	" 10.9
Southern "	1,455,411,850	1,433,334,762	" 1.5
Western "	1,653,274,344	1,491,090,444	" 10.9
Northwestern "	4,908,572,276	4,207,644,152	" 16.6
Southwestern "	1,533,573,451	1,408,813,465	" 8.8
Far Western "	1,044,639,195	1,072,003,514	Dec 2.5
Totals	$45,304,863,070	$41,153,911,519	

LOCAL STOCK MARKET.

The three days' holiday of last week was the cause of much speculation as to the price of stocks on the exchange at the opening on Monday, and not a few purchasers of the speculative securities bestirred themselves to buy up West Side and North Side Street Railway stocks before Monday morning. On the opening of the exchange prices of the street railway stocks were strong, owing to the many orders to buy at whatever price offered. It was confidently expected that the phenomenal earnings of the street railways during dedication week would act as a powerful bull influence to boom these stocks beyond all precedent. In this, however, the faithful who hitch their wagons to the North and West Side cables were doomed to sad disappointment; for the course of these stocks has been steadily downward all the week.

Opening at 220 and 271 for West and North Side respectively, prices fell off rapidly to 217 and 268. On Tuesday West Side fell to 214½ and on Wednesday to 209½. Thursday the stock rallied somewhat and closed at 210½. Yesterday prices ruled somewhat higher, though the stock still remained heavier than heretofore. At the afternoon session the price touched 211, with one sale at 210⅝. North Chicago ruled very dull and sold at 267⅝ for second account. City Railway at 440. Streets' Stable Car sold at 29¾, Calumet Canal & Dock Co., at 69¾, National Railway of Illinois at 137, and other stocks equally heavy.

West Side Street Railway stock has the glamour but also the danger of uncertainty. To those on the inside it may be plain sailing, but the outside public are kept studiously in the dark. So long as the Eastern manipulators of the security contine to force up prices investors are comparatively safe, but when once the program is changed and the prices fall by previous arrangement, the mourners will go about the streets. An appreciation of this fact by the public has not added to the bull tendencies of this stock.

It is evident that the market was not in sympathy with the bull movement; and it is further evident that the influence of heavy Eastern stockholders which has heretofore manifested itself in the manipulations of the street railway stocks was not on duty this week. North side stock may be regarded as practically independent of this influence, as it is on a strictly investment basis. On the other hand, West Side stock is on a purely speculative basis. It has been pointed out that at present quotations West Side stock is paying the investor only about 3½ per cent. It is certainly undesirable at that figure as an income investment. But its speculative possibilities have seemed attractive enough in the minds of the general public to raise its value fully 70 points. Just how much of this speculative value will be justified by the earnings of next year remains to be seen.

Chicago City Railway is a stock that is attracting little attention, yet its prospects for the coming year are greater than both North and West Sides combined. With the projected extensions and improvements the Chicago City Railway system will be capable of carrying next year a million passengers daily. With such a capacity it is safe to assume that the company will secure a large share of the traffic of the Fair, and the earnings on this basis can not fail to be remarkable.

Reports of decreased earnings of Streets' Stable Car Line for September, as compared with the month last year, have had a depressing influence on that stock all the week. On Monday the stock dropped to 27, but rallied later and finally sold above 30.

The other stocks on the list have not shown any wide fluctuations. On Wednesday a sale of Alley Elevated at 92 was made, which is the lowest price recently recorded. This stock is worthy of better attention, as the prospects of the road are improving daily.

A feature of the monetary situation which has affected stocks recently and which is largely responsible for the present break in the price of wheat, is the reluctance of bankers to advance heavy sums for carrying speculative securities. This has necessitated the selling of stocks in many instances and has tended to keep prices down. The demand for money to carry grains has increased the temporary stringency in funds for stocks also, though money is to be had freely on good security at 6 per cent and is moving freely at that rate.

CHICAGO NATIONAL BANKS.

Under a call made by Controller Hepburn as to the condition of the national banks of the United States at the close of the first quarter of the fiscal year beginning July 1, 1892, twenty-three financial institutions in Chicago have just made the following showing:

RESOURCES.

Loans and discounts		$103,913,000
Overdrafts		86,413
United States bonds to secure circulation		1,300,000
United States bonds to secure deposits		30,000
United States bonds on hands		704,200
Stocks, securities, claims, etc		5,168,793
Due from other national banks		15,754,763
Due from State banks and bankers		4,384,484
Banking-house, furniture, and fixtures		870,440
Other real estate and mortgages owned		473,275
Current expenses and taxes paid		155,821
Premiums on United States bonds		152,509
Checks and other cash items		72 492
Exchanges for Clearing House		7,623,845
Bills of other national banks		1,040,553
Fractional paper currency, nickels and cents		41,856
Specie—viz:		
Gold coin	$14,644,030	
Gold Treasury certificates	5,969,880	
Silver dollars	223 114	
Silver Treasury certificates	1,288,847	
Silver fractional coin	188,983	
		22,315,854
Legal tender notes		6,876,297
United States certificates of deposit for legal tender notes		1,260,000
5 per cent redemption fund		58,500
Due from United States Treasurer		59 200
		$172,612,219

LIABILITIES

Capital stock paid in		$ 22,900,000
Surplus fund		10,054,900
Undivided profits		3,446 892
Nat'l bank notes issued	$1,170,009	
Less amount on hand	373,946	
Amount outstanding		796,055
Dividends unpaid		242,492
Individual deposits		77,6 2,783
United States deposits		276,870
Deposits f U. S Disbursing officers		20.021
Due to other national banks		33,492,538
Due to State banks and bankers		23,727,335
Notes and bills rediscounted		31,584
Liabilities other than those above stated		41.250
Reserve held	$28.64	
Total		$172 612 219

STREET CAR TRAFFIC.

The official statement of the earnings of the North Side and West Side Street railway systems Thursday, Friday and Saturday of last week offers an interesting basis for computation in regard to the possibilities of traffic on these systems next year. In those three days the two companies carried 1,640,400 passengers. The earnings for the days are as follows:

NORTH SIDE SYSTEM.

Oct. 20, 21 and 22, 1892	$31,045
Oct. 20, 21 and 22, 1891	18,918
Increase	$12,127

WEST SIDE SYSTEM.

Oct. 20, 21 and 22, 1892	$50,975
Oct. 20, 21 and 22, 1891	34,4 0
Increase	$16,565

WEALTH OF THE UNITED STATES.

The estimated wealth of the United States, that is, the value of all lands, buildings, railways, etc., is put at $64,000,000,000. The amount of money of all kinds is estimated by the Secretary of the Treasury to be $2,108,130,092, and this volume of currency is found amply sufficient to transact all the business of the country. No individual thinks it necessary to have in bank or in his pocket a sum of money equal to the value of his farm or store; he is content that part of his wealth should be in other forms than money. There is no fixed limit to the issue or coinage of money, except such as Congress may determine. That body fixed a limit for the issue of United States notes some years ago, but has since then violated the act in spirit, if not in letter, by largely inflating the paper currency by means of the silver certificates and the treasury notes of 1890. It is certainly true that if the government were required to redeem every silver dollar with a dollar in gold which it may, indeed, be regarded as virtually pledged to do), it would have no profit in the coinage of silver. In fact, however, very few, if any, of these dollars come back to it to be redeemed. Should they be brought back thus in any large numbers, it would only be a short time before the Treasury would be obliged to suspend gold payments altogether.

THE REAL ESTATE MARKET.

The week has been as devoid of interest, so far as important sales are concerned, as it well could be. Perhaps the holidays of the preceding week are partially at fault, but the real estate situation can not be said to have improved any along general lines, nor indeed does it seem probable that it will improve very considerably for some time to come. The daily record of transfers continues about the same as it has done, and the market is the reverse of sensational, but it must be remembered that this is exactly the healthful condition that is needed to bring about later on an activity such as real estate men are longing for. So long as property is bought strictly on its merits, as it is to-day, there is no danger of inflated values followed by a collapse, as has been the case in years gone by. The present lack of interest is the result apparently of a widespread feeling that real estate in Chicago has been unduly inflated on World's Fair prospects, and that after the Fair there will be a "big drop" in values all along the line. The facts are, as every real estate man knows, that, except in a very limited area adjoining Jackson Park, real estate values are at their normal figures and that over the greater part of the city the influence of the Fair has not as yet been felt. That influence will be felt next year, when the pouring into the city of millions of dollars of outside money will cause such a demand for safe investments that real estate will in many instances rise in value to double present prices. Shrewd investors outside of the city are now foreseeing this result and are seeking bargains in the heart of the business district, confident that the boom which will strike Chicago next year will make a wonderful increase in ground values. The negotiation for the purchase of the Leland Hotel property is one illustration of this eagerness of capitalists to secure large holdings in Chicago. The purchase of the Phenix building by the Western Union Telegraph company is another. Similar illustrations are to be met with every week. And the fact that the best judges of real estate values in the country are thus pinning their faith to Chicago property ought to be sufficient of itself to insure the confidence of the average investor in the future of ground values in this city.

A NEW MANUFACTURING ENTERPRISE LOCATED AT EVERGREEN PARK.

The foundations are now being laid for three large brick buildings for the Garden City Interior Building Company at Evergreen Park. Del Fosse & Son have the contract and expect to complete the buildings by December 1st. The factory will then be in full operation and will employ 100 men. The Garden City company is a re-organization of the Baillargeon Interior Building Company which has been in operation for some time on the West Side. The company was re-incorporated under the new name and additional capital was put into it by B. F. Jacobs & Company. The Messrs. Baillargeon who are at the head of the enterprise will reside at Evergreen Park.

PROGRESS OF THE MASONIC HOTEL PROJECT.

The Masonic hotel enterprise at Harvey is fully under way and promises to be an additional feature of attraction to that already thriving town. The building will be a three-story frame structure to contain 800 rooms and will be built on a triangular block of ground near the Harvey depot. The plan is to surround the block, leaving a large area of open ground in the center. Each corner will be surrounded by a tower, and there will also be a tower in the middle of each of the three fronts. The building will be substantially built, with a view to use as an apartment house or hotel after the Fair. One of the features of the hotel will be an amusement hall for the entertainment of the guests. The management will cater largely to masons and their families.

CONTEST BETWEEN THE WESTERN UNION AND POSTAL TELEGRAPH COMPANIES.

The purchase of the Phenix Building by the Western Union Telegraph company, which was thought to be fully consummated, is likely to come to grief through the interference of the Postal Telegraph company. The latter company seeks to enjoin the Western Union from occupying the building during the life of the Postal company's present lease. It remains to be seen whether the injunction proceedings will be successful, but meantime the Western Union company is said to be in the field for another location in view of the possibility that they may be thrown out by an adverse decision of the court. Brokers who have eligible property for sale are on the watch for an opportunity to unload on the Western Union, and no doubt there will be no lack of offers made to the company. The Manhattan Building on Dearborn street has been spoken of in this connection. The figure said to be asked for the Manhattan, by C. C. Heisen, the owner, is $1,500,000. Of course, this is purely a speculative figure, as the building is far from well rented at present. The fee is said to be valued at $750,000, or $5,000 a front foot. The ground was bought by Mr. Heisen only four years ago at about $1,000 a front foot. This is a surprising increase in value in a short time, but it would not be at all strange if the property should change hands at that figure within a short time. It is but a few years ago that Dearborn street south of Jackson street was unopened. The rapid rise of values in that vicinity is one of the marvellous features of the growth of the city.

SALE OF A VACANT CORNER ON DREXEL BOULEVARD

The sale of the southeast corner of Drexel boulevard and Forty-ninth street for $105,000 has attracted no little attention as indicating probable values in that locality. The corner has a Drexel boulevard frontage of 193 feet and a street frontage of 272 feet. It is unimproved and is considered the finest vacant corner on Drexel boulevard. The sale was made for Maj. Henry A. Rust to Moses Born. The block bounded by Drexel boulevard, Ellis avenue, Forty-eighth and Forty-ninth streets contains more elegant residences than any other block in the Kenwood district. The price of $544 a front foot for the boulevard frontage is, of course, exceptional, owing to the superior location of the property and the fact that it is a corner.

TWO IMPORTANT LEASES OF MADISON STREET PROPERTY.

A five year lease of the property at 204 and 206 Madison street has been taken by the Western News Company from Jan. 1, at an annual rental of $10,000. The building is 40x190 feet, five stories and basement. It is not known what disposition will be made of the Randolph street property now occupied by the News Company. A lease of property similarly located on Madison street has just been made at a rental somewhat higher. John McConville has taken the building at Nos. 212 and 214 for five years at an annual rental of $12,000. The building is owned by William Borden. It is 44x190 feet, being four feet wider than the building secured by the Western News company.

A DAYTON, OHIO, WORLD'S FAIR HOTEL ENTERPRISE.

A company of capitalists from Dayton, Ohio, has leased the Barrel property on Everett avenue, near Fifty-fifth street, on which it proposes to erect a fireproof hotel to contain about seven hundred rooms. The ground has an east frontage of 367 feet on Everett avenue and 167 feet on East End avenue. The annual rental is $12,500 and the lease runs for two years, with an option of extension for three years more. The building to be erected will cover the entire lot and will be four stories high. It will be of steel construction and the outer walls will be of staff. The building will cost $150,000, but the promoters calculate that the steel and iron used can be sold after the Fair at comparatively little loss. This property is within a block of the new Beach Hotel and is also near the Spectatorium. It is in a neighborhood that has hitherto been comparatively neglected, but is just beginning to be appreciated by capitalists and investors. The location is near the lake and the Illinois Central and also within a block of the Fair grounds.

THE REAL ESTATE EXCHANGE.

On Wednesday of last week a meeting of the members of the Real Estate Exchange was called for the purpose of electing a new secretary, T. C. Rivera having resigned. Mr. C. H. Chamberlain of the firm of Chamberlain & Patterson was elected to fill the vacancy. The new secretary says he will endeavor to keep up the interest among the members by asking them to send in a list of wants each week, which he will post and announce at the Exchange rooms. By so doing he expects to bring a return to the members for their trouble and outlay in maintaining the institution.

THE MONETARY CONFERENCE.

Secretary of State Foster sent on October 3rd by cable, notification to the European governments which have already accepted the invitation to be represented at the International Monetary Conference that it has been arranged to have the conference meet in Brussells on November 22 next, the Belgian Government having signified its readiness to have same hold its sessions in its capital, and the leading powers having approved the selection.

The governments which have accepted the invitation of the United States to send delegates to the monetary conference are as follows: Austria-Hungary, Belgium, Denmark, France, Germany, Great Britain, Greece, Italy, The Netherlands, Portugal, Roumania, Russia, Servia, Spain, Sweden and Norway and Switzerland.

The delegates from the United States already designated by the President are as follows: Senators Allison and Jones, Representative McCreary of Kentucky, Henry W. Cannon of New York and Gen. Francis A. Walker of Massachusetts. Gen. Walker being unable to go, his place has since been filled by the appointment of President E. B. Andrews of Brown University. In addition to these, it is expected that Mr. Terrell, minister at Brussels, will be made a delegate. The American delegation will meet at Washington, November 10, for consultation with the President, the Secretary of State and the Secretary of the Treasury, and will sail for Europe November 12.

A director of the Bank of England says that there is certain to be consequential results for the world growing out of the monetary conference. This same authority avers that the United States will stand together in favor of a monetization scheme for silver which will give a largely increased volume of currency under conditions which will guarantee safety. Statements to this effect have been current in bank circles for some time past, and it is rumored that there are very marked differences of opinion touching the matter in Bank of England circles. It is stated that at a recent meeting of the Bank of England directors, one of the senior trustees urged with some spirit the view that England should not bestir itself out of any "mistaken notion" that courtesy was due America. In the monetary situation, this director argued, was to be found an opportunity for "a telling remonstrance by England against the impositions of the McKinley tariff." With the silver question unsettled, America is at Europe's mercy financially, so this insisted. It was disclosed, however, that out of all the directors present, the radical anti-American view was accepted and endorsed by none except this one speaker.

WORK OF THE NATIONAL ASSOCIATION.

The difficulty of unifying the various real estate interests of the country is increased by the fact that real estate values vary so largely in different localities. The fact is, real estate values and interests are almost purely local, and the efforts of the National Real Estate Association toward bringing together and unifying the various local interests into one national body will be the most important work the association can do. It will be comparatively an easy task to secure uniform legislation on important subjects; but the great mission of the National Real Estate Association, as we regard it, will be to diffuse a knowledge of and excite interest in the various real estate centres of the country—to make the residents of Chicago acquainted with and interested in the progress of her sister cities, and vice versa. The diversity of interests as it at present exists is well illustrated by an article in the Denver Sun by John E. Leet, who says:

City real estate is unlike any other article of commerce. Its value is the most difficult of all values to discuss. No two cities are alike either as to their actual business or future prospects. And within any given city no two pieces of property are alike. No lot is a duplicate as to value of any other lot. All of the ordinary tests are misleading. The number of people in a city or the distance of property from the existing business center are the most popular, but at the same time the most superficial and deceptive tests. Population may be stationary or declining or, even where it has rapidly increased, it may have reached a point beyond which the well-developed tributary resources cannot carry it, except at a snail's pace, within the next generation. The business center may be stationary and upon it all growth may evenly impact, or may be drifting rapidly towards the best residence quarter. Even the tests of wholesale business, of manufacturing output and of the number of railroads are not conclusive. Galveston does more wholesaling than Denver, Indianapolis has more railroads than Chicago, and Pittsburg's manufacturing output exceeds that of New York. Indeed, the test of actual business transacted is not determinative, for the commerce of some cities is declining, while that of others rapidly and persistently expands. Future prospects, while not the only, seems nevertheless to be the fundamental test of city values. Property is worth more in a young city of 10,000 with brilliant prospects than in an old one with 20,000 with nothing before it but decay.

Mr. Leet further says:

The real estate business is essentially and pre-eminently a borrowing one. Large dealers are always heavy borrowers. When a real estate man is out of debt he has practically cleaned up and retired from active participation in the business. It is folly for him to try to get out of debt until he wants to retire. Debts make real estate men rich. No one ever got rich buying and selling for cash. It is not debt but bad judgment in investing that makes bankrupts. Indeed, the bulk of the rich men the world over are borrowers instead of lenders, as is generally supposed. The fortunes of the Goulds and Vanderbilts are chiefly in equities in mortgaged property. Their stocks are mostly in railroads, on top of which are heavy and permanent mortgages. No matter how rich these millionaires become, it never occurs to them to pay off the mortgages on the railroads they own and "get out of debt." Railroads are simply improved real estate—real estate which often for years hardly earns enough to pay the interest on the mortgages.

The bulk of the lenders of the world are poor people who deposit in savings and discount banks. They have a "holy horror" for debt, and accordingly let somebody else lend their money for them. This is all because they do not feel themselves capable of doing business. When a panic alarms these toiling millions to withdraw and hoard their savings all business depending upon borrowed money suffers, and none more so than real estate. Good crops and time to reflect have so far restored confidence that the masses are returning their money to the banks, and the latter are glutted with more funds than can be profitably employed by very conservative investments.

CURRENT COMMENT.

The need of a uniform and throughly revised building law for Chicago is well illustrated at the present time in the rush of building activity which is going on. Fortunately the abuses which have crept in are not so numerous as they might be or as in many another city they would be under the same circumstances. But there is urgent need for action on the part of the committee appointed by the council some time ago but which has apparently forgotten its mission. The need is for a building ordinance that shall be of equal utility and fairness with those recently adopted by Boston and New York. The agitation at first centered against high buildings. The fact is now seen that there is not so much danger to be apprehended from high buildings properly constructed as from low buildings improperly constructed. Speaking of this subject, W. W. Boyington, the well known Chicago architect recently said:

"There can be no longer any question as to the safety of constructing high buildings, for the reason that most of the high buildings in this city are examples worthy of high commendation, and examples for any part of the world to follow as far as safety is concerned. Because there have been some questionable high buildings erected, it should not condemn safe ones, neither should it establish a reason for legislation to limit the height of buildings. To guard against the construction of unsafe buildings, either high or low, there is a necessity of legislation which should be done by investing the city building inspector's department with more power than it now has. With the power and scope of the present department of the inspector of building, "Cheap John" architects and venturesome capitalists and speculators cannot be checked from erecting unsafe buildings. The city building department should have in addition to a capable corps of inspectors, an engineering department to examine all designs, plans and sections of construction. A man to fill such a position should be equal to, and as well qualified as any of our reliable and experienced architects would, kept in their employ to make the requisite calculations for all the possible strains and exposures that buildings will be subjected to. Such an engineer should be fully empowered to reject any plans presented, that after his careful inspection, he may consider unsafe to build from. By establishing such a department, the community would be protected from any danger of unsafe high or low buildings."

***

The truth about the trade depression in England is gradually becoming definitely known. It is said that the financial situation there is more encouraging than it has been heretofore, but that the industrial outlook is not at all hopeful. The report of the trades unions for September shows that 5 per cent of the workmen are out of employment. The reports embrace 1,250,000 union workmen. The shipbuilding trade is the worst affected, and it seems probable that 25 per cent of the workmen will soon be idle. On the Clyde the wages of engineers and iron founders have been reduced 10 per cent, and similar reductions will soon follow in other parts of the country. Among the Welsh tinplate makers five thousand men are idle. Several of the largest works have given notice of suspension. In the iron and steel trades in the north of England a reduction of wages of 12½ per cent has been compelled by a scarcity of orders. The cotton factories are threatened with a serious strike.

But the most serious depression is in the agricultural districts. The crops this year have been unprecedentedly bad and farmers are in many cases unable to pay rental on their farms. This feature of the situation is at the bottom of the whole difficulty, and is not likely to show any change for the better until next year's crop shall have been harvested, if, indeed, it does then. The result of the hard times thus far is that the agriculturist is receiving a large share in the attention of legislators and reformers.

***

A recent tax title case in Indiana is a striking illustration of the fact that a court of law will not allow a palpable and flagrant injustice to be done merely in compliance with the forms of a statute. Two years ago a forty-acre farm belonging to Mrs. John Lee near Winamac, Ind. was sold for delinquent taxes and was bought for $15, by John L. Gobien, county auditor. He sued for possession under the statutes for quieting title, claiming that, as the farm had never been redeemed, he should become the rightful owner. Judge Harney decided against the plaintiff, holding that he could not claim the farm, which is valued at $2,000, for about $40 delinquent taxes, and the court held that to secure the land the plaintiff must pay the difference. As a matter of fact the title to property passes to the tax buyer in only a very small proportion of tax sales. The buyer is entitled to his fees but not to a snap judgement on the property. This is justice as well as law.

***

The Texas Bankers' Association has called upon its members for contributions to a fund for the relief of the families of those citizens of Coffeyville, Kansas, who gave up their lives recently in defense of their town against the outlaws. Other associations of bankers are following the good example set by the Texas association, and the sum realized is likely to be considerable. The extermination of the gang was attended with a terrible sacrifice of innocent lives, but the end was worthy of the desperate means employed. No bank in the states adjoining their rendezvous was safe from their attacks, nor was any number of lives so sacred in their sight as to cause them to shrink from killing, where plunder or escape was desired. The citizens of Coffeyville boldly volunteered to do battle against these organized despera-

does, and the families of the unfortunate men who went down should not be allowed to suffer.

***

It has been proposed to make bank notes of Aluminum, and a recent report stated that the future issue of the Bank of England would be on thin aluminum plates. The project may be practicable but it does not for the present at least seem probable that it will be undertaken. The first consideration will be the cost of making such a radical change and the next will be the desirability of metal plates for transportation etc. as compared with paper. Then will come the further consideration of the relative liability of paper and metal to counterfeiting. When all these points are considered it will be seen that on the whole paper has been a remarkably good medium for bank notes. It certainly has served the purpose much better than cloth would have done. It is doubtful if any other material would have done as well. We are told that there is really no preventive of counterfeiting save the eternal vigilance of the officers of the law, and that as to the raising and altering of commercial and bank paper the public and the banks are practically at the merey of the forgers, notwithstanding the most modern appliances. Yet it does not appear that a substitution of any other material for paper would obviate the difficulty.

***

A recent decision of the United States Circuit Court of Appeals at St. Paul, rendered by Justice Brewer of the United States Supreme Court is of adverse interest to Chicago in that it sustains the long haul to New York at lower proportionate rates than the short haul to Chicago. A shipper of corn from Scranton, Iowa found that he was paying a larger proportionate rate to Chicago than to New York. He then began to ship to New York, and brought suit for the difference in the rate to Chicago. The lower court gave his damages but the upper court has reversed the decision. This is a direct blow at Chicago, as it gives shippers west of us a lower rate to New York direct than via this city. The point on which the decision hinged was that two roads combining in the long haul were practically a new road so far as rates were concerned and that neither of them singly was compelled to adjust its rates to the same scale as the combined line. This decision is practically final and is of great importance to railroads and shippers generally.

AGENTS' BUDGET.

W. N. Eisendrath has bought 23,000 square feet adjoining his tannery on Dix street, near Chicago avenue from Franklin H. Head for $19,000. The land is block five of White's addition. Mr. Eisendrath will use the property for the enlargement of his tannery plant.

The lease has gone to the records of the southwest corner of Forty-ninth street and Kenwood court from W. N. Crane to Frank A. Foster for 198 years at an annual rental of $3,000. The ground is 96x157 feet and is to be improved with a fire-proof hotel.

White & Coleman report the following sales:

Number 413 Forty-first street, a two-story pressed brick residence for Mary E. McEwing for $8,000; forty feet on Sixty-sixth place, north front, 320 feet west of Hope avenue, for A. J. Glenn for $6,000; lots 25 to 44, block 22, in White & Coleman's addition to La Vergne, for $9,000; lots 13, 14 and 15, block 3, in White & Coleman's Stony Island avenue subdivision at Eighty-first street and Stony Island avenue, for $3,750: two lots on Butler street, between Thirty-second and Thirty-third, east front, for $2,000; a lot on Parnell avenue, between the same streets for $1,000. They have also leased twenty-five feet on Stony Island avenue, fifty feet south of Sixty-ninth place, for S. M. Barkshire for one year for $1,500. This is 6 percent on a valuation of $1,000 per foot. White & Coleman also report an increased demand for Jackson Park property since the dedication, both for fees and for leases for periods varying from two to ninety-nine years.

Matson Hill reports the sale of the southeast corner of Drexel boulevard and Forty-eighth street for Major Henry A. Rust to Moses Born for $105,000. The lot has a boulevard frontage of 198 feet and a depth of 272 feet. This corner is claimed to be the finest vacant property on Drexel on account of its choice environments.

W. C. Kinney & Co. have sold for B. F George, of George & Wanner, to Arthur A. Libby, Jr, the Arlington apartment house at the southeast corner of Grand boulevard and Forty-first street for $85,000. The building is of recent construction, has stone and pressed brick front, marble wainscoting and mosaic floor in the vestibule, steam heat and electric light. Its ground dimensions are about 50 by 125 feet. The annual rent roll is in the neighborhood of $11,000. Mr. George takes in part payment a packing house known as the Cook and located on Center avenue in the stock yards. This building is a three-story brick structure and is valued at $37,500 in this transaction. It rents for $3,500 a year. W. C. Kinney & Co. have also sold the premises 300 Fifty-fourth street to Mrs. Clara C. Lindquist for $5,750. The lot has a frontage of forty feet and is improved with a residence.

Dillon & Haines report the sale of the lease of a one-story cigar stand on Sixty-third street, adjoining the Eastern Illinois depot, to the Western Indiana Road for $10,000 cash. This lease was bought a year ago by Colonel Hale Thompson for $2,700, and the present sale at nearly four times that figure demonstrates that it pays sometimes to speculate on the necessities of large corporations. The railroad company intends to use the property to extend its right of way.

E. N. Weart & Co. have leased for a company 100 feet on Sixty-fourth street, just west of Stony Island avenue, which is to be improved with an amusement temple to be used as a Chinese theatre. The building is to be erected by Chinese workmen and to resemble the famous Chinese theatre of San Francisco. The entertainments will also be conducted exclusively by Mongolians. About $50,000 is to be spent on the building and construction is to be begun at once. The lease of the land runs for two years.

Holton, Seelye & Mooney have made the following recent sales in acres: Twenty acres at Forty-third and Robey streets for A. C. Bryant, for $75,000, being at the rate of $3,750 an acre; five acres on Seventy-ninth street, near Western avenue, to A. J. Middleton for $17,500; five acres at Seventy-seventh street and Oakley avenue, for C. P. Dewey, for $12,500, and two and one-fifth acres at Forest Hill, for the Stewart estate, for $6,050.

J. H. Bradshaw has bought the residence 333 Ashland boulevard from J. H. Leidigh for $32,000. The house is a brown-stone structure built about six years ago. The lot has an east frontage of fifty feet and is 150 feet deep.

E. A. Cummings & Co. have closed the sale of a five acre block bounded by Albany avenue, Twenty-third and Twenty-fourth streets, to Henry Foreman for $30,000. The property is to be subdivided at once and sold in lots.

AUCTION SALES ON THE BOARD.

The following judicial sales were made at the Real Estate Board rooms yesterday: Dauphin Park, Crandall's addition, lot 35 block 2 sub of section 3 37 14, to Verena Hummel for $1,140.

South ½ block 4 South Shore division No. 5, west ½ northeast ¼ southeast ¼ section 24 38 14, to L. W. Frost for $14,625.

Lots 7 to 12 in block 4 sub north ½ block 8 in Stave & Klemm's sub of northeast ¼ section 25 38 14 to Geo M. Bogue for $1,875. These six lots are said to be worth $700 each.

Lot 16 block 3 of Thomas B. Marston's sub of south ½ south ½ northeast ¼ southeast ¼ section 23 38 14, to R. C. Jacobson for $1,300.

Lot 4 in division 2 Westfall's sub of 208 acres, being east ½ southwest ¼ southeast fractional ¼ section 30 38 15, to U. B Ferris for $3,900.

Several firms have secured booths and made preparations for the sale of real estate by auction on the Board in the near future. It is quite probable that the judicial sales that have hitherto been held by masters in chancery will in the future be conducted by these firms. Some of the masters are now making arrangements to that effect and are investigating the legality of such procedure. As soon as this point is settled they will turn over all sales of real estate to the firms that will make a business of handling property at auction. Applications for sale have already been received from a number of owners and the prospects for successful auction sales seem to be very bright.

HOME-SEEKERS ATTENTION!

The United States Government has decided to open, November 22, 1892, for settlement under the homestead law, the unearned lands of the Marquette & Little Bay Du Noquet Railroad, heretofore reserved from entry, in Northern Michigan. At the same time the right of the Ontonagon & Brule River Railroad has been denied to a large tract of land in the Upper Peninsula of Michigan. This gives an unprecedented chance to locate valuable timber and mineral lands, which are among the best in the Upper Peninsula, and are reached only over the North Star Route (Milwaukee & Northern Railroad) between Chicago and Lake Superior.

For further particulars address C. E. Rollins, Land and Immigration Agent, 161 La Salle street, Chicago.

REAL ESTATE LAW.

THE TERMS OF A FIRE INSURANCE POLICY ARE BINDING ON THE INSURED.

Quinlan v. Providence Insurance Co. New York Court of Appeals. This was a case in which the insurance company, in defense to an action to recover on a policy of insurance, set up the fact that the insured did not give immediate notice to the company of the loss. The court decided that a provision in the policy that if a fire occur the assured shall give immediate notice in writing is a condition precedent, and unless waived, the assured cannot recover on the policy where he does not give notice before thirty days after the fire. A condition that proofs of loss must be furnished within sixty days is a condition precedent, and unless waived the insured can not recover, where he does not furnish proofs of loss within seven months after the fire.

In commenting on the case the court said:

If the rights of parties depend upon the contract of insurance as expressed in the policy, there can be no hesitation in affirming the judgment of non-suit. The provision as to the commencement of foreclosure proceedings; the requirement that the insured in case of loss, shall give immediate notice in writing to the company; and the other requirement that within sixty days after a fire he shall render to the company a sworn statement of the particulars specified,—are conditions precedent to a right to cover on the policy, and each of the three conditions mentioned was violated. Foreclosure proceedings were commenced to the knowledge of the insured before the fire. No notice of loss was served at any time by him, and the letter of Kelsey to the company within thirty-three days after the fire, even if it could be treated as having been written in behalf of the insured, was not immediate notice; and finally, the proofs of loss were not served until months after the sixty-days limitation in the policy had expired. The authorities are conclusive that the non-performance of these conditions, or any of them, constituted a complete defense to a claim to recover on the policy as printed in Inman v. Insurance Co., 12 Wend. 460; Blossom v. Insurance Co., 64 N. Y. 411.

The substance of the claim made by the plaintiff is that the agent of the company, invested with the power to make contracts of insurance and issue and countersign policies, may subsequently change or modify conditions therein and waive forfeiture; in short, that, in respect to policies issued by him, he stands in place of the company, and may do whatever the company itself might do in the premises. The powers possessed by agents of insurance companies, like those of agents of any other corporations, or of an individual principal, are to be interpreted in accordance with the general law of agency. No other or different rule is to be applied to a contract of insurance than is applied to other contracts. The agent of an insurance company possesses such powers, and such powers only, as have been conferred verbally or by the instrument of authorization, or such as third persons have a right to assume that he possesses.

The plea on the part of the plaintiff that he had not read the conditions of the policy would not avail him, as they were a part of the contract and he was bound to take notice of them.

RIGHT OF LAND OWNER TO DIRECT ACCESS TO ADJOINING HIGHWAY.

The case of Ramuz v. The Southend Local Board, decided by Mr. Justice Romer on July 14, is a good illustration of the right of the owner of land adjoining a public promenade or esplanade, which the learned judge held to be, in fact, a public highway for foot passengers, and not merely a pleasure ground vested in the defendant board for the benefit of the inhabitants of Southend. The defendant board erected, in 1890, a fence either on the plaintiff's land or between it and the esplanade, whereby the plaintiff was deprived of direct access from his land to the esplanade; and the plaintiff claimed an injunction to prevent the continuance of the fence, or damage.

Mr. Justice Romer held that, the esplanade being a public highway, the plaintiff must succeed, whether the fence was erected on the plaintiff's land or on the esplanade itself. In the former case the erection of the fence would be a simple trespass on the plaintiff's land; in the latter, it would be an injury to the plaintiff's private right of access to the highway. The plaintiff partly based his claim upon the convey-

ance under which he held his property, which, he alleges, conveyed to him the soil of the esplanade, subject to the public rights; but Mr. Justice Romer thought it unnecessary to decide this point. It is immaterial for the present purpose whether the soil of the esplanade belonged to the plaintiff or not; because, since the decision of the House of Lords in Lyons v. The Fishmongers' Company (46 Law J. Rep. Chanc. 68), it has been clearly settled that the right of access of an adjoining owner does not depend upon ownership of the soil of the highway. A mandatory injunction for the removal of the fence was, therefore, granted, and an inquiry was ordered as to the damages sustained by the plaintiff.—London Law Journal.

UNDER WHAT CONDITIONS A CHATTEL MORTGAGE IS GOOD AGAINST CREDITORS OF THE MORTGAGOR.

The following is the syllabus of an opinion of the Supreme Court of New Jersey, in a recent case: Graham Button Co. v. Spielman et al.

1. To render a chattel mortgage valid against the creditors of the mortgagor, the affidavit stating the consideration must show particularly how the debt on which it is founded arose.

2 A creditor of a mortgagor to be in position to contest the validity of a chattel mortgage must have his debt fastened on the mortgagor's property.

3. By an adjudication of insolvency and the appointment of a receiver, the debts of creditors at large of an insolvent corporation are fastened on its property.

4. A deed or other instrument which is void as against creditors is void as against those who represent creditors.

5. The receiver of an insolvent corporation is the representative of its creditors, and as such may, by suit or defense, avoid any instrument which is void as against them.

6. Successfully to contest the validity of a chattel mortgage, the receiver of an insolvent corporation is not required to show that it is fraudulent as to creditors, but all he need do is to show such facts as, under the statute, render it void as against the creditors of the corporation.

7. In order successfully to contest the validity of a chattel mortgage, a subsequent purchaser or mortgagor must have made his purchase, or taken his mortgage without notice of the prior mortgage, but a creditor is subject to no such condition; he may know of the existence of the mortgage when he becomes a creditor and still have a right to contest it.

8. The affidavit annexed to a chattel mortgage, made by a corporation, was as follows: "That the consideration for said mortgage is the indebtedness of the mortgagor to the mortgagees, consisting of a present indebtedness of $1,500, and of money hereafter to be advanced by said mortgagees to the said mortgagor during the pendency of this mortgage, not exceeding in all $1,500." Held, that this affidavit was not in accordance with the statute, and was void as against creditors and as against a receiver appointed for the benefit of creditors on the mortgagee having been declared insolvent.

EFFECT OF INSERTING "OR ORDER" IN NOTE.

The insertion of the words "or order" after the name of the payee in a note without the consent of the maker constitutes a material alteration which avoids the note. And in an action on such a note evidence that prior to the making of the note the maker agreed to execute such a note to the payee or his order is inadmissible.—Taylor vs. Moore, Supreme Court of Texas, 20 S. W. Rep. 53.

EFFECT OF INTOXICATION ON CONTRACTS.

The law formerly was that a party to a contract could not avoid it because he was so drunk at the time he signed it that he could not understand it. It has also been held that a party to a contract cannot avoid it on account of intoxication, unless another party to it used means to induce such intoxication, but the decided weight of authority now is that a party may avoid a contract made by him when he is so drunk that he cannot understand its effects and consequences, though no such means were used. It is a violation of moral obligation and legal obligation to take advantage of a man in such a defenseless situation, and if the intoxication was induced by the party taking such advantage he would be guilty of still greater moral turpitude. A person entering into a contract while temporarily deprived of his reason by intoxication may avoid or ratify it when he becomes sober. It is not absolutely void. If the paper is negotiable it cannot be avoided in the hands of an indorsee in good faith for a valuable consideration, and if such paper is indorsed before it has become due for a valuable consideration, such defense cannot avail against the assignee without proving that he had notice of the defense before the indorsement, or notice of facts or circumstances sufficient to induce a reasonable man to inquire of the maker as to the defense. It may be said that a person who executes a proposed negotiable paper, while deprived of reason by insanity may avoid it in hands of an innocent indorsee, and that the same rule should apply when the person is deprived of reason by intoxication. The considerations upon which the rules stand are dissimilar. Insanity is involuntary, it is a disease, and is a more permanent state, and usually is not the result of the act of the person imposed upon; while drunkenness is voluntary, and is a temporary state, and is regarded as a vice, the helpless condition of the drunkard is his own fault. Other reasons support the rule that negotiable paper cannot be avoided in the hands of innocent holders because of intoxication. If the loss must fall upon one of two innocent persons, it should be borne by the one whose fault contributed to it, if the fault of either did. There are also considerations of public policy which contribute to support the rule. It is believed that the exigencies of business and the necessities of commerce demand that negotiable paper shall pass from hand to hand without unnecessary impediment.—Smith vs. Williams, Supreme Court of Utah, 30 Pac. Rep. 753.

INTEREST OF THIRD PARTY IN POLICY OF INSURANCE.

A corporation being indebted to a bank, in pursuance of a prior agreement took a policy of insurance on its property, containing a provision that any loss should be payable to the bank as its interests might appear, and the policy, when issued, was with the consent of the insurance company, transferred to the bank as security for the debt of the corporation. The company did not dispute the validity of the policy; Held, that the bank was entitled to the insurance money, as against an attaching creditor of the corporation.

The same corporation after a loss by fire, at the instance of a bank holding its notes, with the assent of the insurance company, assigned certain policies of insurance to the bank as a further security, before any other creditors acquired any lien or took any steps to reach the assets of the debtor; Held, that the bank, by the assignment of the policies, acquired the right to have its debt first paid out of the insurance money, as against subsequent attaching creditors.

A debtor has the right to pay any or all of its creditors any debt which it owes, or it may secure one creditor in preference to others, and, if done in good faith, such preference will be sustained by the courts.

As a private corporation generally acts through its president, an act done through or by him will be presumed to be authorized, unless it is shown otherwise. When an article of incorporation invests the president with power to sign all written instruments, and the corporation does not deny his power, an indorsement or assignment of insurance policies by him to a creditor will be sustained, if made in good faith. (Glover v Lee. Ill Sup Ct, Jan 18,'92. 140 Ill, 102.)

PLANS BY ARCHITECTS.

Architect Francis J. Norton during the last week let contracts and secured permits for the following improvements: A handsome four-story block to be erected at the southeast corner of 65th and State streets for Fred D. Hess. It will have a frontage of 200 feet. The exterior will be built of stone and iron; plate, art and beveled glass; copper bays with three projecting towers. The interior will be hardwood oil finish with all the latest sanitary, electric and modern improvements. Cost $75,000; work has already commenced. Also a fine business building 50x75 feet, three stories high, for Mr. John Bonchard, and to be erected at the corner of 47th and Wallace streets. The exterior will be built of stone and iron, plate glass with copper bays and projecting towers. The interior will be hardwood oil finish and have all the latest sanitary, electric and modern improvements. Cost $17,500. Also the Peyton building to be erected on Division street, near California avenue. It will be three stories high built of stone and iron and hardwood with all the latest improvements. Cost $135,000. Mr. Norton is also completing plans for a handsome five-story hotel 75x200 feet for S. A. Rood to be built at Vernon avenue, near 46th street. It will be divided into 215 rooms. The exterior will be copper and terra cotta and stone. It will have three massive arches and three projecting towers. The interior will have elevator service and all the most approved hotel appliances. Cost $125,000. Also a large theater and double four-story apartment building to be built with a frontage of 75 feet on Lake street and 75 feet on Cedar street, Evanston. It will be 400 feet long and to be built by a local syndicate. It will have six massive elliptic arches and projecting cupolas and be built of stone and iron and terra cotta with art and plate glass. The exterior and interior will be fitted up with all the latest modern improvements which go to make up a modern building. Cost $175,000.

Architect S. S Beman has planned for the Lakeside club a handsome club house on the corner of Grand boulevard and Forty-second street. The exterior will be of pressed brick, with stone trimmings. The interior finish will be in selected hardwoods; and the building supplied with all the latest modern improvements. It will be five stories high and cost $100,000.

Architect Thomas W. Wing is receiving bids for the construction of a four-story apartment house, 163x70 feet; at the northeast corner of Madison avenue and Sixty-first place, for Wm. and J. F. Bunton. It will be of Bedford stone up to the first story window-sills, and above that pressed brick with copper bays will be used. The interior is to be cut into twenty-nine apartments of six rooms each finished in hardwood and heated by steam. The entrance and hallways will be finished in marble and mosaic; total cost, $90,000.

Architects Raeder, Coffin & Crocker will, in a few days let contracts for a wholesale building for J. W. Watson, at Nos. 258 and 260 Franklin street to cost, $75,000. The structure will be of stone and pressed brick, seven stories high. This improvement is located 50 feet north of entrance to the new West side tunnel, between Jackson and Van Buren streets. Immediately north of and adjoining the tunnel entrance on the same street, Kuh, Nathan & Fischer are erecting a handsome L shaped building, also seven stories high having a frontage of 50 feet on Franklin and Van Buren streets. On the southwest corner of these two streets the Meyer estate is erecting a large wholesale block seven stories high, which will be completed about Jan. 1. These improvement mark the rapid southward growth of the wholesale district, and already make the influence felt in the enhancement of frontage values in that neighborhood.

Architects Patton & Fischer are making plans for two three-story apartment buildings, on northeast corner of Forty-sixth street and Woodlawn avenue, Kenwood, to cost $50,000. One of these structures has 100 feet frontage on Woodlawn avenue, with a depth of 70 feet on Forty-sixth street; the other structure is 50x70 feet fronting on latter street. The fronts are to be of granite, with Bedford stone trimmings. The same architects are also making plans for an eight story apartment house, 50x78 feet, at northeast corner Grand boulevard and Forty-third street, for P. S. Grosscup and F. I. Wean. It is to be of buff Bedford in the lower story, with light brick and terra cotta trimmings above. Construction throughout will be first class, with steam heat, elevator, and hardwood finish. The same architects are making plans for a five-story and basement family hotel, on Dearborn avenue, near Chicago avenue, for Jessie L. and F.F. Oviatt. This is to be of brick, with cut stone trimmings first-story, and light brick with terra cotta trimmings above, at a total cost of $50,000.

Architect Wm. Strippelman has planned for F.P. Nelson a four story apartment house, 90x66, to be erected at Cottage Grove avenue and Fifty-first street. Bedford stone and pressed brick will be used in the construction, and hardwood will be used for interior finishing and the building will be heated by steam; cost $40,000. For the German Kali Works the same architect has planned a pavillion to be erected at the World's Fair at a cost of $15,000. For D. H. Tolman, a four story factory, 35x150, and a three story factory, 25x150, and a boiler and engine house to be built on Coventry street north of North avenue For the Schoenhafner Furniture Co., a five story and basement factory building, to be built at the southwest corner of Dearborn and Spring streets; cost, $30,000. The Lake Shore Foundry Co. will build a one-story addition to its plant, 28x175, also boiler house and core oven, to be erected on the North Pier; cost $10,000. Mrs. H. F. Wallace will build after plans by same architect a two story flat building at 1181 Wilcox avenue; cost, $7,000. Wm. Thomas has designed for A. J Kirkwood a two story residence, 40x74, to be built on Wellington near Evanston avenue, to be constructed of buff brick and buff Bedford stone, hardwood interior, heated by hot water; cost $18,000.

Architects Marston & Hotchkin have planned for A. F. Shuman a four story hotel, 46x164, to be erected on Fifty-sixth street near Stony Island avenue. It will be constructed of brick and terra cotta in colonial style, steam heat, electric lights and elevator; cost, $60,000. Also for Sam Brown Jr., two two story frame houses, to be erected at Ravenswood; cost $7,000.

Architects Holabird & Roche have planned a six story apartment house, 80x180, to be erected in Evanston by the Apartment House company, the principal promoter of which is Edwin Read, of 125 La Salle street. It will be constructed of pressed brick and stone, with all the modern appliances; cost, $200,000.

Architect Charles S. Frost has designed for Francis W. Foster a seven story apartment house, 100x150, to be built at the southwest corner of Forty seventh street and Kenwood avenue. It will be constructed of blue Bedford stone with pressed brick and terra cotta above. The interior will be nicely finished in hardwood, heated by hot water, lighted by electricity and will be provided with elevators; cost $200,000.

Architects Flanders & Zimmerman have designed a five story hotel, 30x50, to be built on Stony Island avenue near Sixty-third street, by Dr. L. R. Williams. It will be constructed of pressed brick and stone; cost $125,000. For W. G. Cosgrove they have planned a four story flat building, 100x60 to be erected on Sixty-third street near Oglesby avenue. Stone and pressed brick construction; cost $60,000. They have also planned for the Board of Education three school buildings, one to be built at Winter and Sixty-fourth streets, the other, Superior avenue south of Eighty-ninth street, and Sangamon and Seventieth streets. The first to be three stories, 100x140 to cost $70,000; the next two stories, 70x100 to cost $35,000, while the last will be three stories, 49x90, and will cost $30,000. For E. K. Boyd they have planned a two story dining hall, 30x40, to be erected

on Fifty-seventh street west of Madison avenue; cost $50,000.

Architects Ostling Bros. have planned two three story houses to be built on Belleplaine avenue near Perry street, to be constructed of brick and stone, hardwood interiors; cost $17,000. For Morris Sohnokers they have planned a three story flat building, 25x68, to be built at 4623 Evans avenue, stone front, interior of hardwood, heated by steam; cost $12,000.

Architect Thomas McCall has designed for the Queen Isabella Associatfon a five story club house, 100x100, to be erected at Sixty-first street and Oglesby avenue; cost $75,000. For S. T. Tomkins he has planned a three story apartment building 80x76, to be erected on Washington avenue near Fifty-seventh street; cost $30,000.

Architects Wolf & Lehle have designed for the Cleveland Linseed Oil company a two story factory and elevator, 165 x100, to be built at Terrence avenue and 110th street; cost $225,000.

Architect T. N. Bell has planned for W. B. Millet a 2-story frame hotel, 249x152, to be erected at Duncan avenue and Seventy-ninth street; cost $10,000.

Architect E. R. Krause has planned two additional stories to be put on the Revier apartment house at the southeast corner of Cottage Grove avenue and Thirty-third street. It will be constructed of pressed brick and terra cotta; cost $35,000. For himself he has planned a two story residence to be built on St. James place; cost $6,000.

Architect L. G. Hallberg has designed a two story flat building, 27x63 to be erected at the northeast corner of Jackson boulevard and Hoyne avenue by E. T. Persons. Pressed brick and stone construction; cost $9,000.

Architect H. I. Cobb has planned a 4 story hotel building, 91x165, to be built at the northeast corner of Michigan avenue and Fortieth street by L. E. Steinfeld and Louis J. Epstean, to be constructed of Bedford stone with hardwood interior; cost $200,000.

Architects Wilson & Marble have designed for William H. Pruyn a four-story apartment house, 50x90, to be built on Forty-second place near Drexel boulevard. It will be of stone with elaborate hardwood interior, and will be heated by steam, cost $40,000. For Mrs. M. S. Bowen they have planned three three-story and basement flat buildings, to be erected on the east side of Prairie avenue south of Thirty-third street; cost, $30,000.

Architect J. H. Huber has planned for Adolph Schoeninger two two-story houses, 30x45, pressed brick and stone, to be erected on Melrose street near Evanston avenue; cost, $20,000.

Architects McMurry & Davis have planned to be built at Riverside, a two story residence, 32x47, by E. T. Hotchkiss. It will be constructed of frame, hardwood interior; cost, $7,000.

Architect Franklin P. Burnham has planned for William Bartlett a two story and basement house to be built at Rookford; cost, $5,000. For Dr. Smith a two-story frame house at Kenilworth; cost, $6,000. For O. G. Fox two two-story frame houses at La Porte, Ind.; cost, $11,000.

EPITOME OF NEW INDUSTRIES.

ALABAMA.

Fairford—A shingle mill will be erected by the Seaboard Manufacturing Company.—Florence—New machinery will be placed in the Sweetwater Lumber Company's plant. Address L. C. Hudson or J. T. Bolinger.—Maplesville—A saw and planing mill will be constructed. For further information write to Geo. H. Robertson.—Mobile—The saw mill recently burnt will be rebuilt by Chas. S. Stanton.—Piedmont—The electric light and water works have been incorporated. R. S. Perry, secretary.

ARKANSAS.

Brinkley—T. H. Meehan will construct a stave factory. Address the Bergan & Meehan Stave Company, Memphis, Tenn.—Little Rock—The saw mill recently burnt will be rebuilt by Charles Schutte.—St. Francis—A new saw mill will be constructed by J. M. Meyers.

FLORIDA.

Anthony—A saw mill will be built and operated by J. Denuard.—Tampa will have a planing mill. For information write to J. W. Hebb, Auburndale, Fla.

GEORGIA.

Athens—New waterworks will be constructed; $125,000 worth of bonds have been voted. For information address the mayor of Athens.—Augusta—The Crown Cotton Mills will add new machinery.—Lawrenceville—The erection of a planing mill is spoken of; C. P. Jackson can give the necessary information.

ILLINOIS.

Austin—Flat; Jos. Miehle, 876 W. Indiana, Chicago, owner; H. Sioks, 17, 108 Dearborn street, Chicago, architect; contract not let. Brick, stone trimmings, galvanized iron work, stove heat, plate glass, electric bells, gravel roof, grates, wood mantels, gas fixtures, plumbing.—Calumet—G. O. Garnsey, 117, 185 Dearborn street, Chicago, Ill., owner and architect; contract not let; cost $8,000. 50x60, three stories high, frame on stone, galvanized iron, furnace heat, plate glass, electric bells, slate roof, grates, hardwood finish, wood mantels, gas fixtures, plumbing.—Pullman—Flat; G. H. Yaeger, owner; M. Wing, 121, 185 Dearborn street, Chicago, Ill., architect; contract not let; cost, $5,000. 29x64, two stories high, brick, galvanized iron, stove heat, plate glass, electric bell, gravel roof, grates, hardwood finish, wood mantels, gas fixtures, plumbing.—Pullman—W. J. M. Miller, owner; F. W. Wing, 121, 185 Dearborn street, architect; contract not let; cost; $5,000; 29x60, two stories high, frame on stone, galvanized iron, furnace heat, plate glass, electric bells, slate roof, grates, wood mantels, gas fixtures, plumbing.

INDIANA.

Lafayette—Residence; James M. Fowler, of the Fowler National bank, has plans drawn for a magnificent new home on Ninth and Hitt streets to cost $75,000.

KENTUCKY.

La Grange—The construction of a canning factory is contemplated. For information write to N. C. Goldsborough.—Middlesborough intends having a box factory. Address H. T. Noel, Lancaster, Ky.—Shelbyville will have an electric light plant. Companies interested in the construction address L. C. Willis or W. A. McGrath.

MISSISSIPPI.

Lulu will erect a machine shop. For information write to J. W. Stipe.

MISSOURI.

St. Louis—S. S. Magnolia, between Kingsway and Euclid avenue; W. A. Slanbury, 1507 Washington avenue, owner and architect; contract not let; cost $7,500. 28x32, two and one-half stories high, pressed and moulded brick, furnace heat, wire window guards, ornamental glass, electric bells, slate roof, gravel sidewalks, wood mantels, gas fixtures, plumbing.—St. Louis—East Mississippi between Park and Koemelt Place; T. B. Wright, 6 N. 8th street, owner and architect; contract not let; cost, $7,500. 28x58, two and one half stories high, pressed moulded brick, furnace heat, wire window guards, ornamental glass, electric bells, slate roof, gravel sidewalks, wood mantels, gas fixtures, plumbing, inside blinds.—St. Louis—S. S. Delmar, between Cabanne and Vandeventer avenue; F. R. Peters, 3868 Delmar avenue, owner; Stewart & Co., 16th and Lucas, architect; contract not let; cost, $8,000. 37x50 three stories high, pressed moulded brick, stone trimmings, furnace heat, wire window guards, ornamental glass, slate roof, electric lighting, gravel sidewalks, interior decorating, wood mantels, gas fixtures, plumbing inside blinds.—St. Louis—Store and residence; S. S. Vincent, near Nebraska avenue, J. Stippich, 26th and Randolph street owner; A. Shasserk, 4117 Evans avenue, architect; contract not let; cost, $13,000. 90x60, three stories high, pressed moulded brick, stone trimmings, heating andeoided, wire window guards, plate glass, gravel roof, gravel sidewalks, awnings, fire proofing, mantels, fire safes, gas fixtures, plumbing, store stools and counters.

NORTH CAROLINA.

FARMS AND ACRES.

340 acres near Hammond, Ind.; railroad and river frontage; a fine site for manufacturing plant and town. D 1.

Hinsdale—10 acres high rolling ground near station; 11-room dwelling, 8-room servants' house, water piped over grounds; fruit and shade; no more desirable home to be seen; will be sold for much less than value. H 1.

80 acres at Harvey $400 per acre. 10 acres at Blue Island $500 per acre. 183 acres near Harvey ¼ mile from station on Illinois Central railroad. Also a large list of acre tracts from 1 to 640 acres near Harvey and Blue Island. D 2.

Choice 55-acre farm adjoining town 25 miles from Chicago on Rock Island road; nice grove, well, springs, etc. D 3.

A fine farm on C. B. & Q. Railroad. P 8.

Near 12th st, Desplaines river, 2,640 ft, electric road and Ill. Cent Ry. Price only $2 per foot. This is $8,000 below value. V 4.

Two and one-half acres on 47th st, one block east of Archer av. K 10.

Forty-two and one-half acres on West 12th st, near R. R. depot and street car facilities; a magnificent tract to subdivide. D 4.

240 acres just west of Lake Forest; the cheapest farm on the North Shore; good as a farm and better as an investment; $75 per acre; sold on account of the death of the owner. D 5.

Florida—14-acre orange grove; trees bearing; 8-room furnished house; terms easy, or exchange Chicago real estate. D 6.

Farm of 55 acres, with small lake near Wisconsin Central Ry, in Antioch, Lake Co., Ill. D 7.

Ten acres at a bargain. Close to Grant Locomotive Works. D 2.

Chicago Cricket Club ground, from 7 to 10 acres in one block, cor 71st and Seipp av; ripe for subdivision or World's Fair enterprise. D 8.

Between Crawford av, North av and Grand av, 30 acres, street cars run within one block of this property; everything in the neighborhood is already platted; can be bought for $3,000 per acre; easy terms. E 6.

Splendid Southern plantation: 960 acres; Jackson, Miss.; very low price. D 9.

$2,500 buys a 194-acre farm in Erath County, Texas; 5 miles from county seat; 80 acres valley land under cultivation, balance post oak timber, all capable of cultivation; wheat, corn, oats and cotton make excellent crops; $1,200 made by renter on one year's crop; $1,500 cash; balance easy payments. D 10.

$45 per acre—320 acre farm, 2 miles from Harvard Junction, McHenry Country Ill., 65 miles from Chicago: fine 11-room dwelling, large barns, cribs and sheds, all fenced and cross fenced, fine orchard, water and the best land in the county, most elegant dairy, stock or grain farm in Illinois, every acre can be plowed. W 1.

$4,500—320 acres, rich, well improved farm, fine orchard, rich land and good buildings, completely stocked, clear title and first-class steam tug boat, clearing $100 per month, runs in the Jorden river and Gulf of Mexico, farm fronts on Jorden river, in Hancock County, Miss., farm, furniture, stock, implements and steam tug boat all for $4,500; clear title and elegant orchard and farm; no trade. W 1.

$1,500—82 acre farm, the most elegant improved and richest farm in Iowa, inside the corporation of the county seat of 6,000 people, and 6 miles from Cedar Rapids, Iowa; improvements cost $30,000, and nearly new; it will suit a physician or any professional man. W 1.

$7,000—48 acre farm, fine 12-room brick dwelling, good out buildings, and no better lands in Wisconsin, fronting on Fox River, 70 miles from Chicago, adjoining town of 3,000 people; it will suit any gentleman (Racine County): half or all down; no trade. W 1.

$75 per acre—240 acres rich well improved farm, clear title, inside corporation of St. Charles, Kane Co., Ill, fronts on Fox River, fine improvements, W 1.

$3,000—80-acre fruit or grain farm one-half mile from Lake Michigan and depot, Berrien Co., 70 miles from Chicago. W 1.

A. J. EARLING, General Manager. GEO. H. HEAFFORD, Gen'l Pass and Tkt. Agt.

CHICAGO, ILL.

☞For information in reference to Lands and Towns owned by the CHICAGO, MILWAUKEE & ST. PAUL RAILWAY COMPANY, write to H. G HUGEN, Commissioner, CHICAGO ILL.

The Marvel of the Musical World.
$30 worth of CHOICE MUSIC for $1.50.
The New York Musical Echo is quite a novelty in modern journalism, and affords a grand opportunity to musicians and music-loving people. It is a large quarto musical publication, published monthly, each number containing 24 full size pages of sheet music, the brightest, liviest and most popular selections of the day, both vocal and instrumental, together with a pretty cover, on which is a full page portrait of some beautiful actress for singer. The music and portrait changed with each issue.
A Year's Subscription to the New York Musical Echo is $1.50 (sample copies 15c.) and means 288 full size pages of sheet music and twelve fine portraits, making when bound one of the handsomest portfolios of the newest and nicest music ever published. We want our friends to be careful of each number as duplicate copies may soon be a thing of the past. Don't lose any of the pretty music we are publishing, so start from the December number. The American News Co., or any of the News Agencies will supply you, or order direct of us
The New York Musical Echo Co.,
B'way Theatre B'ld'g, 1441 B'way, N.Y. City.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same.

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,
Industrial Commissioner,
C, M., & St. Paul R'y, 160 Adams St., Chicago, Ill.

FRANKLIN PARK 90 feet above Lake Michigan. "EXCELSIOR" Is Its Motto.

What a Word of Significance in these simple Figures for the safe Guidance of the prudent Man who, in locating a Home for his Family, would put high above all minor Considerations,

The Priceless Boon of Health.

FRANKLIN PARK is the Growth of less than two Years. It is the suburban Terminus of the Chicago & Northern Pacific R. R., and is situated at the Intersection of the Wisconsin Central R. R. with the Chicago, Milwaukee & St. Paul R. R. It is 90 feet above Lake Michigan, 11 miles from the City's centre, 2 1-2 miles west of the City limits and is accommodated by 54 passenger trains daily. It has the two finest suburban depots west of the City, costing over $5,000 each, a spacious hotel, a fine block of stores, scores of attractive residences, miles of side-walk, sewers and shade trees and an abundance of wholesome water.

On its western border is MANHEIM, the nucleus of extensive manufacturing concerns and destined to be a busy centre of diversified industries.

You areWelcome any Sunday or any Weekday, to a free Ticket for the Inspection of this,

The Highest Suburb of Chicago

My Sunday Trains leave on { Chicago and Northern Pacific R. R.

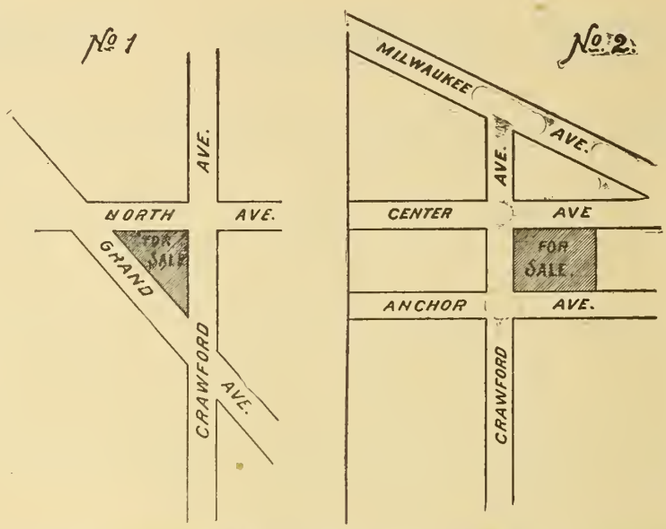
L. FRANKLIN,

130 LA SALLE STREET.

I WANT INVESTORS TO INVESTIGATE



These Two Bargains

They are Good Value and will pay 100 per cent. within one year.

NO. 1.

20 acres between Crawford, Grand and North Aves. Three choice streets. Price $3000 per acre. Lots on North Ave. within one block of this land are selling at $50 per foot. This is the only land not platted in this section.

Call quick on

NO. 2.

5 acres already sudivided into 48 lots. Crawford Ave. on its west line, only a short distance south of Milwaukee Ave., as indicated on map. This property can be bought now at $2500 per acre and will sell readily at $500 to $750 per lot—9 lots to an acre.

Investigate this. $2000 cash will buy it.

WM. W HUTCHINSON, Room 407, 225 Dearborn St.

CHICAGO HEIGHTS!

THE GREAT MANUFACTURING AND BUSINESS CENTER.

Business and Residence Property For Sale at Extremely Low Prices and on Easy Terms.

DOLESE & SHEPARD, 162 Washington Street, Chicago,

HAVE BEEN AWARDED A CONTRACT AMOUNTING TO

ONE HUNDRED AND SEVENTY THOUSAND DOLLARS

($170,000) for the purpose of macadamizing 17 miles of streets and building stone sidewalks.

NO ASSESSMENT will be made for the improvements, the Association assuming the entire expense. The wise and prudent people who invest a small amount of money in CHICAGO HEIGHTS property will in a comparatively short time reap large benefits. No sane person can question the wisdom of making an investment in Chicago property.

Four large factories are in full operation and contracts closed with several others. A large number of residences and business houses in course of construction, also an extensive factory building for Roth & Englehardt, Piano Manufacturers of New York.

STABILITY OF THE ENTERPRISE

The following well-known gentlemen are among the promoters of Chicago Heights:

BUSINESS OF THE WEEK.

The general business prosperity which was reported last week remains unchanged. The volume of trade everywhere is large and prices and credits continue to be satisfactory. Money is in demand noticeably more than last week but still remains plentiful. At New York the expected stringency in the money market has been averted. Two weeks ago the bank surplus there was reduced to $539,000. It is now $3,893,675, an increase in a fortnight sufficient to allay any fears of a defleit. This increase was made in the face of the fact that there was a reduction in deposits during the week of nearly $4,000,000. For about three months now there has been a steady withdrawal of deposits from the New York banks, aggregating in all over $86,000,000 withdrawn since the middle of June last. To meet this loss the banks have found it necessary to contract their loans $43,000,000. Under such conditions it is little wonder there has been some apprehension of a tight money market, but the marked improvement shown at present is suffeient to dispel any fears that were felt a few weeks ago. While no movement of gold imports is yet visible, the supply of money is evidently on the increase, and this increase is sufficient to preclude the possibility of dear money for the present year at least.

The influence of the money market is most potently felt on the speculative exchanges, especially on the stock exchange, but the stock markets of late have not been affected unfavorably to any great extent by the fear of tight money; the principal influences have been manipulation on the part of certain interests and a feeling of uncertainty in view of the approaching election. The latter influence has had a decided bear tendency. Many an operator is deferring active work until after the election. Of course there is very little reason in such a course, but the feeling on the part of investors is that the excitement of the closing weeks of a political campaign is not conducive to sober work. This feeling accounts very largely for the fact that the stock exchanges have been comparatively featureless. Judging the future from this standpoint also we may expect somewhat of a revival of interest after next week.

The political campaign has been unusually free from disturbing influences on the general business of the country, but the closing weeks of a national contest can not be expected to be as devoid of excitement as ordinary occasions. Commercial travelers report some difficulty in transacting business, owing to the distractions of campaign work. With this exception and that of the stock markets as noted above, the situation has been remarkably quiet.

Railroad earnings continue to be phenomenal. The earnings of 1891 were exceptionally large but those of 1892 are much larger. The Burlington statement for September shows an increase in gross earnings over the corresponding week last year of $422,462, in net earnings $107,323 and in surplus over charges $90,509. The net earnings of this road have increased every month since June, and the increase over 1891 is much larger for September than in either of the preceding months. The Burlington is only an example of the general prosperity of all the western roads. The Chicago, Milwaukee & St. Paul, for instance, is said to have made larger earnings during the past nine months than any other road in the country. Its October earnings will probably be the largest of any month in the history of the road.

The grain markets have had a decided bearish tendency all the week. Corn has improved, if anything, but wheat has been rather on the run. The opening Monday found wheat comparatively strong, but later advices of bad weather necessitating the marketing of large quantities of the cereal, coupled with the news of an unexpectedly large crop in Russia and Poland, had the effect of reducing prices somewhat. The same influence that depressed wheat raised the price of May corn, but subsequent sharp selling resulted in a drop to the original figures of the week. Late crop summaries are regarded as decidedly bullish, and if the shorts become frightened a further advance may be expected in wheat as well as corn. So far, however, the week has been comparatively without incident.

ANALYSIS OF BANK CLEARINGS.

The following are the bank clearings of 70 leading cities for the week ending Oct 27, 1892, as compared with those of the corresponding week last year, with percentages of increase and decrease.

†Not included in totals.

New York and San Francisco are the only two prominent cities that show decreases. The decrease of 7.7 percent at New York is sufficient to cause a decrease in the grand total of nearly one per cent. Chicago returns an increase of 3 percent, but Boston and Philadelphia increase 20.8 and 14.5 percent respectively. Boston's total is especially large, reaching the unusal figure of $112,000,000. Philadelphia, however, is still nearly $15,000,000 below Chicago. San Francisco, Portland, Or., and Los Angeles, all Far Western points, show decreases, as do many Southern cities like New Orleans, Galveston, Memphis, Waco, Norfolk and Birmingham.

A noteworthy feature of the table is that while there are only sixteen decreases recorded as against forty-one increases, yet the total shows a decrease. This is accounted for as explained before, by the great relative proportion of New York's clearings, and the fact that there is a heavy decrease there. The New York clearings usually comprise about three fifths of the entire amount reported from all the cities in the Union. This week the Chicago total is five-ninths of the grand total. This would give a total loss of 4.3 percent provided the other cities neither gained nor lost. The actual result shows a loss of 0.8 percent for the grand total and a gain of 9.4 percent for the outside cities. This is certainly a gratifying result.

In studying the table we would naturally expect to find the trade reports from the various cities corresponding with the results arrived at in the table itself. From Philadelphia and Boston we would expect reports of greatly increased trade, while from New York and San Francisco we would look for the statement that the volume of trade had decreased. In the West we would look for a fair volume of business, as indicated by the figures of the table, while in the South we would expect to find that causes had been at work to reduce the demand for staple manufactures and agricultural products. In short the table ought to be merely an index to the real state of trade as set forth in the telegraphic reports from various sections of the country.

On a careful comparison of the reports with the table we find this to be the case. It appears that at Philadelphia and Boston orders for manufactured goods are in excess of the supply. Shoe factories are kept busy, and woolen and cotton mills are exceptionally active. Prices of rubber goods, petroleum, paints, pig iron, etc., are firm and advancing. At New York, on the other hand, there has been a falling off in trade owing to the lack of export demand and a consequent drop in wheat. At San Francisco reports are more hopeful than at New York. A new stimulus has been given to export trade by the lowering of freight via Cape Horn. Vessels are now being chartered from San Francisco direct to Philadelphia and other eastern ports. This is a comparatively new feature in the export trade of the Pacific coast and bids fair to do much toward improving the general tone of business there. As yet, however, the returns are by no means satisfactory.

The decrease in the returns from New Orleans is accounted for by the severe strikes among the warehousemen and draymen. Other Southern points report a more encouraging outlook, but as yet these bright prospects have not made themselves visible in the report of bank clearings. What is needed in the South as well as in the North is more seasonable weather. The present continued warm weather has made itself felt in retarding business all over the country, especially in the Northwest. While the returns do not reveal any serious losses in this section, yet the fact is that the volume of business throughout the Northwest is by no means as great as it would be at this time of year were the weather colder.

	WEEK ENDING OCT 27, 1892.	WEEK ENDING OCT. 29, 1891.	PERCENTAGE.
New Engl'd States.	$127,819,588	$108,012,842	Inc 18.3
Middle "	754,117,091	799,375,759	Dec 5.5
Southern "	41,381,174	49,258,913	" 16.1
Western "	33,853,079	37,796,890	" 10.4
Northwestern "	129,023,635	121,783,086	Inc 6.0
Southwestern "	40,880,389	40,864,925	" Nom
Far Western "	27,676,543	28,409,182	Dec 2.8
Totals,	$1,154,751,499	$1,185,051,597	

Of the groups, the only ones showing any considerable increase are the New England and the Northwestern. In the New England group the increase is due mainly to Boston, which has made a wonderful record this week, in comparison with her usual total of weekly clearings.

LOCAL STOCK MARKET.

The monetary situation has been an important factor on the Stock exchange this week. Early in the week it was feared that the unusual demand for settlements would result in a temporary stringency, but all danger of such a result is now thought to be past. For a time the demand was so brisk that the rate rose in some cases as high as 7 per cent. Later it was found that the shipments of currency to the country had nearly ceased and that a return might soon be expected. Further it was developed from the report of the State banks at Chicago that a large increase in deposits had been made within the quarter ending Oct. 26. The savings deposits alone increased during the three months $1,285,000. This condition of the local banks is in sharp contrast to that of the New York banks, in which the deposits have decreased during the same period about $86,000,000. The demand for money for ordinary speculative transactions will not be sufficient to cause any stringency under the circumstances. The extraordinary building activity of the past year, which shows little signs of abatement at present, has had a tendency to raise the rate of interest, but altogether the monetary situation is satisfactory.

The stocks which have attracted the largest measure of attention during the week are Packing and Provision common, Streets' Stable Car, Strawboard, the Breweries, Alley Elevated and City Railway, with the usual skirmish fire along the lines of North and West Side cables.

Packing and Provision common received what was thought to be a knock-down blow on Monday in the shape of an announcement to the stockholders, of a resolution passed some weeks before by the directors which recites the decision of the board to pay no more than 10 per cent dividends "until the surplus fund becomes sufficient to retire all the bonds." There are $650,000 of these outstanding bonds, and the company now has $193,000 in the redemption fund. If the phenomenal profits of former years could be continued, it might be possible to retire the total bond issue within a reasonable time; but it is said that the business has not been so profitable of late as formerly, and the reduction of dividends from a 15 to a 10 per cent basis is quite generally thought to be permanent. Notwithstanding this fact, the stock has preserved its strength on the exchange with remarkable tenacity. On Tuesday it sold at 48¼ under the influence of the break but later in the week it brought 52. Few sales were recorded.

Streets' Stable Car stock has exhibited some activity and on Tuesday was run up from 29½ to 30⅞ on the supposition that there were a number of shorts yet to be run in. Later the stock fell to 30 where it has since remained. This is a favorite stock for speculators, owing to the facilities it affords for scalping. There appears to be nothing in the situation to warrant any anticipations of any considerable rise in its value.

On Wednesday Strawboard was in good demand and advanced 1 per cent. This was the immediate result of the meeting of independent strawboard manufacturers in this city on Saturday, at which an arrangement was ratified by which it is thought the over-production of strawboard will be effectually done away with.

The Breweries were lifeless all the week. On Wednesday Milwaukee and Chicago common dropped to 34½ for the account and on Thursday sold down as low as 32¾ for the account. Chicago Brewing and Malting dropped to 39, and 38½ was bid for the account. North and West side cables have claimed their share of attention this week. North Side stock opened very firm Monday and sold as high as 269¼ for the account, but on Wednesday it had fallen to 261½. West Side stock is believed to be entirely in the hands of the Philadelphia manipulators and apparently it is not their wish to boom it at present. This stock sold at 217 for the account Monday, but went at 211 later in the week. The opinion of those who claim to know is that this is an unsafe stock for outsiders to dabble in at present.

THE REAL ESTATE MARKET.

No remarkable features have characterized the course of the real estate market in Chicago this week, and indeed nothing remarkable need be expected, at least until after the election excitement shall have subsided. The transfer lists have been more active than they were during the preceding two weeks. There is a healthy tone in the character if not in the volume of the transfers. What is needed is confidence on the part of the investing public. This can hardly be expected to come until the present depressing effect of World's Fair prices has been overcome. The idea that prices have been boomed beyond all reason on account of the Fair has become so prevalent among outside investors that no amount of effort on the part of real estate men can neutralize it. Nothing but time can dispel this fallacy—an erroneous impression which exists as largely in Chicago as anywhere else. The people of Chicago are the very ones who have the poorest appreciation of what this city has done in the past and of the wonderful strides it is making to-day, as well as of the great impetus which will be given to real estate interests by the World's Fair. Next year about this time there will be a very different feeling in real estate circles and among the investing public.

The entire financial fabric is so largely built up on confidence that it might be very truly said, no confidence, no business. This is true of the real estate business especially. Anything that destroys confidence prevents business in this line. The difficulty of securing clear titles is an illustration. The abstract question is probably the most serious problem in the real estate business to-day. If men can be assured that the titles to property offered them are absolutely unimpeachable, much of the hesitancy in buying real estate will be overcome. Property in Chicago changes hands rapidly, and much of it was so cheap in the early days of the city that owners were careless in transferring it. The result is that abstracts are lengthy and require careful examination for possible flaws which may cause no end of trouble and litigation. The lapse of time does not better matters in this respect. Every year abstracts grow longer and the difficulty of clearing up old clouds becomes greater. It is expected that during the coming winter a strong effort will be made to secure a State guarantee of land titles, in other words the adoption of the Torrens system of land transfer. The Torrens land commission, which was appointed to investigate the system and make a report to the Governor, has completed its work and the report is now in the hands of Gov. Fifer. The contents of the report have not yet been made public, but it has been stated by one of the members of the commission that it recommends the adoption of all the important features of the Torrens system, with just enough variation to adapt it to local circumstances. Unless some unexpected and powerful opposition is encountered this report will probably be adopted by the Illinois legislature at its next session.

SALE OF A TEN-ACRE BLOCK OF VACANT PROPERTY FOR $325,000.

The most important sale of the week so far as figures go was that of the ten-acre block bounded by Grand boulevard, Forty-ninth street, Vincennes avenue and Fiftieth street, from Elizabeth A. Stone to J. E. Windsor, representing a syndicate, for $325,000. This deal was put under contract by T. G. Dickinson & Co. last spring but was not closed until this week The tract has been subdivided by running a street through the center known as Washington place. The total frontage on Grand boulevard is 597 feet, on Vincennes avenue 200 feet and on Washington place 1,145 feet. Parcels of the property have been sold to the different members of the syndicate at prices ranging from $75 to $250 per foot. On Grand boulevard P. H. Fleming bought the northeast corner of Fiftieth street with a frontage of 250 feet on the boulevard and a depth of 150 feet for $65,000. He also bought the lot 50x150 feet, 197 feet south of Forty-ninth street, on the east side of the boulevard for $13,000, and the southeast corner of Forty-ninth street and Grand boulevard, 197 feet front and 150 feet deep, for $51,339. Francis T. Murphy bought a lot 100x150 feet on the boulevard, west front, 250 feet north of Fiftieth street, for $26,500.

On Vincennes avenue the lot 150x149, at the southwest corner of Forty-ninth street, was sold to H. E. Southwell for $21,500. The lot 50x143, on the west side of Vincennes, 300 feet south of Forty ninth street was sold to W. J. Brachvogel for $6,750.

SALE OF THE CLIFTON HOUSE TO DETROIT CAPITALISTS.

Carr & Reeve of Detroit have completed the purchase of the Clifton house, at the northwest corner of Monroe street and Wabash avenue. They become the owners of the leasehold interest in the land upon which the building stands, the structure and the furniture. The ground lease expires May 1, 1912, and the annual rental for the entire term has been fixed at $22,000 a year. Woodcock & Loring, the proprietors, receive $200,000 for their interest, a large portion of which is in cash. The new proprietors, who also conduct the Hotel Normandie in Detroit, will take possession Dec 1. Messrs. Woodcock & Loring, who have been proprietors of the house for over ten years, will retire from active business. There will be no change in the management of the house. The hotel has six stories and 220 rooms. On the ground floor are eight stores and the leases of all but two expire in May. Two have been renewed, one for five years and the other for three, at an increased rental.

A REAL ESTATE LOAN OF $180,000 ON DOWN TOWN PROPERTY.

A trust deed covering the property at the southeast corner of Madison street and Fifth avenue and securing a loan of $180,000 has just been placed on record. The loan is made by Mrs. Henrietta Miller to the Security Safety Deposit company on a six per cent. basis. Mrs. Miller is the owner of the fee, while the safety deposit company is the syndicate formed by Angus & Gindele to build and operate the Security Office Building. The loan was negotiated by J. C. Fleming, who made the lease to the building company. The corner was leased last season for a term of ninety-nine years. The building is well advanced toward completion and will be ready for occupancy this fall.

REAL ESTATE BOARD LIBRARY.

The foundation of a library for the Real Estate Board has been made, the first instalment being twenty-four volumes of THE REAL ESTATE AND BUILDING JOURNAL, beginning with 1866. The only omissions are those caused by the suspension of the paper by reason of the great fire, from September 23, 1871, to March 2, 1872. Many of the copies preceding September 23, 1871, were scorched by the great fire. Prior to 1866 the paper was called the Weekly Bulletin, the files of which are in the office of THE REAL ESTATE AND BUILDING JOURNAL. The JOURNAL appreciates this compliment, which is the highest ever paid to a newspaper by any real estate body.

In addition to the JOURNAL the following books have been collected as a nucleus to the library. Twenty-two volumes, containing all transfers city and suburban, from 1882 to date, arranged under the different streets. These volumes are kept posted up every week, and are invaluable for reference. Four volumes of the Call Board Bulletin, beginning 1888. Starr & Curtis' Annotated Statutes of Illinois. Three volumes down to 1887. Municipal Code of Chicago, down to 1887, two volumes. Hurd's Revised Statutes of Illinois, 1891. Presented by Judge James B. Bradwell. Laws of Illinois, 1891. Presented by Judge James B. Bradwell. Report of the Bureau of Labor Statistics of Illinois. Presented by John S. Lord, secretary. Sixteenth Annual Report Department of Public Works, of Chicago, year 1891. Presented by J. Frank Aldrich, commissioner. Mayor's Annual Message, 1889. Presented by W. H Purdy, Commissioner of public works. Rules, By-Laws, Etc, Chicago Board of Trade, 1887. Report of Revenue Commission of Illinois, 1886. Proceedings of Illinois State Board of Equalization, 1886 and 1887. City council proceedings, 1885. Laws of Michigan, Governing the Execution and Recording of Conveyances of Real Estate. Report of Directors, 1890, Rules and Regulations, 1889, of Real Estate Exchange and Auction Room, Limited of New York. Constitution and By-laws of Real Estate Exchange, of Baltimore, Chicago Daily News Almanac, 1892. Greely's Atlases of Chicago, Hyde Park, Lake and Cicero, six volumes. Robinson's Atlases of Chicago, five volumes.

A collection of relics has been projected also, with the following as a beginning.—A framed plat of forty lots in block bounded by Adams, Jackson, Fifth avenue and Franklin street, offered for sale, June 22d, 1835, at the Merchants' Exchange, New York City. Presented to the board by Fernando Jones, Esq., May 26, 1886, his 66th birthday and 51st year of his arrival in Chicago. Also a framed list of lots in original town of Chicago to be offered for sale June 20th, 1836 Valuations are annexed (lots on State street, near Randolph, 80x180 feet, are valued at $800 to $3,000 each, a price that would not buy 1-100 of a front inch of some of them to-day.) Presented to the Board by Henry C. Morey, Esq., June 1st, 1886.

FALLACIES OF PROTECTION.

One of the most common fallacies of the high protectionist orators is that wages are increased by a protective tariff. It would seem as though any workingman who has the ability to read could see at a glance that wages depend entirely on the law of supply and demand and can no more be regulated by legislation than the price of wheat or corn or of any other unprotected commodity. Yet the continued iteration of the statement that protection raises wages has left the impression in the minds of readers of the falsehood that such is the case. Even those speakers and writers who are intelligent enough to know better, have repeated the lie so many times that they have actually come to believe it themselves; and they are deeply grieved when anyone ventures to say that the tariff has no influence whatever on wages except to decrease their purchasing power.

It does not require the brain of a philosopher to comprehend that the rate of wages depends entirely on what the employer is willing to give and the workman is able to demand. A manufacturer does not ask his workmen whether the tariff is high or low; he does not take the tariff into consideration at all; when he has a certain kind and quality of work to perform he proceeds to advertise for a workman who is able to do the work required, and he selects the man who can and will do the best work for the least money. This is true in every department of business. Why is it that the occupations open to women are so crowded and so poorly paid? Everybody knows that competition on the part of multitudes of women who prefer low wages to the drudgery of housework is the one influence that has lowered the wages of women to the starvation point. Why is it that street laborers can be had at 75 cents a day, only a little more than half their former wages? Everybody knows that it is because the influx of Italian laborers to this country has flooded the labor market. Does protection help these classes? By no means. Rather, it causes them to pay dearer for the very necessaries of life.

The recent experiments at tin making in this country furnish good illustrations of this principle. A daily paper, organ of the high protection monopolists, comments with glee on the statement printed in an English trade journal that thousands of Welsh tin plate makers are leaving that country for America on account of the establishment of tin plate factories here. We fail to see how our workingmen are benefited by the importation of fresh shiploads of Welsh tinmakers. The fact is that substantially all the tin that has been made in this country has been the work of skilled workmen from Wales. American workmen have not profited at all as yet by the industry, and they are not likely to. Over $25,000,000 have been collected in tariff duties on tin plate, and as yet the nursling industry has not begun to furnish even a small percentage of the cheap roofing tin consumed in this country. In return for this $25,000,000 of taxation, about $16,000 in wages has been paid out, mostly to imported Welsh workmen. The result eventually will be the further addition of foreigners to our already overcrowded labor market, and, on the other hand, the creation of a few more millionaires among the capitalists engaged in the manufacture of protected tin plate.

Another fallacy of protection is that the prosperity of this country has been due to the policy of the protective tariff. This is very like the argument that because some dissipated person has lived to an exceptionally great age, therefore dissipation is not injurious. Such reasoners forget that these people are exceptions, or would have lived still longer than they did, if they had refrained from their dissipations. The ingenuity of the advocates of protection is most seen in this very attempt to make the worse appear the better reason. The fact is that this

country has prospered amazingly in spite of the incubus of a protective tariff which has literally paralyzed many branches of industry. The most amazing thing under the circumstances is that the country has prospered at all. Now the tariff orators, by a fine sleight-of-hand, proceed to argue that the prosperous condition of the country instead of having been maintained in spite of the tariff, has actually been brought about by the tariff. They know that the boundless natural resources of this country have made our national prosperity a foregone conclusion. Yet they eagerly seize on this fact of prosperity to bolster up their fast crumbling system of class legislation, by which they enrich the few at the expense of the many.

Like the mirage of the desert, the gospel of protection always appears far enough away in the distance to deceive its followers. The weary toiler, the tired and care-worn producer, and the consumer alike, falter by the wayside after many disappointments in the pursuit of a promised fountain that now turns out to be a phantom only. We live in an age of progress, in a country without a parallel; in a land as diversified in its soil as the people are in their pursuits. We live under a constitution that forbids the passage of special laws and class legislation and we must adhere to the principle of the greatest good for the greatest number. A law is not a good law that gives a direct benefit to a few and a slight but indirect benefit to the many, much less is it a good law, if it benefits the few and impoverishes the many. The old law writers were scarcely imbued with the idea of the greatest good to the greatest number. They wrote to please their rulers who made laws to suit themselves. The paid servants of kings and the hirelings of the nobility of Europe have driven away from the old world, millions of honest toilers and business men who sought freedom in America. Now we are confronted with the singular doctrine that monopoly only shall be protected and labor shall be governed by supply and demand. The party that protects the one and opposes the other shall go down, unhonored, unheard and unsung.

DRAINAGE CANAL PROPERTY.

The long expected decision of the Drainage Board on the route between Summit avenue and the Chicago river at Ashland avenue has at last been arrived at. The board has decided to use the canal route, as being the most available and the best, all things considered. The distance from Ashland avenue to Summit is eight miles. The matter of a decision between six different routes, of which the canal was one, has been in the hands of the Joint committee on Engineering and Finance since June 7, when Engineer Williams presented a report on the subject, recommending the canal route as the most available from an engineering standpoint.

The right of way along the canal will cost much less than any other line, as there are about 250 acres in the canal reserve, which can be used without cost to the district. The channel may be so located that for much of the distance one boundary line of the Illinois and Michigan canal will be one of the boundary lines of the right of way of the district, hence there will be much less chance for owners to claim damages, fictitious or otherwise, to land not taken.

The committee is satisfied that this board desires and must have temporary relief to the city before the completion of the main channel. It is evident that this relief can not be furnished the city in connection with the construction of the main channel unless that channel be constructed on the canal route; and that no relief is possible until the entire channel is constructed if any other route is adopted. If there were no other reasons which could be urged in favor of this line the question of temporary relief itself would be of sufficient importance to recommend the adoption of the canal route.

The committee is said to be in favor of the 600,000 cubic feet channel, though their decision on this point will not be announced until later. The announcement of the exact route of the canal, however, was the point of most interest to real estate owners. The route of the canal has been a matter of speculation for some time, as it has been thought that manufactories and thriving villages will be built at various points on the canal. Demand for adjacent property has increased somewhat during the past few months and prices have generally advanced, in a few cases considerably. Delay in determining the width of the channel between Willow Springs and Summit and the consequent delay in beginning the work has had somewhat of a depressing effect, which the recent decision of the Board will do much to dispel.

DULUTH AND THE MESABA RANGE.

A Duluth newspaper indulges its taste for optinistic writing in the following strain:

"The opening up and development of the Vermilion range, to the time when it passed from the hands of Messrs. Tower, Stone, Breitung, and the Elys into the hands of the Porter syndicate, who now control it, returned all the money ever invested, together with 6 per cent interest, and over $4,000,000 clear gain, all of which went to parties none of whom were citizens of Duluth. If one-half is true which is now claimed for the Mesaba range, the development of the Vermilion range and the gain now derived and to be derived in the future from that source is small in comparison with what the Mesaba will produce, with this further immense difference, that the properties on the Mesaba range are principally owned by citizens of Duluth, and the millions upon millions of its wealth will come into our midst and to those who are interested in the building up of a great city here.

That the Mesaba range iron deposits is the greatest discovery of the age in the line of iron ore mineral wealth, is beyond question; there is no doubt of that, and the range is already known to contain deposits of iron ore probably not equalled in quality and extent on the globe. This is the freely expressed opinion of an expert and miner of as large experience as any man in the United States.

But all the foregoing is insignificant in comparison with what the range means for Duluth in the future. With this immense body of ore so near us, which can be mined and laid down at the furnace door in Duluth at an actual cost of not to exceed $1 to $1.25 per ton, it means furnaces, rolling mills and a long list of important industries following in their wake, which alone insure a wonderful development in the very near future. At no time in her history has Duluth been on as solid a basis as now; at no time has she been making more rapid and substantial advance than she is now making. The future is bright with well defined promise. All seems to conspire and point to a more rapid development at an early day."

HOW REAL VALUES GROW.

A "history of real estate in Chicago" from the days when the sign board "no bottom" was planted where land is now worth $10,000 per front foot, makes a very interesting article in the Chicago supplement of the New York Real Estate Record and Builders' Guide of October 15th. It is interesting and instructive as showing the rise in real estate in that marvelous city. A summary of the more important points in the history may be interesting to property owners. Of how little value real estate was considered in the early days is illustrated by the gift of one Jones to a god-child of a lot valued at $200 which is now valued at $300,000.

Fifty-six years ago the block on which the Chicago postoffice now stands was sold at auction for $505. It is now worth five million dollars.

The best lot on the north side was offered in 1846 for $6,000, but found no buyers. Ten years later it had increased to $110,000.

In 1864 the average increase for business property was about 20 per cent., while residence property enhanced in value about 10 per cent.

In 1868 the southwest corner of State and Washington was bought by the First National Bank at the highest price that had ever been paid in the city—$25 per square foot.

Subsequent to the great fire, the masses began to put their savings into cheap lots instead of depositing them in saving banks.

Notwithstanding the seeming paltriness of prices as compared with those of the present day, only a couple decades ago, it was difficult for investors to see the cheapness of property offered, and many a man missed the opportunity of securing a fortune by refusing to invest in well located property at current prices.

The men that have made fortunes in Chicago property are those that secured a well located piece of central property and held onto it through prosperity and adversity, through booms and panics.

Residence property does not fluctuate the same as central or business property and it is remarked that residence property in some of the older districts is not worth more than it was twenty years ago, while outside additions that were quoted as of little value a few years ago are now worth $100 to $200 per front foot.

Chicago real estate has followed the laws that govern all changes in land values—centralization and expansion.

Chicago's shipping interests were for years the mainstay of its growth.

Chicago's pre-eminence is due largely to its abundant transportation facilities. Its railroads are the arteries to its commercial life. That the average Chicagoan loves the railroad is evidenced on all sides. He lets it enter the heart of the city. He gives it every street it desires.

CURRENT COMMENT.

The West Side Vindicator claims that the next great movement on the west side will be about the territory just west of the Desplaines river. A new city is said to be springing into existence there. In and about Maywood new houses are going up in clusters, and contractors report that they have all they can do to fill the orders for houses now in hand. One contractor states that he now has contracts for seventeen houses to be built in and adjacent to Maywood. This would indicate an exceptional building activity at this point on the Desplaines. The development of Austin and Oak Park has been wonderful, but no less rapid will be the progress of River Forest and Maywood.

***

The danger to life and property by the explosion of gas in underground passages has been commented on before in these columns but is especialy noticeable at the present time when manholes are blowing up and fires are being started by explosions of gas. On Washington street in this city several of these explosions have occurred within a few weeks, and measures have been taken to prevent them without success. The notion that by mending leaky pipes any permanent good can be done is misleading, to say the least. The only adequate means of preventing the escape of gas in such cases is to replace the old pipes with new ones; but this method is by no means a sure preventive. A better plan would be to ventilate the conduits. This, if successful, would put an end to the constant menace to life and the perpetual threat of fire which lurks under every manhole cover. The recent disaster at Philadelphia ought to be a lesson. Escaping oil from an old and leaky pipe came in contact with a furnace fire and an explosion followed. Immediately, the entire mass of burning oil spread over the river and engulfed shipping and wharves. Two ships, two barges, a tugboat, and wharf property worth $50,000—in all a loss of $134,500 resulted from this fire. The disaster appears to have been due entirely to a worn-out pipe which could have been replaced at but slight expense if inspected in time.

***

The financial history of the World's Columbian Exposition thus far reads like a veritable fairy tale. It was only about three years ago that the idea was first suggested. On the evening of July 23, 1889, the first public step was taken toward securing the World's Fair for Chicago. Then began the memorable fight between New York and Chicago. From September 1889 to February 1890 the fight between the rival cities was waged without ceasing. On February 24, 1890, Congress passed the act creating the World's Columbian Commission and designating Chicago as the place for holding the Fair. Now came the question of finances. Already $500,000 had been raised by private subscription in this city. After months of work permission was secured from the legislature to bond the city of Chicago for $5,000,000 more. June 13, 1890, the directors resolved to increase the capi-

tal stock of the exposition company to $10,000,000, and it was accordingly done. During the present year an appropriation has been received from the United States Government of $2,500,000 in souvenir coins which will net the Exposition $5,000,000, and $4,000,000 worth of bonds have been issued. This makes the total financial strength of the enterprise $24,000,000, all raised within three years. This is about four times as much as the cost of any previous World's Fair. And all this has been accomplished by Chicago enterprise and Chicago pluck.

***

The trolley system has encountered a new and formidable enemy in the insurance companies. Their influence is likely to result in the abandonment of the system in many cities where it is now extensively used. The very quiet and effective way in which the insurance men are being felt in the matter is in the simple raising of the rates of insurance where the trolley is in use. In South Baltimore, Md., for instance, an increase of ten percent has been declared on certain risks, owing to the danger from trolley wires. The result was quickly seen in remonstrances loud and long from the business men affected by the increase against the entire trolley system. Meantime experiments with storage motors and underground conduits are in progress and are reported to be successful.

***

The National Nicaragua Canal convention, to be held at New Orleans Nov. 30th, bids fair to be of great interest. The chairman of the executive committee has issued a call to the delegates to assemble for the purpose of discussing the question of the immediate construction of the canal under the protection and control of the United States, in the interests of commerce and the republics of the Western Hemisphere. Governors of the States, municipal authorities, chambers of commerce and boards of trade are requested to send full quotas of delegates. Commercial bodies are entitled to one delegate for each 100 members.

***

Benjamin Hardwick hit the nail on the head when he said at the recent Buffalo convention: "There is no policy so fatal to the general welfare of the real estate business, and which invariably reacts upon any locality in which it is put in force as a boom movement. It promotes excessive competition, attracts people who only buy to hold in hope of being able to unload on the shoulders of somebody else. While it creates a fictitious activity for a time, a boom invariably results in a long period of dulness far more fatal to the real interests of a locality than the period of inactivity by which it has been preceded. I have heard it said that a boom in real estate values is no less fatal to a town than a tornado. Indeed, the shattered fabrics of the houses in the one case and the shattered values in the other are by no means inadequate figures."

***

The one section of the city that most needs rapid transit is the section that is most neglected. That is the north side. If ever there were a class of people deserving of sympathy on the score of poor street-car facilities it is that class living north and west of Lincoln Park. To say that the present accomodations are inadequate is simply to make use of an euphemism. In many respects the old horse car system was superior; at least the horses did not break down and delay the entire line. It would be difficult indeed to enumerate any virtues possessed by the cable system as now used on the north side that would not be equally applicable to the horse car lines. Now that the trains of the Chicago, Milwaukee & St. Paul road do not run further south than Michigan street, the entire dependence of the people living in the district above mentioned is on the cable lines. The result is the overcrowding of the cars to an extent never before known, and the frequent breaking of the cable, involving the most aggravating and damaging delays. The residents of the north side are fairly clamoring for an elevated road. That such a line would pay is sufficiently demonstrated by the present large earnings of the north side cable line, far exceeding in proportion to the capital stock those of the west side system. North of the river it would be comparatively easy to secure the right of way; and for a large number of the patrons of the road a station just north of the river would be as acceptable as a downtown terminal.

***

The greatest mystery to the average Chicago real estate dealer is why investors will persist in putting their money into worthless securities and worse than worthless lots of some boom western town, when sure investments and positive bargains are offered them in Chicago property. The amount of money thrown away yearly on wild-cat mining stocks and lots or acres in some far-off locality that might as well have no existence must reach well up into the millions. How agents can be so conscienceless as to recommend such investments and how the public can be so foolhardy as to undertake them is a problem in human nature that is no nearer solution today than ever. The probable explanation is that the enchantment of distance and the vague prospect of immense wealth which surrounds many of these schemes is sufficient to attract the multitude like moths to a candle. If after once singeing their wings they could be induced to give these false lights a wide berth it would be well; but the country is full of adventurous people who are never tired of being swindled and who die poor because they have lost all their money in worthless undertakings. It should not be forgotten that the losses of individuals like these are also losses to the country at large, inasmuch as if their money were properly employed it would be an addition to instead of a subtraction from the wealth of the entire community.

AGENTS' BUDGET.

W. A. Merigold & Co. report the sale of the premises 362 East Indiana street for Mrs. Mary Hyland for $6,000; fifty feet on Woodlawn avenue between Sixty-third and Sixty-fourth streets, facing west, for N. J. Downing for $4,625; the northwest corner of Woodlawn avenue and Sixty-fifth street, lot 50x133 feet for Mahlon Barron for $6,800; twenty-five feet on Grand boulevard 100 feet south of Forty-first street, east front, for Dr. Dyas for $8,000.

C. A. Woodruff & Co. have sold for Chas. Mair to A. McArthur, of McArthur Bros. contractors, lot 869 block 11, third division of Riverside for $8,500; they have also closed sale for Philip Goetz to Hattie S. Montgomery the east 50 feet of lot 380, block 7, second division for $1,000 the latter being improved.

A. J. Aubert has removed his office from the North Side to Room 23, 69 Dearborn street.

The Chicago syndicate interested in the French Lick (Ind.) Springs property have made their first payment and will improve the property and extend the sale of the water.

George B. Cruickshank has made the following recent sales: Two hundred and fifty feet on Princeton avenue, near Fifty-fifth street, for James Laughlin, of Pittsburg, for $15,000; twenty-five feet on State street, near Root, for Giles Hubbard for $5,000, and twenty-five feet on Jackson street, near California avenue, for $2,500.

"DRY BONES."

The prosperity of any community usually depends upon the confidence of its people and their earnestness in aiding every movement which has for its object the creation of new enterprises, and a consequent increase in population and wealth. Where this class of people predominate, in any city or town, there are always signs of progress in all branches of business. But every municipality has a few old "dry bones" who are a heavy load to carry. They continually object to new ideas and new departures in government, and in business affairs, and all their influence is exerted in favor of plodding along in the same old way. Such a thing as progress has never obtained a hold on their minds—the word is not in their vocabulary. The habit of complaining becomes so common with them that it takes the form of a disease, and, like the itch, it is always visible on the surface.—*St. Paul Daily Record.*

CHICAGO STATE BANKS.

Auditor Pavey has issued a statement showing the condition of the State banks of Illinois located at Chicago Oct 26. The total resources are placed at $88,200,554; same total at last statement, July 28, 1892, $87,430,137. An interesting feature of this report is the increase in savings deposits of $1,285,000 over the statement of three months ago. It is further found by the examination of the statement made from reports of same banks Nov. 14, 1891, that an increase is shown in savings deposits for the year of $4,340,013.

REAL ESTATE LAW.

EFFECT OF THE DEDICATION OF PROPERTY TO A CITY.

Superior Court of Cincinnati; Fenton et al v Phelps. This was an action to restrain the defendants from erecting a permanent iron and glass building for the purpose of a flower market, on Sixth street, between Elm and Plum streets, Cincinnati. The court dismissed the petition. In 1818 Jacob and Rebecca Burnet by deed dedicated to the city of Cincinnati a lot or strip of ground fifty-four feet in width on Sixth street, extending from Elm street to Western Row, the condition being that the city of Cincinnati should establish a market on the property.

In 1890, more than seventy years later, Mary E. Holroyd, a resident of Cincinnati, died, leaving in her will a provision for the erection of a flower market on property to be donated by the city. In the same year the city authorities passed an ordinance granting the Sixth street property for that purpose. It was contended by the plaintiffs in this action that their property abutting on the portion of Sixth street asked for market purposes would be rendered valueless if a building were erected there. The court held, however, that the fact that for seventy years the city found that the public necessities did not require any building upon this square for the purpose of a market does not operate against the right of the city to erect such a building thereon, when they feel that public necessity may require such a building. There has been no waiver, and nothing is lost by non-use. Indeed, the record discloses that the square in question has been used for purposes of a market almost ever since the original grant. As against the city the abutting property owners can acquire no right except by means of an ouster or an adverse use, and such adverse use must be a denial of right in the city to use the square for market purposes The extent to which the abutting property owners have used any part of the square between the railroad tracks was at the time when that portion of the square was not needed for market purposes. Such use was not in contravention of the right of the city, but by authority and permission of the city. It is a well settled principle that when an easement has been acquired by deed, no length of time of mere non-use will operate to interfere or defeat a right. Nothing short of a use by the owner of the premises over which it was granted, which is adverse to the enjoyment of such easement to the owner thereof, for the space of time long enough to create a prescriptive right, will destroy the right granted. Washburn on Easements, *553.

The only question then for the court to determine is whether the city, by the erection of the proposed building in this square for the purposes of a flower market, is making an unnecessary and unreasonable use of the grant. The equitable powers of the court probably might be invoked to restrain the erection of a building unnecessary in extent and character, and which would work irreparable injury to abutting property owners, but the evidence fails to show that the proposed structure will either injuriously affect such property owners in the matter of egress and ingress, or will discommode the general public to any extent in the use of the streets.

INSURANCE ON A BUILDING AND MOVABLE CONTENTS HOW CONSTRUED.

Appellate Court of Indiana; Farmers Mutual Insurance Co. v Kryder. This was an appeal from an action to recover for horses killed by lightning outside of a barn, under the lightning clause in a policy of insurance on a barn and its contents. The court on appeal reversed the decision of the lower court and held that insurance on a barn and contents thereof did not cover horses killed by lightning outside the barn, though usually stabled in the barn. Also that a representation by the agent that the insurance would cover the horses when outside the barn was one of law and not binding on the corporation. The court said: It is clear, we think, upon well understood principles, that no liability can accrue under the policy within the meaning of the term "contents therein," except for such property as was actually in the barn when damaged or destroyed. The fact that the agent represented to appellee that his horses would be within the protection of the policy, whether in the barn or out, can not affect appellant's liability. The policy was read by appellee, and the representa-

tion was not of any material matter of fact, but of a question of law relative to the construction of the contract. Appellee had no right to rely upon such representation, and fraud can not be predicated upon it: Burt v Bowles, 69 Ind. 1: Clodfelter v Hulett, 72 Ind. 137.

CITY ORDINANCE FORBIDDING A LIVERY STABLE IN A RESIDENCE DISTRICT IS VOID.

Circuit Court of Cook County: Pardridge v O'Neil et al. McConnell J.—In this case the petitioner, Pardridge, asks for a writ of mandamus commanding Louis O'Neil, commissioner of buildings, to issue a permit to the petitioner to construct a boarding stable on his premises situated on Twenty-sixth street between Indiana and Prairie avenues. The city resists and sets up as the reason for not issuing the permit, the existence of the ordinances. The latter ordinance was passed June 16, 1890, and provides "that no livery, boarding and sale stable shall be located in any block where a majority of the buildings are devoted to exclusive residence purposes within 200 feet of such residences unless the owners of a majority of the lots in such block fronting on the street consent in writing to the location of such livery stable therein. Provided that this ordinance shall not apply to livery boarding and sale stables, now constructed and in operation or in process of construction."

The ordinance involved in this case the court considered void inasmuch as it requires of those who may desire, after the adoption of the ordinance, to locate livery stables to procure the consent of those owning land in the same block, while it permits those who have already located stables to continue thereon without any such conditions. But if this ordinance fails, then another one was passed April 3, 1890, which attempts to govern the location or livery stables and is not susceptible to the criticism that it tends to create a monopoly in any persons. This older ordinance provides that no person shall construct or keep a livery stable on any residence street within seventy-five feet of the street line, unless he shall first obtain the written consent of the owners of six hundred feet of the property on each side of the lot upon which the stable is to be located. This ordinance imposes its condition alike upon those who already have located stables or may desire to do so, and therefore is not subject to the same criticism as the later ordinance, but its validity is questioned on other grounds. It is said that while the city council gives power to locate livery stables, yet that by this ordinance it has unlawfully delegated the power to property owners. It is said that this ordinance is bad because it subjects the control of one man's property to the suffrages of adjacent property owners. It is also insisted that the ordinance is indefinite and uncertain, because there are no means of determining by it what is a residence street: Justice Field in re Quong Woo, 13 Federal Reporter, page 220, has passed upon an ordinance very similar to the one under consideration.

MORTGAGE GOOD ONLY FOR AMOUNT ADVANCED.

Kentucky Court of Appeals; Cox et al v Armstrong. It appeared that simultaneously with the execution of a mortgage on land purporting to have been executed to secure a loan of $2,500 the mortgagee executed a writing in which he recited the fact that he had advanced only $50, on the mortgage note, and was to let the mortgagors "have the remainder along as they may need it." In an action to enforce the mortgage lien the mortgagors allowed judgment to go against them for the full amount of the mortgage note, although they had received from plaintiff only the $50 originally paid, the plaintiff fraudulently representing that he would pay them the remainder of the $2,500, or if he failed to do so that he would not enforce the judgment to sell the land. In violation of his agreement the plaintiff had the land sold under the judgment, although he had failed to pay them the remainder of the $2,500, or any part of it. In an action by the defendants against the plaintiff to recover damages for the loss of their property the court held that they were entitled to recover, and that it was immaterial that the defendant, in the action before the court, had not received the purchase money for the property sold.

HOMESTEAD RIGHTS NOT IN THE ACTUAL POWER OF THE HUSBAND.

Texas Court of Appeals; Freeman v Hamblin et al. While under some circumstances the homestead may be designated by the head of the family, the husband can not exercise this prerogative so as to defraud the wife or denounce the actual homestead; the husband alone can not by declaration or acts of sale renounce the homestead and so subject it to execution, and the husband can not by his individual conveyance and without the knowledge or consent of the wife designate the homestead so as to exclude a great part of it in actual use, even the home itself, and so subject the same to execution.

GENERAL MAXIMS OF LAW OF EVERY DAY USE.

The following useful facts in law are taken from a valuable pamphlet published by W. H Seaman, Chicago, entitled Legal References.

Notes bear interest only when so stated, but do bear interest from date of maturity.

Principals are responsible for their agents.

Each individual in partnership is responsible for the whole amount of the debts of the firm, except where the word "limited" is used in connection with the firm name.

It is a fraud to conceal a fraud.

The law compels no one to do impossibilities.

An agreement without consideration of value is void.

Signatures in lead pencil are good in law.

A receipt for money is not legally conclusive.

The acts of one partner bind all the others.

Contracts made on Sunday cannot be enforced, but such contracts are not void in Illinois.

If when a debt is due the debtor is out of the state the "years" do not begin to run until he returns. If he afterward leave the state, the time forward counts the same as if he remained in the state.

An oral agreement must be proved by evidence. A written agreement proves itself. The law prefers written to oral evidence, because of its precision.

A contract made with a minor is voidable.

The maker of an "accomodation" bill or note (one for which he has received no consideration, having lent his name or credit for the accomodation of the holder), is not bound to the person accomodated, but is bound to all other parties precisely as if there was a good consideration.

Checks or drafts must be presented for payment without unreasonable delay.

If the drawee of a check or draft has changed his residence, the holder must use due or reasonable diligence to find him.

If the letter containing a protest of non-payment be put into the postoffice, miscarriage does not affect the party giving notice.

If two or more persons as partners are jointly liable on a note or bill, due notice to them is sufficient.

If a note or bill is transferred as security, or even as payment of a pre-existing debt, the debt revives if the bill or note be dishonored.

All claims which do not rest upon a seal or judgment must be sued within six years from the time when they arise.

If one holds a check as payee or otherwise transfers it to another, he has a right to insist that the check be presented that day, or, at farthest, on the day following.

A note endorsed in blank (the name of the endorser only written) is transferable by delivery the same as if made payably to bearer.

If the time of payment of a note is not inserted, it is held payable on demand. Notes payable "on demand" are not entitled to grace.

An endorsee has a right of action against all whose names were on the bill when he received it.

A note made on Sunday is void.

A note obtained by fraud, or even from one intoxicated with intent to defraud, cannot be collected.

If a note be stolen it does not release the maker—he must pay it.

An endorser of a note is exempt from liability, if not served with notice of its dishonor within reasonable time of its non-payment.

A note by a minor is voidable.

Part payment of a debt which has passed the statutory limitation revives the whole debt, and the claim holds good for another period of six years from the date of such partial payment.

A note dated ahead of its issue is void, though it may be dated back.

A note of protest may be sent to the place of business or residence of the party notified.

Where two or more parties are jointly liable on a note, notice to one is sufficient.

By writing "without recourse," an indorser can prevent his own liability of being sued.

PLANS BY ARCHITECTS.

Architect Francis J. Norton, Masonic Temple, has been retained by Tom Sing of New York, Sam Moy of Chicago, and the Chinese minister at Washington to design and supervise the erection of the Chinese buildings which are to be erected inside and outside the World's Fair. The building at 64th st, and Stony Island avenue, ill consist of a mammoth bazaar and Chinese theater. The buildings to be erected are gorgeous in the extreme and will be built and managed entirely by the Chinese with the exception of Mr. Norton, who is the only American engaged in the work. The buildings outside the Fair grounds will be much of the same character as the regular Chinese exhibit within the Fair grounds proper. At each end of the structure will be placed Chinese pagoda, highly decorated and surmounted by flag poles from which will be flung the Chinese colors and the stars and stripes. At the main entrances will be large arched doorways, laquered and inlaid with fancy designs. In the center of the building will be a theater with a seating capacity of 6,000. The curtain is to be pure Chinese silk and carry a picture hand woven of an oriental hunting scene, tigers, elephants and hunting parties. The foyers of the theater will be elegantly appointed and will be used as a kind of cosmopolitan club room. The buildings in the World's Fair ground proper will contain a grand Chinese bazaar in which all kinds of goods of Chinese manufacture will be exhibited from a Chinese jacket to a tobacco pipe or a floor rug. Gen. O. Z. Spaulding, acting secretary of the treasury in Washington has informed the Chinese representatives that they can import 200 Chinese artists to work on the buildings, providing each man has a certificate signed by the Chinese government authorities which will exempt the holder from the inconvenience of the Chinese exclusion act. Ground will be broken for the buildings immediately and the work will represent an outlay of $100,000 including decorations.

Architect W. J. Van Keuren has designed for C. D. Richards a two story basement and attic frame house, 31x50, to be built on Washington boulevard, in Oak Park; cost, $5,000. For W. J. Watson a two-story basement and attic residence, 34x54, to be built at Oak Park.

Architect I. C. Zarbell has planned for John Banholtzer a two-story attic and basement residence, 25x60, to be erected on West Monroe street, near Kedzie avenue. Stone and brick construction; cost, $8,000. For Edward Williams he has designed an $8,000 residence to be built on the lot adjoining, and also one for Franz Amberg on the next lot; cost, $10,000.

Architect Kleinpell & Borst have designed three three-story houses, 50x65, to be built on Sixty-sixth Place, near Madison avenue; The fronts will be of cut stone, with copper bays and slate mansard, cost, $16,000. For Edward Wisdom they have planned a three-story and basement apartment building, 40x72, to be erected on Sixty-sixth Place, east of Hope avenue. It will be of Bedford stone and buff pressed brick; cost, $15,000. For Charles F. White and W. A. Coleman they have planned two four-story flat buildings, one to be built at the northwest corner of Sixty-seventh street and Oglesby avenue, 16?x54, and will be of pressed brick and stone. The other will be in the rear and will front seventy-four feet on Oglesby avenue, with a depth of sixty-eight feet. It will also be of brick and stone; cost of both, $100,000. They have also planned a four-story apartment house, 125x70, to be built on Hope avenue, near Sixty fourth street. It will be of pressed brick, with stone trimmings; cost, $50,000. For H. D. Overdier they have designed a five-story store and flat building, 50x80, to be erected on Sixty-seventh street, near Stony Island avenue. Brick and stone construction; cost, $12,000. For Mrs. L. C. French they have planned a three-story and basement frame flat building, 32x64, to be erected at the corner of Seventy-first street and Oglesby avenue; cost, $8,000.

Architect E. M. Newman has planned for E. H. Eddie a six-story hotel and theater building, 150x152, to be erected at the northwest cor of Fifty-fifth street and Washington avenue. It will be constructed of Bedford stone and brick with elaborate interior finishing and arrangements; cost, $335,000. He has also planned for the Coventry Machinists' Company of America an extensive plant to be erected at Richmond, Ind. The establishment will comprise four buildings. One will be three stories, 55x250; one two stories, 60x100, and the other two two stories, 40x60, and another 60x80. They will be of brick, with interior of mill construction, lighted by electricity, and will be equipped for the manufacture of bicycles; cost, 100,000.

Architect A. G. Morey has planned a three-story and basement hotel, 55x163, to be built at the southwest corner of Madison avenue and Forty-fifth street. It will be constructed of brick. He has also prepared plans for a three-story apartment house, 45x65, to be built on Maryland avenue, near Sixty-third street. For M. S. Green he has also planned a three-story apartment house, 44x50, to be built on St. James Place. It will be of stone, with hardwood interior, and will be heated by steam.

EPITOME OF NEW INDUSTRIES.

DIRTRICT OF COLUMBIA.

Washington—George Hill, Jr., will erect a four-story business building, 76x60 feet, to have elevator, etc., and cost about $20,000. B. S. Patrick is the architect.—Washington—John McGregor has contract to build a memorial church at Fourteenth and R streets for Mrs. M. G. Temple. Hornblower & Marshall prepared the plans.

GEORGIA.

DuPont—A. DuPont will build hotel and desires prices, etc., on building material, roofing, etc.—Macon—William A. Youmans, of Chicago, Ill., prepared the plans for the hall building of the Knights of Pythias. It will be a three story structure, 92x72 feet with granite front.

INDIANA.

Muncie—Reports that over $400,000 has been expended in that city for building purposes during the past eight months.—Richmond—E. M Newman, of Chicago, Ill., is completing plans for a large factory for the Coventry Machinist Co. of America, a branch of the Coventry Machinists Co. of Coventry, England. There will be four buildings,

(Continued on page 1430.)

(Continued from page 1422.)

One will be three stories, 55x250 feet, one two stories, 60x100 feet, the other two stories, 40x60, and another two stories, 60x80 feet. They will be of brick, with mill constructed interior, and machinery for the manufacture of bicycles. With equipment, the total cost will be $100,000.

MARYLAND.

Baltimore—The Improved Order B'nai B'rith has been organized, with William Baumgarten, president, to erect a hall building.—Baltimore—George C. Haskell has prepared plans for a five-story business building, for Samuel Posner. It will be 70x175 feet, with an iron and plate-glass front, and have one freight and two passenger elevators, electric light plant, steam-heating apparatus, bundle carriers, etc.; entire cost estimated at $125,000. Contract not awarded a few days ago.

NORTH CAROLINA.

Shelby—The organization of a $100,000 stock company is proposed to build a large hotel and otherwise improve Cleveland Springs. Wilkinson and Fore are the owners of the property and can give information.

PENNSYLVANIA.

Pittsburgh—The number of building permits issued during the month of August last, exceeds all previous records. During that month 304 permits were issued for 421 buildings, some permits calling for as high as fourteen houses. The total value in the permits issued has been estimated at $1,390,488. In August of last year, which was also a very busy month, 299 permits were issued, representing an aggregate value of $1,037,982. The building inspectors of Pittsburgh stats that the character of the buildings erected in that city during the present year has been of a very high quality. The ordinance requiring nine-inch back walls to be carried through the roof of dwellings, to prevent the spread of fire, has been strictly enforced, and the contractors are generally observing it.

VIRGINIA.

Lynchburg—D. P. Morrison will build by day labor a 50-room hotel to have steam heat, gas and electric lights Architects Tinsley prepared the plans.

WEST VIRGINIA.

Wheeling—The Fort Henry Club is considering the erection of a $25,000 addition to its clubhouse. E. B. Franzheim has submitted plans.

HOME-SEEKERS ATTENTION!

The United States Government has decided to open, November 22, 1892, for settlement under the homestead law, the unearned lands of the Marquette & Little Bay Du Noquet Railroad, heretofore reserved from entry, in Northern Michigan. At the same time the right of the Ontonagon & Brule River Railroad has been denied to a large tract of land in the Upper Peninsula of Michigan. This gives an unprecedented chance to locate valuable timber and mineral lands, which are among the best in the Upper Peninsula, and are reached only over the North Star Route (Milwaukee & Northern Railroad) between Chicago and Lake Superior.

For further particulars address C. E. COLLINS, Land and Immigration Agent, 161 La Salle street, Chicago.

STREET IMPROVEMENTS.

ORDERED AND APPROVED BY THE COUNCIL.

NOTE—Abbreviations signify: c, curbing; g, grading; m. macadamizing; p, paving; f, filling; w. s., water service; swk, sidewalk; lp, lamp-posts.

CHICAGO, ILL.

☞For information in reference to Lands and Towns owned by the CHICAGO, MILWAUKEE & ST. PAUL RAILWAY COMPANY, write to H. G HUGEN, Commissioner, CHICAGO ILL.

The Marvel of the Musical World.
$30 worth of CHOICE MUSIC for $1.50.
The New York Musical Echo is quite a novelty in modern journalism, and affords a grand opportunity to musicians and music-loving people. It is a large quarto musical publication, published mouthly, each number containing 24 full size pages of sheet music, the brightest, livliest and most popular selections of the day, both vocal and instrumental, together with a pretty cover, on which is a full page portrait of some beautiful actress for singer. The music and portrait changed with each issue.
A Year's Subscription to the New York Musical Echo is $1.50 (sample copies 15c.) and means 288 full size pages of sheet music and twelve fine portraits, making when bound one of the handsomest portfolios of the newest and nicest music ever published. We want our friends to be careful of each number as duplicate copies may soon be a thing of the past. Don't lose any of the pretty music we are publishing, so start from the December number. The American News Co., or any of the News Agencies will supply you, or order direct of us
The New York Musical Echo Co.,
B'way Theatre Bld'g, 1441 Bway, N.Y. City.

INDUSTRIAL DEPARTMENT.

The Chicago, Milwaukee & St. Paul Railway Company's 6,150 miles of road traverses a vast territory rich in all the resources that insure industrial success.

The Industrial Department is conversant with the Iron, Coal, Lumber and Tanbark, the Water-Power (both river and artesian) for factory and electric power purposes, the markets, the transportation and financial facilities, and other interests on the line pertaining to industrial development, and disseminates information concerning same.

A number of new factories has been induced to locate—largely through the instrumentality of this Company—at enterprising towns on its lines.

As the interest of the Company is to secure the location of industries at places where the surroundings will insure their permanent success, the information furnished a particular industry is pertinent and reliable.

In the Eastern States and in other parts of the world factories are so congested and distant from the actual markets as to result in fierce and destructive competition. That the West is taking a place as one of the great manufacturing territories of the world is forcibly impressing itself upon discerning and enterprising manufacturers. Steps should be taken by such while the field is as yet not fully covered, and while inducements are still being offered, to locate in the West.

Individuals or companies wishing to embark capital in Western industry can find a profitable field.

For particulars relative to industrial advantages on the line, address

Luis Jackson,
Industrial Commissioner,

BUSINESS OF THE WEEK.

The election crisis is at last over and business in general has not been seriously affected. The only appreciable influence of the result and its attendant excitement has been seen on the speculative markets, particularly in Wall street. There the usual slight advance before the election was followed by low prices on the day following. The success of the Democratic ticket seems to be taken as implying war against the trusts, and accordingly their stocks fell on Wednesday. As later returns came in the trust securities became weaker. There were breaks of several points in such standard old trusts as Lead, Cordage, Gas, Whisky and Sugar. Even such sterling railway properties as the Vanderbilts' and the Grangers' declined half a point or more in sympathy with the movement all along the line. The influence of the election is thus sufficiently outlined to afford an indication of its probable tendency in the near future. So far as securities are concerned, the indications are all in favor of lower prices. The same feeling of distrust as to the policy of the successful party that is felt in this country is felt even more potently on the foreign exchanges. The influence of the London demand for American stocks is always a strong factor in the situation here. A few weeks ago London was buying Americans freely and the strengthening in prices on this side of the water that was caused by this foreign demand was plainly perceptible; but a few days previous to the election the London activit in Americans ceased. It is said that this cessation was the result of the withdrawal of gold from London to Russia, but whatever the cause, the result of our national contest has simply served to prolong the inactivity. The entire fabric of many of the more important trusts rests largely on favorable legislation, and a mere hint of a hostile policy on the part of the incoming administration is sufficient to cause distrust of American securities on the London market.

The monetary situation remains about the same. Foreign exchange has strengthened and a slight feeling of uneasiness at the prospect of gold shipments has been noticed. England is said to be collecting her gold resources against an unexplained and disquieting demand for gold on the part of Russia. It is explained that the Russian Governmnent has had £10,000,000 on deposit in London, £5,000,000 in Paris and £4,000,000 in Berlin, and for some mysterious purpose has been withdrawing the actual specie to St. Petersburg. This action has caused an immense amount of disquietude throughout Europe and has had a very unsettling effect on all the stock markets. The tendency of gold to flow towards Europe is in some degree compensated by the movement of Canadian gold to this country. The continued high rates of money here stimulate the shipment of gold from Canada. At Montreal money cannot be employed at better rates than 4 percent and the difference between the two markets is sufficient to cause the return of the American gold of which Canada always holds a fair supply. This movement is one of the beneficial advantages of a more active demand for money here.

The excitement of election week has not seriously diminished the volume of general trade. In fact the movement of merchandise and the aggregate of commercial transactions seem to be greater than the week previous. Bank clearings at all the leading cities show a marked increase. The transportation facilities of the railroads, also, though taxed to their utmost, have got out of the apparently hopeless congestion into which they had drifted a week ago.

ANALYSIS OF BANK CLEARINGS.

The following are the bank clearings of 72 leading cities for the week ending Nov. 3, 1892, as compared with those of the corresponding week last year, with percentages of increase and decrease.

	WEEK ENDING NOV. 3, 1892.	WEEK ENDING NOV. 5, 1891.	PERCENTAGES.

Notwithstanding the fact that the increased interest in the election contest last week acted unfavorably on business in general throughout the United States, yet the volume of bank clearings for the week was greater by $232,000,000 than for the week preceding. Of this increase the greater part was in the clearings at New York City, which gained $162,000,000. The balance of the gain, or $70,000,000, represents the amount of increase at outside points.

As compared with last year, the gains this week are exceptionally large. There is an almost unbroken column of increased percentages among the larger cities, New Orleans being the only exception. Then comes Providence with a loss of 12 percent. Indianapolis loses heavily, as does also Memphis, Atlanta, Waco and Los Angeles. Seven other cities report smaller losses. But the total shows a gain of 20.2 percent; outside of New York, 17.9 percent. The influence of New York is here seen in a gain for the grand total instead of a loss as usual. The gain at New York alone is about 12.5 percent of the grand total of all the clearings. With an average gain of 17.9 percent on their own clearings for the cities outside New York the total percentage of gain is swelled to 20.2 percent. Again the importance of New York as a financial centre is strikingly demonstrated.

As regards mere percentages, other leading cities have done better than New York. Chicago increases 25.2 percent, Boston, 28.9, and Philadelphia, 28.6. Omaha this week shows an increase of 41.9 percent; Houston, 45.6; Washington, 30.3; Sioux City, 35.1; Des Moines, 30.8; Wilmington, 26.3; Tacoma, 44.1; Lowell, 58.8; Lincoln, 26.0, and Hamilton, Ont., 80.9! Some of these wonderful increases occur in most unexpected quarters, as instance Houston, Wilmington and Tacoma. The west is well represented by Omaha, Sioux City, Des Moines and Lincoln. The leap made by Hamilton is astonishing, but the total of clearings for the four Canadian cities is somewhat less than for the corresponding week last year. It will be noticed that this week for the first time we are able to make a comparison of the complete returns from the Canadian cities. This is because the returns for last year have not heretofore been available from all the cities of the Canadian list.

We mentioned New Orleans as being the only one of the principal cities showing a decrease. The clearings from that point have decreased both as compared with last year and also with the week previous. The cause of this decrease, however, is evident. It is the extensive strike among the freight-handlers at New Orleans, which has effectually tied up traffic and has at last assumed such a serious aspect as to necessitate calling on the militia. The paralyzing effects of this strike have been felt all through the south to a large extent.

Advices from other parts of the country are more favorable. Throughout the north and northwest the weather has been more seasonable than heretofore of late, and the movement of winter goods has become noticeably more lively. The dullness recently complained of as affecting these lines so generally is believed to have been at last superseded by a period of activity which will last until after the holidays. The confidence displayed by merchants in making large purchases earlier in the season is now likely to be rewarded. With the cessation of political activity, which has undeniably interfered with legitimate business especially in the country districts, it is expected that a revival of winter trade will spring up equal to the most sanguine expectations.

An analysis of the returns by groups of States gives the following result:

	WEEK ENDING NOV 3, 1892.	WEEK ENDING NOV. 5, 1891.	PERCENTAGE.
New Engl'd States.	$132,499,874	$105,359,875	Inc 25.7
Middle "	931,856,200	762,494,314	" 22.2
Southern "	46,341,343	50,745,441	Dec 8.6
Western "	48,897,291	44,905,137	Inc 9.0
Northwestern "	160.385,095	129.731.120	" 23.6
Southwestern "	32,481,317	42,505,829	Dec 23.5
Far Western "	34,543,921	30,420,693	Inc 13.5
Totals	$1,387,005,041	$1,166,162,409	

The results of the strike at New Orleans are seen in the decrease in the Southern group. This strike became so general that it threatened to effectually paralyze every branch of trade and industry. Fortunately, the prompt action of the business men, in measures to protect the property on the wharves, bids fair to avert any further catastrophe, but the damage which has resulted thus far will require years to repair. The entire south and to a considerable extent the southwest has been affected by this strike. Unfavorable weather in the southwest has also contributed to the causes of temporary depression in the cities of the Southwestern group. The other groups show an entirely different state of affairs. The percentages of increase in all of them are seen by a glance at the above table to be generous.

LOCAL STOCK MARKET.

Loans have been made this week at 7 per cent. Little or no money is to be had from banks in the regular course of business at less than 6 per cent. Some of the banks have notified their customers that no ordinary loans will be made at less than 7 per cent. This tightness of the money market here does not seem to be justified by monetary conditions elsewhere. In Canada money does not command more than 4 per cent. At New York money is reported easy, ranging from 5 to 6 per cent. It is claimed here that so little money was shipped west to move the crops that correspondingly small amounts are being returned. The demand for money for World's Fair purposes also is cited as an additional influence in raising the rates of interest in Chicago. On the whole, however, it is thought that the present rates of 6 and 7 per cent are based on the reluctance of bankers to lend rather than on an actual stringency in money. It is pointed out that even now sales of commercial paper are being made in considerable amounts at 5½ to 6 per cent, and that the latter figure is not at all uncommon. The holidays have assisted in keeping up the rate, owing to the fact that on a day following a holiday there is always a rush for accommodation to carry accumulated business. Now that business has settled down into the regular every-day-in-the-week routine, the money market as well as the course of trade may be expected to return to its normal condition.

An election week is invariably a dull week on the stock exchange. Watching election returns all night and shouting yourself hoarse over a victory or pulling yourself together after a defeat, is not conducive to a lively interest in the course of the market. Several days are usually required to verify first returns and recover from the shock of battle. Meantime the quotations languish as a matter of course and the market is characterized by nothing but hopeless dullness. It is not so much a question of defeat as of mental dissipation and distraction. So far as Chicago stocks are concerned it matters little which of the two great political parties is in power.

On Monday the street railway stocks, as usual, monopolized the attention of brokers. Over 1,600 shares of West Side stock were sold at prices ranging from 205⅜ to 208½. On Thursday one sale for the account was made at 209¼. The tendency through the week was downward, and the prediction was freely made that the stock would eventually touch 200. It is thought that this is the goal to which the manipulators of the security are driving. As previously pointed out by the JOURNAL the selling value of West Side stock does not depend upon its worth as a strict investment security, but wholly upon the movements of its Philadelphia manipulators. Just what these movements will be is not known to the general investing public, and accordingly West Side stock is rather an unsafe collateral to gamble in at present.

North Side Street Railway stock is on an entirely different basis and is purchased at present for investment purposes only. On Thursday over 900 shares of North Chicago changed hands, completely overshadowing all the other street railway securities. The conservative basis on which this stock stands makes it a favorite with careful investors. The unusual demand for this stock on Thursday caused an advance from 260 to 261¾ for the account.

Much interest centres just at present in the provision stocks, Chicago Packing and Provision and the International Packing and Provision. The fact that these two companies, the American and the English, are about to be consolidated, has led to considerable speculation as to the probable effect of this move on their securities. The result of the consolidation will be that the Chicago company will secure control of the International. It will be a financial movement of great importance, for it will bring together an immense aggregation of capital. The new company will be one of the greatest organizations in the country, controlling as it will over $4,000,000 of cash working capital in addition to the plants, represented by the stocks and bonds. The capitalization of the Chicago Packing and Provision company is £400,000 and of the International Packing and Provision company £850,000. In addition to their capital stock the two companies have a little over $2,000,000 of bonds outstanding.

THE REAL ESTATE MARKET.

For a week devoted largely to election excitement the number of sales reaching into the ten and hundred thousands is surprising. Some notable transactions have taken place, a summary of which are given below. The total of sales in the county this week, as reported in The JOURNAL, amounted to $5,905,586, as compared with $3,901,506 for the corresponding week last year. This is a heavy gain, and would be considered an astonishing figure were it not for the fact that some of the heaviest transfers this week represent formal transactions rather than strict sales. However, this is likely to occur any week, so that it would be manifestly unfair to judge any one week by this standard alone, as contrasted with all the other weeks of the year. Taken all in all, the volume of transfers this week may be said to be exceptionally satisfactory. Whether they represent a revival of interest in Chicago property can not be determined at present. Wise men have been predicting for some time that we would have a radical change in feeling among investors after the election excitement had subsided, and that the change would be for the better. The next three or four weeks will determine whether these predictions are of any value, and they will also determine whether we are to have an active real estate market during the coming winter. If there is no increase in general investment and speculative inquiry among real estate brokers within the present month, it is safe to say there will be no unusual developments in those lines until next spring. This is not to say that legitimate real estate business will necessarily suffer; but there will be no such boom as brokers have been looking for: though the volume of ordinary investment sales will probbe as great or greater than last year.

The financial situation has an important bearing on the real estate market, inasmuch as when money is plenty real estate is usually in demand, and vice vesa. The present is no exception to the rule in this respect. Money is indeed plentiful as regards interest rates, but it is in such demand for other purposes than the purchase of real estate that for the present it is diverted into those other channels. Large quantities of money have been required in World's Fair enterprises. Something like $20,000,000 are being expended by the directors in preparation of the grounds and buildings for the Fair. A like amount is being expended in hotel and other enterprises outside the grounds. This is largely the money of investors who would otherwise put it into real estate. The diversion in this manner of some $40,000,000 or $50,000,000 of money, chiefly taken from Chicago itself into strictly World's Fair investments is alone sufficient to account for the lack of speculative interest in real estate that has been so manifest for a year or more,

We can hardly expect a revival of interest in real estate, then, until after the Fair opens. With the coming hither of thousands of visitors and the addition to the wealth of this city of millions of dollars, it is but reasonable to expect that there will be a disposition on the part of investors to put away a good portion of their savings in real estate investments. The $50,000,000, more or less, which Chicago people are now expending on the Fair will then return to them tenfold and will be a veritable golden harvest which will benefit every department of trade and every avenue of business. The great throng of visitors who for the first time come to see the glories of Chicago will be induced to invest here, and we believe that the result of these two factors—the influx of money and the influx of people of means—will be to give such an impetus to real estate interests as has never before been seen in this or any other city.

A WORLD'S FAIR HOTEL ENTERPRISE ON A LARGE SCALE.

The Chicago Beach Hotel is one of the numerous hotel projects on a gigantic scale which is backed by ample capital and is fast approaching completion. Two stories of the structure are already up. The building has 455 feet frontage on Fifty-first street at the Lake Michigan end and a depth of 500 feet. There is to be 150 feet of ornamental lawn between the boulevard and the hotel and a view of the water is afforded from the end and rear. There will be 423 sleeping rooms, giving a capacity for caring for 1,000 guests. The total cost of the hotel will be $500,000. The company was organized with a capital stock of $250,000. Bonds were issued for $250,000 more, and of this amount $160,000 have been sold. At a recent meeting the following officers and directors were elected: President, William B. Gates; vice-president J. L. Loose; secretary and treasurer, C. L. Eaton; directors, James H. Walker, Anthony Schmitt, and the officers. It is expected that the hotel will be ready for business April 15. Warren F. Leland will be the manager.

A COURT FIXES THE VALUE OF A DOWN-TOWN LEASE.

The leasehold of the premises at 167 and 169 Wabash avenue was up before Judge Collins last week. Mrs. Carrie L. W. Hoops was suing William G. Little and Walter W. and Ethel Belle Lithgow, the question at issue being the ownership of the Wabash avenue property, which is said to be worth $200,000.

The property belonged to Walters S. Williams, who died in January, 1880, leaving his estate to his widow Mrs. Eliza L. Williams, and his daughter Carrie, the complainant. The latter subsequently married Albert C. Lithgow, from whom she was divorced after two children were born, who appear as defendants. Mrs. Williams died in May, 1888, and by her will, Joseph N Barker and the defendant, William G Little, were appointed executors. A question arose under her will as to whether the executors were authorized to lease the property, and to have a decision on that point this bill was filed. It was also alleged that Little, because of his advanced age and his removal to Idaho, had paid no attention to the estate, and the court was asked to remove him. The decree entered finds that the executors are warranted in leasing the premises and Mr. Little was removed. Mr. Barker, as sole trustee, was allowed to execute a lease of the premises for ninety-nine years at a rental of $15,000 net. On a 5 percent basis this establishes a valuation of $300,000 for the property, or about $6,000 a front foot.

SALE OF A VALUABLE WEST SIDE FREE SUBJECT TO GROUND LEASE.

Dennis Netling & Co. have sold the building and leasehold of the southwest cor of Morgan and Jackson streets for $80, 000. The sale was made for J. E. Moore to W. G. Krutz. The corner has a frontage of 100 feet on Morgan street and 120 feet on Jackson street. The improvement consists of a three-story brick store and flat building, containing a store and twenty-eight flats. The sale was made subject to a ground lease running for ninety-nine years at an annual rental of $2,400. The fee is owned by John A. Packard, but by the terms of the lease the lessees have the option of buying the fee at any time within two years.

A SALE OF VALUABLE PARK ROW PROPERTY.

The sale of the property at the southeast corner of Michigan avenue and Park Row by E. W. Shirk to Ira W. Holmes and C. W. Rigdon, recorded this week, was the settlement of a contest over the property which has been in the courts since 1885. Messrs. Holmes and Rigdon become owners of the corner by the payment of $290,000 to E. W. Shirk for his individual half interest. The merits of the controversy have been rehearsed at such frequent intervals that every real-estate man in the city is conversant with them. The interesting fact regarding the settlement, however, is that it will bring one of the most eligible pieces of hotel property into the market at once. In 1885 the property was secured by Mr. Shirk. It has a frontage of 200 feet on Michigan avenue and a double frontage of 130 feet on Park Row and Twelfth street. Charles W. Rigdon acted as agent in combining the different holdings at the corner and arranged for their purchase at a cost of $105,000. In consideration of his services in securing so advantageous a purchase Mr. Rigdon was given a half interest on the basis of the purchase price.

Mr. Shirk, it appears, repudiated this claim soon after, and suit was brought by Mr. Rigdon and carried up through the courts to protect his interest. The Supreme court decided in favor of the plaintiff and ruled that Shirk and Rigdon each owned an undivided half interest. Mr. Rigdon disposed of part of his interest to Ira W. Holmes and they together contracted for the purchase of Shirk's half interest in 1889 for $175,000. As earnest of the contract they put up in escrow a quit claim of their half interest, agreeing to forfeit in case they did not complete the purchase of the other half. Shirk claimed that they forfeited by the terms of the agreement, and a ground work was laid for another series of legal complications. The matter had so far advanced that a Supreme Court decision was expected, when the settlement was reached. On the basis of the settlement the property is worth $580,000, or $22 a square foot. Its location is such as to make it difficult to compare it with surrounding properties, and opinions as to its actual value will differ widely. It fronts the Lake-Front Park, has a valuable boulevard frontage, and in addition has the Twelfth street front. It is just 125 feet west of the site of the new Illinois Central depot and but two blocks from the site of the proposed elevated terminal depot on State and Twelfth streets.

IMPROVEMENTS IN THE RAPID TRANSIT LINES.

Residents along the line of the Evanston division of the Chicago, Milwaukee & St. Paul railroad will be glad to know that the new bridge at Kinzie street is nearing completion and that the officials of the company expect to have trains running into the Union depot by December 1st at the least.

The Alley Elevated road expects to reach Sixty-first street and open its services to that point Nov. 15. A schedule will then be put into effect which will include trains at intervals of three minutes between 6 a. m. and 9 p. m. The heater hose couplings first put in on the cars have been found too long. In rounding the curve at Fortieth street they frequently strick the trestle work, breaking the couplings. President Barnard says all of the couplings must be replaced by others of a smaller size. The work is now progresing The ability of the engines to heat the trains has been tested, the officials say, and found entirely satisfactory.

Among the recent sales as recorded in the JOURNAL are found a number of transfers to the Metropolitan "L" road on Ohio street. These sales are of interest, as they indicate a movement by the Metropolitan toward securing its right of way for the branch which is to run on or near Milwaukee avenue. The Metropolitan has made surveys for a right of way along Milwaukee avenue, but it was generally supposed that the road would build its main line between Congress and Van Buren streets before it attempted to do anything toward building the branches. This purchase, however, seems to indicate that the work on the branches will be pushed simultaneously with the construction of the main road. The Metropolitan has also recorded the purchase of 25 feet on Harrison street, 275 feet west of Sacramento avenue.

A TRIANGULAR CORNER ON OGDEN AVENUE SOLD AT A HIGH FIGURE.

Dillon & Haines have sold for Le Grand W. Perce to George W. Marquardt, of Iowa, the triangular corner bounded by Ogden avenue, Congress and Honore streets for $120,000. The lot is 170 by 124 by 115 and is improved with a three-story store and flat building and contains also a sub-postal station rented to the post-office department for five years.

SOME ACRE SALES OF THE WEEK.

A $75,000 sale of Calumet acres was closed a few days ago at Muskegon, Mich., by Andrew Pearson. The land consists of a 25-acre tract at the northeast corner of Stony Island avenue and Ninety-first street and was sold for J. L. and W. T. McKeever. John Torrent the millionaire lumberman of Muskegon, is the purchaser. The land is near the Nickel-Plate railroad shops, and adjoins the subdivision known as Stony Island Heights. A part of the tract was once subdivided by the McKeevers, but the subdivision was vacated. Mr. Torrent now owns 100 acres in the Calumet district, having purchased an 80-acre tract along the Belt railway some time ago.

A tract of thirty acres on the Sheridan road has been sold by Granger Farwell to J. McGregor Adams and F. W. Cushing for $54 000, and four acres on the lake shore in Glencoe have been sold by H. P. Darlington to C. B. Niblock for $11,500.

PETITION TO CONGRESS FOR GOOD ROADS.

The following petition is now being circulated among college presidents, railroad presidents, postmasters, etc.

To the Honorable Senate and House of Representatives in Congress assembled:

We, the undersigned, citizens of the United States, hereby most respectfully petition that there be founded in the city of Washington, in the District of Columbia, a Road Department, similar to the Agricultural Department, for the purpose of promoting knowledge in the art of constructing and maintaining roads; and we ask that in such department provision be made for teaching students so that they may become skilled road engineers.

In connection with this Road Department we request that there be established a permanent Exhibit in which shall be shown sections of roads illustrating various methods of construction and also the best road materials and machinery.

We further petition that Congress appropriate funds sufficient to erect a building at the World's Columbian Exposition for the purpose of a comprehensive road exhibit.

PROFITS OF PROMOTERS.

How the immense profits made by promoters of streets railways arise is well illustrated in the case of the Philadelphia syndicate which has been operating for years in Chicago street railways. One of the syndicate recently furnished a sketch of the origin and growth of the combine. According to this authority Charles T. Yerkes, a retired banker of Philadelphia, was the originator of the scheme. He began in 1881 by securing an option on the controlling interest in the North Chicago road. He took Widener and Elkins into the scheme, and they raised the money needed through a Philadelphia bank, which took North Chicago stock as security. The next deal was the purchase of the Chicago Gas Light and Coke Company. The same process of raising money was employed here. Then the West Chicago road was bought by a syndicate including Yerkes, Widener, Elkins and some of the old directors of the company. Each member put up $100,000 and received in return $100,000 in bonds and $200,000 in stock of the new corporation. Of course it required a great deal of money to carry out these undertakings, but it appears that the Philadelphia men were able to accomplish their purpose without much of an investment of their own funds, though they did hypothecate certain of their securities with the banking house which supplied the capital. It is not often that an enterprise yields such enormous profits on so small an actual investment as was made by Messrs. Yerkes, Elkins and Widener. It is said that of all the various schemes of street railroad business which these gentlemen have been connected with, namely, the Philadelphia Traction company, the Metropolitan Traction company of New York and the North and West Side Chicago companies, the latter has paid them larger profits than any of their other interests.

A CONTRAST.

In their issue of March, 1890, the New York Record and Guide made use of the following language:

"The idea which Western enthusiasts have that Chicago can create a World's Fair that will surpass or at least be as fine as the one held in Paris last year, is quite erroneous. So, indeed, is the idea that Chicago can have an Exposition that will be in any large sense 'international.' Neither the one or the other is probable."

In October, 1892 the same paper was so impressed with the enterprise of Chicago as revealed by the wonderful success of the projectors of the Fair that they published a special Chicago World's Fair edition at a cost of several thousand dollars. A month later the London Times, a paper whose endorsement is considered superior to that of any other authority, expressed editorially the following opinion.

"The Chicago World's Fair buildings are most fairly to be judged by comparison with previous structures intended for a like end, and so judged they are without an equal or rival. Quite literally they are first and the rest nowhere, or so far behind as not to come into the running. On no former occasion of the kind has there been anything like them or near them. In the extent of ground they cover, in their structural dimensions, in the number of spectators which they will contain, in the profusion and elegance of the decorations, and in their general adaptability to the purpose for which they been designed, they stand out as supreme."

THE READING COMBINE.

Time will work its revenge on the Reading Coal Trust, as surely as it has in other similar instances. The law of supply and demand will do more to injure this gigantic monopoly than any statutory laws can possibly do. A general distrust of the combine among coal consumers and a disposition on their part to seek other kinds of fuel than anthracite coal will work an injury to the combination more lasting than any injunctions on the part of the courts could possibly be. A resident of Cincinnati, speaking of the matter, says that in the suburb where he lives everyone has changed from anthracite to coke for their furnaces. Also stove dealers say that the sale of anthracite stoves has received a distinct check, and that others are in demand instead. In this city anthracite has advanced from $6 to $8 per ton. If the result does not show a loss to the combination, then the law of supply and demand goes for nothing. It is easy to drive customers away. But if they happen to be pleased with the other fellow's goods it is the work of years to get them back.

CURRENT COMMENT.

The present discussion of the Nicaragua canal project, together with the recent disagreement between the management of the Panama railroad and the Pacific Mail Steamship company, has brought prominently to the front again all the various enterprises for securing a short route across Central America. One of these we have not seen mentioned recently. It is the partially completed railroad across Honduras. Here is an opportunity for enterprising capitalists to enrich themselves by completing an undertaking that has for a long time been neglected. Nor would it be difficult for men of means and influence to accomplish the work. The route of the railroad is already surveyed and about thirty miles of it is completed, from Puerto Cortez on the north coast, into the interior. The engineering difficulties to be overcome are by no means insurmountable, and the government of Honduras would give substantial aid to any responsible body of men who would undertake to complete the road through to the Pacific coast. It is probable that extensive land grants could be secured which of themselves would be immensely valuable. Add to this the advantage of a short route between the Atlantic and the Pacific, much nearer to New York and San Francisco than any other route, and you have an inducement for capitalists well worth striving for. The local traffic would pay dividends on such a road and the profits to be made from through traffic would be enormous.

***

It is sometimes as unpleasant to be misunderstood as misquoted. The San Francisco Real Estate Circular evidently either misunderstands us or else wilfully misquotes us in their recent issue in which they attempt to show from our article on World's Fair hotels that the hotelkeepers of this city contemplate exorbitant charges during the Fair. What we did say was that the hotel business during the Fair would be immensely profitable. This is not by reason of the large prices to be charged but because it is presumed that the hotels will be well filled during the entire season. A number of hotels are now offering to contract rooms in advance at $1 a day. This certainly is not an overcharge, and the number of hotels now building gives promise that this rate can be secured up to within a few weeks or months of the opening of the Fair. If those who fail to engage rooms in advance find themselves compelled to pay double or treble these prices they will have only themselves to blame.

***

The great strike at New Orleans was one of the most serious labor upheavals of recent years. It bids fair to outdo in the extent of its damage to the business interests of the country the recent labor difficulty at Buffalo. The worst trouble appears to be that the local authorities at New Orleans are completely paralyzed. They seem to be utterly unable to cope with the strikers. The State officers are no better. For a week or more they have been trying to adjust difficulties without success. The latest information is that the electric light employes have joined in the strike and that the city is in darkness. The business men of New Orleans, who ought to be foremost in settling the difficulty, are asleep. An article published by the JOURNAL a few weeks ago gives the consensus of opinion of the best people in the country as to the real merits of that prize-fight city.

***

It is matter for sincere congratulation that the business interests of the country have not suffered any more than they have by the excitement attending the recent elections. Even during the closing weeks of the campaign the volume of business has continued to be enormous and little complaint of interference with regular trade and traffic has been heard. The real status of affairs in the business world has been clearly indicated by the bank clearings, inasmuch as a large volume of trade may be accompanied by such low prices as to render the net results from a money standpoint less than at some time when prices were higher but the volume of sales smaller. The present season has been uniformly one of low prices. Yet the amount of trade has been so great that in spite of low prices the total bank clearings have been fully 10 per cent larger than during the same part of 1891. This implies a remarkable increase in the volume of business. It is also still further remarkable from the fact that money has been comparatively cheap. In times of cheap money prices usually rise. Other things being equal, all commodities should have advanced during the past few months. But in violation of this rule prices have fallen instead of rising; and we have seen the unusual combination of cheap money, low prices, and large bank clearings. Evidently other causes, such as agricultural prosperity, rapid transportation and reduced cost of manufactures have combined to produce a result so at variance with what might be expected.

***

The extent to which wooden buildings are encouraged in the far west is astonishing to eastern people. A Boston paper comments on the fact that in San Francisco a four-story apartment house is to be erected, the basement and main story of which are to be of buff colored bricks and the upper stories of wood. This building is to contain 415 rooms. Think of the occupants of all these rooms aroused from slumber in a frame structure in the dead of night by the cry of fire! Furthermore it is said that a section of San Francisco comprising thirty acres is built entirely of wood, that the fire department is inadequate, and that high winds prevail at certain seasons of the year. No wonder San Francisco has long been an object of concern to fire underwriters.

***

The latest scandal in Building Society circles is the collapse of the Liberator Building society of London, Eng. It is said that there is reason to believe that the officers of the concern have waxed rich in pocketing hundreds of thousands of pounds in the shape of commissions, which are now alleged to be illegal. Criminal prosecutions are threatened. The official receiver stated at a recent meeting that the society owed the shareholders and creditors £3,313,000, while the reserve fund was only £90,000, and was little better than a mere book entry at that. The mortgages amounted to $3,423,000, and were at first supposed to be good assets, but investigation had shown that they were probably valueless, as £3,188,286 had been lent to three companies which are now in liquidation. There were virtually no free assets, there being only £50,000 in sight with which to meet a deficiency of £3,000,000. The bulk of the money had been lent upon nothing better than third liens. It was absurb to talk about possible reconstruction of the society for there was nothing to reconstruct.

***

Bank robberies continue to be the sensation of the day in southern Kansas. Following close on the heels of the Coffeyville affair, comes the bold raid of thieves on the Ford County Bank at Spearville, Kansas. Cashier Baird was compelled on threat of death to give up $1,700 of the bank's money. A posse started after the robbers but they escaped.

Bankers all over the country are becoming alarmed at the continued outlawry directed against banks. Although the most frequent raids have recently been made in southeastern Kansas, yet no part of the country is safe. The fund started for the benefit of the families of the brave men who defended Coffeyville has appealed to the business sense as well as the sympathies of bankers all over the country. It has been proposed that in addition to this subscription the bankers of the various State associations shall assess themselves for the maintenance of a fund which shall be a standing reward for the head of any man who attempts to rob a bank by burglary or drawing pistols on the cashiers and demanding money. Some want the reward extended to the conviction of check-raisers and forgers also. This would be an excellent idea and would do much to protect the banks of the country from robbery and fraud. Similar action ought to be taken concertedly by railroad and express

companies in opposition to train robbers. The good of society requires that these pests should be annihilated.

VALUE OF SAVINCS BANKS.

The value of savings banks as safe receptacles for the deposit of the savings of people of small means, and the earning thereby of fair dividend rates thereon, has been dwelt upon innumerable times; but the value of these banks to the borrowing public has not often been referred to. It would, indeed, be hard to say which class is most benefited by the existence of these institutions—the depositor or the borrower. We sometimes think that the latter receives the most benefit. If these banks were suddenly closed, and their deposits carried out of the State, enterprise and development would be vitally checked. The ninety millions of dollars they now control are borrowed by the real estate owners, merchants and manufacturers of the city, as well as by the grain, fruit, wine and wool growers of the State. A ruinous blow to those interests would result, in a heavy advance in the rate of interest. Abundant, and therefore cheap, money is the business life blood of the men who develop mercantile, manufacturing and business enterprises in the city, and to all classes who develop the varied agricultural interests of the State. It is not generally believed, but it is the fact, that, as a rule, strong men are borrowers. By strong men we mean men who will take the risk of development, and who have the brains to push great enterprises through to successful conclusions. Men are frequently heard to say that they never borrow—that they never gave a mortgage in their lives, etc. Such men are always weak men—afraid to take risks, unable to manage great enterprises, and, therefore, non-developers. —San Francisco Real Estate Circular.

AGENTS' BUDGET.

The tenth informal dinner of the Real-Estate Board will be given next Thursday evening at the Wellington. George M. Bogue will act as toastmaster. The subject of the evening will be. "The Future of Chicago and the Real-Estate Man in it."

August Schaefer has sold to P. A and J. J. Meyer the improved property on West Twelfth street, twenty-five feet west of Ogden avenue, for $25,000. The property has a frontage of 50 feet and a depth of 125 feet.

Rice & Creighton report the sale of 3,000 feet frontage on Lincoln and Linden avenues, near the Sheridan road, for the Thompson estate to a syndicate of Evanston men, for $26,000.

S. M. Bloss & Co, report the sale of six more of their houses at Melrose to George W. Gray. Joseph O. Lee, William H. Sanborn, Palmer Kibby and Luman D. Wood for 1,750 each; also eighteen lots in their Melrose subdivision to various parties for a total of $5,860 They will commence the erection of sixteen more houses at Melrose at once, at a total cost of $25,000.

W. A. Merigold & Co sold for Herman A. Uhl 375 feet on West Forty-fifth street, commencing just south of Harrison street and facing east for $9,000 cash.

The Chicago Permanent Building and Loan Association has bought at judicial sale lot 4 in Jacob's resubdivision of the north half of block 2, Springer & Pierce's subdivision in Section 16, 38, 14, for $1,740 77.

The Drexel Hotel company has been incorporated with a capital stock of $3,000,000 to lease and operate World's Fair hotels. S. B. Foster is at the head of the company. Samuel W. Jackson, who is acting as attorney for the company, says that a number of buildings are to be leased for short terms, but that the members of the company are interested in the erection of a building at the corner of Fifty-first and Cottage Grove avenue.

J. C. Magill & Co. report among other sales, the building and lease at 3232 State street for Caroline Thomas, $20,000. Six lots in South Evanston for A. D. Skillman, $10,000. Northeast corner Jackson boulevard and Green street, for Gabriel Rubel, $18,000. Forty-eight lots in Dearborn Park subdivision for W. L. Allen, $12,000.

The Call Board committee of the Real Estate Board has issued a card to the lawyers of Cook county, stating that arrangements are practically completed for the carrying on of auction sales of real estate in the board rooms by the following members: E. A. Cummings & Co., E S, Dreyer & Co., Cremin & Brenan, J. H. Van Vlissingen & Bro., Dunlap, Smith & Co., William A. Merigold & Co. Barnes and Parish and Frank Reidle & Co. It is suggested by the committee that judicial sales will be more satisfactory if made by Masters in Chancery in connection with some member of the board.

It is announced that the Supreme Court of Illinois has decided that the Grant Land Association is the owner of the site of the Grant locomotive works, title to which was contested by Hetty Green and her husband. This decision quiets the title to $1,000,000 worth of property.

When the Northwestern Railroad Company bought that 700-acre tract near Turner Junction, a short time ago, the officials of the company stated that the purchase was made merely as an investment and that they had no definite plans for utilizing the property. Since then the land has been surveyed and the company's engineers have prepared plans of the property. Real estate brokers who are close to the management say that this work has been done with the intention of improving the property at once, and intimate that the Northwestern car shops, now located at Moreland, will be removed to Turner before long A move of this kind would be of much importance to both the places from and to which the removal will be made

W. J. Lukens reports the lease of the southwest corner of Stony Island auenue and 61st street, 125x 125 feet from C. W. Fullerton to Robert Greer for three years for a term rental of $12,400. The lessee will erect a building to contain stores on the ground floor fronting on Stony Island avenue and a hotel in the upper stories. On the 61st street front there will be a large storeroom for bicycles and horses and carriages for the accommodation of World's Fair visitors. The building will be of brick of substantial and modern construction. Mr. Greer is the man who had the contract for feeding the soldiers during the dedication services of the Fair.

The same dealer reports the sale of block 4 Fullerton's 4th addition on Wrightwood avenue just west of Ashland avenue for $27,500. Also the corner of Southport and Brost avenue, 140x125 feet, Edgewater to John J. Schwarz for $4,200 Also a lot 25x150 on Clybourn avenue southwest front, just south of the Chicago & Northwestern railroad, to James O'Connor for $1,775. Also a 50-foot lot in Ravenswood on Lyman avenue, north of Sulzer street for $1,800.

REAL ESTATE LAW.

JUDGMENT OF JUSTICE OF THE PEACE NOT A LIEN ON REAL ESTATE.

Hair v Tryber; Circuit Court of Cook County. Horton, J.—The bill in this case is a creditor's bill based upon a judgment entered by a J. P., and an execution issued thereon and returned by a constable nulla bona. No transcript was ever filed with the clerk of the Circuit Court as authorized by statute so as to create a lien upon real estate. The ground of demurrer is that a creditor's bill will not lie in such case.

There are two grounds of equitable jurisdiction on a creditor's bill. One is statutory and the other is the enforcement of an equitable lien; a lien which can not be enforced at common law.

The statute provides that "Whenever an execution shall have been issued against the property of a defendant, on a judgment at law or equity, and shall have been returned unsatisfied, in whole or in part" a creditor's bill will lie: Rev. Stat. Ch 22, sec 49.

A judgment by a justice of the peace and an execution thereon do not constitute a lien upon real estate. A constable can not levy upon real estate on a justice of the peace execution. When such an execution has been returned nulla bona, the statute provides that a transcript may be filed as above stated, and a lien is thus created upon real estate. That lien may then be enforced by execution issued out of the Circuit Court. There is thus provided a complete remedy at law.

When the statute provides a full and complete remedy at law, there is no general equity jurisdiction. The statute confers such jurisdiction in a creditor's bill, only where "an execution shall have been isssued against the property of a defendant." That when an execution shall have been issued against a part of the property of a defendant, or an execution which is special and limited to the personal property of the defendant. This statute introduces no new principle and is but affirmative of the common law: Durand v Gray, 129 Ill. 16.

It will hardly be contended that a creditor's bill will lie upon a special execution issued in an attachment suit in a court of record where there is no general judgment and no general execution. In such a case the lien of the judgment and execution is restricted and limited to specific property. But a bill in chancery will lie in such a case to remove a fraudulent conveyance or for similar relief: Getzler v Sarone, 18 Ill, 511, 518.

The lien of an execution issued by a justice of the peace upon a judgment rendered by him is restricted and limited to the personal property of the judgement debtor. Such execution is in effect a special execution against the personal property of such debtor.

A creditor's bill will not lie upon such an execution any more than upon a special execution in a case in attachment in a court of record.

There is no general equity jurisdiction, because there is no general judgment and execution upon which to base it. The remedy at common law has not been exhausted. There is no statutory jurisdiction in a court of equity, because there has been no execution "issued against the property of the defendant" as provided by statute, but only a special execution against the personal property of the defendant.

The demurrer is sustained and the bill dismissed for want of equity.

THE AUTHORITY OF A BROKER TO SELL REAL ESTATE.

Appellate Court, First District of Illinois; Boyd v Jennings.

Shepard J Authority of a broker to sell real estate can not be shown by his record kept at the time of entry of the lands for sale, which was offered and objected to. Such a book is not an account book.

OWNERSHIP OF METEORS AND ACCRETIONS TO THE SOIL IN GENERAL.

In the case of Goodard v Winchell, recently decided by the Supreme Court of Iowa, the question of the ownership of an aerolite, whether the owner of the soil on which it fell, or the first discoverer, was decided in favor of the owner of the soil. The court said:

"We may properly note some of the particular claims of appellant. His argument deals with the rules of the common law for acquiring real property, as by escheat, occupancy, prescription, forfeiture and alienation, which it is claimed were all the methods known, barring inheritance. We need not question the correctness of the statement, assuming that it has reference to original acquisition, as distinct from acquisitions to soil already owned, by accretion or natural causes. The general rules of the law by which the owners of riparian titles are made to lose or gain by the doctrine of accretions, are quite familiar. These rules are not, however, of exclusive application to such owners. Through the action of the elements, wind and water, the soil of one man is taken and deposited in the field of another; and thus all over the country, we may say, changes are constantly going on. By these natural causes the owners of the soil are giving and taking as the wisdom of the controlling forces shall determine. By these operations one may be affected with a substantial gain, and another by a similar loss. These gains are of accretion, and the deposit becomes the property of the owner of the soil on which it is made.

"A scientist of note has said that from six to seven hundred of these stones fall to our earth annually. If they are, as indicated in argument, departures from other planets, and if among the planets of the solar system there is this interchange, bearing evidence of their material composition, upon what principle of reason or authority can we say that a deposit thus made shall not be of that class of property that it would be if originally of this planet and in the same situation? If these exchanges have been going on through the countless ages of our planetary system, who shall attempt to determine what part of the rocks and formations of special value to the scientist, resting in and upon the earth, are of meteoric acquisition, and a part of that class of property designated in argument as 'unowned things,' to be the property of the fortunate finder instead of the owner of the soil, if the rule contended for is to obtain? It is not easy to understand why stones or balls of metallic iron, deposited as this was, should be governed by a different rule than obtains from the deposit of boulders, stones and drift upon our prairies by glacier action, and who would contend that these deposits from floating bodies of ice belong, not to the owner of the soil, but to the finder? Their origin or source may be less mysterious, but they too, are tell-tale messengers from far-off lands, and have value for historic and scientific investigation."

EFFECT OF A BUILDER'S CONTRACT ON EXTRAS.

Supreme Court of Montana; Wortman v. Kleinschmidt. A written building contract provided that the contractor should, to the satisfaction of the architects, perform and finish "all work included in the entire completion" of the building for a named sum, and that he should make no claim for additional work unless the same should be done pursuant to a written order from the architects, and that written notice of all claims should be given the architects within three days of the beginning of such work. The supreme court held that, in the absence of an agreement modifying the orginal contract, the builder was not liable for extra work unless it was done on a written order; and the court erred in an instruction that the contractor could recover for extra work if it was done "at the request, or with the knowledge and consent, express or implied," of the builder "or his agent," without charging the jury concerning the effect of waiver by the builder of a written order, or of his independent promise to pay for the work.

ARCHITECT NOT RESPONSIBLE FOR FALL OF A WALL UNLESS CAUSED BY HIS NEGLECT.

Supreme Court of New York: Lake v. McElfatrich. In an action against an architect for breach of a contract to furnish good and sufficient plans and specifications for a theater, the court properly refused an instruction that plaintiff could not recover on the fall of the theatre wall because "a stone skew back," required by the specifications, was left out, and charged that its omission did not affect plaintiff's right to recover, unless it contributed to the fall of the wall.

CONSTRUCTION OF THE LAW PERMITTING PARTY WALLS.

Iowa Supreme Court; Cornell v. Bickley. Code § 2019, which provides that the owner of a city lot, "who is about to build contiguous to the land of his neighbor, may, if there be no wall on the line between them, build a brick or stone wall, * * * and rest the one-half of the same on his neighbor's land," does not authorize the erection of such a wall where the wall, if erected, will destroy a stairway, on the adjoining land, since the expression "wall on the line" refers, not merely to the actual wall of a building, but to any part of a building.

EFFECT OF A MISTAKE IN A BOUNDARY LINE.

Supreme Court of Minnesota: Houghton v. Mendenhall. A erected a building on his lot, which, by reason of mistake as to the boundary encroached upon the lot of B. Afterwards, B being about to build on his lot, and the parties both supposing that the wall of his building was wholly on his own lot, while in fact it was wholly on the lot of B, they entered into a contract that the wall should be permanently used and maintained as a party wall. A also conveyed to B a strip one foot in width from his lot, contiguous to the lot of B, upon which strip the wall was supposed in part to stand. The supreme court of the State held that, since there was no mistake in the party-wall agreement, but only in respect to the true boundary, which was only an inducement to the making of the contract, the party-wall agreement was not void, and could not be treated by B as a nullity; and that so long as it stands uncancelled, neither B nor his assigns (the contract having been recorded) can eject A or his assigns from the premises covered by the party wall.

RECENT DECISIONS GOVERNING MECHANIC'S LIENS.

The Kansas Supreme Court rules that under Comp. Laws 1885, par 4447, giving a lien on land to any persons who should furnish labor or material in erecting thereon, under contract with the owner, "any erection or improvement," or "putting up any fixtures or machinery, in or attached to any such building or improvements," one who under contract with the owner of land furnished a windmill and other material, and erected the same thereon, became entitled to a lien on the land for such improvement, on complying with the provisions of the mechanic's lien law.—Phelps & Bigelow Windmill Co v. Baker 30 Pacific Rept., 472.

The same court decides that when materials are supplied under an ordinary sale on credit to a contractor, and on his credit only, no lien is acquired therefor on the land of a person in erecting a house on whose land the contractor subsequently uses the materials.—Wagner v Darby, 30 Pacific Rept., 475.

The Supreme Court of Pennsylvania holds that the right of a sub-contractor to file a lien upon a building is not affected by a default on the part of the principal contractor in failing to keep his agreement with the owner, nor by an agreement between the owner and principal contractor subsequent to the one under which he began work, and of which he had no notice, wherein the principal contractor undertakes to deliver the building to the owner free of all liens.—Cook v Murphy, 24 Atlantic Rept., 630.

PLANS BY ARCHITECTS.

Architect J. N. Emmons is taking figures on a hotel to be erected at 7569 to 7575 Coles avenue, Windsor Park. It will be two stories high, 87x87 feet, and cost $7,000.

Architect R. W. Dahlgren is letting contracts for an apartment building to be erected on Kimbark avenue, near 55th street, for Frank S. Stelling. It will be four stories and basement, 50x75 feet, of pressed brick and stone, and cost $25,000.

Architects Flanders & Zimmermann have planned four three-story school buildings to be erected by the Board of Education at Spaulding avenue and Sixteenth street, Augusta and Washtenaw avenue, West Forty-first street between Thirteenth and Fourteenth, and at Sheridan avenue and Weago street. They will be constructed of pressed brick and stone, and will be heated by steam; cost, $70,000 each. They have also planned two frame school houses, one to be built at Ellis avenue and Seventy-second street, and the other at Leavitt street and Belle Plaine avenue; cost, $9,000 each. For A. H. Veeder they have planned a $7,000 barn to be erected in the rear of his residence at Vincennes avenue and Forty-eighth street. Flanders and Zimmermann have also completed plans for the Park Gate hotel, 300x150 feet, five stories high, to be erected at a cost of $200,000 on 63rd street near Stony Island avenue.

Architect Alexander Fuller has let contracts for a residence to be erected at 4,918 Michigan avenue for Albert Mendel. It will be three stories high, 25x96 feet with stone front, and cost $20,000.

Architect W. G. Rushl made plans for a double flat building on Wabash avenue, between 61st and 62nd streets, for Mrs. Lena Tilton. It will be three stories and basement, 48 x65 feet and cost $16,000.

Architect John R. Scott is taking bids for a $95,000 apartment house, on southwest corner of Michigan avenue and Fifty-ninth street, to be 70x153 feet, three stories and basement. The fronts will be of pressed brick, stone and terra cotta. The principal frontage is on Michigan boulevard. Entrances will be finished in marble, with mosaic floors.

Architect W. H. Drake has made plans for a four-story apartment house, 75x100 feet, on Stony Island avenue, near Sixty-fourth street, at a cost of $40,000. The front will be of Bedford stone, with sides and rear of brick, and the building will contain 180 rooms of thirty-two flats, and have steam heat and electric light. It will be used for hotel purposes during the Fair.

Architects Stiles and Stone have planned for Walter C. Nelson ten two-story dwellings, to be built on Monroe avenue, between Fifty-seventh and Fifty-eighth streets. They will be of stone in the first story, with brick above, the interiors being constructed of hardwood and beautifully appointed, cost $80,000. For James Wallace a three story apartment house 46x70 feet, to be erected on Calumet avenue, between Fiftieth and Forty-first streets. The interior will be finished in hardwood and heated by steam; cost, $20,000. For Mrs. Mary Farley they have designed a four-story apartment house, 60x85 feet, to be erected on Cottage Grove avenue, between Forty-third and Forty-fourth streets. It will be finished in hardwood, and heated by steam; cost, $38,000. For P. F. and O. L. Munger they have designed a three-story laundry and flat building, 50x 80 ft, to be erected at Fifty-second street and Lake avenue It will be of stone, cost, $20,000.

Architects Handy & Cady are about to let contracts for the construction of the Wellsboro hotel, at the northwest corner of Calumet avenue and Thirty-first street, for the Wellsboro Hotel Co., cost, $60,000.

Architect H. M. Hansen has planned for August Rietz a three-story flat building, 82x60 feet, to be erected on Sheldon street, near Randolph. It will be constructed of stone; cost, $25,000.

Architect Charles S. Frost has designed a house for John Clay, Jr., to be built at 4046 and 4048 Lake avenue. It will be three stories, of stone and brick, and will be beautifully finished. It will cost $30,000.

Architect Charles F. Sorenson is preparing plans for a double store and flat building to be erected on Erie and Noble street for Mrs. Siestma. It will be four stories and basement, 50x75 feet, and cost $15,000.

Architect Ira C. Saxe has designed for W. G. Baker a four-story flat building, 100x115 feet, to be erected at the northeast corner of Cottage Grove avenue and Sixty-third street. It will be of brick and stone construction, and will be finished in hardwood. For the same owner he has planned a four-story apartment house, 100x100 feet, to be erected at the southwest corner of Drexel avenue and Sixty-third street.

Architect E. Hill Turnock has completed plans for a three-story flat building, 25x65 feet, to be erected at Thirty-fifth street and Armour avenue by R. D. Foster. It will be constructed of pressed brick and stone; cost, $15,000.

Architects Lamson & Newman have planned for J. L. Hubbell a two-story and basement residence, 22x45 feet, to be erected on Congress street, near Sacramento avenue; cost, $5,000.

Architect Francis J. Norton, Masonic Temple is taking estimates for a handsome business block and summer pavilion to be erected at the southeast corner of Division and Richmond streets for Mr. James Kearns. The exterior will be built of red stone, iron, plate, beveled and art glass, copper bays with massive Romanesque arches and projecting towers. The interior will be finished with cypress throughout, and have all the latest sanitary, electric and modern improvements; cost, $20,000. Also a three-story store and apartment building at Division street and Western avenue for the same party. It will cover an area 25x 100 feet and will be built of stone and iron, plate and beveled glass, with cypress trim throughout; all the latest modern sanitary and electric improvements: cost, $10,000. Also a three-story residence to be erected at the corner of Indiana and Ross avenues. It will be built of stone and finished in hardwood with all modern improvements; cost, $7,500. Work has already commenced. Also a handsome residence on Grand boulevard near Fifty-first street, 25x 100 feet, three-stories high, for the same party. It will be built of pressed brick, hardwood finish and all the latest improvements; cost, $15,000. Work has commenced. Mr. Norton has completed plans for a handsome residence 25x 40 feet, to be erected at Oak Park for Miss Wells; cost, $4,000. Plans have been made for two hotels for Mr. Sibley, 300x400 feet, four stories high, at Seventy-fifth and Pond avenue just back of the World's Fair grounds; cost $50,000. Work will be commenced at once. Mr. Norton is also letting contracts for a handsome three-story residence to be erected at Thirty-sixth and Armour avenue for Mr. Gunter. It will be built of pressed brick and copper with all the modern interior improvements; cost, $9,000. Mr. Norton is taking estimates for a mammoth hotel and apartment building to be erected at Woodlawn avenue near Forty-eighth for Mr. Rood. It will be 150x 75 feet, five stories high. A peculiar feature of the building will be that it is to be erected on the Arcade system with an open court covered with ribbed glass. The exterior will be Ohio stone and copper, with projecting Moorish towers, and three massive Romanesque arches on the first floor. The interior will have all the most modern improvements that educated taste can desire. It will be divided into four hundred rooms and cost $195,000. It be completed by the first of May.

EPITOME OF NEW INDUSTRIES.

ALABAMA—Scottsboro—The M. E. society will erect a new church. Rev. W. W. Dorman, pastor.

CALIFORNIA—San Francisco—Additional buildings will be erected to the Cooper Medical college on Sacramento avenue. The additions will consist of a central building, four stories, and other buildings two stories. The interior will be finished with the most advanced improvements.—San Jose—The trustees of the First Methodist Episcopal Church South will erect a building for church and business purposes at a cost of $18,000.

COLORADO—Denver—At a meeting of the Denver Curling club plans were accepted for the erection of a building at 9th avenue and South 18th street; cost, $7,000. The building will be 155x72 feet and will have four rinks.

GEORGIA—Savannah—The Savannah Wheelman Club will build a club house and race track at a cost of $12,000.

IDAHO—Nampa—The M. E. society will build a new church and parsonage.

INDIANA—Chestertown—The Catholic Society has decided to put new pews in their church in December. Rev. F. H. Kroll, rector.

ILLINOIS—Custer Park—The Custer Park Sanitarium; capital $10,000. P. J. Crounville, John J. Smellie.

KANSAS—Abilene—The school board has accepted the plans of Architect Hadley of Topeka, for a $9,000 addition to the high school buildings.—Atchison—The Midland Lutheran college will erect a new gymnasium. Rev. W. H. Wynn, Atchison, president.—Lawrence-Church—A. Druiding, 163 Randolph st, Chicago, Ill., architect; cost, $16,000. One story, 50x90, brick, stone, ornamental and galvanized iron, roof cresting, hot water heating, plate, stained and ornamental glass, tile roof grates, hardwood finish, gas fixtures, plumbing, seating, bell, pipe organ.—Wellington—The Presbyterian society will build a new church.

MICHIGAN—Detroit—Architect Rohn is preparing plans for a new business building to cost $12,000 for Jas. McKellar, to be erected at the corner of Sandwick and Goyean streets. Grand Rapids—The Hebrew societies of Beth Olim and Beth Israel have decided to unite for the purpose of erecting a new synagogue. J. L. Stelitsky, president.—Muskegon—The Wood avenue M. E. mission will erect a new church.

MINNESOTA—Minneapolis—The Minneapolis Brewing and Malting company will erect a two-story brick and stone office building at 13th avenue N. E. and Marshall street; cost, $10,000.—Minneapolis—H. N. Leighton & Co. have the contract to erect a $40,000 business building for Mrs. E. W. Harrison to replace the North Star Boot & Shoe Company's block destroyed by fire.—Minneapolis—S. G. Cook & Co. will build a six-story brick warehouse at 610 First street, north; cost, $10,000.—New Brighton—Sealed bids will be received at the office of the village recorder for plans, bids and specifications for a two-story frame building to consist of four cells and office on the ground floor and hall up stairs, cost not to exceed $2,500. Bids will be received until November 7th. John H. Beach, recorder.

MISSOURI—Kansas City—Plans and specifications have been prepared for the erection of a business building on Main street between 9th and 10th street, by Dr. L. M. Ridge; estimated cost, $150,000.—St. Louis—Freight House—Levee bet Franklin and Carr streets. Address C. M. Hayes, general manager Wabash railway, St. Louis Mo. Grabel & Weber, 509 Olive street, architects; Hill & McCabe, 904 Olive street, contractors; cost, $53,000. One story, 690x72, pressed brick, architectural iron, iron shutters, heating undecided, plate glass, electric lighting, gravel roof, sky-lights, gas fixtures, plumbing.—St. Louis—Flats—East side Kingshighway, between Easton and Ridge streets; Charles Herse, Easton and Kingshighway, owner and architect; cost $8,000. Two stories, 46x101, pressed brick, stone trimmings, furnace, wire work, ornamental glass, slate roof, granitoid sidewalks, mantels, laundry fixtures, gas fixtures, plumbing.—St. Louis—Warehouse—South side Madison between Main and 2nd streets

Logeman Chair company, 2nd and Market streets, owner; Remke & Weis, 929 N. 4th street, architect; cost, $8,500. Three stories, 60x100, pressed brick, architectural iron, iron shutters, heating undecided, wire work, plate glass, gravel roof, granitoid sidewalks, fire proofing, fire escapes, gas fixtures, plumbing.—St. Louis—School house—Pennsylvania street, between Crittenden and Rappahannock streets. Address St. Louis School Board, 7th and Chestnut streets. Duane Bros., 1951 Lynch street, contractors; cost, $26,000. Three stories, 71x69, pressed brick, steam heat, wire work, slate roof, granitoid sidewalks, seating, blinds.—St. Louis—Stores and Offices—Imperial Building Co., C. H. Sawyer, secretary, 122 Pine street; Adler & Sullivan, 100 Auditorium building, Chicago, architects; cost, $600,000. Fourteen stories, 84x128, brick, stone, structural iron, architectural and galvanized iron, roof cresting, steam heat, plate, stained and ornamental glass, hydraulic passenger and freight elevators, marble work, gravel roof, grates, hardwood finish, incandescent electric lighting, skylights, fireproofing, tile floors, fire escapes, gas fixtures, plumbing, boilers and engines.—Trenton—An election will be held November 8, to vote on the question of issuing $75,000 in bonds for the erection of a court house and jail.

NEBRASKA—Omaha—The Grace Episcopal society will erect a new church at Pierce street; contract will be let at once.—Omaha—Plans are being prepared for the construction of a freight depot 500x100 feet at Sherman avenue and Nicholas street. S. H. H. Clark, general manager, St. Louis, Mo.

NEW YORK—Rochester—The vestry of St. John's Episcopal church has purchased property at East avenue and Vick park and will build a rectory and parish house. Rev. Arthur Sloan, rector.

NORTH CAROLINA—Linnington—A movement is now on foot to erect a new court house with fire-proof vaults in Harnett County, to replace the one burned recently.

NORTH DAKOTA—Forman—The county commissioners have agreed to submit the question of bonding the county for $10,000 for the purpose of erecting a court house.—New Salem—Sealed proposals will be received until November 15, for the erection of a school house for the Blue Glass district. H. M. Pfenning, clerk.—New Salem—Sealed proposals will be received until November 12, for the erection of a school house in Columbia school district. Otter A. Meier, clerk.

OHIO — Carthage—Catholic School House — G. & A. Brink, 339 Wade street, Cincinnati, architects; cost, $9,000; Three stories, pressed brick, heating undecided, tin roof, seating.—Hamilton—It is now settled that the congregation of the M. E. church is to have a new church costing $25,000. Work will probably commence on the new structure in the spring.—The city will vote in November on issuing bonds for the erection of new school buildings. —Warren —Warren Gilmore Company are the projectors of a new banking establishment to be organized at Bloomfield. Arrangements are being made for the erection of a new Banking building.—Wellsville — The contract for building the new city hall has been let to Geo. F. Murdock, of Wellsville, for $13,550.

PENNSYLVANIA—Duquesne—The new $30,000 school house to be erected will be located at 6th avenue, and will contain twelve rooms.—Greensburg—The Sisters of Charity have decided to erect a chapel in connection with St. Joseph's and St. Mary's academy on Æton hill; estimated cost, $80,000. Rev. Agatho Stueburger.—Richmond—Corner stone of the M. E. Church has been laid. Rev. W. A. Quimby, pastor.

RHODE ISLAND—Norwood—Work on the new Evangelical church will commence as soon as the plans are completed. Address John E. Robbins treasurer of building committee.

TENNESSEE.—Clarksville—A $10,000 hotel will be built at Dunbars Cave. Address O. D. Thompson.

TEXAS—Delrio—A new school building will be erected by W. K. Jones.

WASHINGTON—Everett—The I. O. O. F. are making arrangements for the erection of a $15,000 society building.—Spokane—Albert Held, architect, has prepared plans for a new hotel to be erected at Northport, the new terminus of the Spokane Falls & Northern Railroad. The postal guide gives no post office at Northport.

WISCONSIN—Eau Claire—Byran A. Buffington has purchased the business building at Barstow and Kelsey streets for $26,000, and will refit it for a bank with a capital of 10,000.

A cotton mill will be constructed at Elmira, N. C., by W. L. Holt.—The James H. Gambrill flour mill, at Frederic, Md., will be rebuilt.—A flouring mill will be built at West Union, Va., by Peter Ash & Co.—A planing mill will be built at Ecleston, N. C., by Parmele & Ecleston.—A woodworking plant will be erected at Gurley, Ala., by C. B. Holmes.—A saw mill will be erected at Silvicola, Tenn J. M. Latture is secretary.—A large flouring mill will be erected at Knotsville, Ky., by H. St. Hazel & Co.—A roller flouring mill will be established at Philippi, W. Va., by S. C. Douglas.—It is reported that a flouring mill will be built at Baltimore, Md., by George M. Mason.—An ice factory will be erected at Augusta, Ga., by the Co-operative Coal Company.—A new cotton mill will be built at White Hall, Ga., by the Georgia Manufacturing Company. —The Virginia-Florida Phosphate Company will establish a washing plant at Forte Meade, Fla.—The creosote works at Galveston, Texas, will be rebuilt by the Galveston Wharf Company.—The cotton and gin mill at Valley View will be rebuilt. Address R. N. Nichols, Valley View Texas.—The cotton mills near Monbo, N. C., will be enlarged by the Long Island Cotton Mills Company.—Deer Park, Ala, will have a large new saw mill. The Babcock Milling Company can give information.—A broom factory will be established at Anniston, Ala. Dr. T. A. Davis has organized a stock company. A tobacco factory will be erected at North Wilkesboro, N. C., by the North Wilkesboro Tobacco Company.—The iron and machine works at Milledgeville, Ga., will be rebuilt. Address the Pooser and Machine Works.—Barton, Fla., will have a foundry and machine shop. For further information write to Messrs Oates & Mayfield.

HOME-SEEKERS ATTENTION!

The United States Government has decided to open, November 22, 1892, for settlement under the homestead law, the unearned lands of the Marquette & Little Bay Du Noquet Railroad, heretofore reserved from entry, in Northern Michigan. At the same time the right of the Ontonagon & Brule River Railroad has been denied to a large tract of land in the Upper Peninsula of Michigan. This gives an unprecedented chance to locate valuable timber and mineral lands, which are among the best in the Upper Peninsula, and are reached only over the North Star Route (Milwaukee & Northern Railroad) between Chicago and Lake Superior.

For further particulars address C. E. COLLINS, Land and Immigration Agent, 161 La Salle street, Chicago.
